**NOTICE TO SHAREHOLDERS
OF THE
ASIA OPPORTUNITY FUND
GLOBAL OPPORTUNITY FUND**

Luxembourg, 28 March 2025

Dear shareholder,

We are writing to you because you are an investor in one or more of the funds below (the “**Funds**”), sub-funds of Morgan Stanley Investment Funds (the “**SICAV**”):

- **Asia Opportunity Fund; and**
- **Global Opportunity Fund.**

The board of directors of the SICAV (the “**Board**”) has decided to amend the restriction screening methodology of the Funds. The environmental and social characteristics promoted by the Funds, as well as the consideration of principal adverse impacts on sustainability factors and sustainability indicators, will remain unchanged.

More detailed information about the most relevant change appears below. Please take a moment to review the important information below. If you still have questions, please contact us at the registered office in Luxembourg, the investment manager, or your local representative.

We would like to draw to your attention that the investment policy and the risk profile of the Funds will not be impacted as a result of the changes described herein. The changes do not amount to a material change to the Funds. There is no material change or increase in the overall risk profile of the Funds. The changes do not have any material adverse impact on the rights or interests of the holders of the Funds.

We value you as a shareholder and sincerely hope you will continue to invest with us.

Yours sincerely

The Board

Changes

Restriction Screening Methodology

- The Funds will continue to exclude investments in coal, tobacco, and certain weapons, comprising civilian firearms, cluster munitions and anti-personnel mines.
- The Funds will no longer exclude issuers whose Sub-Industry is tobacco or coal & consumable fuels, as defined by the MSCI Global Industry Classification Standards (GICS). The Funds will instead base the exclusionary screens on existing revenue-based methodology, as the investment manager has determined that this provides a more accurate representation of an issuer's activities than GICS sub-industry classification.

The Funds will continue to be classified as Article 8 under SFDR.

These amendments are reflected in the Sustainability Annexes dedicated to the Funds, included in the prospectus of the SICAV (the “**Prospectus**”), where appropriate. The changes will be included in the product key facts statements (the “**KFS**”) of the Funds as soon as reasonably practicable.

Key Date

1st April 2025

- Changes become effective
