

ALPHA BANK A.E.

(incorporated with limited liability in the Hellenic Republic)

€8 billion Direct Issuance Global Covered Bond Programme

Under this €8 billion direct issuance global covered bond programme (the **Programme**), Alpha Bank A.E. (the **Issuer**) may from time to time issue bonds (the **Covered Bonds**) denominated in any currency agreed between the Issuer and the relevant Dealer(s) (as defined below). Covered Bonds may be issued in bearer or registered form.

Application has been made to the Commission de Surveillance du Secteur Financier (the **CSSF**) in its capacity as competent authority under the Luxembourg Act dated 10 July 2005 on prospectuses for securities (the **Prospectus Act 2005**) to approve this document as a base prospectus (the **Base Prospectus**). The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Prospectus Act 2005. Application has also been made to the Luxembourg Stock Exchange for Covered Bonds issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. This document comprises a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC as amended (which includes the amendments made by Directive 2010/73/EU to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area) (the **Prospectus Directive**) but is not a base prospectus for the purposes of Section 12(a)(2) or any other provision of or rule under the Securities Act.

References in this Base Prospectus to Covered Bonds being listed and all related references shall mean that such Covered Bonds have been admitted to trading on the Luxembourg Stock Exchange's regulated market and are intended to be listed on the Official List of the Luxembourg Stock Exchange's regulated market. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of the 2014/65/EU (as amended, MiFID II).

The Programme also permits Covered Bonds to be issued on the basis that they will be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed between the Issuer, the Trustee (as defined below), the Arrangers (as defined below) and the relevant Dealer(s). The Issuer may also issue unlisted Covered Bonds and/or Covered Bonds not admitted to trading on any regulated or unregulated market.

The maximum aggregate nominal amount of all Covered Bonds from time to time outstanding under the Programme will not exceed €8 billion (or its equivalent in other currencies calculated as described in the Programme Agreement), subject to increase as described herein. The payment of all amounts due in respect of the Covered Bonds will constitute direct and unconditional obligations of the Issuer, in addition to having recourse to assets comprising the cover pool (the **Cover Pool**).

The Covered Bonds may be issued on a continuing basis to one or more of the Dealers specified under "*General Description of the Programme*" and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an on-going basis (each a **Dealer** and together the **Dealers**). References in this Base Prospectus to the **relevant Dealer** shall, in the case of an issue of Covered Bonds being (or intended to be) subscribed by more than one Dealer, be to the lead manager of such issue and, in relation to an issue of Covered Bonds subscribed by one Dealer, be to such Dealer.

Notice of the aggregate nominal amount of Covered Bonds, interest (if any) payable in respect of Covered Bonds, the issue price of Covered Bonds and certain other information which is applicable to each Tranche (as defined under "*Terms and Conditions of the Covered Bonds*") of Covered Bonds will be set out in a final terms document (the **Final Terms**) which will be filed with the CSSF. Copies of Final Terms in relation to Covered Bonds to be listed on the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange (www.bourse.lu). The Issuer has been rated Caa1 (long-term) and NP (short-term) by Moody's Investors Cyprus Limited, B- (long-term) and B (short-term) by Standard and Poor's Credit Market Services Italy, Srl (**S&P**) and CCC+ (long term) and C (short-term) rating by Fitch Ratings Limited. Each of Moody's, S&P and Fitch is established in the European Union and is registered under the Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**). As such each of Moody's, S&P and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. Covered Bonds issued under the Programme may be rated or unrated by any one or more of the rating agencies referred to above. Where a Tranche of Covered Bonds is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Amounts payable under the Covered Bonds may be calculated by reference to one of LIBOR and EURIBOR as specified in the relevant Final Terms. As at the date of this Base Prospectus, the administrators of LIBOR (ICE Benchmark Administration Limited) and EURIBOR (European Money Markets Institute) are included in European Securities and Markets Authority's (**ESMA**) register and the administrator of EURIBOR is not included in the ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the **Benchmarks Regulation**).

Investing in Covered Bonds issued under the Programme involves certain risks. The principal risk factors that may affect the abilities of the Issuer to fulfil its obligations in respect of the Covered Bonds are discussed under "Risk Factors" below. Please review and consider the risk factors beginning on page 7 of this Base Prospectus carefully before you purchase any Covered Bonds.

Arrangers

Barclays and Alpha Bank A.E.

Dealer(s)

Barclays, Barclays Bank Ireland PLC and Alpha Bank A.E.
(or to be selected from time to time in accordance with the terms of the Programme Agreement)

The date of this Base Prospectus is 11 July 2019

The Issuer accepts responsibility for the information contained in this Base Prospectus and the Final Terms for each Tranche of Covered Bonds issued under the Programme and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Copies of each Final Terms (in the case of Covered Bonds to be admitted to the Luxembourg Stock Exchange) will be available from the registered office of the Issuer and from the specified office of the Paying Agents for the time being in London or, in Luxembourg, at the office of the Luxembourg Listing Agent.

This Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see the section entitled "*Documents Incorporated by Reference*" below). This Base Prospectus shall be read and construed on the basis that such documents are so incorporated and form part of this Base Prospectus.

Each Series (as defined herein) of Covered Bonds may be issued without the prior consent of the holders of any outstanding Covered Bonds (the **Covered Bondholders**) subject to the terms and conditions set out herein under "*Terms and Conditions of the Covered Bonds*" (the **Conditions**) as completed by the Final Terms. This Base Prospectus must be read and construed together with any supplements hereto and with any information incorporated by reference herein and, in relation to any Series of Covered Bonds which is the subject of Final Terms, must be read and construed together with the relevant Final Terms. All Covered Bonds will rank *pari passu* and *pro rata* without any preference or priority among themselves, irrespective of their Series, except for the timing of repayment of principal and the timing and amount of interest payable.

The Issuer confirmed to the Dealers named under "*General Description of the Programme*" below that this Base Prospectus contains all information which is (in the context of the Programme, the issue, offering and sale of the Covered Bonds) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue and the offering and sale of the Covered Bonds) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

Neither the Arrangers, the Dealers nor any of their respective affiliates have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. None of the Arrangers or the Dealers have conducted any due diligence in relation to the Issuer and/or the Cover Pool and have not prepared any report or statements (whether financial or otherwise) in relation to the Issuer and/or the Cover Pool. The contents of this Base Prospectus should not be construed as providing legal, business, accounting or tax advice by any party (including the Arrangers and the Dealer) and each prospective investor should consult its own legal, business, accounting and tax advisers prior to making a decision to invest in the Covered Bonds. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Covered Bond shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position

of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently supplemented, or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. None of the Arrangers or the Dealers shall be responsible for, any matter which is the subject of, any statement, representation, warranty or covenant of the Issuer contained in the Covered Bonds or any Transaction Documents, or any other agreement or document relating to the Covered Bonds or any Transaction Document, or for the execution, legality, effectiveness, adequacy, genuineness, validity, enforceability or admissibility in evidence thereof.

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Covered Bonds in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer, and each of the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Covered Bonds and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Covered Bonds, see "*Subscription and Sale*". In particular, Covered Bonds have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the **Securities Act**) and are subject to U.S. tax law requirements. Subject to certain exceptions, Covered Bonds may not be offered, sold or delivered within the United States or to U.S. persons. Covered Bonds may be offered and sold outside the United States in reliance on Regulation S under the Securities Act (**Regulation S**).

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Covered Bonds includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Covered Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (**MiFID II**); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, the **Insurance Mediation Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the **Prospectus Directive**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Covered Bonds or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Covered Bonds or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Covered Bonds will include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Covered Bonds and which channels for distribution of the Covered Bonds are appropriate. Any person subsequently offering, selling or recommending the Covered Bonds (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Covered Bonds (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Covered Bonds is a manufacturer in respect of such Covered Bonds, but otherwise neither the Arranger nor the Dealer(s) nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Covered Bonds and should not be considered as a recommendation by the Issuer, the Arrangers, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Covered Bonds. Each recipient of this Base Prospectus or any Final Terms

shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

Each investor contemplating investing in any Covered Bond should: (i) determine for itself the relevance of the information contained in (including incorporated by reference into) this Base Prospectus, (ii) make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and such Covered Bonds and (iii) make its own determination of the suitability of any such investment in light of its own circumstances, with particular reference to its own investment objectives and experience, and any other factors that are relevant to it in connection with such investment, in each case, based upon such investigation as it deems necessary.

The maximum aggregate principal amount of Covered Bonds outstanding at any one time under the Programme will not exceed €8 billion (and for this purpose, the principal amount outstanding of any Covered Bonds denominated in another currency shall be converted into euro at the date of the agreement to issue such Covered Bonds (calculated in accordance with the provisions of the Programme Agreement)). The maximum aggregate principal amount of Covered Bonds which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Programme Agreement (as defined under "*Subscription and Sale*").

In this Base Prospectus, unless otherwise specified, references to a **Member State** are references to a Member State of the European Economic Area, references to **€**, **EUR** or **euro** are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community as amended.

In this Base Prospectus, all references to **Greece** or to the **Greek State** are to the Hellenic Republic.

This Base Prospectus has been prepared on the basis that any offer of Covered Bonds in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**) must be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Covered Bonds. Accordingly any person making or intending to make an offer to the public of Covered Bonds in that Relevant Member State, may only do so in circumstances in which no obligation arises for the Issuer, the Arrangers or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer to the public. Neither the Issuer, the Arrangers nor any Dealer has authorised, nor do they authorise, the making of any offer of Covered Bonds in circumstances in which an obligation arises for the Issuer, the Arrangers or any Dealer to publish or supplement a prospectus for such offer to the public.

In connection with the issue of any Series of Covered Bonds, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over allot Covered Bonds or effect transactions with a view to supporting the market price of the Covered Bonds at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Series of Covered Bonds is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Covered Bonds and 60 days after the date of the allotment of the relevant Tranche of Covered Bonds. Any stabilisation or over allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

RISK FACTORS

In purchasing Covered Bonds, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Covered Bonds. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Covered Bonds. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Covered Bonds.

In addition, factors which are material for the purpose of assessing the market risks associated with Covered Bonds issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making an investment decision. Words and expressions defined in the "Terms and Conditions of the Covered Bonds" below or elsewhere in this Prospectus have the same meanings in this section. Investing in the Covered Bonds involves certain risks. Prospective investors should consider, among other things, the following:

Factors that may affect the Issuer's ability to fulfil its obligations under Covered Bonds issued under the Programme

Risks Relating to the Hellenic Republic Economic Crisis

Uncertainty resulting from the Hellenic Republic's financial and economic crisis has had and is likely to continue to have a significant adverse impact on the Group's business

The development of the Group's assets, business, results of operations, financial condition and prospects depends on the macroeconomic and political conditions in Greece. As of 31 December 2018, 86.5 per cent. of the Group's total net loans and advances to customers 87.3 per cent. of the net interest income were derived from operations in the Hellenic Republic and as at 31 December 2018 the loans, investment securities and derivative financial assets less derivative financial liabilities to the Greek public sector amounted to €5.0 billion.

Greece experienced an unprecedented financial crisis from 2008 to 2016. During this period, the Hellenic Republic has faced significant pressure on its public finances and has committed to certain substantial structural measures intended to restore competitiveness and promote economic growth in the country, as part of the adjustment programmes, agreed initially with the International Monetary Fund (**IMF**), the European Union (**EU**) and the European Central Bank (**ECB** and together with the IMF and the EU, the **Institutions**) and in 2015 with the Institutions and the European Stability Mechanism (**ESM**) (such programmes are referred to as the **Stabilisation Programmes**).

Under the first two Stabilisation Programmes the Hellenic Republic received €141.8 billion in loans from the European Financial Stability Fund between 2012 and 2015 (the **EFSSF**). Further, from 2010 to 2012 the Hellenic Republic had received €59 billion in bilateral loans under the so-called Greek Loan Facility from Euro Area Member States (Source: ESM Press Release 20 August 2018).

The first two Stabilisation Programmes, however, failed to stabilize the Greek economy, notwithstanding the reforms and measures implemented thereunder, although during 2014 the economic indicators had showed signs of improvement.

However, in 2015 uncertainty over the Greek economy and the implementation of the second Stabilisation Programme, resulting from the prolonged negotiations between the new government and the Institutions, reappeared. Late in June 2015, a bank holiday was declared in the Greek banking sector for three weeks and capital movement restrictions were imposed because of further deterioration of the financial situation in Greece and liquidity shortfall in the Greek banking system. These were caused by the expiration of the second Stabilisation Programme), a payment default by the Greek Government under its IMF facility and the failure of the Greek government to reach an agreement with the IMF and the rest of the Eurozone members for a third Stabilisation Programme.

In August 2015 and following prolonged negotiations, the Greek Government managed to reach an agreement with the EU and the ECB, with input from the IMF, for a Stabilisation Programme of approximately €86 billion granted by the ESM (the **ESM Program**).

The impact of the implementation of the ESM Program on the Greek economy contributed to the decrease of uncertainty and the stabilisation of private sector deposit withdrawals, resulting also to the gradual relaxation of the capital movement restrictions. Thus, after eight years of recession, the economic and business environment in Greece began to improve in 2017. Additionally, the Gross Domestic Product (**GDP**, in constant prices) increased further in 2017, despite the tighter-than-initially-expected fiscal conditions.

Moreover, on 23 January 2017, the respective boards of directors of the ESM and the EFSF formally adopted rules on short-term debt relief measures for Greece. These measures aimed to reduce interest rate risk for Greece, including by changing some debt rates from floating to fixed, and to make the burden of debt repayment easier. As part of these measures the ESM and the EFSF, in collaboration with the Hellenic Republic, launched an exchange programme for the four systemic Greek banks, under which the €42.7 billion EFSF notes that have been previously applied through the Hellenic Financial Stability Fund (**HFSF**) for the recapitalisation and resolution of Greek credit institutions, were exchanged for long term newly issued ESM notes and ultimately cash in 2017. During the period of 2017 and under this agreement, the Issuer exchanged floating rate bonds of nominal value €2,522 million issued by EFSF, with equal in nominal value bonds, of fixed coupon, issued by EFSF, with a maturity of 30 years. Out of them, EFSF repurchased bonds at a nominal value of €2,349 million whilst a remaining bond with a nominal value of €173 million was classified as available for sale which was repurchased by EFSF in January 2018. As at 31 December 2018 the book value of such bonds stood at €0.

In August of 2018 the Hellenic Republic concluded the ESM Program with a successful exit. This followed the disbursement of €61.9 billion by the ESM over three years in the context of the ESM Program in support of macroeconomic adjustment and bank recapitalization in 2015. The remaining €24.1 billion available under the maximum €86 billion program volume was not needed (Source: ESM Press release 20 August 2018).

No fourth Stabilisation Programme was requested by the Hellenic Republic. Nevertheless, as part of the post-Stabilization Programmes period, the Hellenic Republic made specific policy commitments to complete key structural reforms initiated under the ESM Program, against agreed deadlines and made a general commitment to continue the implementation of all key reforms adopted under the ESM Program. These include commitments to achieve demanding fiscal targets such as primary budget surplus, 3.5 per cent. of GDP in 2018-2022 and 2.2 per cent. of GDP, on average for longer term.

These commitments were made against Eurogroup's agreement to implement certain medium- and long-term debt relief measures (which were in addition to the aforesaid short-term measures), namely

- The abolition of the step-up interest rate margin related to the debt buy-back tranche of the second Stabilisation Programme as of 2018;

- The use of 2014 Securities Market Programme (SMP) profits from the ESM segregated account and the restoration of the transfer of the Agreement on Net Financial Assets (ANFA) and SMP income equivalent amounts to the Hellenic Republic; and
- A further deferral of EFSF interest and amortization by 10 years and an extension of the maximum weighted average maturity by 10 years, respecting the program authorized amount (Source: Eurogroup statement on Greece of 22 June 2018).

The implementation of these measures was approved by the EFSF Board of Directors on 22 November 2018.

On 11 July 2018 the European Commission activated the Enhanced Surveillance procedure for monitoring the implementation of the aforesaid commitments by the Hellenic Republic. Two Enhanced Surveillance reports have been published by the European Commission on the Hellenic Republic so far. On 3 April 2019, the European Commission adopted an update of the second Enhanced Surveillance Report detailing progress in implementing policy commitments and concluding that Greece had taken the necessary actions to achieve all specific reform commitments expected for end-2018 (Source: European Commission press release 3 April 2019). On 5 June 2019 the Commission published its third Enhanced Surveillance Report.

With respect to liquidity, by the end of the ESM Program, the Hellenic Republic created a sizeable cash buffer, while increasing its liquidity through the issuance of government bonds (Source: ESM, Press Release, 6 August 2018). Following the continued fiscal over performance in 2018 – since Greece overachieved the agreed primary surplus target of 3.5 per cent. of GDP in 2018 (Source: European Commission third Enhanced Surveillance Report 5 June 2019) – and the issuances of a 5-year and a 10-year Greek Government bond (**GGB**) in the first quarter of 2019, that raised €5.0 billion cumulatively, the Hellenic Republic's cash buffer stood high at €24.3 billion at the end of March, while if including the cash reserves of general government entities already on the treasury single account, the reserves reached €33.7 billion, which is sufficient to cover, if necessary, sovereign financing needs until 2022, assuming the achievement of the medium-term fiscal targets, even without additional issuance of GGBs (Sources: ESM, Conclusion of ESM programme for Greece: an overview, 20 August 2018, European Commission, Enhanced Surveillance Report - Greece, June 2019, Public Debt Management Agency, Announcement on the issuance of 5-year bond, 1 February 2019 and Announcement on the issuance of 10-year bond, 5 March 2019 and NBG Economic Analysis estimates).

However, notwithstanding the issuance of GGB by the Hellenic Republic in the markets, potential delays in the completion of remaining reforms adopted under the ESM Programme and the rest of the commitments of the Hellenic Republic vis-à-vis the Eurogroup, could impact on the markets' assessment of the risks surrounding the creditworthiness of the Hellenic Republic and, therefore, create uncertainty regarding its capacity to maintain a continuous access to market financing. Such a development could, in turn, have a material adverse impact on the Issuer's liquidity position, business, results of operations, financial condition or prospects.

Moreover, notwithstanding the successful implementation and completion of the ESM Program, the Greek economy may not achieve the sustained and robust growth that is necessary to ease the financial constraints of the country and improve conditions for foreign direct investment. Further, despite the recent improvement of macroeconomic trends, economic activity and prospects in the Hellenic Republic remains subject to downside risks in view of the very gradual improvement in household disposable income, the vulnerable financial position of a number of business entities and tight liquidity conditions. A continued depression in the Greek economy will have a significant material adverse effect on the Issuer's business, financial condition, results of operations and prospects.

Recessionary pressures in Greece stemming from the Greek Stabilisation Programmes have had and may continue to have an adverse effect on the Issuer's business

The Group's business activities are dependent on the level of banking, finance and financial products and services offered, as well as customers' capacity to repay their liabilities. The levels of savings and credit demand are heavily dependent on customer confidence, employment trends and the availability and cost of funding.

During the period between 2008 and 2014 the decline in GDP in Greece resulted in significantly reduced disposable income, spending and debt repayment capacity of the Greek private sector. A protracted period of financial recession in the Hellenic Republic has materially and adversely affected the liquidity, business activity and financial conditions of borrowers, which in turn led to further increases in non-performing loans (**NPLs**), impairment charges on the Issuer's loans and other financial assets and decreased demand for borrowings in general and increased deposit outflows.

During 2014 the economic indicators showed signs of improvement. However, in 2015 uncertainty over the Greek economy and the implementation of the Stabilisation Programmes, resulting from the prolonged negotiations between the new government and the Institutions, reappeared. The loss of confidence exacerbated the economic sentiment indicators and private sector financing conditions, causing a significant outflow of deposits in the Greek banking sector of approximately €37 billion from 31 December 2014 to 31 December 2015 (Source: Bank of Greece).

In the current economic environment, especially following the June 2015 bank holiday and imposition of capital movement restrictions, loan portfolios have declined and may continue to decline, leaving only a limited number of high credit quality customers. Additionally, the Issuer's NPL ratio (defined as NPLs divided by total loans and advances to customers before impairment at the end of the period), which stood at 34.9 per cent. as of 31 December 2017, although decreasing to 33.5 per cent. as of 31 December 2018, still is very high compared to EU average. The decline in loan portfolios, in combination with a significant NPL ratio, may result in decreased net interest income, and this could have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects.

As of June 2016 the Bank of Greece applies a definition of non-performing exposures based on the EBA Standards in order to monitor the exposures of Greek banks (NPEs), coupled with specific key performance indicators. The Group's NPE ratio amounted to 48.9 per cent. as of 31 December 2018 compared to 51.7 per cent. as of 2017.

The Issuer has implemented a troubled assets management objective to reduce NPL/NPE volume, as described in more detail under "*Business of the Alpha Bank Group - Other Activities – NPL Management*".

The successful implementation of the Issuer's strategy is affected by a number of external and systemic factors that include, among others, the following, and there is no guarantee such a programme will be effective:

- electronic auctions to support liquidations and serve as a credible enforcement threat to borrowers;
- the reform of the out of court workout (OCW) framework which provides an electronic platform where a quick and effective debt extrajudicial settlement or restructuring can be achieved for businesses
- criminal law protection for bank officials involved in debt restructuring as long as they follow due process;

- acceleration of L.3869 pending court decisions as well as the due and successful implementation of the new framework (introduced by virtue of Law 4605/2019 (published in Government Gazette No. 52/01.04.2019) replacing the L. 3869; and
- realisation of a continuously improving macroeconomic scenario.

Further, the Issuer has entered into a series of NPLs/NPEs and repossessed real estate assets sale agreements, including in December of 2018 (i) the sale to funds managed by affiliates of Apollo Global Management LLC and the International Finance Corporation of a mixed pool of NPLs to Greek SMEs mainly secured by real estate assets, and of repossessed real estate assets in Greece and (ii) the sale to Hoist Finance AB of a pool of non-performing and uncollateralised retail loans in Greece.

Notwithstanding the above, the current capital controls environment in Greece could potentially lead to further difficulties of payments between corporates, which could lead to additional provisioning requirements for banks. Although such restrictions have been relaxed on several occasions as of their imposition late in June 2015, they remain in effect and there can be no assurance as to when they will be lifted.

New loans to businesses and households are expected to remain subdued in the Group and in Greece in general, as the sizeable decrease of household disposable incomes and firms' profitability from the austerity measures, are likely to continue to impair further demand for credit.

In the context of volatile macroeconomic conditions, coupled with low consumer spending and business investment, the value of assets collateralising secured loans, including houses and other real estate, could decline. Such a decline could result in impairment of the value of the Issuer's loan assets or an increase in the level of NPLs, either of which may have a material adverse effect on business, financial condition, results of operations and prospects.

The imposition of capital controls in Greece has had, and may continue to have, to a lesser extent adverse impact on the economy and the banking sector, including the Issuer's business and prospects.

Late in June 2015, a bank holiday was declared in the Greek banking sector for three weeks and capital movement restrictions were imposed as a result of further deterioration of the financial situation in Greece and liquidity shortfall in the Greek banking system (for further details see above under Uncertainty resulting from the Hellenic Republic's financial and economic crisis has had and is likely to continue to have a significant adverse impact on the Group's business).

Although such restrictions have been relaxed on several occasions as of their imposition late in June 2015, they remain in effect and there can be no assurance as to when they will be lifted. Similarly, there can be no assurance that the Group and other Greek banks would not experience a new round of outflows of funds from depositors and businesses in the event of an early lifting of capital controls. Capital controls are considered to negatively weigh on private sector decisions regarding the repatriation of their liquidity from abroad especially, as regards exporting services (such as shipping), and create some obstacles in the external trade financing of smaller firms. The main step toward the lifting of capital controls was made in June 2018, with the easing of the limit for cash withdrawals from bank branches and ATM's to €5,000 per month and allowing the opening of new accounts, while since 1 October 2018, cash withdrawals are permitted without any limitation in the amount from credit institutions in Greece, including withdrawals with the usage of credit and prepaid cards, and cash withdrawals are permitted up to the amount of €5,000 or its equivalent in foreign currency per calendar month per depositor (Customer ID) from institutions abroad, including withdrawals with the usage of credit and prepaid cards issued by credit institutions operating in Greece.

The current capital controls environment in Greece could potentially lead to further difficulties of payments between corporates, which could lead to additional provisioning requirements for banks, including the Issuer.

The consequences of a very protracted application of capital controls could have an adverse effect on the Group's business, financial conditions or results of operations.

If additional Eurosystem funding is needed, it will be subject to ECB rules relating to eligibility and valuation of collateral used for funding.

The economic crisis in Greece has adversely affected the Issuer's credit risk profile, which has from time to time restricted the Issuer from obtaining funding in the capital markets, increased the cost of such funding and the need for additional collateral requirements in repurchase contracts and other secured funding arrangements, including those with the Eurosystem. Although access to capital markets has gradually been reinstated over the last two years, concerns relating to the on-going impact of current economic conditions and potential delays in the completion by the Hellenic Republic of key structural reforms subjected to the post – programme Enhanced Surveillance Framework may restrict the Issuer's ability to obtain funding in the capital markets in the medium term.

The Issuer's principal sources of liquidity are (i) its deposit base, (ii) Eurosystem funding via the Main Refinancing Operations (**MROs**) and the Targeted Longer-term Refinancing Operations (**TLTROs**) with the ECB and (iii) repurchase securities agreements (repos) with major foreign financial institutions. ECB funding and repos with financial institutions are collateralized by high quality liquid assets, such as EFSF bonds, EU sovereign bonds, Greek government bonds and Treasury Bills (**T Bills**), as well as by other assets, such as highly rated corporate loans, covered bonds and asset backed securities issued by the Issuer. On 31 December 2018, Eurosystem funding was €3.4 billion, specifically ECB financing stood at €3.1 and ELA at €0.3 billion, while outstanding repos amount was €6.4 billion. Although the Issuer's central bank funding has decreased significantly, with no dependence on ELA as of February 2019, there can be no assurance that the Issuer's funding needs will continue to be met by, or that it will continue to have access to, Eurosystem funding in the future.

In addition, if the capital movement restrictions are lifted, deposit outflows could have a material adverse impact on its deposit base and on the amount of the Issuer's ECB and ELA eligible collateral, which could have a material adverse impact on the Group's liquidity and the Group's needs and its ability to access Eurosystem funding in the future, which may in turn threaten the Issuer's ability to continue as a going concern.

Furthermore, the liquidity the Issuer is able to access from the ECB or ELA may be adversely affected by changes in ECB and Bank of Greece rules relating to collateral. If the ECB or the Bank of Greece were to revise their respective collateral standards, remove asset classes from being accepted, or increase the rating requirements for collateral securities such that certain instruments were not eligible to serve as collateral with the ECB or the Bank of Greece, the Issuer's access to these facilities could be diminished and the cost of obtaining such funds could increase.

An accelerated outflow of funds from customer deposits could cause an increase in the Issuer's costs of funding and have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects

Historically, one of the Issuer's principal sources of funds has been customer deposits. If depositors withdraw their funds at a rate faster than the rate at which borrowers repay their loans, or if the Issuer is unable to obtain the necessary liquidity by other means, it would be unable to maintain current levels of funding without incurring significantly higher funding costs or having to liquidate certain assets, or without increasing access to the Eurosystem under its then-current terms.

The on-going availability of customer deposits to fund the Issuer's loan portfolio is subject to potential changes in certain factors outside the Issuer's control, such as depositors' concerns relating to the economy in general, the financial services industry or the Issuer specifically, an increasing tax burden thus leading depositors to use their funds (and subsequently decrease their deposits), the risk of implementation of

changes in the framework for supporting credit institutions by requiring the participation of their respective shareholders, burden sharing of creditors and unsecured depositors (so called "bail-in" measures) and/or initiatives for taxation of deposits, significant further deterioration in economic conditions in Greece, the restrictions on the free movement of funds imposed in June 2015, concerns about possible future capital controls, and the availability and extent of deposit guarantees. Any of these factors separately or in combination could lead to a sustained reduction in the Issuer's ability to access customer deposit funding on appropriate terms in the future, which would impact the Issuer's ability to fund its operations and meet its minimum liquidity requirements and have an adverse effect on the Issuer's business, financial condition, results of operations and prospects.

Even if capital controls are completely lifted, continuing depositor concerns and lack of confidence in the Greek banking sector may have a negative effect on the level of deposit inflows back to the banking system. Although the outflow of customer deposits and imposition of capital controls have had a positive financial impact on the cost element of deposits (as interest rates payable on deposits have reduced), such deposit outflow, has increased and, if it continues may continue to increase, the Issuer's need to rely on non-market funding sources with increased cost.

The transposition of the Bank Recovery and Resolution Directive may have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects

The Bank Recovery and Resolution Directive, Directive 2014/59/EU on the Bank Recovery and Resolution of credit institutions and investment firms), which entered into force in EU Member States as at 1 January 2015 and was transposed into Greek law on 23 July 2015 by virtue of law 4335/2015 coupled with the enactment of Regulation (EU) No 806/2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (the **SRMR**), established rules designed to harmonise and improve the tools for dealing with bank crises across the EU to ensure that shareholders, creditors and unsecured depositors mandatorily participate in the recapitalisation and/or the liquidation of troubled banks (the **BRRD**). Such mandatory participation shall be through the so-called bail-in (and conversion and write down) tool, introduced under the BRRD. Under the bail in tool there is a strict requirement for contribution to loss absorption and recapitalisation of the failing bank by its private sector investors and creditors, including holders of the Covered Bonds issued by the Issuer, as they occur at the moment the tool is adopted as per a valuation prepared according to art. 36 of BRRD. Such participation is not less than 8 per cent. of the total liabilities (including own funds) of the banking institution. The BRRD imposes a specific "waterfall" as to such burden sharing, starting from common shareholders to subordinated debt holders and up to eligible for bail in senior creditors. Certain senior creditors however are ineligible for bail-in (including individual depositors with accounts up to €100,000 (the amount covered by the guarantee scheme)).

In addition, the BRRD provides the competent resolution authority with the power to permanently write-down or convert capital instruments, such as Tier 2 Notes issued by a credit institution, into equity at the point of non-viability and before any other resolution action is taken. Any shares issued to holders of Tier 2 Notes issued by the relevant credit institution upon any such conversion into equity may also be subject to any future cancellation, transfer or dilution.

The point of non-viability under the BRRD is the point at which the competent resolution authority determines that the relevant credit institution or banking group company meets certain conditions (but no resolution action has yet been taken), namely either (a) that having regard to timing and other relevant circumstances, there is no reasonable prospect that any action, including alternative private sector measures or supervisory action (including early intervention measures), other than the write down or conversion of capital instruments (such as the Tier 2 Notes), independently or in combination with a resolution action, would prevent the failure of the institution, or (b) that the relevant credit institution or, in certain circumstances, group will no longer be viable, unless the relevant capital instruments (such as Tier 2 Notes) are written-down or converted.

Further, under the BRRD provisions are introduced (based on the “single entry principle”) in order to allow for the imposition of resolution measures (including the bail-in and conversion and write down of debt instruments, even before resolution action has taken place) at a group level. In this context the BRRD provides for the establishment of resolution colleges for cross-border banking groups, such as the Group of Alpha Bank in order to support the close collaboration between the competent group-level resolution authority and other resolution authorities, and ultimately the imposition of resolution measures at group level or on entities belonging to a cross border banking group.

Further, as of 1 January 2016 the Board of the Single Resolution Mechanism (**SRB**) became the competent resolution regulator for all the Greek systemic banks, including the Issuer.

The BRRD introduced the concept of the minimum requirements for own funds and eligible liabilities in the EU legislation (**MREL**). The MREL framework provides that there should be sufficient loss-absorbing and recapitalisation capacity available in resolution of any credit institution to implement an orderly resolution that minimises any impact on financial stability, ensures the continuity of critical functions, and avoids exposing taxpayers (public funds) to loss with a high degree of confidence for the market. The SRB was authorised to calculate and determine the MREL per EU systemic credit institution, with the concept and legislation of MREL still being under development within the EU legislation.

Further, in April 2019 the European Parliament approved the final agreement on a package of reforms proposed by European Commission, known as the “CRD V package”, to strengthen the resilience and resolvability of European banks. The package of reforms comprises two regulations and two directives, namely amendments to the CRR and CRD IV, the BRRD and the SRMR. Regulation (EU) 2019/876 (the **CRR II**) entered into force twenty days after publication dated 7 June 2019 and Directive (EU) 2019/878 (the **CRD V Directive**) has to be transposed into Greek law before taking effect.

These amendments however set also a significant amendment to the CRD IV framework. Given the very recent amendment of the BRRD, it is difficult to anticipate the full impact of such amendments and there can be no assurance that, once implemented, shareholders and potential investors will not be adversely affect by actions taken under it. The BRRD, as so amended, may result in a loss of customer confidence in the countries in which the Issuer operates and cause further outflows of deposits from the banking system. Also, in light of the fact that bonds and securities issued by the Issuer in the future may be a part of the bail-in tool and its MREL (although covered bonds are excluded from the bail-in tool to the extent of the value of the security in relation to them), this prospect may have a significant adverse effect on the Issuer's capacity to secure funding in the capital markets through securities issuance.

Moreover, as a precautionary measure in the context of the BRRD and prior to the submission of a credit institution to resolution measures, the resolution authority is empowered to impose various measures on Greek credit institutions, including the implementation of one or more of the arrangements or measures set out in the recovery plan, the convocation of a meeting of shareholders of the institution and set the agenda and require certain decisions to be considered for adoption by the shareholders, the removal or replacement of one or more or even all of the members of the management body or the senior management, the change in the institution's business strategy.

There can be no assurance that the powers of the SRB as the competent resolution authority for the bail-in tool under the BRRD and any amendments to the BRRD coupled with the introduction of the MREL will not affect the confidence of the Issuer's depositor's base and so may have a significant impact on the Issuer's results of operations, business, assets, cash flows and financial condition, as well as on the Issuer's funding activities and the products and services it offers.

Changes in regulation may result in uncertainty about our ability to achieve and maintain required capital levels and liquidity

The Group is subject to financial services laws, regulations, administrative actions and policies in each jurisdiction in which it operates. All of these regulatory requirements are subject to change, particularly in the current market environment, where there have been unprecedented levels of government intervention and changes to the regulations governing financial institutions. In response to the global financial crisis, national governments as well as supranational groups, such as the EU, have been considering and implementing significant changes to current bank regulatory frameworks, including those pertaining to capital adequacy, liquidity and scope of banks' operations.

For example, the regulatory environment in Eurozone was materially amended by the entry into force of the Capital Requirements Regulation (the **CRR**, Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms), the Directive on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the **CRD IV**, Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC), the AQR and stress testing by the SSM, the launch of the SSM under Regulation 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions), the launch of the SRM (under Regulation 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No. 1093/2010) and the new BRRD. The new capital adequacy framework (**CRD IV**) that has been in force since 1 January 2014 sets forth a progressive quantitative and qualitative enhancement of the capital standards.

Further, in April 2019 the European Parliament approved the final agreement on a package of reforms proposed by European Commission, known as the “CRD V package”, to strengthen the resilience and resolvability of European banks. The package of reforms comprises two regulations and two directives, namely amendments to the CRR and CRD IV, the BRRD and the SRMR.

These amendments however set also a significant amendment to the CRD IV framework, including on the introduction of among others:

- ***A binding 3 per cent. leverage ratio*** which will prevent institutions from excessively increasing leverage, e.g. to compensate for low profitability;
- ***A binding net stable funding ratio (NSFR)*** which will build on institutions' improved funding profiles and establish a harmonised standard for how much stable, long-term sources of funding an institution needs to weather periods of market and funding stress;
- ***More risk sensitive own funds (i.e. capital) requirements*** for institutions that trade to an important extent in securities and derivatives which will prevent too much divergence in those requirements that is not based on the institutions' risk profiles;
- ***Improving prudential treatment of large exposures*** which will assist in the improved treatment of an institution's exposure to a single client or a group of connected clients, representing more than 10 per cent. of its “eligible capital” and
- ***Streamlining Pillar 2 capital requirements*** and clarifying the “stacking order” namely the interaction between the Pillar 2 add-ons, the Pillar 1 requirements, the own funds and eligible liabilities requirements, the MREL and the combined buffers.

Furthermore, in July 2014 the Single Resolution Mechanism (**SRM**) was launched under SRMR. The SRM coupled with the BRRD aims at establishing uniform rules and procedures in the resolution and recovery of banks in the European Union whilst it introduces the bail-in tool of uninsured depositors, in line with the burden sharing principle. As of 1 January 2016 the powers and authorities vested with the SRM were fully enacted, and the SRM Board became the competent resolution authority for Greek systemic banks.

On 31 October 2018, the European Banking Authority published its final guidelines on management of non-performing and forborne exposures (the **EBA Guidelines**). The EBA Guidelines will apply from 30 June 2019. They are developed in accordance with the European Council Action Plan, aim to ensure that credit institutions have adequate prudential tools and frameworks in place to manage effectively their NPEs and to achieve a sustainable reduction on their balance sheets. To this end, the EBA Guidelines require institutions to establish NPE reduction strategies and introduce governance and operational requirements to support them. The EBA Guidelines specify sound risk management practices for credit institutions in their management of NPEs and forborne exposures (**FBEs**), including requirements on NPE reduction strategies, governance and operations of NPE workout framework, internal control framework and monitoring. The EBA Guidelines also set out requirements for processes to recognise NPEs and FBES, as well as a forbearance granting process with a focus on the viability of forbearance measures. In particular, the EBA Guidelines specify that institutions should grant forbearance measures only with the view to return the borrower to a sustainable performing repayment status and are thus in the borrower's interest. The EBA Guidelines introduce a threshold of 5 per cent. of gross NPL ratio as a trigger for developing NPE strategies and applying associated governance and operational arrangements. Finally, the EBA Guidelines outline requirements for competent authorities' assessment of credit institutions' NPE management activity as part of the SREP.

On 17 April 2019 Regulation (EU) 630/2019 amending the CRR, as regards minimum loss coverage for non-performing exposures, was enacted requiring a deduction from own funds where NPEs are not sufficiently covered by provisions or other adjustments. Such requirement would effectively amount to creating a prudential backstop for NPEs that would apply uniformly to all institutions in the European Union, and would also cover institutions which are active on the secondary market. To that end the said Regulation amends CRR introducing a clear set of conditions for the classification of NPEs and the relevant provisions. The minimum provisions will be calculated as a percentage of exposures according to their classification to unsecured, secured (with immovable property collateral), secured (with other collateral) and export credit and insurance, whilst there will be a phasing in depending on the period during which the exposure remains as an NPE. As per the said regulation any difference between the institution's provisions versus prudential backstop would affect CET 1 capital.

On 31 December 2018 the Group's Common Equity Tier I ratio was 17.4 per cent. (fully-loaded 14.0 per cent, including IFRS 9 impact.) and the capital adequacy ratio was 17.4 per cent. On 31 December 2017, these ratios were 18.3 per cent. (fully-loaded 18.3 per cent., without the impact from IFRS 9 adoption) and 18.4 per cent., respectively. The Group is supervised by the SSM, which has created a new system of prudential regulation comprising the ECB and the national competent authorities of participating Eurozone countries, and has set minimum capital requirements. The Issuer, its regulated subsidiaries and its branches are subject to the risk of having insufficient capital resources or a lack of liquidity to meet the minimum regulatory capital and/or liquidity requirements. In addition, those minimum regulatory capital requirements are likely to increase in the future, or the methods of calculating capital resources may change. The SSM could introduce risk-weighted asset (**RWA**) floors (as it has done in other jurisdictions), and further harmonisation of booking of RWAs could increase the risk weighting of exposures. In addition, proposals have been discussed that would cap the amount of sovereign bonds banks could hold, or assign risk weights to sovereign bond holdings, which could require banks to raise additional capital. Likewise, liquidity requirements may come under increased scrutiny and may place additional stress on the Group's liquidity demands in the jurisdictions in which it operates. Compliance with new requirements may increase the Issuer's regulatory capital and liquidity requirements and costs, disclosure requirements, restrict certain types of transactions, affect the strategy and limit or require the modification of rates or fees that are charged on

certain loan and other products, any of which could lower the return on the Group's investments, assets and equity. Any of these factors may result in the need for additional capital and capital increases for the Group. If the Group is not able to meet its capital requirements by raising funds from the capital markets, it may need to seek additional funding by means of state aid and/or the applicable resolution authority, thereby increasing the likelihood that the shareholders will be subject to limitations on their rights and/or incur significant losses in their investments.

Also, the new regulatory framework may have significant scope and may have unintended consequences for the global financial system, the Greek financial system or the Issuer's business, including increasing competition, increasing general uncertainty in the markets or favouring or disfavouring certain lines of business. Changes on business, financial condition, results of operations and prospects cannot be predicted.

Negative results in the Group's stress testing may have an adverse effect on the Group's funding cost or the public's confidence in the Group and, consequently, may adversely affect its business, financial condition, results of operations and prospects.

Stress tests analysing the European banking sector have been, and the Issuer anticipates that they will continue to be, published by national and supranational regulatory authorities. As part of the Third Economic Adjustment Programme, the SSM conducted an asset quality review (the **AQR**) and stress testing of the Greek systemic banks, the results of which were announced on 31 October 2015. In aggregate, the capital shortfall under the baseline scenario for all four systemic banks was determined at €4.4 billion and at €14.4 billion under the adverse scenario.

In this context, the Issuer's capital shortfall as determined under the AQR was zero and under the stress testing at €2.743 million, this shortfall was successfully addressed by a series of capital generation measures, including a share capital increase of €2.55 billion, which was completed late in November 2015, and was subscribed by private sector investors in cash and by the capitalisation of monetary claims of notes and other securities issued by the Group, which were offered by their holders in the context of voluntary exchange offers announced by the Issuer on 28 October 2015 (the **Exchange Offers**).

The EBA conducted further stress tests on the Greek systemic banks in 2018, the results of which were announced on 5 May 2018. Based on feedback received by the SSM, the stress test outcome, along with other factors, have been assessed by its Supervisory Board and points to no capital shortfall. On 17 December, 2018 the EBA announced its intention to carry out a new EBA stress test on the EU credit institutions in 2020.

Further, asset quality reviews and stress testing exercises in countries where the Group operates may result in additional capital requirements. In addition, a loss of confidence in the banking sector following the announcement of any stress tests that take place from time to time regarding the Group or the Greek banking system as conducted in accordance with the legislative framework in force, or a market perception that any such stress tests are not rigorous enough, could also have a negative effect on the Group's cost of funding and may thus have a material adverse effect on its results of operations and financial condition.

Wholesale borrowing costs and access to liquidity and capital may be negatively affected by any future downgrades of the Hellenic Republic's credit rating

The successful accumulation by the Hellenic Republic of a cash buffer, which covers around two years of funding needs (Source: ESM, Press Release, 6 August 2018), the successful completion of the Third Programme, along with improving macroeconomic trends, and the agreement on the implementation of the Enhanced Surveillance Framework for Greece's post-programme monitoring following the Third Programme completion were the main factors that contributed to the rating upgrade of the Hellenic Republic by one notch to "B+" by the S&P on 25 June 2018, by two notches to "BB-" by Fitch on 10 August 2018 and by two notches to "B1" from "B3" by Moody's on 1 March 2019.

Improvements in Greece's sovereign rating have already been transmitted to the risk assessment of other high quality assets. On 3 July 2018, S&P upgraded the long- and short-term issuer credit on the four Greek systemic banks, including the Issuer, to "B-/B" from "CCC+/C", referring to the improving liquidity conditions and the growing capacity of the banks to sustain financial commitments and improve their balance sheets in the long run. Moreover, on 8 October 2018, Fitch upgraded the short-term Issuer Default Ratings (IDRs) of all four systemic banks, including the Issuer, to "C" from "RD", as well as the long-term IDRs of National Bank of Greece and the Issuer to "CCC+" from "RD", and of Eurobank and Piraeus Bank to "CCC" from "RD", noting that the upgrading was a result of the lifting of some limitations on cash withdrawals and the movement of capital within the country as of 1 October 2018. Nonetheless, Fitch noted that if depositor and investor confidence weakens, compromising the banks' already weak liquidity profiles, or if capitalisation materially deteriorates, that could possibly trigger downgrades in the future (Source: Fitch press releases). On 28th May 2018, Fitch affirmed National Bank of Greece, Piraeus Bank and the Issuer's Long Term IDRs, while upgrading long term IDR of Eurobank from "CCC" to "CCC+", with positive outlook (Source: Fitch press releases).

The capacity of the Hellenic Republic to maintain continuous access to market financing at competitive costs is an important element of Greece's economic and financial recovery and will be closely related to the financial conditions of the private sector in the coming years. The terms of this access remain also dependent on international economic conditions and sources of financial risk internationally, as well as on the prospective path of domestic disposable income and Greek assets valuations. In this respect, there is still considerable uncertainty surrounding the prospective pace of improvement in the country's sovereign rating, which is also closely related to the private sector's creditworthiness.

The rating agencies also note that the probability of new downgrades of the Hellenic Republic's rating could reoccur in the event of an emergence of doubts about the country's commitment to maintaining a sound fiscal position and maintaining focus on completing all important reforms, initiated under the Third Programme and subjected to the post-programme Enhanced Surveillance Framework, or meet other obligations of the post-programme monitoring. Should any downgrades occur or rating outlooks turn negative, the financing costs of the Hellenic Republic would increase and its access to market financing could be disrupted, with negative effects on the cost of capital for Greek banks (including the Issuer) and the Issuer's business, financial condition and results of operations. Downgrades of the Hellenic Republic's credit rating could also result in a corresponding downgrade in the Issuer's credit rating and, as a result, increase wholesale borrowing costs and the Issuer's access to liquidity, which could adversely affect the Issuer's business and results of operations.

Deteriorating asset valuations resulting from poor market conditions may adversely affect the Issuer's business, financial conditions, results of operations and prospects

The ongoing global economic slowdown and economic crisis in Greece since 2009 has resulted in an increase in NPLs and significant changes in the fair values of the Issuer's financial assets. A substantial portion of the Group's loans to corporate and individual borrowers are secured by collateral such as real estate, securities, vessels, term deposits and receivables. In particular, as mortgage loans are one of the Issuer's principal assets, the Issuer is currently highly exposed to developments in real estate markets, especially in Greece. Significant adjustment in residential valuations started in 2009 and continued at a rapid pace from 2010 to the end of 2017 (with prices having fallen by 42.2 per cent. by the end of 2017 compared to their peak in 2008, Sources: Bank of Greece, Bulletin of Conjunctural Indicators, November-December 2018 and Bank of Greece, Real Estate database). House prices in Greece increased by 1.5 per cent. year-over-year in 2018, for the first time in almost eleven years, responding, gradually, to improving macroeconomic conditions and improved economic sentiment. Similarly, the commercial market, office and retail, has exhibited a similar adjustment in the same period (with prices for offices having fallen by 30.4 per cent. by the H1 2017 compared to 2010 and prices for retail premises having fallen by 29.0 per cent. during the same period, Sources: Bank of Greece, Bulletin of Conjunctural Indicators, November-December 2018 and Bank of Greece, Real Estate database). Office and retail prices in Greece increased by 7.4 per cent. and 3.1 per cent. respectively year-over-year by H1 2018, responding, gradually, to improving macroeconomic

conditions and improved economic sentiment. However, downside risks remain considerable against a relatively high effective tax burden and a still sizeable backlog of unsold houses (Sources: Bank of Greece, Bulletin of Conjunctural Indicators, November-December 2018 and Bank of Greece, Real Estate database). Nonetheless, household disposable income, a significant driver of households' spending decisions, showed a notable improvement in the first nine months of 2018 (3.4 per cent. year-over-year) supported by the increase in employment of 2.0 per cent., year-over-year, in 2018 (Sources: EL.STAT., Quarterly Non-Financial Sector Accounts, Third Quarter 2018, January 2019 and EL.STAT., Labor Force Survey, Monthly data, Press Releases, January 2017 until December 2018). However, the still sizeable stock of unsold properties maintained by banks and related to non-performing loans, relatively high effective tax burden on property – and especially the high progressiveness of the property tax system – weak credit flows, the still high oversupply of low quality properties in low demand areas and a still high unemployment rate of 18.0 per cent. in December 2018 (EL.STAT., Labor Force Survey, Monthly data, Press Release, December 2018) are likely to weigh on the recovery process and may weigh on the prospective pace of improvement in mortgage delinquencies in the following years. Moreover, a weaker-than-expected increase in disposable income or a slowing in the improvement of liquidity conditions could be translated into declining market activity and new pressures on real estate valuations. These negative factors could translate into a further adjustment in prices in the near-term.

A further decline in the value of collateral may also result from deterioration of financial conditions in Greece or the other markets where the provided collateral is located. In addition, failure to recover the expected value of collateral in the case of foreclosure, or inability to initiate foreclosure proceedings due to domestic legislation, may expose the Issuer to losses, which could have a material adverse effect on business, results of operations and financial condition. Further, because of the imposition of capital movement restrictions, a general moratorium on enforcement was imposed until 31 October 2015. Furthermore, the new provisions of the Greek law 4605/2019 (published in Government Gazette No. 52/01.04.2019) on the protection of primary residence, which was adopted by the Greek Parliament on 29 March 2019 and replaced the former legal framework of Greek law 3869/2010, allows eligible debtors to submit from 30 April 2019 until 31 December 2019 a request for the protection of any real property used as primary residence from foreclosure. This protection is available to debtors meeting specific criteria, including that the value of the property is up to €250,000 and up to €175,000, if business loans are involved.

In addition, an increase in financial market volatility or adverse changes in the marketability of the Issuer's assets could impair ability to value certain of the Group's assets and exposures. The value ultimately realised by the Issuer in liquidating asset security will depend on their fair value determined at that time and may be materially different from their current market value. Any decrease in the value of such assets and exposures could require the Issuer to recognise additional impairment charges, which could adversely affect business, financial condition, results of operations and prospects, as well as capital adequacy.

Litigation Risk

In the context of its day-to-day operations the Issuer is exposed to litigation risk, among others, as a result of changing and developing consumer protection legislation and legislation on the provision of banking and investment services. Although the Issuer believes that it conducts its operations pursuant to applicable laws and takes all necessary measures for adopting its operations to legislative amendments, there can be no assurance that significant litigation will not arise in the future.

In 2015 and 2016 orders for preliminary investigation were made in respect of the credit process for the extension of loans by certain Greek banks to borrowers in certain business sectors, including publishing groups, as well as to certain individuals. These investigation orders concerned, among others, three Executive Members of the Board of Directors of the Issuer (not including the Chief Executive Officer) and one Non-Executive Member of the Board of Directors of the Issuer (who was formerly an Executive Member), together with certain other officers of the Issuer. Indictments have been issued and orders for main investigations made in respect of each case, whilst one case has reached the level of public hearings. The individuals have been charged with “breach of trust” (pursuant to Article 390 of the Greek Criminal Code).

The charges relate to the certain loans made by the Issuer to certain companies or individuals and concern the making of such loans, on-going maintenance and forbearance in respect of such loans and/or the writing off such loans in settlement for other claims. Whilst the Issuer is co-operating with the public prosecutor in relation to such charges, none of the Issuer itself nor any other member of the Group are the subject of any related proceedings. Further, the Issuer understands that certain directors and/or officers of other systemically important banks in Greece are the subject of similar charges.

Legal and regulatory actions (including those referred to above) are subject to many uncertainties, and their outcomes, including the timing, amount of fines or settlements or the form of any settlements, which may be material and in excess of any related provisions, are often difficult to predict, particularly in the early stages of a case or investigation, and the Issuer's expectation for resolution may change. In addition, responding to and defending any current or potential proceedings involving the Issuer or any of its directors and other employees (including those referred to above) may be expensive and may result in diversion of management resources (including the time of the affected persons or other Group employees) even if the actions are ultimately unsuccessful.

Adverse outcomes or resolution of current or future legal or regulatory actions (including those referred to above) may result in additional supervision by the Group's regulators and/or changes in the directors, officers or other employees of the Group and could result in further proceedings or actions being brought against any of the Group's directors, officers or other employees. They may also adversely impact investor confidence and the Group's broader reputation.

In addition, legal and regulatory actions involving the Group (for the avoidance of doubt, not including those referred to above) may also result in fines, administrative sanctions (including restrictions in operations, regulatory licence revocation, etc.), settlements or damages being awarded against the Group, further actions or civil proceedings being brought against the Issuer or any of its subsidiaries and potentially have other adverse effects on the business of the Group.

Accordingly, any such legal proceedings and other actions involving the Issuer, any member of the Group or any of its directors or other employees may adversely affect the Group's reputation and business.

Risks Relating to Volatility in the Global Financial Markets

The Group is vulnerable to the ongoing disruptions and volatility in the global financial markets

Global economic growth continues, albeit at a weaker than normal pace. Nonetheless, most of the economies with which Greece has strong export links, including several Eurozone countries, continue to face significant economic headwinds. The outlook for the global economy over the medium term remains challenging and many forecasts predict at best only stagnant or modest levels of gross domestic product growth in the European Monetary Union. Economic activity remains dependent on highly accommodative macroeconomic policies and is subject to downside risks, as room for countercyclical policy measures has sharply diminished and fiscal fragilities have come to the fore. Policymakers in many advanced economies have publicly acknowledged the need to urgently adopt credible strategies to contain public debt and excessive fiscal deficits and later reduce debt and deficits to more sustainable levels. The implementation of these policies may restrict economic recovery, with a corresponding negative impact on the Issuer's financial condition, results of operations and prospects.

In financial markets, concerns around Italy's economic and political situation, emerging markets (EM) contagion risk, US Trade wars, China's economic slowdown, the prospect of potential interest rate hikes in the USA, and the impact of the United Kingdom's decision to leave the European Union are expected to continue to affect the global financial markets. In the event current stability is proven fragile and such investor's concerns surface again, business, financial condition, results of operations and prospects, could be adversely affected.

The Issuer's results of operations, both in Greece and abroad, in the past have been, and in the future may continue to be, materially affected by many factors of a global nature, including: political and regulatory risks and the condition of public finances; the availability and cost of capital; the liquidity of global markets; the level and volatility of equity prices, commodity prices and interest rates; currency values; the availability and cost of funding; inflation; the stability and solvency of financial institutions and other companies; investor sentiment and confidence in the financial markets; or a combination of the above factors.

Uncertainty resulting from the sovereign debt crisis in the Eurozone is likely to continue to have a significant adverse impact on the Issuer's business

In the recent past, the deterioration of the sovereign debt of several countries, including Greece, Italy, Ireland, Spain, Cyprus and Portugal, together with the risk of contagion in other Eurozone countries, exacerbated the global economic crisis. This situation had also raised a number of uncertainties regarding the stability and overall standing of the European Monetary Union, which escalated to the risk of a potential Eurozone break-up in 2012.

Throughout the European sovereign debt crisis, the European countries' leaders have tried to take measures to preserve the financial stability of the EU and the Eurozone. In May 2010, along with Greece's first bailout request, the EFSF was established, a €440 billion special purpose vehicle guaranteed by the European members, whose mandate is to safeguard financial stability in Europe by providing financial assistance to Eurozone states in need. In autumn 2011, European government leaders discussed further austerity measures, including a significant increase in the EFSF's funds and a restructuring plan for Greece's sovereign debt. In September 2012, the ECB announced that it was ready to provide full support through new bond purchase programmes known as 'Outright Monetary Transactions' to all eurozone countries that had requested a bailout and received support by the EFSF and ESM, programmes. The ESM was formally established in October 2012 and is a permanent international financial institution that assists in preserving the financial stability of the European Monetary Union by providing temporary stability support to Eurozone countries through a lending capacity of €500 billion.

The ECB has taken further steps on the monetary policy front to stimulate credit expansion (and ultimately economic recovery/growth); among others, it reduced interest rates in Q2-Q3 2014, and re-introduced long term refinancing operations in Q3 2014. Furthermore, the ECB expanded its assets purchase programme for asset backed securities and covered bonds (end of 2014), and also decided to include Eurozone government and agency debt (beginning of 2015).

Any deterioration in the Eurozone's economic situation could have a significant impact on the activities, business and operations of the Group, given its material exposure to the Eurozone's economy.

Soundness of other financial institutions

The Issuer routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds, and other institutional clients. Sovereign credit pressures may weigh on Greek financial institutions, limiting their funding operations and weakening their capital adequacy by reducing the market value of their sovereign and other fixed income holdings. These liquidity concerns have adversely impacted, and may continue to adversely impact, inter-institutional financial transactions in general. Concerns about, or a default by, one financial institution could lead to significant liquidity problems and losses or defaults by other financial institutions, as the commercial and financial soundness of many financial institutions may be closely related because of credit, trading, clearing and other relationships. Many of the routine transactions into which the Group enters expose it to significant credit risk in the event of default by one of our significant counterparties. In addition, the credit risk may be exacerbated when the collateral the Group holds cannot be enforced or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure. A default by a significant financial counterparty, or liquidity problems in the financial services industry in general, could have a

material adverse effect on the Group's business, financial condition, results of operations, prospects and capital position.

Risks Relating to Operations Outside the Hellenic Republic

The Issuer conducts significant international activities outside of Greece

In addition to the operations in the Hellenic Republic, the Group has operations in Albania, Cyprus, Romania and the United Kingdom. The Issuer's operations in Cyprus and Romania are the Issuer's largest/most significant operations outside of the Hellenic Republic, accounting for 8.2 per cent. and 5.0 per cent., respectively, of the Issuer's total gross loans as at 31 December 2018, 8.7 per cent. and 4.5 per cent. as at 31 December 2017 and 8.8 per cent. and 4.6 per cent. as at 31 December 2016. On 29 February 2016, the Issuer completed sale and transfer as an on-going concern Alpha's branch in Bulgaria to Eurobank's subsidiary in Bulgaria, Postbank and on 10 May 2016, all shares owned by Alpha Bank A.E. in Alpha Bank A.D. Skopje were transferred to Silk Road Capital. On 11 April 2017 the Issuer completed the sale of Alpha Bank 100 per cent. stake in the share capital of Alpha Bank Srbija to the Serbian MK Group of companies. As at 31 December 2018, loans and advances to customers before impairment relating to the Group's international operations in Southeastern Europe amounted to €7.2 billion and due to customers amounted to €5.2 billion. The Group's South Eastern Europe (**SEE**) operations are exposed to the risk of adverse political, governmental or economic developments, changes in regulatory and legal framework in the countries in which it operates.

The majority of the countries outside Greece, where the Group conducts business, are economies in which the Group faces particular operational risks and unpredictability. For example, Romania during 2018 experienced a combination of deficit and inflation increase, which may lead to monetary and fiscal tightening during 2019. The wage-driven growth policy applied for three years strained the public consolidated budget pushing its deficit to 3 per cent. of GDP in 2018, the maximum limit set by the Stability and Growth Pact. In its effort to maintain the deficit below that threshold, the government may resort to unpredictable snap measures without prior consultation with the stakeholders (for example the introduction of a new tax on bank assets). The widening of the current account deficit could lead to the depreciation of the domestic currency, while the rising inflation might trigger the increase of monetary policy interest rates. Such factors could have a material adverse effect on the Group's business, results of operations and financial condition. SEE operations also expose the Group to foreign currency risk. A decline in the value of the currencies in which SEE subsidiaries receive their income or value their assets relative to the value of the euro may have an adverse effect on the results of operations and financial condition. In addition, the economic crisis in Greece may materially adversely affect the Group's SEE operations and increase depositors' concerns in these countries, which may, in turn, affect their willingness to continue to do business with the Issuer's international subsidiaries.

The Issuer operates a branch and subsidiary in the United Kingdom which may be affected by the United Kingdom's withdrawal from the European Union

On 23 June 2016 the UK held a referendum on whether the UK should remain a member of the EU.

The UK voted to leave the EU, the UK Government invoked Article 50 of the Lisbon Treaty and officially notified the EU of its decision to withdraw from the EU. This commenced the formal two-year process of negotiations regarding the terms of the withdrawal and the framework of the future relationship between the UK and the EU (the **article 50 withdrawal agreement**). As part of those negotiations, a transitional period has been agreed in principle which would extend the application of EU law, and provide for continuing access to the EU single market, until the end of 2020 and possibly longer.

The article 50 withdrawal agreement has not yet been ratified by the UK or the EU. The parties have agreed to an extended timeline which allows for ratification to take place any time prior to 31 October 2019. To the extent ratification does take place ahead of 31 October 2019, the UK would leave on the first date of the

month following ratification. However, it remains uncertain whether the article 50 withdrawal agreement, or any alternative agreement, will be finalised and ratified by the UK and EU ahead of the deadline. If that deadline of 31 October 2019 is not met, unless the negotiation period is further extended or the Article 50 notification revoked, the Treaty on the European Union and the Treaty on the Functioning of the EU will cease to apply to the UK and the UK will lose access to the EU single market.

Whilst continuing to discuss the article 50 withdrawal agreement and political declaration, the UK Government has continued with preparations for a "hard" Brexit (or "no-deal" Brexit) to minimise the risks for firms and businesses associated with an exit with no transitional agreement. This has included publishing draft secondary legislation under powers provided in the EU (Withdrawal) Act 2018 to ensure that there is a functioning statute book after any exit without a transitional period.

Due to the on-going political uncertainty as regards the terms of the UK's withdrawal from the EU and the structure of the future relationship, the precise impact on the business of the Issuer is difficult to determine the impact that the referendum, the UK's departure from the European Union and/or any related matters may have on any financing arrangements (including the impact of any tax) made between the Issuer and/or any member of the Group and/or the Issuer's branch in the UK. As such, no assurance can be given that such matters would not adversely affect Issuer's financial performance or the ability of the Issuer to satisfy its obligations under the Covered Bonds and/or the market value and/or the liquidity of the Covered Bonds in the secondary market. Also see "*Financing arrangements between the Issuer or any other member of the Group may be affected by the United Kingdom's withdrawal from the European Union*".

Risks related to the Issuer's business

As a result of its business activities, the Issuer is exposed to a variety of risks, the most significant of which are credit risk, market risk, operational risk, liquidity risk and litigation risk. Failure to control these risks could result in material adverse effects on the Issuer's financial performance and reputation.

Credit Risk

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Issuer's businesses. Adverse changes in the credit quality of the Issuer's borrowers and counterparties or a general deterioration in the Greek, U.S. or global economic conditions, or arising from systematic risks in the financial systems, could affect the recoverability and value of the Issuer's assets and require an increase in the Issuer's impairment losses and provisions to cover credit risk.

Market Risk

The most significant market risks that the Issuer faces are interest rate, foreign exchange and bond and equity price risks. Changes in interest rate levels, yield curves and spreads may affect the interest rate margin realised between lending and borrowing costs. Changes in currency rates affect the value of assets and liabilities denominated in foreign currencies and may affect income from foreign exchange dealing. The performance of financial markets may cause changes in the value of the Issuer's investment and trading portfolios. The Issuer has implemented risk management methods to mitigate and control these and other market risks to which the Issuer is exposed and exposures are constantly measured and monitored. However, it is difficult to predict with accuracy changes in economic or market conditions and to anticipate the effects that such changes could have on the Issuer's financial performance and business operations.

Operational Risk

The Issuer's businesses are dependent on the ability to process a very large number of transactions efficiently and accurately. Operational risk and losses can result from fraud, errors by employees, failure to document transactions properly or to obtain proper internal authorisation, failure to comply with regulatory

requirements and conduct of business rules, equipment failures, natural disasters or the failure of external systems, for example, those of the Issuer's suppliers or counterparties. Although the Issuer has implemented risk controls and loss mitigation actions, and substantial resources are devoted to developing efficient procedures and to staff training, it is not possible to implement procedures that are fully effective in controlling each of the operational risks.

Liquidity Risk

The inability of a bank, including the Issuer, to anticipate and provide for unforeseen decreases or changes in funding sources could have an adverse effect on such bank's ability to meet its obligations when they fall due.

*The Hellenic Financial Stability Fund (the **HFSF**) as shareholder has certain rights in relation to the operation of the Issuer*

The original Stabilisation Programme, as established in May 2010, introduced restructuring measures such as the establishment of the HFSF whose only shareholder is the Hellenic Republic and whose role is to maintain the stability of the Greek banking system by providing capital support in the form of ordinary shares or contingent convertible securities or other convertible securities to credit institutions legally operating in Greece and licensed by the Bank of Greece. The ESM Programme and Greek law 3864/2010, as amended and in force, provides the HFSF, through its representative, with specific shareholders' rights in the credit institutions in which it has committed to participate by means of the share capital increases.

Following HFSF's initial contribution in May 2012 to the Issuer of €1.9 billion in EFSF bonds as an advance for its participation in the Group's recapitalisation pursuant to Greek law 3864/2010, the HFSF appointed a representative in the Issuer's Board of Directors. In December 2012, the Issuer received, as a capital contribution, an additional €1.0 billion of EFSF bonds from the HFSF as an additional advance for participation in the Issuer's recapitalisation. In connection with the Issuer's share capital increase in June 2013, the Issuer received, as a capital contribution, an additional €1.0 billion in EFSF bonds from the HFSF, which subscribed for 9,138,636,364 newly issued Ordinary Shares of the Issuer.

In addition, as part of the Greek Stabilisation Programmes, the Hellenic Republic undertook a series of commitments towards the European Commission regarding Greek banks under restructuring, including the appointment of a monitoring trustee, who acted on behalf of the European Commission and aimed to ensure the compliance of the Issuer and its subsidiaries with the aforementioned commitments (the **Monitoring Trustee**) that are in force during the period of the restructuring plan agreed and approved by the Directorate General of Competition of the European Commission. On 27 March 2019 the European Commission (Competition DG) by way of a letter to the Issuer confirmed that the Issuer completed its restructuring plan, and no further extension of the mandate of the Issuer's monitoring or of the relevant restructuring period, is required.

Further, according to the same law 3864/2010, if a credit institution that was recapitalised by the HFSF in 2012, achieved a private sector participation in its share capital increase of at least 10 per cent. (of the then overall recapitalisation requirements), the HFSF would issue, as private sector incentive, to the private sector investors that participated one warrant for each new share (the **Warrants**). Each Warrant, which was issued for no additional charge, enables the holder thereof to purchase from the HFSF, at a pre-determined exercise price and during the exercise period, a predetermined number of ordinary shares of the credit institution held by the HFSF. The Warrants were listed on the Athens Stock Exchange (**Athex**) and those not exercised until 11 December 2017 were automatically expired and cancelled by the HFSF on 14 December 2017.

Following the first exercise of the Warrants on 17 December 2013, HFSF's equity interest decreased to 8,925,267,781 ordinary shares in the Issuer, representing 81.71 per cent. of the Issuer's aggregate common share capital. Moreover, following the share capital increase that was completed on 4 April 2014, HFSF's

participation was further decreased to 69.90 per cent, whilst following the share capital increase of the Issuer completed on 24 November 2015, HFSF's participation was diluted, representing, approximately 11 per cent.

Pursuant to the provisions of Greek law 3864/2010, the HFSF's appointed representative has the power, among other things: (i) to request the convening of the General Meeting; (ii) to veto any decision of the Board of Directors (a) regarding the distribution of dividends and the remuneration policy concerning the Chairman, the Managing Director – Chief Executive Officer and the other members of the Board of Directors, as well as the general managers and their deputies; (b) where the decision in question could seriously compromise the interests of depositors, or impair the Issuer's liquidity or solvency or its overall sound and smooth operation of the Issuer; or (c) concerning corporate actions, where the decision in question could materially affect the participation of the HFSF in the share capital of the Issuer; (iii) to request an adjournment of any meeting of the Board of Directors for three business days in order to get instructions from the Executive Committee; (iv) to request the convocation of the Board of Directors; and (v) to approve the appointment of the Chief Financial Officer of the Issuer.

Accordingly, the HFSF is entitled to exercise significant influence over the operations of the Group. In addition to the provisions of Greek law 3864/2010, and pursuant to the Relationship Framework Agreement originally entered into on 12 June 2013 and subsequently replaced by the New Relationship Framework Agreement (the **New RFA**), entered into on 23 November 2015, the HFSF has a series of information rights with respect to matters pertaining to the Issuer. Additionally, the HFSF may appoint at least one member of each of the Audit Committee, the Risk Management Committee, the Remuneration Committee, the Corporate Governance and the Nomination Committee. Finally, the Issuer is obliged to obtain the prior approval of the HFSF on certain material issues, such as the Group's Risk and Capital Strategy, the Group's Strategy in terms of non-performing loans, etc. (for more information please refer to "*Directors and Management – Management Committees - HFSF Influence*" and "*Directors and Management – Management Committees*"). Consequently, there is a risk that the HFSF may exercise the rights they are entitled to exert influence over the Issuer in cases of disagreement with certain decisions of the Issuer and the Group, relating to dividend distributions, benefit policies and other commercial and management decisions that will ultimately limit the operational flexibility of the Group.

Cancellation or changes in the operational framework of the EFSF, ESM or the HFSF or in the participation of the Group in their programmes could have a material adverse effect on the financing of the Issuer and the Group.

The cancellation or material change of the programmes of the EFSF, the ESM or the HFSF, through legislative amendment or otherwise, schemes or the exclusion of the Group from the supporting programmes could create uncertainty regarding the creditworthiness of the Group, which could affect the terms on which the Group accesses sources of financing.

Existing market fluctuations and volatility may result in significant losses in the commercial and investment activities of the Group

Positions in the Issuer's trading and investment portfolio which relate to the debt, currency, equity and other markets could be adversely affected by continuing volatility in financial and other markets creating a risk of substantial losses.

Continuing volatility and further dislocation affecting certain financial markets and asset classes could further impact the Group's results of operations, financial condition and prospects. In the future, these factors could have an impact on the mark-to-market valuations of assets in the Group's investment securities, trading securities, loans measured at fair value through profit and loss and financial assets and liabilities for which the fair value option has been elected.

Volatility can also lead to losses relating to a broad range of other trading securities and derivatives held, including swaps, futures, options and structured products.

The increase of NPLs may have a negative impact on the Group's operations in the future

NPLs represented 33.5 per cent. of the Issuer's loans as at 31 December 2018, 34.9 per cent. as at 31 December 2017 and 38.1 per cent. as at 31 December 2016. The effect of the economic crisis in Greece and adverse macroeconomic conditions in the countries in which the Issuer operates may result in further adverse effects on the credit quality of borrowers, with increasing delinquencies and defaults. Furthermore, the new provisions of the Greek law 4605/2019 (published in Government Gazette No. 52/01.04.2019) on the protection of primary residence, which was adopted by the Greek Parliament on 29 March 2019 and replaced the former legal framework of Greek law 3869/2010, set that eligible debtors may from 30 April 2019 until 31 December 2019 to submit a request for the protection of any real property used as primary residence from foreclosure. This protection is available to debtors meeting specific criteria, including that the value of the property is up to €250,000 and up to €175,000, if business loans are involved. Future impairment losses and provisions to cover credit risk could have a materially adverse effect on interest income, business operations and financial results and there can be no assurance that this prohibition, or any other similar prohibition, will not be extended or be in effect beyond this date.

Volatility in interest rates may negatively affect net interest income and have other adverse consequences

Interest rates are highly sensitive to many factors beyond the Issuer's control, including monetary policies and domestic and international economic and political conditions. There can be no assurance that further events will not alter the interest rate environment in Greece and the other markets in which the Group operates. Cost of funding is especially at risk for the Issuer due to increased Eurosystem funding and the tight liquidity conditions in the Greek domestic deposit market.

As with any bank, changes in market interest rates may affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities. This difference could reduce net interest income. Since the majority of the Issuer's loan portfolio effectively re-prices within a year, rising interest rates may also result in an increase in its allowance for impairment on loans and advances to customers if customers cannot refinance in a higher interest rate environment. Further, an increase in interest rates may reduce clients' capacity to repay in the current economic circumstances.

The Issuer faces significant competition from Greek and foreign banks

The general scarcity of wholesale funding since the onset of the economic crisis has led to a significant increase in competition for retail deposits in Greece and significant consolidation of the Greek banking system. The Issuer also faces competition from foreign banks. The Issuer may not be able to continue to compete successfully with domestic and international banks in the future. These competitive pressures on the Group may have an adverse effect on its business, financial condition, results of operations and prospects.

Laws regarding the bankruptcy of individuals and regulations governing creditors' rights in Greece and various SEE countries may limit the Group's ability to receive payments on NPEs

Laws regarding the bankruptcy of individuals and other laws and regulations governing creditors' rights generally vary significantly within the region in which the Group operates. In some countries, the laws offer very limited protection for creditors compared with the bankruptcy regime in the United Kingdom or the United States. If the current economic crisis persists or worsens, bankruptcies could intensify, or applicable bankruptcy protection laws and regulations may change to limit the impact of the recession on corporate and retail borrowers. Such changes may have an adverse effect on the Group's business, financial condition, results of operations and prospects.

Changes in consumer protection laws might limit the fees that the Group may charge in certain banking transactions

Changes in consumer protection laws in Greece and other jurisdictions where the Group has operations could limit the fees that banks may charge for certain products and services such as mortgages, unsecured loans and credit cards. If introduced, such laws could reduce the Group's net income, though the amount of any such reduction cannot be estimated at this time. Such effects could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The planned creation of a deposit guarantee system applicable throughout the European Union may result in additional costs to the Group

The harmonisation of deposit guarantee systems throughout the European Union will represent significant changes to the mechanisms of the deposit guarantee systems currently in force in individual countries.

Greece has transposed Directive 94/19/EC of the European Parliament and of the Council of 30 May 1994 on deposit-guarantee schemes (the **DGDs**) by virtue of Greek law 3746/2009, which established the Hellenic Deposit and Investment Guarantee Fund (the **HDIGF**). Greek law 3746/2009 was abolished by Greek law 4370/2016, which transposed Directive 2014/49/EC into Greek law. Three different schemes are run by the HDIGF, each regulated by a different set of legal provisions: the first is the deposit guarantee scheme (the **DGS**), the second is the investment guarantee scheme and the third is the scheme funding resolutions. The DGS is financed both on an ex ante and on an ex post basis. All credit institutions, licensed by the Bank of Greece to accept deposits in Greece, are obliged, by virtue of article 5 of law 4370/2016, to participate in the DGSs.

Directive 2014/49/EC of the European Parliament and of the Council on deposit guarantee schemes and Greek law 4370/2016, strengthens depositor protection against unviable credit institutions and enhances the role of deposit guarantee systems in the financial safety net. More specifically, Greek law 4370/2016, as in force, provides for a coverage level of €100,000 per depositor per credit institution for eligible deposits (being deposits eligible for the deposit guarantee system), coverage for temporary high balances up to €300,000 for specific deposit categories, a target level for DGS resources of 0.8 per cent. of covered deposits (achieved until 3 July 2024), a deposit guarantee system financing resolution measures according to the BRRD (defined above), calculation of credit institutions' annual contributions on the basis of covered deposits, compulsory risk-based adjustment of credit institutions' annual contributions, and payment of supplementary contributions when DGS resources are inadequate to cover the cost of a credit institution resolution.

The Resolution Fund of the HDIGF is regulated by virtue of the provisions of articles 100 *et seq.* of the BRRD, as such provisions were transposed by virtue of articles 95 *et seq.* of Greek law 4335/2015. Pursuant to such provisions, until 31 December 2024 the funds available to the Resolution Fund of the HDIGF should be equal to 1 per cent. of the covered deposits of all credit institutions licensed to operate in Greece. The exact level of annual (*ex ante*) contributions and their calculations derive from Implementation Act 2015/81 of the European Parliament on "unified implementation of Directive 806/2014 of the European Parliament and of the Council regarding contributions to the Unified Consolidation Fund" and Directive 2015/63 of the European Parliament on "the completion of Directive 2014/59/EU of the European Parliament and of the Council regarding contributions to financial consolidation arrangements".

If the contributions under the above EU Directives and Regulations in relation to the Resolution Fund and the DGS are higher than the ones currently in place in Greece and in the other countries in which the Issuer operates, this may result in the Issuer increasing its contributions in this scheme, which in turn may adversely affect the Issuer's operating results.

The Group not be able to treat its deferred tax assets as regulatory capital (to the full extent or partially), which may have an adverse effect on our capital position

We currently include deferred tax assets (**DTAs**) calculated in accordance with IFRS in calculating our capital and capital adequacy ratios. DTAs are a result of the deferred tax deductibility of losses recorded

typically on non-performing loans or other assets, which creates a temporary difference between the bank's accounting profit (which includes the loans losses of the year in full) and taxable profit (which reflects only part of the loan losses in the current year).

Under CRD IV, DTAs recognized pursuant to the IFRS, based on the assumption of the future profitability of a credit institution and exceed certain thresholds, must be deducted from its Common Equity Tier I capital. This deduction is to be implemented gradually until 2024.

In order to minimize the impact of this on Greek credit institutions, article 27A of Greek Law 4172/2013, as added by Greek Law 4303/2014, as subsequently replaced by virtue of Greek Law 4340/2015 (the **DTC Framework**), was introduced to allow, under certain conditions, from 2017 onwards, credit institutions to convert DTAs arising from the PSI and from accumulated provisions and other general losses due to credit risk, with respect to existing amounts up to 30 June 2015, into a receivable (**Tax Credit**) from the Hellenic Republic. The Tax Credit will be calculated as a ratio of IFRS accounting losses over net equity before year's losses and such ratio will be applied on the remaining eligible DTA in a given year.

This legislation allows Greek credit institutions, including the Issuer, to treat such eligible DTAs as not "relying on future profitability" according to CRD IV, as a result such DTAs are not deducted from Common Equity Tier I capital but rather assigned a risk weight of 100 per cent., thereby improving an institution's capital position.

As of 31 December 2018, the Issuer and the Group's deferred tax credits subjected to the DTC Framework amounted to €3,241 million, comprising 39.2 per cent. of the Group's Common Equity Tier I and 6.8 per cent. of RWAs.

If the regulations governing the use of DTCs as part of our regulatory capital change, whether in recognizing DTAs as part of our capital base or limiting such use of DTAs in calculating our capital base, this may affect our capital base and consequently our capital ratios. If any of these risks materialize, this may negatively affect our ability to maintain sufficient regulatory capital, which may in turn require us to issue additional instruments qualifying as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on our operating results and financial conditions

The Group may not be able to preserve its customer base

The Group's success depends on its capacity to maintain high levels of loyalty among its customer base and to offer a wide range of competitive and high-quality products and services to its customers. In order to pursue these objectives, the Group has adopted a strategy of segmentation of its customer base, aimed at serving the various needs of each segment in the most suitable manner. Moreover, the Group seeks to maintain long-term financial relations with its customers through the sale of anchor products and services, namely mortgage loans, salary accounts, standing transfers, credit cards and saving products and bank assurance products. Nevertheless, high levels of competition in Greece and in other countries where the Group operates, and an increased emphasis in cost reduction may result in an inability to maintain high loyalty levels of the Group's customer base, in providing competitive products and services, or of maintaining high customer service standards, each of which may adversely affect the Group's business, financial condition, results of operations and prospects.

If the Group's reputation is damaged, this would affect its image and customer relations, which could adversely affect business, financial condition, results of operation and prospects

Reputational risk is inherent to the Group's business activity. Negative public opinion towards the Group or the financial services sector as a whole could result from real or perceived practices in the banking sector in general, such as money laundering, negligence during the provision of financial products or services, or even from the way that the Group conducts, or is perceived to conduct, its business. Although the Group makes all possible efforts to comply with the regulatory instructions, negative publicity and negative public opinion

could adversely affect the Group's ability to maintain and attract customers, in particular, institutional and retail depositors, whose loss could adversely affect the Group's business, financial condition and future prospects.

The Issuer could be exposed to future pension and post-employment benefit liabilities

The personnel of the Group in Greece are insured with funds providing social security (main pension, auxiliary pension, health and welfare). As at 31 December 2018 on a consolidated basis, the Group's liabilities in connection with defined benefit plans amounted to €86.74 million. These amounts were calculated on the basis of specific economic and demographic assumptions. These include assumptions relating to changes in interest rates, which may not actually occur. Should future events deviate from these assumptions, the Issuer's liabilities may significantly increase.

With particular reference to the auxiliary/supplementary pension, under Law 3371/2005 and the special economic studies stipulated therein and ratified by laws 3455/2006 and 3620/2007, staff originating from the former Emporiki Bank (previously the Commercial Bank of Greece) and Alpha Credit Bank were insured with the Greek Common Insurance Fund of Bank Employees (ETAT), following the said Fund's takeover of the Supplementary Insurance Fund for the Personnel of Commercial Bank of Greece and the Staff Mutual Assistance Fund respectively. The Issuer paid out the overall fixed liability for both of the aforementioned funds taken over by ETAT, in ten annual instalments, by the first quarter of 2014 and 2017 respectively.

In addition, in accordance with the amendments of Law 3455/2006, with respect to the employees who have been insured members and were hired until 31 December 2004 by Emporiki, the social contributions that are paid over the service life of said employees for the supplementary pension are larger compared to the respective contributions which are stipulated by law compared to other salaried employees. These arrangements were the subject of an investigation concerning the possible application of state aid by the European Commission (decision N597/2006-Greece: Reform of the organisation of the supplementary pension regime in the banking sector), which concluded that such arrangements did not constitute state aid, given the methodology followed by the special economic studies was adhered to.

Apart from the above, the passing of Greek law 4387/2016, as in force, as well as of several other pension and social insurance reform laws, introduced radical changes to the structure and mode of operation of the insurance system. These developments, with possible reinterpretations of the current legislation or possible future changes to that legislation in respect to pensions and related liabilities, as well as the requirements of the memorandum, which are targeted to creating a viable and sustainable general pension system and minimising state subsidies through, among other things, the consolidation of pension funds, may alter the liabilities of the banking sector and hence of the Issuer or its subsidiaries in respect to contributions to meet actuarial or operational deficits of the pension funds. Moreover, it is impossible to predict potential legal challenges against the consolidations of pension funds, or the outcome of such disputes.

The Greek banking sector is subject to strikes, which may adversely affect the Group's operations

Most of the Issuer's employees belong to a union and the Greek banking industry has been subject to strikes over the issues of pensions and wages. Prolonged labour unrest could have a material adverse effect on the Issuer's operations in the Hellenic Republic, either directly or indirectly, for example on the willingness or ability of the government to pass the reforms necessary to successfully implement the ESM Programme.

The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may not be accurate

In establishing the fair value of certain financial instruments, the Group relies on quoted market prices or, where the market for a financial instrument is not sufficiently active, internal valuation models that utilise observable financial market data. In certain circumstances, the data for individual financial instruments or classes of financial instruments utilised by such valuation models may not be available or may become

unavailable due to changes in financial market conditions. In such circumstances, the Group's internal valuation models require the Group to make assumptions, judgements and estimates to establish fair value. In common with other financial institutions, these internal valuation models are complex, and the assumptions, judgements and estimates the Group is required to make often relate to matters that are inherently uncertain, such as expected cash flows. Such assumptions, judgements and estimates may need to be updated to reflect changing facts, trends and market conditions. The resulting change in the fair values of the financial instruments could have a material adverse effect on the Group's earnings and financial condition. Also, recent market volatility and illiquidity has challenged the factual bases of certain underlying assumptions and has made it difficult to value certain of the Group's financial instruments. Valuations in future periods, reflecting prevailing market conditions, may result in changes in the fair values of these instruments, which could have a material adverse effect on the Group's results, financial condition and prospects.

The Issuer is exposed to risk of fraud and illegal activities of other forms which, if they are not dealt with timely and successfully, could have negative effects on its business, financial condition, results of operation and prospects

The Group is subject to rules and regulations related to money laundering and terrorism financing. Compliance with anti-money laundering and anti-terrorist financing rules entails significant cost and effort. Non-compliance with these rules may have serious consequences, including adverse legal and reputational consequences. Although current anti-money laundering and anti-terrorist financing policies and procedures are adequate to ensure compliance with applicable legislation, it cannot be guaranteed that they will comply at all times with all rules applicable to money laundering and terrorism financing as extended to the whole Group and applied to its workers in all circumstances. A possible violation, or even any suspicion of a violation of these rules, may have serious legal and financial consequences, which could have a material and adverse effect on the Issuer's business, financial condition, results of operations and prospects.

Economic hedging may not prevent losses

If any of the variety of instruments and strategies that are used to economically hedge exposure to market risk is not effective, the Issuer may incur losses. Many of the Issuer's hedging strategies are based on historical trading patterns and correlations. Unexpected market developments therefore may adversely affect the effectiveness of these hedging strategies.

Transactions in the Issuer's own portfolio involve risks

The Issuer carries out various proprietary activities, including the placement of deposits denominated in euro and other currencies in the interbank market, as well as trading in primary and secondary markets for government securities. The management of the Issuer's own portfolio includes taking positions in fixed income and equity markets, both through spot and derivative products and other financial instruments. Trading on account of its own portfolio carries risks, since its results depend partly on market conditions. Moreover, the Issuer relies on a vast range of reporting and internal management tools in order to be able to report its exposure to such transactions correctly and in due time. Future results arising from trading on account of its own portfolio will depend partly on market conditions, and the Issuer may incur significant losses which could have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects.

The Group's operational systems and networks have been, and will continue to be, vulnerable to an increasing risk of continually evolving cyber security or other technological risks which could result in the disclosure of confidential client or customer information, damage to the Group's reputation, additional costs to the Group, regulatory penalties and financial losses

A significant portion of the Group's operations rely heavily on the secure processing, storage and transmission of confidential and other information as well as the monitoring of a large number of complex

transactions on a constant basis. The Group stores an extensive amount of personal and client-specific information for its retail, corporate and governmental customers and clients and must accurately record and reflect their extensive account transactions. The proper functioning of the Group's payment systems, financial and sanctions controls, risk management, credit analysis and reporting, accounting, customer service and other information technology systems, as well as the communication networks between its branches and main data processing centres, are critical to the Group's operations. These activities have been, and will continue to be, subject to an increasing risk of cyber-attacks, the nature of which is continually evolving. The Group's computer systems, software and networks have been and will continue to be vulnerable to unauthorised access, loss or destruction of data (including confidential client information), account takeovers, unavailability of service, computer viruses or other malicious code, cyber-attacks and other events. These threats may derive from human error, fraud or malice on the part of employees or third parties, or may result from accidental technological failure. If one or more of these events occurs, it could result in the disclosure of confidential client information, damage to the Group's reputation with its clients and the market, additional costs to the Group (such as repairing systems or adding new personnel or protection technologies), regulatory penalties and financial losses, to both the Group and its clients. Such events could also cause interruptions or malfunctions in the operations of the Group (such as the lack of availability of the Group's online banking systems), as well as the operations of its clients, customers or other third parties. Given the volume of transactions at the Group, certain errors or actions may be repeated or compounded before they are discovered and rectified, which would further increase these costs and consequences.

In addition, third parties with which the Group does business under stringent contractual agreements, may also be sources of cyber security or other technological risks. The Group outsources a limited number of supporting functions, such as printing of customer credit card statements and processing of cards, which results in the storage and processing of customer information. Although the Group adopts a range of actions to eliminate the exposure resulting from outsourcing, such as not allowing third-party access to the production systems and operating a highly controlled IT environment, unauthorised access, loss or destruction of data or other cyber incidents could occur, resulting in similar costs and consequences to the Group as those discussed above. While the Group maintains insurance coverage that may, subject to policy terms and conditions, cover certain aspects of cyber risks such as fraud and financial crime, such insurance coverage may be insufficient to cover all losses.

EU General Data Protection Regulation

Regulation (EU) No. 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (also known as the EU General Data Protection Regulation or the GDPR) represents a new legal framework for the data protection in the EU. It will directly apply in all EU member states from 25 May 2018 and will replace the current EU and Greek data privacy laws. Although a number of basic existing principles will remain the same, the GDPR introduces new obligations on data controllers and enhanced rights for data subjects.

The GDPR applies to organisations located within the EU but it also extends to organisations located outside of the EU if they offer goods and/or services to EU data subjects. Regulators have unprecedented power to impose administrative fines and penalties for a breach of obligations under the GDPR, including fines for serious breaches of up to 4 per cent. of the total worldwide annual turnover of the preceding financial year or €20 million and fines of up to 2 per cent. of the total worldwide annual turnover of the preceding financial year or €10 million for other specified infringements. The GDPR identifies a list of points to consider when imposing fines (including the nature, gravity and duration of the infringement).

In Greece, there is still no statute that would implement and/or make use of the derogations allowed by the GDPR enacted by the Parliament (although a draft bill has been subject to a very short public consultation) and there is very little guidance as to how the Hellenic Data Protection Authority will enforce the GDPR. However, the Issuer has taken measures to comply with the GDPR requirements.

The Issuer's loan portfolio may contract

In the current economic environment, the Issuer's Greek and foreign loan portfolio may decline. Furthermore, there are a limited number of high credit quality customers. Developments in the loan portfolio will be affected mainly by, among other factors, the health of the Greek economy and of the other economies in which it operates and the successful implication of the ESM Programme. The decline in the loan portfolio, in combination with NPLs, may limit the Group's net interest income, and this could have a material adverse effect on the business, financial condition, results of operations and prospects.

Additional taxes may be imposed on the Group

According to the Income Tax Code (Greek law 4172/2013, as amended and in force) the corporate tax rate for all legal entities keeping double entry fiscal accounting books is 29 per cent. for periods commencing as from 1 January 2015, subject however to a sliding scale of 1 per cent on an annual basis until 2022 when the corporate tax rate will be reduced to 25 per cent. Also, the tax rate for dividend distributions is 15 per cent. and as for the financial year starting 1 April 2019, is reduced to 10 per cent. Dividends received by parent companies from their subsidiaries established in Greece or abroad may be tax exempt, as provided under articles 48 and 63 of the Income Tax Code.

Additional taxes and penalties may be imposed for the unaudited years to the Group companies due to the fact that some expenses may not be recognised by the tax authorities.

The Group recognises deferred tax assets to the extent that it is probable that the Issuer and/or Group companies will have sufficient future taxable profit available, against which deductible temporary differences and tax losses carried forward can be utilised. The main uncertainties for the recoverability of the deferred tax assets relate to the achievement of the goals set in the Issuer's business plan, which is affected by the general macroeconomic environment in Greece and internationally. In addition, on 25 March 2013, the European Commission reached an agreement with the government of Cyprus, which includes an increase of withholding tax on capital returns and the corporate income tax rate.

In addition, at the European Council summit held on 17 June 2010, it was agreed that Member States should introduce a system of levies and taxes on financial institutions to promote an equitable distribution of the costs of the global financial crisis. On 14 February 2013, a proposal for a new directive was adopted, calling for enhanced cooperation regarding the financial transaction tax. This directive will apply to ten Member States (known as the FTT-zone), including Greece, and imposes a tax on any transaction with an established link to the FTT-zone. This proposal was approved by the European Parliament on 3 July 2013 and was scheduled to enter into force on 1 January 2014. Implementation of the financial transaction tax has been delayed as Member States in the FTT-zone are divided with respect to the details of the tax. It is uncertain, as of the date of this Base Prospectus, whether or when the financial transaction tax will be implemented. Any additional taxes imposed on the Group in the future, or any increases in tax rates, may have a material adverse effect on Alpha's business, financial condition, results of operations and prospects.

The Covered Bonds will be obligations of the Issuer only

The Covered Bonds will be solely obligations of the Issuer and will not be obligations of or guaranteed by the Trustee, the Asset Monitor, the Account Bank, the Agents, the Hedging Counterparties, the Arranger, the Dealers or the Listing Agent (as defined below). No liability whatsoever in respect of any failure by the Issuer to pay any amount due under the Covered Bonds shall be accepted by any of the Arranger, the Dealers, the Hedging Counterparties the Trustee, the Agents, the Account Bank, any company in the same group of companies as such entities or any other party to the transaction documents relating to the Programme.

Maintenance of the Cover Pool

Pursuant to the Greek Covered Bond Legislation, the Cover Pool is subject to a number of Statutory Tests set out in the Secondary Covered Bond Legislation. Failure of the Issuer to take remedial action to cure any breach of these tests within five Athens Business Days of such breach will result in the Issuer not being able to issue further Covered Bonds and any failure to satisfy the Statutory Tests may have an adverse effect on the ability of the Issuer to meet its payment obligations in respect of the Covered Bonds.

Pursuant to the Servicing and Cash Management Deed after the occurrence of an Issuer Event, the Cover Pool is subject to an Amortisation Test. The Amortisation Test is intended to ensure that the Cover Pool Assets are sufficient to meet the obligations under all Covered Bonds outstanding together with senior expenses that rank in priority or *pari passu* with amounts due on the Covered Bonds. Failure to satisfy the Amortisation Test on any Calculation Date following an Issuer Event (the occurrence of which is subject to certain cure periods as set out in Condition 9) will constitute an Event of Default, thereby entitling the Trustee to accelerate the Covered Bonds subject to and in accordance with the Conditions and the Trust Deed.

Factors that may affect the realisable value of the Cover Pool or any part thereof

The realisable value of Loans and their Related Security comprised in the Cover Pool may be reduced by:

- (a) default by borrowers (each borrower being, in respect of a Loan Asset, the individual specified as such in the relevant mortgage terms together with each individual (if any) who assumes from time to time an obligation to repay such Loan Asset (the **Borrower**)) in payment of amounts due on their Loans;
- (b) changes to the lending criteria of the Issuer; and
- (c) possible regulatory changes by the regulatory authorities.

Each of these factors is considered in more detail below. However, it should be noted that the Statutory Tests, the Amortisation Test and the Eligibility Criteria are intended to ensure that there will be an adequate amount of Loan Assets in the Cover Pool to enable the Issuer to repay the Covered Bonds following service of a Notice of Default and accordingly it is expected (but there is no assurance) that the Loan Assets could be realised for sufficient value to enable the Issuer to meet its obligations under the Covered Bonds.

Default by Borrowers in paying amounts due on their Loans

Borrowers may default on their obligations under the Loans in the Cover Pool. Defaults may occur for a variety of reasons. The Loans are affected by credit, liquidity and interest rate risks. Various factors influence mortgage delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic or housing conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Other factors in Borrowers' individual, personal or financial circumstances may affect the ability of Borrowers to repay the Loans. Loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies by and bankruptcies of Borrowers, and could ultimately have an adverse impact on the ability of Borrowers to repay the Loans. In addition, the ability of a Borrower to sell a property given as security for a Loan at a price sufficient to repay the amounts outstanding under that Loan will depend upon a number of factors, including the availability of buyers for that property, the value of that property and property values in general at the time.

Changes to the Lending Criteria of the Issuer

Each of the Loans originated by the Issuer will have been originated in accordance with its Lending Criteria at the time of origination. The Lending Criteria of the Issuer also includes the Lending Criteria applied by Emporiki (which was merged into the Issuer in 2013). It is expected that the Issuer's Lending Criteria will generally consider, *inter alia*, type of property, term of loan, age of applicant, the loan-to-value ratio, status of applicant and credit history. The Issuer retains the right to revise its Lending Criteria from time to time but would do so only to the extent that such a change would be acceptable to a reasonable, prudent mortgage lender. If the Lending Criteria changes in a manner that affects the credit worthiness of the Loans, that may lead to increased defaults by Borrowers and may affect the realisable value of the Cover Pool, or part thereof, and the ability of the Issuer to make payments under the Covered Bonds.

Loans not originated by Issuer

It should be noted that a significant proportion of the Loans included by the Issuer into the Cover Pool may not have been originated by the Issuer in the case of Loans that are or will in the future be, acquired by the Issuer. In respect of such acquired Loans, there can be no assurance that the lending criteria of the relevant originating entity will be as effectively applied as, or comparable with (and not materially inferior to), that of the Issuer. Accordingly the asset quality of Loans not originated by the Issuer may be materially worse than that of Loans that were originated by the Issuer. This may result in the deterioration in the performance and value of the Cover Pool Assets. It may also make it harder for the Statutory Tests to be met.

Sale of Loans and their Related Security following the occurrence of an Issuer Event

Following the occurrence of an Issuer Event, the Servicer, or any person appointed by the Servicer, will have the option to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell in whole or in part the Loan Assets in accordance with the Servicing and Cash Management Deed. The proceeds from any such sale will be credited to the Transaction Account and applied in accordance with the applicable Priority of Payments. There is no guarantee that the Servicer will be able to sell in whole or in part the Loan Assets as the Servicer may not be able to find a buyer at the time it is obliged to attempt to sell.

The Issuer will have the right to prevent the sale of a Loan Asset to third parties by removing such Loan Asset from the Cover Pool and transferring within ten Athens Business Days from the receipt of the offer letter, to the Transaction Account, an amount equal to the price set forth in such offer letter, subject to the provision of a solvency certificate.

No representations or warranties to be given by the Servicer if Loan Assets are to be sold

Following an Issuer Event, the Servicer will have the option to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell Loan Assets to third party purchasers (subject in certain circumstances to a right of pre-emption in favour of the Issuer) pursuant to the terms of the Servicing and Cash Management Deed. In respect of any sale of Loan Assets to third parties as described above under "*Sale of Loans and their Related Security following the occurrence of an Issuer Event*", the Servicer or the Issuer will not be permitted to give representations and warranties or indemnities in respect of those Loan Assets unless expressly agreed by the Servicer. There is no assurance that the Issuer would give any representations and warranties or indemnities in respect of the Loan Assets. Any representations and warranties previously given by the Issuer in respect of the Loan Assets in the Cover Pool may not have value for a third party purchaser if the Issuer is then insolvent. Accordingly, there is a risk that the realisable value of the Loan Assets could be adversely affected by the lack of representations and warranties or indemnities. See "*Description of Principal Documents – Servicing and Cash Management Deed*".

Reliance on Hedging Counterparties

To provide a hedge against possible variances in the rates of interest payable on the Loans in the Cover Pool (which may, for instance, include discounted rates of interest, fixed rates of interest or rates of interest which track a base rate and other variable rates of interest) and EURIBOR for 1, 3 or 6 month euro deposits, the Issuer may enter into an Interest Rate Swap with the relevant Interest Rate Swap Provider in respect of each Series of Covered Bonds under the relevant Interest Rate Swap Agreement.

In addition, to provide a hedge against interest rate and/or other risks in respect of amounts received by the Issuer under the Loans in the Cover Pool and the Interest Rate Swaps and amounts payable by the Issuer under the Covered Bonds, the Issuer may enter into a Covered Bond Swap with a Covered Bond Swap Provider in respect of a Series of Covered Bonds under the Covered Bond Swap Agreement between the Issuer and that Covered Bond Swap Provider.

If the Issuer fails to make timely payments of amounts due under any Hedging Agreement, then it will have defaulted under that Hedging Agreement. A Hedging Counterparty is only obliged to make payments to the Issuer as long as the Issuer complies with its payment obligations under the relevant Hedging Agreement. If the Hedging Counterparty is not obliged to make payments or if it defaults on its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the Issuer on the due date for payment under the relevant Hedging Agreement, the Issuer will be exposed to any changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest. Unless a replacement swap is entered into, the Issuer may have insufficient funds to make payments under the Covered Bonds.

If a Hedging Agreement terminates, or there is a partial termination following the sale of any Loans, then the Issuer (or the Servicer on its behalf) may be obliged to make a termination payment to the relevant Hedging Counterparty. There can be no assurance that the Issuer (or the Servicer on its behalf) will have sufficient funds available to make a termination payment under the relevant Hedging Agreement, nor can there be any assurance that the Issuer will be able to enter into a replacement swap agreement, or if one is entered into, that the credit rating of the replacement swap counterparty will be sufficiently high to prevent a downgrade of the then current ratings of the Covered Bonds by the Rating Agencies.

If the Issuer is obliged to pay a termination payment under any Hedging Agreement, including any termination payments arising from a partial termination following the sale of any Loans, such termination payment will rank ahead of amounts due on the Covered Bonds (in respect of the Interest Rate Swaps) and *pari passu* with amounts due on the Covered Bonds (in respect of the Covered Bond Swaps), except where default by, or downgrade of, the relevant Hedging Counterparty has caused the relevant Hedging Agreement to terminate.

Conflicts of Interest

Certain parties to the Transaction Documents act in more than one capacity. The fact that these entities fulfil more than one role could lead to a conflict between the rights and obligations of these entities in one capacity and the rights and obligations of these entities in another capacity. In addition, this could also lead to a conflict between the interests of these entities and the interests of the Covered Bondholders. Any such conflict may adversely affect the ability of the Issuer to make payments of principal and/or interest in respect of the Covered Bonds.

Differences in timings of obligations of the Issuer and the Covered Bond Swap Provider under the Covered Bond Swaps

With respect to each of the Covered Bond Swaps, the Issuer (or the Servicer on its behalf) will, periodically, pay or provide for payment of an amount to each corresponding Covered Bond Swap Provider based on EURIBOR for Euro deposits for the agreed period. The Covered Bond Swap Provider may not be obliged to make corresponding swap payments to the Issuer under a Covered Bond Swap until amounts are due and

payable by the Issuer under the Covered Bonds. If a Covered Bond Swap Provider does not meet its payment obligations to the Issuer under the relevant Covered Bond Swap Agreement or such Covered Bond Swap Provider does not make a termination payment that has become due from it to the Issuer under the Covered Bond Swap Agreement, the Issuer may have a larger shortfall in funds with which to make payments under the Covered Bonds than if the Covered Bond Swap Provider's payment obligations coincided with Issuer's payment obligations under the Covered Bond Swap. Hence, the difference in timing between the obligations of the Issuer and the obligations of the Covered Bond Swap Providers under the Covered Bond Swaps may affect the Issuer's ability to make payments with respect to the Covered Bonds. A Covered Bond Swap Provider may be required, pursuant to the terms of the relevant Covered Bond Swap Agreement, to post collateral with the Issuer if the relevant rating of the Covered Bond Swap Provider is downgraded by a Rating Agency below the rating specified in the relevant Covered Bond Swap Agreement.

Change of counterparties

The parties to the Transaction Documents who receive and hold monies pursuant to the terms of such documents (such as the Account Banks) are required to satisfy certain criteria in order that they can continue to receive and hold monies.

These criteria include requirements in relation to the short-term, unguaranteed and unsecured credit ratings ascribed to such party by Fitch and Moody's. If the party concerned ceases to satisfy the applicable criteria, including the ratings criteria detailed above, then the rights and obligations of that party (including the right or obligation to receive monies on behalf of the Issuer) may be required to be transferred to another entity which does satisfy the applicable criteria. In these circumstances, the terms agreed with the replacement entity may not be as favourable as those agreed with the original party pursuant to the relevant Transaction Document.

In addition, should the applicable criteria cease to be satisfied, then the parties to the relevant Transaction Document may agree to amend or waive certain of the terms of such document, including the applicable criteria, in order to avoid the need for a replacement entity to be appointed. The consent of Covered Bondholders may not be required in relation to such amendments and/or waivers.

Security and insolvency considerations

The Issuer will grant security over (a) the Cover Pool pursuant to the Transaction Documents and any Registration Statement and (b) the Transaction Documents and the Hedging Agreements pursuant to the Deed of Charge in respect of certain of its obligations, including its obligations under the Covered Bonds. In certain circumstances, including the occurrence of certain insolvency events in respect of the Issuer, the ability to realise any such security may be delayed and/or the value of the security impaired. There can be no assurance that the Issuer will not become insolvent and/or the subject of insolvency proceedings and/or that the Covered Bondholders would not be adversely affected by the application of insolvency laws (including Greek insolvency laws).

An interruption in or a breach of security in the Issuer's information systems may result in lost business and other losses

The Issuer relies on communications and information systems provided by third parties to conduct its business. Any failure or interruption or breach in security of these systems could result in failures or interruptions in its customer relationship management, general ledger, deposit, and servicing and/or loan organisation systems. The Issuer cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures or interruptions could result in a loss of customer data and an inability to service the Issuer's customers, which could have a material adverse effect on the Issuer's reputation, financial condition and results of operations.

Factors which are material for the purpose of assessing the market risks associated with Covered Bonds issued under the Programme

The Covered Bonds may not be a suitable investment for all investors

Each potential investor in the Covered Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds, the merits and risks of investing in the Covered Bonds and the information contained or incorporated by reference in this Base Prospectus and any applicable supplement and/or the applicable Final Terms;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Covered Bonds and the impact the Covered Bonds will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including Covered Bonds with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Covered Bonds and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of financial and/or legal advisers) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Covered Bonds which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the Covered Bonds

Extendable obligations under the Covered Bonds

Unless specified otherwise in the Final Terms or previously redeemed as provided in the Conditions, the Covered Bonds of each Series will be redeemed at their Principal Amount Outstanding on the relevant Final Maturity Date. If the Covered Bonds are not redeemed in full on the relevant Final Maturity Date or (as described below) where the Covered Bonds are subject to an Extended Final Maturity Date, on the relevant Extended Final Maturity Date, then the Trustee shall, serve a Notice of Default on the Issuer pursuant to the Conditions. Following the service of a Notice of Default: (a) any Covered Bond which has not been redeemed on or prior to its Final Maturity Date or, as applicable, Extended Final Maturity Date shall remain outstanding at its Principal Amount Outstanding, until the date on which such Covered Bond is cancelled or redeemed; and (b) interest shall continue to accrue on any Covered Bond which has not been redeemed on its Final Maturity Date or, as applicable, Extended Final Maturity Date and any payments of interest or principal in respect of such Covered Bond shall be made in accordance with the Post Event of Default Priority of Payments until the date on which such Covered Bond is cancelled or redeemed.

The applicable Final Terms may provide that the Issuer's obligations under the relevant Covered Bonds to pay the Principal Amount Outstanding on the relevant Final Maturity Date may be deferred past the Final Maturity Date until the Extended Final Maturity Date (as specified in the Final Terms) (such date the **Extended Final Maturity Date**). In such case, such deferral will occur automatically if the Issuer fails to pay any amount representing the amount due on the Final Maturity Date as set out in the Final Terms (the **Final Redemption Amount**) in respect of the relevant Series of Covered Bonds on their Final Maturity Date provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Final Maturity Date may be paid by the Issuer on any Interest Payment Date thereafter up to (and including) the relevant Extended Final Maturity Date. This will occur (subject to no Notice of Default having been served) if the applicable Final Terms Document for a relevant Series of Covered Bonds provides that such Covered Bonds are subject to an Extended Final Maturity Date.

To the extent that the Issuer has sufficient monies available under the Priority of Payments to pay in part the Final Redemption Amount, partial payment of the Final Redemption Amount shall be made as described in Condition 7.1 (*Final redemption*). Payment of the unpaid portion of the Final Redemption Amount shall be deferred automatically until the applicable Extended Final Maturity Date. The Issuer shall be entitled to make payments in respect of the Final Redemption Amount on any Interest Payment Date thereafter up until the Extended Final Maturity Date.

Interest will continue to accrue and be payable on any unpaid amounts on each Interest Payment Date up to the Extended Final Maturity Date in accordance with the Conditions and the Issuer (or the Servicer on its behalf) will make payments on each relevant Interest Payment Date and Extended Final Maturity Date.

Appointment of a replacement Servicer

In the event of insolvency of the Issuer, the Greek Covered Bond Legislation (in conjunction with certain Greek insolvency law provisions) provides that the Cover Pool will at all times remain segregated from the insolvency estate of the Issuer until payment of all amounts due to the Covered Bondholders have been made in full. To ensure continuation of the servicing of the Cover Pool in the event of insolvency of the Issuer (acting as the Servicer) the Greek Covered Bond Legislation provides that the Transaction Documents may provide for the substitution of the Servicer upon the insolvency of the Issuer.

In the event that no Replacement Servicer is appointed pursuant to the Transaction Documents, and in the event of the Issuer's insolvency under Greek law 4261/2014 (special liquidation), the Bank of Greece may appoint a servicer, if the Trustee fails to do so. Any such person appointed shall be obliged to service the Cover Pool in accordance with the terms of the Servicing and Cash Management Deed. Such replacement might not be made immediately upon the Issuer's insolvency.

There can be no assurance that replacement of Alpha as Servicer (or any delay in making such replacement) would not cause delays in payment on the Covered Bonds and Covered Bondholders might suffer loss as a result. See also "*Insolvency of the Issuer*" below.

Limited description of the Cover Pool

Other than as set out in the Investor Report, the Covered Bondholders will not receive detailed statistics or information in relation to the Loan Assets in the Cover Pool, because it is expected that the constitution of the Cover Pool will frequently change due to, for instance:

- (a) the Issuer assigning Additional Cover Pool Assets to the Cover Pool; and
- (b) the Issuer removing Cover Pool Assets from the Cover Pool or substituting existing Cover Pool Assets in the Cover Pool with Additional Cover Pool Assets.

There is no assurance that the characteristics of the Loan Assets assigned to the Cover Pool will be the same as those Loan Assets in the Cover Pool as at that date. However, each Loan Asset will be required to meet the Eligibility Criteria and be subject to the representations and warranties set out in the Servicing and Cash Management Deed. In addition, the Programme provides that the assets of the Issuer are subject to certain Statutory Tests and an Amortisation Test. The Nominal Value Test is intended to ensure that the Principal Amount Outstanding of all Series of Covered Bonds then outstanding, together with all accrued interest thereon, is not greater than 80 per cent. of the Nominal Value of the Cover Pool (as determined pursuant to the Servicing and Cash Management Deed) for so long as Covered Bonds remain outstanding (although there is no assurance that it will do so) and the Asset Monitor will provide quarterly agreed upon procedures report on the required tests (including Nominal Value Test) where exceptions, if any, will be noted.

The Servicer will provide Servicer Reports that will set out certain information in relation to the Statutory Tests and following the occurrence of an Issuer Event, the Amortisation Test.

Ratings of the Covered Bonds

The credit ratings assigned to the Covered Bonds address:

- (a) the likelihood of full and timely payment to Covered Bondholders of all payments of interest on each Interest Payment Date;
- (b) the probability of default and loss given default; and
- (c) the likelihood of ultimate payment of principal in relation to Covered Bonds on (a) the Final Maturity Date thereof, or (b) if the Covered Bonds are subject to an Extended Final Maturity Date in accordance with the applicable Final Terms, the Extended Final Maturity Date thereof.

The expected credit ratings of the Covered Bonds are set out in the relevant Final Terms for each Series of Covered Bonds. Any Rating Agency may lower its rating or withdraw its rating if, in the sole judgment of the Rating Agency, the credit quality of the Covered Bonds has declined or is in question. If any credit rating assigned to the Covered Bonds is lowered or withdrawn, the market value of the Covered Bonds may reduce. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time.

In addition, the ratings assigned to the Covered Bonds may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Covered Bonds. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the European Union (the **EU**) and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication

of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Offering Circular.

Rating Agency Confirmation in respect of Covered Bonds

The terms of certain of the Transaction Documents provide that, in certain circumstances, the Issuer must, and the Trustee may, obtain confirmation from one or more of the Rating Agencies that any particular action proposed to be taken by the Issuer, the Servicer or the Trustee will not adversely affect, or cause to be withdrawn, the then current ratings of the Covered Bonds (a **Rating Agency Confirmation**).

By acquiring the Covered Bonds, investors will be deemed to have acknowledged and agreed that, notwithstanding the foregoing, a credit rating is an assessment of credit and does not address other matters that may be of relevance to Covered Bondholders, including, without limitation, in the case of a Rating Agency Confirmation, whether any action proposed to be taken by the Issuer, Servicer, the Trustee or any other party to a Transaction Document is either (i) permitted by the terms of the relevant Transaction Document, or (ii) in the best interests of, or not prejudicial to, some or all of the Covered Bondholders. In being entitled to have regard to the fact that the one or more of the Rating Agencies have confirmed that the then current ratings of the Covered Bonds would not be adversely affected or withdrawn, each of the Issuer, the Trustee and the other Secured Creditors (including the Covered Bondholders) is deemed to have acknowledged and agreed that the above does not impose or extend any actual or contingent liability on the Rating Agencies to the Issuer, the Trustee, the Secured Creditors (including the Covered Bondholders) or any other person or create any legal relations between the Rating Agencies and the Issuer, the Trustee, the Secured Creditors (including the Covered Bondholders) or any other person whether by way of contract or otherwise.

Any such Rating Agency Confirmation may or may not be given at the sole discretion of each Rating Agency. It should be noted that, depending on the timing of delivery of the request and any information needed to be provided as part of any such request, it may be the case that a Rating Agency cannot provide a Rating Agency Confirmation in the time available or at all, and the Rating Agency will not be responsible for the consequences thereof. Such confirmation, if given, will be given on the basis of the facts and circumstances prevailing at the relevant time, and in the context of cumulative changes to the transaction of which the securities form part since the issuance closing date. A Rating Agency Confirmation represents only a restatement of the opinions given, and is given on the basis that it will not be construed as advice for the benefit of any parties to the transaction.

Covered Bonds not in physical form

Unless the Bearer Global Covered Bonds or the Registered Global Covered Bonds are exchanged for Bearer Definitive Covered Bonds or Registered Definitive Covered Bonds, respectively, which exchange will only occur in the limited circumstances set out under "*Forms of the Covered Bonds – Bearer Covered Bonds*" and "*Forms of the Covered Bonds – Registered Covered Bonds*" below, the beneficial ownership of the Covered Bonds will be recorded in book entry form only with Euroclear and Clearstream, Luxembourg. The fact that the Covered Bonds are not represented in physical form could, among other things:

- result in payment delays on the Covered Bonds because distributions on the Covered Bonds will be sent by or on behalf of the Issuer to Euroclear or Clearstream, Luxembourg instead of directly to Covered Bondholders;
- make it difficult for Covered Bondholders to pledge the Covered Bonds as security if Covered Bonds in physical form are required or necessary for such purposes; and
- hinder the ability of Covered Bondholders to resell the Covered Bonds.

Covered Bonds issued under the Programme

Covered Bonds issued under the Programme will either be fungible with an existing Series of Covered Bonds or have different terms to an existing Series of Covered Bonds (in which case they will constitute a new Series). All Covered Bonds will rank *pari passu* with each other in all respects and rateably without any preference or priority among themselves, irrespective of their Series, for all purposes except for the timing of the repayment of principal and the timing and amount of interest payable and will share in the security granted by the Issuer under the Deed of Charge.

Following the occurrence of an Event of Default and service by the Trustee of a Notice of Default, the Covered Bonds of all outstanding Series will become immediately due and payable against the Issuer.

Further Issues

In order to ensure that any further issue of Covered Bonds under the Programme does not adversely affect existing Covered Bondholders, the Statutory Tests will be required to be met both before and immediately after any further issue of Covered Bonds.

Obligations under the Covered Bonds

The Covered Bonds will not represent an obligation or be the responsibility of any of the Arrangers, the Dealers, the Trustee or any other party to the Programme, their officers, members, directors, employees, security holders or incorporators, other than the Issuer. The Issuer will be liable solely in its corporate capacity for their obligations in respect of the Covered Bonds and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

The Trustee may agree to modifications to the Transaction Documents without the Covered Bondholders' or Secured Creditors' prior consent

Pursuant to the terms of the Trust Deed and the Deed of Charge, the Trustee may, without the consent or sanction of any of the Covered Bondholders or any of the other Secured Creditors (other than the Swap Providers in respect of modification to the Pre Event of Default Priority of Payments, the Post Event of Default Priority of Payments, the Conditions, the Eligibility Criteria or the Servicing and Cash Management Deed, in the opinion of the Trustee, which adversely affects their interests (such consent not to be unreasonably withheld or delayed), concur with the Issuer or any person in making or sanctioning any modification to the Transaction Documents and the Conditions:

- (a) provided that the Trustee is of the opinion that such modification, waiver or authorisation will not be materially prejudicial to the interests of any of the Covered Bondholders; or
- (b) which in the sole opinion of the Trustee is of a formal, minor or technical nature or is to correct a manifest error.

Certain decisions of Covered Bondholders taken at Programme level

Any Extraordinary Resolution to direct the Trustee to take any enforcement action must be passed at a single meeting of the holders of all Covered Bonds of all Series then outstanding.

Realisation of Charged Property following the occurrence of an Event of Default and service of a Notice of Default

If an Event of Default occurs and a Notice of Default is served on the Issuer, then the Trustee will be entitled to enforce the security created under and pursuant to the Greek Covered Bond Legislation and the Deed of Charge, after having been indemnified and/or secured to its satisfaction, and the proceeds from the

realisation of the Charged Property will be applied by the Trustee towards payment of all secured obligations in accordance with the Post Event of Default Priority of Payments.

There is no guarantee that the proceeds of realisation of the Charged Property will be in an amount sufficient to repay all amounts due to the Secured Creditors (including the Covered Bondholders) under the Covered Bonds and the Transaction Documents.

If, following the occurrence of an Event of Default, a Notice of Default is served on the Issuer then the Covered Bonds may be repaid sooner or later than expected or not at all.

Absence of active and liquid secondary market

There is not, at present, an active and liquid secondary market for the Covered Bonds, and no assurance is provided that a secondary market for the Covered Bonds will re-emerge. The Arrangers are not obliged to and do not intend to make a market for the Covered Bonds. None of the Covered Bonds has been, or will be, registered under the Securities Act or any other applicable securities laws and they are subject to certain restrictions on the resale and other transfer thereof as set forth under "*Subscription and Sale*". If a secondary market does re-emerge, it may not continue for the life of the Covered Bonds or it may not provide Covered Bondholders with liquidity of investment with the result that a Covered Bondholder may not be able to find a buyer to buy its Covered Bonds readily or at prices that will enable the Covered Bondholder to realise a desired yield.

In addition, Covered Bondholders should be aware of the prevailing and widely reported global credit market liquidity conditions (which generally continue at the date hereof), whereby there is a general lack of liquidity in the secondary market for instruments similar to the Covered Bonds. As a result of the current liquidity conditions, there exist significant additional risks to the Issuer and the investors which may affect the returns on the Covered Bonds to investors.

Credit ratings may not reflect all risks

One or more independent Rating Agencies may assign credit ratings to the Covered Bonds. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Covered Bonds. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

General legal investment considerations

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Covered Bonds are legal investments for it, (2) Covered Bonds can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

The circumstances in which the resolution authority may exercise the bail-in tool or other resolution tools pursuant to Greek law 4335/2015 or other future statutes or regulatory acts are vague and such uncertainty may have an impact on the value of the Covered Bonds

The conditions for the submission of a credit institution to resolution and the respective activation of the relevant powers of the competent resolution authority are set in article 32 of the BRRD and Greek transposing Greek law 4335/2015, as amended and in force. Such conditions include the determination by the resolution authority that (a) the credit institution is failing or is likely to fail; (b) no reasonable prospect exists that any alternative private sector measures (including the write-down) would prevent the failure; and

(c) a resolution action is necessary in the public interest, whilst the resolution objectives would not be met to the same extent by the special liquidation of the credit institution pursuant to normal insolvency.

Such conditions, however, are not further specified in the applicable law and so their satisfaction is left to the determination and discretion of the competent resolution authority. Such uncertainty may impact on the market perception as to whether a credit institution meets or not such conditions and as such it may be subjected to resolution tools. This may have a material adverse impact on the present value of the Covered Bonds and other securities of the Issuer's listed on organised markets.

In addition, if any Greek bail-in action is taken, interested parties, such as creditors or shareholders, may raise legal challenges. If any litigation arises in relation to Greek bail-in actions (whether actually, or purported to be taken) and such actions are declared void or ineffective and additional actions need to be taken, including reversal of any Greek bail-in action that is challenged, this may negatively affect liquidity and valuation, and increase the price volatility of the Issuer's securities (including the Covered Bonds).

Risks related to the structure of a particular issue of Covered Bonds

A wide range of Covered Bonds may be issued under the Programme. A number of these Covered Bonds may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

If the Issuer has the right to convert the interest rate on any Covered Bonds from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Covered Bonds concerned

If the Issuer has the right to convert the interest rate on any Covered Bonds from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Covered Bonds concerned. Fixed/Floating Rate Covered Bonds are Covered Bonds which may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing market rates.

Covered Bonds which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Covered Bonds) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

Changes or uncertainty in respect of LIBOR and/or EURIBOR may affect the value or payment of interest under the Covered Bonds

Interest rates and indices which are deemed to be "benchmarks" (including the London Inter-Bank Offered Rate (**LIBOR**)) and the Euro Interbank Offered Rate (**EURIBOR**) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Covered Bonds linked to or referencing such a "benchmark".

The Benchmarks Regulation was published in the Official Journal of the European Union on 29 June 2016 and mostly applies, subject to certain transitional provisions, from 1 January 2018. The Benchmarks Regulation applies to the provision of a wide range of benchmarks (including LIBOR and EURIBOR), the contribution of input data to a benchmark and the use of a benchmark within the European Union. The Benchmarks Regulation, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of benchmarks and (ii) prevents certain uses by EU-supervised entities (such as the Issuer) of "benchmarks" of administrators that are not authorised or registered (or, if non-EU-based, deemed equivalent or recognised or endorsed).

The Benchmarks Regulation could have a material impact on any Covered Bonds linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

The sustainability of LIBOR has been questioned by the UK Financial Conduct Authority as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks.

Separate work streams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate (**€STR**) as the new risk free rate. €STR is expected to be published by the ECB by October 2019. In addition, on 21 January 2019, the euro risk free-rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. These reforms and other pressures may cause one or more interest rate benchmarks to disappear entirely, to perform differently than in the past (as a result of a change in methodology or otherwise), create disincentives for market participants to continue to administer or participate in certain benchmarks or have other consequences which cannot be predicted.

Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on the Covered Bonds.

Based on the foregoing, prospective investors should in particular be aware that:

- (a) any of these reforms or pressures described above or any other changes to a relevant interest rate benchmark (including LIBOR and EURIBOR) could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be; and
- (b) if LIBOR or EURIBOR or any other relevant benchmark is discontinued or is otherwise unavailable then the rate of interest on the Floating Rate Covered Bonds will be determined for a period by the fall-back provisions provided for under Condition 5 (*Interest*) of the Terms and Conditions of the Covered Bonds, although such provisions, being dependent in part upon the provision by reference banks of offered quotations for the LIBOR rate/for leading banks in the London interbank market (in the case of LIBOR) or in the Euro-zone interbank market (in the case of EURIBOR), may not operate as intended (depending on market circumstances and the availability of rates information at the relevant time) and may in certain circumstances result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR or EURIBOR was available; and
- (c) if LIBOR or EURIBOR or any other relevant interest rate benchmark is discontinued and whether or not an amendment is made to change the base rate with respect to the Floating Rate Covered Bonds as described in (b) above, there can be no assurance that the applicable fall-back provisions under the Swap Agreements would operate to allow the transactions under the Swap Agreements to effectively mitigate interest rate risk in respect of the Covered Bonds.

In addition, it should be noted that broadly divergent interest rate calculation methodologies may develop and apply as between the Mortgage Loans, the Covered Bonds and/or the Swap Agreements due to applicable fall-back provisions or other matters and the effects of this are uncertain but could include a reduction in the amounts available to the Issuer to meet its payment obligations in respect of the Covered Bonds.

Moreover, any of the above matters could affect the ability of the Issuer or the Guarantor to meet its obligations under the Covered Bonds and/or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Covered Bonds. Changes in the manner of administration of LIBOR, EURIBOR or any other relevant interest rate benchmark could result in adjustment to the Conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequences in relation to the Covered Bonds. No assurance may be provided that relevant changes will not occur with respect to LIBOR, EURIBOR or any other relevant interest rate benchmark and/or that such benchmarks will continue to exist. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Covered Bonds linked to or referencing a "benchmark".

Harmonisation of the EU covered bond framework

It should be noted that in March 2018, the European Commission published legislative proposals for a more harmonised EU covered bond framework. The proposals are made up of a draft directive (replacing current article 52(4) of the UCITS Directive) and intended to establish a revised common base-line for issue of covered bonds for EU regulatory purposes; and a draft regulation (amending article 129 of the Capital Requirements Regulation and certain related provisions) intended to strengthen the requirements for covered bonds to receive preferential capital treatment. The new legislation is expected to be finalised and come into

effect in Q3/Q4 2019 (although there will be a two and a half year transposition period after the effective date). As a result, the final position, including the effective date and the date from which the new regime will apply (aspects of which will require transposition by member states through national laws) are not yet known. Therefore, there can be no assurances or predictions made as to the precise effect of the new regime on the Covered Bonds.

In addition, it should be noted that the draft directive provides for permanent grandfathering with respect to certain requirements of the new regime for article 52(4) UCITS Directive-compliant covered bonds issued before the relevant application date and includes an option for the EU member states to allow tap issues with respect to grandfathered covered bonds (for up to 24 months after the relevant application date of the new regime), provided such tap issues comply with certain prescribed requirements. Prospective investors should therefore make themselves aware of the changes (and any corresponding national implementing measures) in addition to any other applicable regulatory requirements with respect to their investment in the Covered Bonds.

General risk factors

Set out below is a brief description of certain risks relating to the Covered Bonds generally:

The conditions of the Covered Bonds contain provisions which may permit their modification without the consent of all investors

The conditions of the Covered Bonds contain provisions for calling meetings of Covered Bondholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Covered Bondholders including Covered Bondholders who did not attend and vote at the relevant meeting and Covered Bondholders who voted in a manner contrary to the majority. Further, the conditions of the Covered Bonds contain provisions allowing the Trustee to agree to changes without the consent of any Covered Bondholder, including substitution of the Issuer pursuant to Condition 18 (*Substitution of the Issuer*).

Insurance

Under the terms and conditions of the Loan Documentation, each Borrower is required to obtain and maintain fire and earthquake insurance only, unless the property was built before 1 January 1960, in which case only fire insurance is available in the market. Accordingly, a claim under such policy for damage to the relevant property can be made only if the damage results from the occurrence of a fire or earthquake. However, this is not inconsistent with the terms and conditions of loans similar to the Loans made by other mortgage lenders in Greece who also only require borrowers to obtain and maintain fire and earthquake insurance. In addition, certain Borrowers, at their option, take out life insurance policies, with the Issuer as the primary loss payee, to secure their obligations under the relevant Loans.

Suspension of Enforcement Proceedings

There are various provisions of Greek law which could result in enforcement proceedings against a Borrower being delayed or suspended. Enforcement proceedings are usually commenced against a Borrower in respect of a Loan once it becomes 180 Days in Arrears, at which point the Loan is terminated. An order of payment is obtained from the Judge of the competent Court of First Instance following service of the notice of termination of the Loan on the Borrower and non-payment by the Borrower. Enforcement is commenced by service of the order for payment and a demand to pay on the Borrower, with the ultimate target being the collection of the proceeds of the auction of the relevant property securing the Loan. See for further details "*The Mortgage and Housing Market in Greece - Enforcing Security*" below.

However, a Borrower may delay enforcement against the relevant property by contesting the order for payment and/or the procedure for enforcement which in turn will delay the receipt of proceeds from

enforcement against the property by the Issuer after the relevant Loan has been terminated. A Borrower can file a petition of annulment against the order for payment pursuant to Articles 632-633 of the Greek Civil Procedure Code (an **Article 632-633 Annulment Petition**) with the Court of First Instance or Magistrate's Court within 15 business days after service of the order for payment contesting the substantive or procedural validity of the order of payment. If the Borrower fails to contest the order for payment (or within 30 business days if the Borrower is of an unknown address or resides abroad), the order may be served again on the Borrower and a further 15 business days are available to the Borrower to file an Article 632-633 Annulment Petition. The order for payment will be final either if both terms of 15 business days elapse or if the Court of Appeal rejects the Article 632-633 Annulment Petition. Suspension of enforcement against a Borrower of an unknown address or residing abroad is granted by law during the thirty-day period to file an Article 632-633 Annulment Petition.

The filing of an Article 632-633 Annulment Petition entitles the Borrower to file a petition for suspension of the enforcement against the relevant property pursuant to Article 632 of the Greek Civil Procedure Code (an **Article 632 Suspension Petition**). Upon filing an Article 632 Suspension Petition, enforcement procedures may be suspended until the hearing of the Article 632 Suspension Petition. Following the issuance of a decision in relation to the hearing of the Article 632 Suspension Petition, enforcement may be suspended until the Court of First Instance has issued a final decision in respect of the Article 632-633 Annulment Petition.

The Borrower may also file with the Court of First Instance or Magistrate's Court a petition for the annulment of certain actions of the foreclosure proceedings based on reasons pertaining to the validity of the order of payment or the relevant claims and to procedural irregularities (an **Article 933 Annulment Petition**) pursuant to Article 933 of the Greek Civil Procedure Code, as amended by Greek law 4512/2018. The hearing of the Article 933 Annulment Petition is scheduled within 60 days from the date of the filing of such petition and the relevant decision must be issued within 60 days from the hearing before the court. Both annulment petitions may be filed either concurrently or consecutively, but it should be noted that both the Article 632-633 Annulment Petition and the Article 933 Annulment Petition may not be based on reasons pertaining to the validity of the order for payment, once the order for payment has become final as mentioned above. The filing of an Article 933 Annulment Petition does not entitle the Borrower to file a petition for the suspension of the enforcement proceedings.

According to the provisions of Greek law 4335/2015 (published in Government Gazette 87/A/23.7.2015), as in force the ability of the debtor to challenge the compulsory enforcement actions, which are carried out by the creditor, is restricted. In particular, by virtue of the provisions of the Code of Civil Procedure, as in force, until 31 December 2015, the debtor was entitled to challenge separately each compulsory enforcement action and as a result the completion of the enforcement procedure was significantly delayed. However, by virtue of Greek Law 4335/2015 the debtor is entitled to oppose to defects of the compulsory enforcement procedure in just two stages: the first one is set before the auction and is related to any reason of invalidity of the compulsory enforcement actions carried out before the auction, whereas the second one is set after the auction and is related to any defects, which arose from the auction until the awarding.

Pursuant to Article 954 of the Greek Civil Procedure Code, the initial auction price is determined within the statement of the court bailiff and as regards the movable property, it cannot be less than 2/3 of the estimated value of the property (according to article 993 par. 2 of the Greek Civil Procedure Code, in conjunction with article 954 par. 2 of the Greek Civil Procedure Code, as amended and in force) and as regards the immovable property, the initial auction price cannot be less than the seized immovable property's "market value", as calculated in accordance with presidential decree no. 59/2016 (published in Government Gazette 95/A/27.05.2016). In particular, pursuant to such presidential decree the property's "market value" is determined by the relevant bailiff who is obliged to appoint a certified appraiser for this purpose, namely an individual or legal person that shall be included in the Certified Appraisers Registry held at the General Directorate for Financial Policy of the Ministry of Finance and published on the Ministry of Finance's website. The latter submits to the bailiff an appraisal report in accordance with European or international recognised appraising standards. Appraisal fees are borne by the creditor who ordered the enforcement

against the relevant property, but ultimately burden the Borrower. The initial auction price can be contested by the borrower or any other party having a legal interest by filing an annulment petition against such court bailiff statement at the latest fifteen (15) working days before the auction date. The relevant court's decision should be published at the latest by 12.00 p.m. eight (8) days before the auction date. Furthermore, pursuant to Article 1000 of the Greek Civil Procedure Code, the suspension of auction for up to six (6) months may be sought by the Borrower, on the grounds that there is a good chance of the Borrower being able to satisfy the enforcing party or that, following the suspension period, a better offer would be received at auction, provided that there is no risk of damage of the creditor who ordered the enforcement and that the borrower pays at least one quarter of the claimed capital and the enforcement expenses.

In the auction, the property is sold to the highest bidder who then has ten (10) working days to pay the auction price along with the fees for the use of the electronic auctioning platform which burden the highest bidder. Once the price of the property is paid, the notary public prepares a special deed listing all the creditors and allocating the proceeds of the auction. Each bidder must submit a bank guarantee or banker's draft for an amount equal to 30 per cent of the starting price of the auctioned property and declare his/her attendance in the auction by 15.00, two (2) working days prior to the auction date. On the date of preceding the auction date, by 17.00, the auction clerk registers with electronic auction platform a list of the bidders entitled to participate in the auction. Pursuant to Article 966 of the Greek Civil Procedure Code, if no bidders appear at the auction, the immovable property is awarded at the minimum auction price to the person in favour of whom the enforcement proceedings were initiated, upon the latter's request. The hearing of such request shall mandatorily be scheduled as a matter of priority within eight (8) working days from the date of filing and it shall be served at least three (3) working days before the hearing date. A recent evaluation report of the auction property, dated after the date of the last auction shall be submitted on the hearing date before the competent Court. The relevant decision must be issued within eight (8) working days from the hearing. If no such request is submitted, a repetitive auction takes place within forty (40) days. If such repetitive auction is unsuccessful, the competent court, upon request of persons having legal interest, may order the conduct of another auction within thirty (30) days, at the same or a reduced auction price or allow the sale of the property to the person in favour of whom the enforcement proceedings were initiated or to third persons at a price determined by the court, which may also provide that part of the consideration may be paid in instalments. Following two unsuccessful auctions, a petition may be filed by any interested party for a new auction date to be set, with the same or a lower fixed first price, or for a permission for a direct sale of the property at a price to be determined by the Court (in accordance with article 966 par. 2, as amended by article 23 of Greek law 4549/2018).

Each creditor must announce its claim to the notary public by no later than fifteen (15) days after the auction and submit all documents proving such claims, otherwise the notary public will not take his claim into account. Once the allocation of proceeds amongst the creditors of the Borrower has been determined pursuant to a deed issued by a notary public, the creditors of the Borrower may dispute the allocation and file a petition contesting the deed pursuant to Article 979 in conjunction with Article 933 of the Greek Civil Procedure Code. The competent Court of First Instance will adjudicate the matter but the relevant creditor is entitled to appeal against the decision to the Court of Appeal. The hearing date of the petition contesting such deed must be obligatory set within sixty (60) days from its filing (or within 120 days in case of the creditor residing abroad). This procedure may delay the collection of proceeds. This can further delay the time at which the Bank finally receives the proceeds of the enforcement of the relevant property. However, the law provides that a creditor is entitled to the payment of its claim even if its allocation priority is subject to a challenge provided that such creditor provides a letter of guarantee securing repayment of the money in the event that such challenge is upheld. This procedure may further delay the collection of proceeds and the time at which the Issuer finally receives the proceeds of the enforcement of the relevant property. However, Article 980 of the Greek Civil Procedure Code provides that a creditor is entitled to the payment of its claim even if its allocation priority is subject to a challenge, provided that such creditor provides a bank letter of guarantee issued by a bank permanently established in Greece on demand securing repayment of the money in the event that such challenge is upheld.

Once the list of creditors is confirmed and adjudicated, the proceeds are distributed according to the deed setting out the allocation of proceeds in accordance with articles 975, 976, 977 and 977A of the Greek Civil Procedure Code.

In addition, pursuant to Article 998, paragraph 2 of the Greek Civil Procedure Code, there is a period of mandatory suspension for all enforcement procedures (including auctions) between 1 and 31 August of each year and prohibition of auctions of real properties on the Wednesday before and after the date of any national, municipal or European elections. For more details see “The Mortgage and Housing Market in Greece – Enforcing Security”. Following the amendment of the Greek Civil Procedure Code by Greek law 4512/2018, as from 21 February 2018 onwards, the auction takes place exclusively through the use of electronic means, in particular through the use of the electronic auction platform (e-auctions.gr), under the responsibility of a certified notary public of the district of the seized property (or if not available for any reason, of the district of the execution place or, if not available for any reason, before any Athens notary public) under the responsibility of a competent notary public acting as auction clerk. The relevant process is detailed in article 959 of the Greek Civil Procedure Code, as replaced by article 207 par. 6 of the Greek law 4512/2018. The reforms of the Greek Civil Procedure Code by virtue of Greek law 4335/2015 aim at speeding up the conducting of enforcement proceedings. Therefore, the length, complexity and uncertainty of success of enforcement procedures in Greece may lead to a substantial delay in recovering any amounts due under any defaulted or delinquent loan which may adversely affect the Issuer’s ability to meet its obligations under the Covered Bonds.

Settlement of debts of over-indebted businesses and professionals

On 15 November 2014, the Hellenic Parliament introduced a new set of measures by Greek law 4307/2014, as amended and in force, for the restructuring of debts of viable small businesses and other professionals towards the State, social security funds and finance providers, consisting of (a) write-offs and/or restructuring of debts, coupled with a tax incentive for the banks implementing the new law and (b) new pre-bankruptcy proceedings that, among others, allow the banks to take control of the borrower through the appointment of an administrator.

Moreover, Greek law 4469/2017, as amended by Greek laws 4472/2017, 4549/2018, 4559/2018, 4587/2018 and 4613/2019, introduced an out-of-court mechanism for the settlement of debts owed by a debtor to his creditors stemming from the business activity of the debtor or from any other reason, provided that the settlement is considered necessary in order to ensure the viability of the debtor.

The new law came into force on 3 August 2017 and applies to: (i) individuals who have a bankruptcy capacity according to the Greek Bankruptcy Code; and (ii) legal entities which earn income from business activity pursuant to articles 21 and 47 of the Greek Tax Income Code and have a tax residence in Greece. The aforesaid persons may submit an application in order to be placed under the beneficial provisions of the new law, provided that the following conditions are met:

- (a) as at 31 December 2018: (i) the debtor had outstanding debts towards financing institutions arising from loans or credits in arrears for at least ninety (90) days; or (ii) the debtor had debts settled after 1 July 2016; or (iii) the debtor had outstanding debts towards tax authorities or social security funds or other public law entities; or (iv) the issuance of bad checks by the debtor had been ascertained; or (v) payment orders or court judgments for outstanding debts had been issued against the debtor;
- (b) the total debts to be settled exceed €20,000; and
- (c) for debtors keeping double-entry accounting books, the debtor has a positive EBITDA or a positive equity at least in one of the three financial years preceding the submission of the application and for debtors keeping single-entry accounting books, the debtor has a positive net EBITDA at least in one of the three years preceding the submission of the application.

If other co-debtors are liable for the debts together with the debtor, they are obliged to file the application together with the debtor.

The out-of-court settlement mechanism involves, inter alia, the appointment of a coordinator of the procedure (selected from a registry kept with the Special Secretariat for the Management of Private Debt), who shall notify all creditors of the debtor referred to in the application within two days following receipt of a complete application. The creditors shall inform the coordinator about their intention to participate in the process, within 10 days following their notification and shall declare the exact amount of the debt owed to them by the debtor.

The parties may freely decide on the terms of the debt restructuring agreement subject to certain exemptions, the most important of which are:

- (i) the obligation not to render the financial situation of any creditor worse than the one he/she would be in the case of liquidation of the debtor's assets in the context of an enforcement procedure pursuant to the provisions of the Code of Civil Procedure;
- (ii) several restrictions regarding the write-off and/or settlement of the claims of the State and the social security funds. The debtor or a participating creditor may submit the debt restructuring agreement for ratification to the Multi-Member Court of First Instance of the place where the debtor has its registered seat (or residence, as the case may be). If the court ratifies the debt restructuring agreement, then such agreement is mandatory for all the creditors, irrespective of their participation or not in the negotiation or the restructuring agreement; and
- (iii) the collection by the creditors whose claims are settled in the restructuring agreement of amounts or other considerations at least equal to the amounts that they would collect in the case of liquidation of the debtor's and co-debtors' assets during an enforcement procedure pursuant to the provisions of the Code of Civil Procedure.

The extrajudicial debt settlement mechanism does not apply to debts generated after 31 December 2018.

Each debtor may submit its application electronically to the Special Private Debt Management Secretariat by 31 December 2019 on the electronic platform in Secretariat's website. Financial institutions may, as creditors, initiate the procedure by communicating a written invitation to the debtor to enter the procedure. If the debtor fails to respond, he/she loses the right to initiate the procedure at a later stage. The approval of the debt restructuring proposal requires the debtor's consent and the formation of a majority of 3/5 of participating creditors, which includes 2/5 of participating creditors with special privilege.

For a time period of 70 days following notification of the creditors to participate in the procedure, any individual and collective enforcement measures against the debtor with respect to the claims for which the out-of-court settlement is sought, as well as any interim measures against the debtor, including registration of pre-notation of mortgage, are suspended. The suspension is automatically lifted if the out-of-court settlement attempt is considered unsuccessful and as such is terminated or if a decision of the majority of creditors is taken to that respect. The same suspension applies during the time period from the submission of the debt restructuring agreement for ratification to the competent Court until the issuance of the court decision.

The extrajudicial procedure is concluded by the execution of a debt restructuring agreement between the debtor and consenting creditors, otherwise the procedure is deemed unsuccessful. The debtor or a participating creditor may submit an application for ratification of the debt restructuring agreement to the Multi-Member Court of First Instance of the debtor's registered seat. The ratification decision covers the total of the debtor's claims governed by the restructuring agreement and binds the debtor and all the creditors, irrespective of their participation in the negotiation procedure or in the debt restructuring agreement.

In case the debtor fails to pay any amount due to any of the creditors according to the terms of the debt restructuring agreement for more than ninety (90) days, the creditor has the right to request cancellation of the agreement towards all parties.

Lastly, Joint Ministerial Decision 130060 in the abovementioned extra-judicial mechanism provides for a simplified extra-judicial procedure for settling business debts not exceeding EUR 50,000. According to article 45 of Greek law 4587/2018, a ministerial decision shall provide for a simplified extrajudicial procedure for settling business debts not exceeding in total EUR 300,000. So far, such decision has not yet been published.

Settlement of debts of distressed debtors

On 3 August 2010, Greek Law 3869/2010 (published in the Government Gazette issue No. A/130/3.8.2010), as subsequently amended and was put in force, regulated the readjustment of overdue debts of individuals that do not have the ability to be declared bankrupt pursuant to general bankruptcy provisions under Greek law.

The abovementioned law, as amended and in force, allowed the settlement of amounts due, inter alia, to credit institutions by individuals evidencing permanent and general inability (without intention) to repay their due debts, by arranging the partial repayment of their due debts and writing off the remainder of their debts, provided the terms of settlement are observed. Due performance by the debtor of the obligations imposed by the relevant court decision allows the discharge of all the remaining outstanding debts of the debtor against its creditors, even against those who have not announced their claims.

All individuals, both consumers and professionals, were subject to the provisions of Greek law 3869/2010, as subsequently amended and in force, with the exception of individuals who can be declared bankrupt pursuant to general bankruptcy provisions under Greek law.

Greek law 4336/2015, as in force, extended the scope of Greek law 3869/2010 to also include debts towards the Greek State, tax authorities, local authorities and social security organizations, provided however that the relevant application includes also debt to private entities or persons.

The amendments effected by Greek law 4336/2015, among others, laid out the conditions for: (a) the protection of the primary residence of a debtor from forced sale and (b) the partial funding by the Hellenic Republic of the amount of monthly payments set by a Court decision. In addition, Greek law 4336/2015, as in force, introduced an accelerated settlement process regarding minor debts of particular indebted individuals.

On 29 March 2019, the Greek Parliament replaced the former legal regime by adopting Greek law 4605/2019. The new provisions, which entered into force on 30 April 2019, introduce, inter alia, important amendments to the eligibility criteria of for admission of debtors to the protection framework.

Pursuant to the new legal framework, over-indebted debtors who meet the below criteria may apply through electronic means until 31 December 2019 for the settlement of their debts by arranging a partial repayment of their due debts and writing off the remainder of their debts, provided the terms of settlement are complied with. Both consumers and professionals will be subject to the new provisions regardless of whether they have the capacity to be declared bankrupt under the Bankruptcy Code.

Settlement is possible only for amounts owed to credit institutions and the Hellenic Consignment Deposit and Loans Fund (in case of a house loan) and for which a mortgage or a mortgage pre-notation has been registered in favour of the aforementioned entities over the debtor's main residence and provided that at the date of submission of the application, the amounts owed are claims outstanding for more than 90 days as at 31 December 2018.

The following criteria must also cumulatively be met: (a) the objective value of the debtor's main residence (which is the last residence declared to the Greek tax authorities) for which protection is requested is located in Greece and may not exceed €175,000 in case of corporate loans and €250,000 for any other type of loan; (b) the total amount owed does not exceed €130,000 (except for corporate loans in which case the total amount owed should not exceed €100,000); (c) no final court decision has been issued under the previous regime of Law 3869/2010; (d) the available family income of the debtor does not exceed €12,500 the year preceding the application filing, increased by €8,500 for a married debtor or debtor which has entered into a cohabitation agreement, and by €5,000 for each "dependent member" (e.g. child) and for up to three (3) persons; (e) deposits and other financial products or precious metals of the debtor, their wife or husband and of their "dependent member(s)" do not exceed €15,000; and (f) if the total amounts owed exceed €20,000, the value of the real estate assets as well as the value of the vehicle(s) of the debtor, their wife or husband and "dependent member" do not exceed €80,000 the year of the application submission.

Moreover, for the protection of their main residence, the debtor should pay in equal monthly instalments and within 25 years, 120% of the value of its main residence plus interest 3-month Euribor + 2%¹. In case 120% of the value of its main residence exceeds the total amounts owed (for which the request for settlement was submitted), the total amounts owed are paid respectively in equal monthly instalments. The Greek State also contributes to the payment of these monthly instalments under certain conditions.

It is also explicitly provided in the new law that (a) a single application per debtor may be filed for the settlement of amounts owed; (b) a settlement proposal accepted by both the creditor and the debtor constitutes an enforceable title by virtue of which enforcement proceedings may be either initiated in relation to the remaining debtor's assets (except for their main residence) or initiated for their main residence in case the debtor fails to meet the payment settlement conditions (i.e. if the debtor owes in total more than three (3) monthly instalments); and (c) the assignment of the debtor's claims to a special purpose vehicle according to the provisions of the Securitisation Law, the servicing of such claims to entities of Law 4354 or the replacement of the guarantor or co-debtor do not prevent the settlement of amounts owed by the over-indebted individuals.

In case a consensus arrangement is not reached between the parties (i.e. the credit institution or the Hellenic Consignment Deposit and Loans Fund and the debtor), the latter may file a petition under article 1000 of the Greek Civil Procedure Code for suspension of the auction before the competent Magistrate's Court for the settlement of the amounts owed.

Finally, if the debtor fails to meet the payment settlement conditions (i.e. if the debtor owes in total more than three (3) monthly instalments), enforcement proceedings may be initiated against the debtor. In this case, despite the provisions of article 926 paragraph 1 of the Greek Civil Procedure Code, there must be an interval of 30 calendar days between the service of the order for enforcement and the seizure over the real estate property.

Auction Proceeds

The proceeds of an auction following enforcement against a property securing a Loan are allocated in accordance with Articles 975, 976 and 977 of the Greek Civil Procedure Code, as amended by Law 4335/2015 and most recently by Greek law 4512/2018. The Greek law 4512/2018 introduced significant amendments to the Greek Civil Procedure Code in respect of the allocation of proceeds to the creditors of the debtor.

¹ For the determination of the payable amount, the value of the main residence is considered as being the commercial value of the property as at 31 December of the year preceding the date of submission of the application for settlement as referenced in the records of the credit institution. If an application for settlement is submitted before 30 April, the value of the property as at 31 December two years prior to the date of submission of the application for settlement is considered. If the debtor proves that the commercial value of its main residence is different from the value included in the records of the credit institution, then the value proposed by the debtor is taken into account for the calculation of the 120%.

After the entry into force of article 977A of the Greek Civil Procedure Code and as regards the new claims arising as of 17 January 2018 and onwards, if such claims are secured through a first ranking pledge, the auction proceeds are allocated, after deduction of the enforcement expenses, to the extent applicable, in the following order:

- (a) creditors granted special privileges under cases 1 and 2 of article 976 of the Greek Civil Procedure Code, as in force, (which include secured creditors through a mortgage or a mortgage pre-notation over the property or a pledge);
- (b) creditors granted privileges under articles 975 and case 3 of article 976 of the Greek Civil Procedure Code, as in force;
- (c) unsecured creditors.

In addition, proceeds raised prior to the date of the first auction which relate to unpaid wages of up to six (6) months on the basis of dependent employment up to a monthly amount equal to the statutory minimum wage for an employee aged over twenty five (25) years of age, multiplied by 275 per cent. are allocated before any other claim (super privilege) and after deduction of the costs of execution.

In case that a pre-notation or mortgage is registered over more than one asset of the Borrower, the abovementioned claims related to unpaid wages, if announced, are satisfied by auction proceeds allocated to the creditors as following: (i) *pari passu*, if the auctions took place simultaneously; or (ii) according to the chronological order of the auctions until to payment in full, if the auctions took place successively. In the case of (ii) above, the creditors who enjoy special privileges which not satisfied are granted a right to the auction proceeds from the remaining auctioned assets of the Borrower. After the satisfaction of privileged creditors, the non-privileged creditors are satisfied *pari passu* by the remaining amount of the auction proceeds.

In respect of the claims arising as of 1 January 2016 until 16 January 2018 and in respect of orders of execution served to the debtor after 1 January 2016, auction proceeds continue to be allocated, after deduction of the enforcement expenses reasonably determined by the auction clerk, to the following creditors of the Borrower, to the extent applicable, in the following order, pursuant to the Greek law 4335/2015, as it previously stood:

- (a) Creditors enjoying general privileges under Article 975 of the Greek Civil Procedure Code:
 - (i) medical and funeral expenses of the debtor and his family that arose within the last twelve (12) months prior to the day of the public auction or the declaration of bankruptcy and compensation claims (except claims for moral damages) due to disability exceeding eighty per cent. (80 per cent.) or more that arose until the day of the public auction or the declaration of bankruptcy;
 - (ii) claims for the nourishment of the debtor and his family that arose during the last six months before the day of the public auction or the declaration of bankruptcy;
 - (iii) claims based on salaried employment, claims from fees expenses and compensation of lawyers paid under fixed regular remuneration, provided that they arose within the last two years prior to the day of the first public auction or the declaration of bankruptcy compensation claims arising by reason of termination of employment arrangements and lawyers' compensation claims arising by reason of the termination of in-house employment arrangement. The same rank also includes claims of the State in respect of the Value Added Tax (VAT) and any attributable or withholding taxes together with any surcharges and interests imposed on such claims, as well as claims of social security organisation, alimony claims in case of death of the person owing alimony and compensation claims due to

disability exceeding sixty seven per cent. (67 per cent.) which arose up to the day of the public auction or the declaration of bankruptcy;

- (iv) claims of farmers or agricultural cooperatives from the sale of agricultural products that arose within the last year prior to the day the public auction was first set to occur or the declaration of bankruptcy;
- (v) claims of the State and municipal authorities arising out of any cause, together with any surcharges and interest imposed on such claims;
- (vi) claims of the Greek Investor Compensation Scheme (**Synegyitiko**) against the debtor, insofar as the debtor was an investment services firm and the claims of such fund were born within the two (2) years preceding the day of the public auction or the declaration of bankruptcy;
- (vii) claims by the Athens Stock Exchange Members' Guarantee Fund (if the Borrower is or was an investment services company within the meaning of Greek law 3606/2007) arising in the previous two years before the date of the auction or the declaration of bankruptcy (this should not be relevant for any Borrower),

(b) secured creditors through a mortgage or a mortgage pre-notation over the property; and

(c) unsecured creditors.

In case of concurrence of general privileges (as mentioned above) and special privileges (which include claims secured by pledge or mortgage) and non – privileged claims, the percentage of satisfaction of the creditors with general privileges is limited to up to twenty five percent (25 per cent.), whereas the percentage of satisfaction of creditors with special privileges is up to sixty five percent (65 per cent.). The remaining amount of ten percent (10 per cent.) of the auction proceeds is allocated to the non – privileged creditors. In case of concurrence of creditors with special privileges and non – privileged creditors, an amount of ninety (90 per cent.) is allocated to creditors with special privileges, while an amount of ten percent (10 per cent.) of the auction proceeds is allocated to the non-privileged creditors. In case of concurrence of claims with general privileges and non – privileged claims, the percentage of satisfaction of the former is seventy percent (70 per cent.).

Accordingly, the Issuer, as owner of a first ranking pre-notation could be limited to receiving approximately two thirds or sixty five per cent (65 per cent.) (as applicable) of the proceeds raised by an auction of a property securing a Loan if creditors with general privileges and non-privileged creditors exist. In such case, the proceeds may not be sufficient to discharge the amount that is owed by the Borrower to the Issuer under the Loan, which may in turn affect the Issuer's ability to meet its obligations in respect of the Covered Bonds.

However, given that the loans are given a maximum eighty per cent. (80 per cent.) LTV indexed value for the purpose of calculating the Statutory Tests and the Amortisation Test the value of the property securing a Loan should exceed the Outstanding Principal Balance of that portion of the Loan accredited value for the purposes of the Statutory Tests. Accordingly, the possibility that the Issuer will not receive sufficient proceeds following the enforcement against a property securing a Loan to discharge the amounts that are owed to it by the relevant Borrower is reduced.

Greek Covered Bond Legislation

In Greece, the primary legal basis for Covered Bonds issuance is Article 152 of Greek law 4261/2014 (**Primary Legislation**). The transactions contemplated in this Base Prospectus are based, in part, on the provisions of the Greek Covered Bond Legislation. So far as the Issuer is aware, as at the date of this Base Prospectus there have been several similar issues of securities based upon the Greek Covered Bond

Legislation and there has been no judicial authority as to the interpretation of any of the provisions of the Greek Covered Bond Legislation. For further information on the Greek Covered Bond Legislation, see "*Overview of the Greek Covered Bond Legislation*". There are a number of aspects of Greek law which are referred to in this Base Prospectus with which potential Covered Bondholders are likely to be unfamiliar. Particular attention should be paid to the sections of this Base Prospectus containing such references.

Insolvency proceedings and subordination provisions

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a hedging counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty (so-called "flip clauses"). Such provisions are similar in effect to the terms which will be included in the Transaction Documents relating to the subordination of Subordination Termination Payments.

The English Supreme Court has held that a flip clause as described above is valid under English law. Contrary to this however, the US Bankruptcy Court has held that such a subordination provision is unenforceable under US bankruptcy law and that any action to enforce such provision would violate the automatic stay which applies under such law in the case of a US bankruptcy of the counterparty. The implications of this conflict remain unresolved. However, a subsequent U.S. Bankruptcy Court decision held that flip clauses are protected under the bankruptcy code and therefore enforceable on bankruptcy. This decision was affirmed on 14 March 2018 by the US District Court. The implications of these conflicting judgments remain unresolved.

If a creditor of the Issuer (such as a Hedging Counterparty) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales (including, but not limited to, the US), and it is owed a payment by the Issuer, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the English law governed Transaction Documents (such as a provision of the Priorities of Payments which refers to the ranking of the Hedging Counterparties' payment rights in respect of Subordination Termination Payments). In particular, based on the decision of the US Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under US bankruptcy laws. Such laws may be relevant in certain circumstances with respect to a range of entities which may act as Hedging Counterparty, including US established entities and certain non-US established entities with assets or operations in the US (although the scope of any such proceedings may be limited if the relevant non-US entity is a bank with a licensed branch in a US state).

In general, if a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction outside England and Wales and any relevant foreign judgment or order was recognised by the English courts, there can be no assurance that such actions would not adversely affect the rights of the Covered Bondholders, the market value of the Covered Bonds and/or the ability of the Issuer to satisfy its obligations under the Covered Bonds.

Lastly, given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents will include terms providing for the subordination of Subordination Termination Payments, there is a risk that the final outcome of the dispute in such judgments (including any recognition action by the English courts) may result in negative rating pressure in respect of the Covered Bonds. If any rating assigned to the Covered Bonds is lowered, the market value of the Covered Bonds may reduce.

Changes of law

The structure of the issue of the Covered Bonds and the ratings which are to be assigned to them are based on English and Greek law and administrative practice, respectively, in effect as at the date of this Base Prospectus, and having regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to English or Greek law (or the laws of any other jurisdiction) (including any change in regulation which may occur without a change in the primary legislation) or administrative practice in the U.K. or Greece after the date of this Base Prospectus or can any assurance be given as to whether any such change would adversely affect the ability of the Issuer to make payments under the Covered Bonds.

Covered Bonds where denominations involve integral multiples: definitive Covered Bonds

In relation to any issue of Covered Bonds that have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Covered Bonds may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a Covered Bondholder who, as a result of trading such amounts, holds an amount which (after deducting integral multiples of such minimum Specified Denomination) is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Covered Bond in respect of such holding (should definitive Covered Bonds be printed) and would need to purchase a principal amount of Covered Bonds such that its holding amounts to a Specified Denomination.

If definitive Covered Bonds are issued, Covered Bondholders should be aware that definitive Covered Bonds that have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Exchange rate risks and exchange controls

The Issuer (or the Servicer on its behalf) will pay principal and interest on the Covered Bonds in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit other than the Specified Currency (the **Investor's Currency**). These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency equivalent yield on the Covered Bonds, (2) the Investor's Currency-equivalent value of the principal payable on the Covered Bonds and (3) the Investor's Currency-equivalent market value of the Covered Bonds. As a result, investors may receive less interest or principal than expected, or no interest or principal (in an Investor's currency-equivalent basis).

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Greek Withholding Tax

Potential investors of Covered Bonds should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing Covered Bonds and receiving payments of interest, principal and/or other amounts or delivery of securities under the Covered Bonds and the consequences of such actions under the tax laws of those countries.

In particular, investors should note that the Greek income taxation framework is regulated by virtue of Greek law 4172/2013, effective as of 1 January 2014, as amended from time to time (the Income Tax Code).

Accordingly, though a number of interpretative circulars were issued, very little (if any) precedent exists as to the application of the Income Tax Code.

Further, non-Greek tax residents may have to submit a declaration of non-residence or produce documentation evidencing non-residence in order to claim any exemption under applicable tax laws in Greece. Please also refer to the "*Taxation*" section.

GENERAL DESCRIPTION OF THE PROGRAMME

The following overview does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Base Prospectus and, in relation to the terms and conditions of any particular Series or Tranche of Covered Bonds, the applicable Final Terms. The Issuer and any relevant Dealer may agree that Covered Bonds shall be issued in a form other than that contemplated in the Terms and Conditions, in which event, if appropriate, a supplement to the Base Prospectus or a new Base Prospectus will be published.

Words and expressions defined in the "Terms and Conditions of the Covered Bonds" below or elsewhere in this Base Prospectus have the same meanings in this summary.

PRINCIPAL PARTIES

Issuer Alpha Bank A.E. (**Alpha** or the **Issuer**).

Issuer Legal Entity Identifier (LEI) 5299009N55YRQC69CN08

Arrangers Barclays Bank PLC and Alpha Bank A.E. (together the **Arrangers** and, each of them, an **Arranger**), save that in the event of the exit by the United Kingdom from the European Union, (i) Barclays Bank PLC shall automatically cease to be appointed as Arranger and shall automatically be deemed to have its appointment as Dealer terminated pursuant to the provisions of the Programme Agreement, and (ii) Barclays Bank Ireland PLC shall be appointed as Arranger, in each case effective as of the Withdrawal Date. References to the Arranger or Arrangers and Dealer or Dealers following the Withdrawal Date shall be construed accordingly.

Withdrawal Date means the date on which the United Kingdom exits the European Union.

Dealer(s) Each of Barclays Bank Ireland PLC, Barclays Bank PLC and Alpha and/or any other dealers appointed from time to time in accordance with the Programme Agreement, save that in the event of the exit by the United Kingdom from the European Union Barclays Bank PLC shall automatically cease to be appointed as Dealer effective as of the Withdrawal Date and references in this Base Prospectus to the Dealer or Dealers following the Withdrawal Date shall be construed accordingly.

Servicer Alpha (in its capacity as the servicer and, together with any replacement servicer appointed pursuant to the Servicing and Cash Management Deed from time to time (the **Servicer**) will service the Loans and Related Security in the Cover Pool pursuant to the Servicing and Cash Management Deed.

The Servicer shall also undertake certain notification and reporting services together with account handling services in relation to moneys from time to time standing to the credit of the Transaction Account and cash management activities (the **Servicing and Cash Management Services**) in accordance with the Servicing and Cash Management Deed and the Greek Covered Bond Legislation, including the calculation of the Statutory Tests and the Amortisation Test. See "*Servicing and Collection Procedures*" below.

Asset Monitor

A reputable firm of independent auditors and accountants appointed pursuant to the Asset Monitor Agreement as an independent monitor to perform certain tests and recalculations in respect of (i) the Statutory Tests when required in accordance with the requirements of the Bank of Greece and (ii) the Amortisation Test when required in accordance with the Servicing and Cash Management Deed. The initial Asset Monitor was Deloitte Hadjipavlou, Sofianos & Cambanis S.A. acting through its office at 3a Fragkoklissias & Granikou str., GR – 151 25 Maroussi, and was replaced on 30 June 2017 by PricewaterhouseCoopers S.A. acting through its office at 268 Kifissias Avenue, GR-15232 Halandri, Greece (the **Asset Monitor**).

Account Bank

Citibank, N.A., London Branch acting through its office at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB has agreed to act as account bank (the **Account Bank**) pursuant to the Bank Account Agreement.

In the event that the Account Bank ceases to be an Eligible Institution, the Servicer will be obliged to transfer the Transaction Account to a credit institution with the appropriate minimum ratings.

Amendment Certificate Date means the date on which the Issuer provides the Trustee with a certificate signed by two directors of the Issuer as required by Clause 19(f)(i) (*Modifications*) of the Trust Deed, Condition 15(e)(i) and Clause 14.1 (*Modification, authorisation or waiver*) of the Deed of Charge;

Eligible Institution means any bank whose long-term and short-term issuer default ratings are at least the Fitch Minimum Ratings by Fitch, and whose long-term unsecured, unsubordinated and unguaranteed debt obligations are rated (or, following the Amendment Certificate Date long-term bank deposit rating is) at least the Moody's Required Rating by Moody's, provided that such ratings are always sufficient for the Covered Bonds to comply with Article 129(1)(c) of the Capital Requirements Regulation (EU) No.575/2013;

Fitch Minimum Ratings means, at any time:

- (a) If the then current tested rating on a timely payment basis in relation to the Covered Bonds as determined by Fitch is AAA, the Fitch Minimum Rating is a long term issuer default rating or, in relation to the Account Bank as applicable, deposit rating of A or a short-term issuer default rating of F1;
- (b) If the then current tested rating on a timely payment basis in relation to the Covered Bonds by Fitch is AA+, AA or AA-, the Fitch Minimum Rating is a long term issuer default rating or, in relation to the Account Bank as applicable, deposit rating of A- or a short-term issuer default rating of F1;
- (c) If the then current tested rating on a timely payment basis in relation to the Covered Bonds as determined the Covered Bonds by Fitch is A+, A or A-, the Fitch Minimum Rating is a long term

issuer default rating or, in relation to the Account Bank as applicable, deposit rating of BBB or a short-term issuer default rating of F2;

- (d) If the then current tested rating on a timely payment basis in relation to the Covered Bonds as determined the Covered Bonds by Fitch is BBB+, BBB or BBB-, the Fitch Minimum Rating is a long term issuer default rating or, in relation to the Account Bank as applicable, deposit rating of BBB- or a short-term issuer default rating of F3; or
- (e) If the then current tested rating on a timely payment basis in relation to the Covered Bonds as determined the Covered Bonds by Fitch is BB+, BB, BB-, B+, B or B-, the Fitch Minimum Rating is equal to the then current tested rating on a timely payment basis in relation to the Covered Bonds as determined by Fitch;

Moody's Required Rating means a long-term, unsecured, unsubordinated and unguaranteed debt obligation rating (or, following the Amendment Certificate Date a long-term bank deposit rating) of Baa3 by Moody's;

Principal Paying Agent

Citibank, N.A., London Branch (the **Principal Paying Agent** and, together with any agent appointed from time to time under the Agency Agreement, the **Paying Agents**). The Principal Paying Agent will act as such pursuant to the Agency Agreement.

Transfer Agent

Citibank, N.A., London Branch has been appointed pursuant to the Agency Agreement as transfer agent (the **Transfer Agent**).

Registrar

Citibank, N.A., London Branch has been appointed pursuant to the Agency Agreement as registrar (the **Registrar**).

Trustee

Citicorp Trustee Company Limited acting through its office at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB (the **Trustee**) has been appointed to act as bond trustee for the Covered Bondholders in respect of the Covered Bonds and will also act as security trustee to hold the benefit of all security granted by the Issuer (on trust for itself, the Covered Bondholders and the other Secured Creditors) under the Deed of Charge and the Statutory Pledge granted pursuant to the Greek Covered Bond Legislation. See "*Security for the Covered Bonds*" below.

Covered Bond means each covered bond issued or to be issued pursuant to the Programme Agreement and which is or is to be constituted under the Trust Deed, which covered bond may be represented by a Global Covered Bond or any Definitive Covered Bond and includes any replacements for a Covered Bond issued pursuant to Condition 12 (*Replacement of Covered Bonds, Coupons and Talons*).

Covered Bondholders means the several persons who are for the time being holders of outstanding Covered Bonds (being, in the case of Bearer Covered Bonds, the bearers thereof and, in the case of Registered Covered Bonds, the several persons whose names are entered in the register of holders of the Registered Covered Bonds as the holders thereof) save that, in respect of the Covered Bonds of any Series, for so long as such Covered

Bonds or any part thereof are represented by a Bearer Global Covered Bond deposited with a common depository for Euroclear and Clearstream, Luxembourg, or so long as Euroclear or Clearstream, Luxembourg or its nominee is the registered holder of a Registered Global Covered Bond, each person who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg (other than Clearstream, Luxembourg, if Clearstream, Luxembourg shall be an accountholder of Euroclear and Euroclear, if Euroclear shall be an accountholder of Clearstream, Luxembourg), as the holder of a particular principal amount of the Covered Bonds of such Series shall be deemed to be the holder of such principal amount of such Covered Bonds (and the holder of the relevant Global Covered Bond shall be deemed not to be the holder) for all purposes of the trust presents other than with respect to the payment of principal or interest on such principal amount of such Covered Bonds.

Hedging Counterparties The Issuer may, from time to time, enter into Hedging Agreements with various swap providers to hedge certain currency and/or other risks (each a **Covered Bond Swap Provider**) and interest risks (each an **Interest Rate Swap Provider** and, together with the Covered Bond Swap Providers, the **Hedging Counterparties** and each a **Hedging Counterparty**) associated with the Covered Bonds. The Hedging Counterparties will act as such pursuant to the relevant Hedging Agreements (as defined herein). Each Hedging Counterparty will be required to satisfy the conditions under paragraph I. 2(b)(bb) of the Secondary Covered Bond Legislation.

Listing Agent Banque Internationale à Luxembourg SA acting through its offices at 69 route d'Esch, Luxembourg L-2963, Luxembourg (the **Luxembourg Listing Agent**).

Rating Agencies **Rating Agencies** means, in respect of each Series of Covered Bonds, such of Fitch Ratings Limited (**Fitch**) and Moody's Investors Service Limited (**Moody's**) and any other rating agency who are rating such Series of Covered Bonds (each a **Rating Agency**).

PROGRAMME DESCRIPTION

Description: Alpha €8 billion Direct Issuance Global Covered Bond Programme.

Programme Amount Up to €8 billion (or its equivalent in other currencies determined as described in the Programme Agreement) outstanding at any time as described herein. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement.

Issuance in Series Covered Bonds will be issued in Series, but on different terms from each other, subject to the terms set out in the relevant Final Terms in respect of such Series. Save in respect of the first issue of Covered Bonds, Covered Bonds issued under the Programme will either be fungible with an existing Series of Covered Bonds or have different terms from an existing Series of Covered Bonds (in which case they will constitute a new Series). The Issuer will issue Covered Bonds without the prior consent of the Covered Bondholders pursuant to Condition 16.

As used herein, **Tranche** means Covered Bonds which are identical in all respects (including as to listing and admission to trading) and **Series** means

a Tranche of Covered Bonds together with any further Tranche or Tranches of Covered Bonds which are (a) expressed to be consolidated and form a single series and (b) identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Issue Date means each date on which the Issuer issues a Series of Covered Bonds under the Programme, as specified in the applicable Final Terms.

Interest Commencement Date means, in the case of interest-bearing Covered Bonds, the date specified in the applicable Final Terms from (and including) which the relevant Covered Bonds will accrue interest.

Final Terms

Final terms (the **Final Terms**) will be issued and published in accordance with the terms and conditions set out herein under "*Terms and Conditions of the Covered Bonds*" (the **Conditions**) prior to the issue of each Series or Tranche detailing certain relevant terms thereof which, for the purposes of that Series only, complete the Conditions and the Base Prospectus and must be read in conjunction with the Conditions and the Base Prospectus. The terms and conditions applicable to any particular Series are the Conditions completed by the relevant Final Terms.

Conditions Precedent to the Issuance of a new Series or Tranche of Covered Bonds

It is a condition precedent to the issuance of a new Series or Tranche of Covered Bonds that (i) there is no Issuer Event outstanding and that such issuance would not cause an Issuer Event, (ii) such issuance would not result in a breach of any of the Statutory Tests, (iii) the Rating Agencies have been notified of such issuance, (iv) the Bank of Greece in accordance with paragraph II.3 of the Secondary Covered Bond Legislation has been notified of such issuance and (v) if applicable, in respect of any Series or Tranche, a Hedging Agreement is entered into.

Proceeds of the Issue of Covered Bonds

The gross proceeds from each issue of Covered Bonds will be used by the Issuer to fund its general corporate purposes.

Form of Covered Bonds

The Covered Bonds will be issued in either bearer or registered form, see "*Forms of the Covered Bonds*". Registered Covered Bonds will not be exchangeable for Bearer Covered Bonds and vice versa.

Issue Dates

The date of issue of a Series or Tranche as specified in the relevant Final Terms (each, the **Issue Date** in relation to such Series or Tranche).

Specified Currency

Subject to any applicable legal or regulatory restrictions, such currency or currencies as may be agreed from time to time by the Issuer and the relevant Dealer(s) (as set out in the applicable Final Terms).

Denominations

The Covered Bonds will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and set out in the applicable Final Terms. The minimum denomination of each Covered Bond will be at least €100,000 (or, if the Covered Bonds are denominated in a currency other than Euro, at least the equivalent amount in such currency) or such other higher amount as is required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Redenomination Certain Covered Bonds may be redenominated in Euro in accordance with the redenomination provisions set out in Condition 6.8. The applicable Final Terms will set out whether the redenomination provisions of Condition 6.8 are applicable to a particular Series of Covered Bonds.

Fixed Rate Covered Bonds The applicable Final Terms may provide that certain Covered Bonds will bear interest at a fixed rate (**Fixed Rate Covered Bonds**), which will be payable on each Interest Payment Date and on the applicable redemption date and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s) (as set out in the applicable Final Terms).

Floating Rate Covered Bonds The applicable Final Terms may provide that certain Covered Bonds bear interest at a floating rate (**Floating Rate Covered Bonds**). Floating Rate Covered Bonds will bear interest at a rate determined:

- (d) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the ISDA Definitions; or
- (e) on the basis of a reference rate appearing on the agreed screen page of a commercial quotation service; or
- (f) on such other basis as may be agreed between the Issuer and the relevant Dealer(s),

as set out in the applicable Final Terms.

The margin (if any) relating to such floating rate (the **Margin**) will be agreed between the Issuer and the relevant Dealer(s) for each issue of Floating Rate Covered Bonds, as set out in the applicable Final Terms.

ISDA Definitions means the 2006 ISDA Definitions, as published by ISDA.

Other provisions in relation to Floating Rate Covered Bonds Floating Rate Covered Bonds may also have a Maximum Rate of Interest, a Minimum Rate of Interest or both (as indicated in the applicable Final Terms). Interest on Floating Rate Covered Bonds in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer(s), will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, in each case as may be agreed between the Issuer and the relevant Dealer(s) (as set out in the applicable Final Terms).

Interest Period means, in accordance with Condition 5 (*Interest*), the period from (and including) an Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Maximum Rate of Interest means in respect of Floating Rate Covered Bonds the percentage rate per annum (if any) specified in the applicable Final Terms.

Minimum Rate of Interest means in respect of Floating Rate Covered Bonds the percentage rate per annum (if any) specified in the applicable Final Terms.

Zero Coupon Covered Bonds

The applicable Final Terms may provide that Covered Bonds, bearing no interest (**Zero Coupon Covered Bonds**), may be offered and sold at a discount to their nominal amount.

Ranking of the Covered Bonds

All Covered Bonds will rank *pari passu* and *pro rata* without any preference or priority among themselves, irrespective of their Series, for all purposes except for their respective Issue Dates and Interest Commencement Dates and/or Issue Prices.

Taxation

All payments of principal and interest, in respect of the Covered Bonds and the Coupons (if any) by or on behalf of the Issuer will be made free and clear of any withholding or deduction for, or on account of, any taxes, unless the Issuer is required by applicable law to make such a withholding or deduction. In the event that such withholding, or deduction is required by law, there will be no requirement to pay any additional amounts in respect of such withholding or deduction. See Condition 8 (*Taxation*).

Status of the Covered Bonds

The Covered Bonds are issued on an unconditional basis and in accordance with Article 152 of Greek law 4261/2014 (published in the Government Gazette No 107/A/5-5-2014), (**Article 152**) and the Act of the Governor of the Bank of Greece No. 2598/2007, as amended and restated by the codifying Act of the Governor of the Bank of Greece No. 2620/2009 (the **Secondary Covered Bond Legislation** and, together with Article 152, the **Greek Covered Bond Legislation**). The Covered Bonds are backed by assets forming the Cover Pool of the Issuer and to the extent that such assets are governed by Greek law, have the benefit of a statutory pledge established by operation of law pursuant to paragraph 4 of Article 152 (the **Statutory Pledge**) by virtue of registration statement(s) filed with the Athens Pledge Registry (each a **Registration Statement**) pursuant to paragraph 5 of Article 152. The form of the Registration Statement is defined in Ministerial Decision No 95630/8-9-2008 (published in the Government Gazette No 1858/B/12-9-2008) of the Minister of Justice. See also "*Overview of the Greek Covered Bond Legislation*" below.

Payments on the Covered Bonds

Payments on the Covered Bonds will be direct and unconditional obligations of the Issuer.

Prior to an Issuer Event and prior to service of a Notice of Default, on each Interest Payment Date, the Issuer will apply any funds available to it (including, but not limited to, funds arising in relation to the assets comprised in the Cover Pool) to pay all items which are listed in the Pre-Event of Default Priority of Payment.

After the occurrence of an Issuer Event (but prior to service of a Notice of Default) on each Programme Payment Date, the Servicer will apply the Covered Bonds Available Funds in accordance with the Pre Event of Default Priority of Payments.

After the service of a Notice of Default, all funds deriving from the Cover Pool Assets, the Transaction Documents and standing to the credit of the

Transaction Account shall be applied on any Athens Business Day in accordance with the Post Event of Default Priority of Payments. See also "*Priority of Payments following the delivery of a Notice of Default*" below.

Security for the Covered Bonds

In accordance with the Greek Covered Bond Legislation, by virtue of the Transaction Documents and pursuant to any Registration Statement, the Cover Pool and all cashflows derived therefrom (including any amounts standing to the credit of the Collection Account or the Third Party Collection Account) will be available to satisfy the obligations of the Issuer to the Covered Bondholders and the other Secured Creditors in priority to the Issuer's obligations to any other creditors, until the repayment in full of the Covered Bonds.

Pursuant to the Deed of Charge, security will be created for the benefit of the Trustee on behalf of the Secured Creditors in respect of the Hedging Agreements, the other English law governed Transaction Documents (other than the Deed of Charge and the Trust Deed) and the Asset Monitor Agreement.

Secured Creditors means the Covered Bondholders, the Trustee, any Receiver, the Asset Monitor, the Account Bank, the Agents, the Servicer, the Hedging Counterparties and any other creditor of the Issuer pursuant to any transaction document entered into in the course of the Programme;

Receiver means any person or persons appointed (and any additional person or persons appointed or substituted) as an administrative receiver, receiver, manager, or receiver and manager of the Charged Property by the Trustee pursuant to the Deed of Charge.

Agents means the Paying Agents, the Registrar, the Transfer Agents and any Calculation Agent.

Charged Property means the property, assets and undertakings charged by the Issuer pursuant to Clause 3 of the Deed of Charge together with, where applicable, the property pledged pursuant to the Statutory Pledge.

Cross-collateralisation and Recourse

By operation of Article 152 and in accordance with the Transaction Documents, the Cover Pool Assets shall form a single portfolio, irrespective of the date of assignment to the Cover Pool and shall be held for the benefit of the Covered Bondholders and the other Secured Creditors irrespective of the Issue Date of the relevant Series. The Covered Bondholders and the other Secured Creditors shall have recourse to the Cover Pool.

The Cover Pool Assets may not be seized or attached in any form by creditors of the Issuer other than by the Trustee on behalf of the Covered Bondholders and the other Secured Creditors.

In order to ensure that the Cover Pool is, at any time, sufficient to meet the payment obligations of the Issuer under the Covered Bonds, the Issuer shall be entitled, within certain limits and upon certain conditions, to effect certain changes to the Cover Pool Assets comprising the Cover Pool. See "*Optional Changes to the Cover Pool*" below.

Issue Price

Covered Bonds of each Series may be issued at par or at a premium or

discount to par on a fully-paid basis (in each case, the **Issue Price** for such Series or Tranche) as specified in the relevant Final Terms in respect of such Series.

Interest Payment Dates

In relation to any Series of Covered Bonds, the Interest Payment Dates will be specified in the applicable Final Terms (as the case may be).

Programme Payment Date

The 20th calendar day of each month and if such day is not an Athens Business Day, the first Athens Business Day thereafter (the **Programme Payment Date**).

Athens Business Day means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in Athens.

Redemption

The applicable Final Terms will indicate either that the relevant Series of Covered Bonds cannot be redeemed prior to their stated maturity or that such Series of Covered Bonds can be redeemed prior to their stated maturity for taxation reasons in the manner set out in Condition 7, or that such Covered Bonds will be redeemable at the option of the Issuer and/or the Covered Bondholders upon giving notice to the Covered Bondholders or the Issuer (as the case may be), on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer(s) (as set out in the applicable Final Terms).

Unless previously redeemed or purchased and cancelled, each Covered Bond will be redeemed by the Issuer at least 100 per cent. of its nominal value on its scheduled maturity date.

Final maturity and extendable obligations under the Covered Bonds:

The final maturity date for each Series (the **Final Maturity Date**) will be specified in the relevant Final Terms as agreed between the Issuer and the relevant Dealer(s). Unless specified otherwise in the Final Terms or previously redeemed as provided in the Conditions, the Covered Bonds of each Series will be redeemed at their Principal Amount Outstanding on the relevant Final Maturity Date. If the Covered Bonds are not redeemed in full on the relevant Final Maturity Date or (as described below) where the Covered Bonds are subject to an Extended Final Maturity Date, on the Extended Final Maturity Date, then the Trustee shall serve a Notice of Default on the Issuer pursuant to Condition 10. Following the service of a Notice of Default the Covered Bonds of each Series shall become immediately due and payable.

The applicable Final Terms may also provide that the Issuer's obligations under the relevant Covered Bonds to pay the Principal Amount Outstanding on the relevant Final Maturity Date may be deferred past the Final Maturity Date until the extended final maturity date (as specified in the applicable Final Terms) (such date the **Extended Final Maturity Date**). In such case, such deferral will occur automatically if the Issuer fails to pay any amount representing the amount due on the Final Maturity Date as set out in the Final Terms (the **Final Redemption Amount**) in respect of the relevant Series of Covered Bonds on their Final Maturity Date provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Final Maturity Date may be paid by the

Issuer on any Interest Payment Date thereafter up to (and including) the relevant Extended Final Maturity Date. Interest will continue to accrue and be payable on any unpaid amounts on each Interest Payment Date up to the Extended Final Maturity Date in accordance with Condition 5 and the Issuer (or the Servicer on its behalf) will make payments on each relevant Interest Payment Date and Extended Final Maturity Date.

The Final Redemption Amount will not be less than the Principal Amount outstanding of the relevant Covered Bonds.

Principal Amount Outstanding means in respect of a Covered Bond on any day the principal amount of that Covered Bond on the relevant Issue Date thereof less principal amounts received by the relevant Covered Bondholder in respect thereof on or prior to that day provided that the Principal Amount Outstanding in respect of a Covered Bond that has been purchased and cancelled by the Issuer or any Subsidiary of the Issuer shall be zero.

Ratings

Each Series issued under the Programme may be assigned a rating by each of the Rating Agencies as set out in the applicable Final Terms.

Approval, listing and admission to trading

Application has been made to the CSSF to approve this document as a base prospectus. Application has also been made to the Luxembourg Stock Exchange for Covered Bonds issued under the Programme after the date hereof to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange.

Covered Bonds may be unlisted or may be listed or admitted to trading, as the case may be, on other stock exchanges or markets agreed between the Issuer, the Trustee and the relevant Dealer(s) in relation to each issue. The Final Terms relating to each Tranche of the Covered Bonds will state whether or not the Covered Bonds are to be listed and/or admitted to trading and, if so, on which other stock exchanges or markets.

Clearing Systems

Euroclear Bank S.A./N.V. (**Euroclear**), and/or Clearstream Banking, *société anonyme* (**Clearstream, Luxembourg**) in relation to any Series of Covered Bonds or any other clearing system as may be specified in the relevant Final Terms.

Selling Restrictions

There are restrictions on the offer, sale and transfer of the Covered Bonds in the United States, the European Economic Area (including the United Kingdom, the Hellenic Republic, Luxembourg, the Republic of Italy and the Republic of France) and Japan and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Covered Bonds. See "*Subscription and Sale*" below.

United States Selling Restrictions

Bearer Covered Bonds will be issued in compliance with U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**)) (the **D Rules**), unless (i) the relevant Final Terms state that the Bearer Covered Bonds are issued in compliance with U.S. Treasury Regulation §1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form that are applicable

for purposes of Section 4701 of the Code) (the **C Rules**), or (ii) the Bearer Covered Bonds are issued other than in compliance with the D Rules or the C Rules but in circumstances in which the Bearer Covered Bonds will not constitute "registration required obligations" under the U.S. Tax Equity and Fiscal Responsibility Act of 1982 (**TEFRA**), which circumstances will be referred to in the relevant Final Terms as a transaction to which TEFRA is not applicable.

Greek Covered Bond Legislation

The Covered Bonds will be issued pursuant to the Greek Covered Bond Legislation.

For further information on the Greek Covered Bond Legislation, see "*Overview of the Greek Covered Bond Legislation*" below.

Governing law

The Servicing and Cash Management Deed, the Trust Deed, the Deed of Charge, the Agency Agreement, the Asset Monitor Agreement, the Bank Account Agreement, the Programme Agreement, each Subscription Agreement and each Hedging Agreement and any non-contractual obligations arising out of or in connection with any of them will be governed by, and construed in accordance with, English law.

The Covered Bonds and any non-contractual obligations arising out of or in connection with any of them will be governed by and construed in accordance with English law, save that the Statutory Pledge referred to in Condition 3, will be governed by and construed in accordance with Greek law.

CREATION AND ADMINISTRATION OF THE COVER POOL

The Cover Pool

Pursuant to the Greek Covered Bond Legislation, the Issuer will be entitled to create the Statutory Pledge over the Cover Pool Assets.

By virtue of the Registration Statement(s) filed with the Athens Pledge Registry on or prior to the Issue Date for the first Series of Covered Bonds, the Issuer shall segregate the Cover Pool in connection with the issuance of Covered Bonds for the satisfaction of the rights of the Covered Bondholders and the other Secured Creditors. See "*Principal Description of the Documents*" – "*The Servicing and Cash Management Deed*".

CHANGES TO THE COVER POOL

Optional changes to the Cover Pool

The Issuer shall be entitled, subject to filing a Registration Statement so providing and subject to the satisfaction of the requirements in the Servicing and Cash Management Deed, to allocate to the Cover Pool Additional Cover Pool Assets and/or remove or substitute Cover Pool Assets.

Any further assets added to the Cover Pool at the option of the Issuer shall form part of the Cover Pool.

Upon any addition to the Cover Pool of any Additional Cover Pool Assets where the relevant transfer date is also an Issue Date or the Issuer ceases to have the Minimum Credit Ratings, the Issuer shall deliver a certificate, or as the case may be, procure the delivery of a certificate confirming that (i)

such Additional Cover Pool Assets comply with the Eligibility Criteria and are subject to the Statutory Pledge and (ii) no Issuer Insolvency Event (as defined below) or a breach of any Statutory Test has occurred or, as a result of the addition of such Additional Cover Pool Assets to the Cover Pool, will occur.

Issuer Insolvency Event means in relation to the Issuer:

- (a) an order is made or an effective resolution passed for the liquidation or winding up of the Issuer, except for the purposes of a reconstruction, amalgamation or merger or following the transfer of all or substantially all of the assets of the relevant entity, the terms of which have previously been approved in writing by the Trustee or by an Extraordinary Resolution of the Covered Bondholders (of all Series taken together as a single Series) or which has been effected in compliance with the terms of Condition 18;
- (b) the Issuer stops or threatens to stop payment to its creditors generally;
- (c) the Issuer stops or threatens to stop payment or shall be unable to, or shall admit inability to, pay its debts as they fall due, or shall be adjudicated or found bankrupt or insolvent by a court of competent jurisdiction or shall make a conveyance or assignment for the benefit of, or shall enter into any composition or other arrangement with, its creditors generally;
- (d) a receiver, trustee or other similar official shall be appointed in relation to the Issuer or in relation to the whole or substantial part of the assets of, the Issuer or an interim supervisor of the Issuer is appointed by the Bank of Greece or an encumbrancer shall take possession of the whole or substantial part of the assets of the Issuer, or a distress or execution or other process shall be levied or enforced upon or sued out against the whole or (in the opinion of the Trustee) a substantial part of the assets of the Issuer and in any of the foregoing cases it or he shall not be discharged within 60 days;
- (e) the imposition on the Issuer of resolution measures in accordance with article 37 of Greek law 4335/2015; or
- (f) a supervisor (*Epitropos*) of the Issuer is appointed in accordance with article 137 of Greek law 4261/2014 or Issuer is placed in liquidation in accordance with article 145 of Greek law 4261/2014.

Greek Bankruptcy Code means Greek law 3588/2007.

Minimum Credit Rating means a long term credit rating of at least BB- by Fitch and Ba3 by Moody's.

Rating Agency Confirmation means a confirmation in writing by Moody's that the then current ratings of the Covered Bonds will not be adversely affected by or withdrawn as a result of the relevant event or

matter.

Disposal of the Loan Assets

Following the occurrence of an Issuer Event which is continuing (but prior to the service of a Notice of Default), the Servicer, or any person appointed by the Servicer, acting in the name and on behalf of the Issuer, or the Trustee, as the case may be, will have the option to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to try to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed. The proceeds from any such sale will be credited to the Transaction Account and applied in accordance with the relevant Pre-Event of Default Priority of Payments.

In certain circumstances the Issuer shall have the right to prevent the sale of Loan Assets to third parties by removing the Loan Assets made subject to sale from the Cover Pool and transferring within ten Athens Business Days from the receipt of an offer letter, to the Transaction Account, an amount equal to the then Outstanding Principal Balance of the Selected Loans and the relevant portion of all arrears of interest and accrued interest relating thereto, subject to the provision of a solvency certificate. See "*Description of Principal Documents – Servicing and Cash Management Deed*".

Following the occurrence of an Event of Default and service of a Notice of Default, the Trustee may (and shall if directed by the Covered Bondholders) direct the Servicer to dispose of part or all of the Cover Pool. The Cover Pool Assets shall include any Selected Loans which have previously been selected for disposal in relation to any Series of Covered Bonds but which have not yet been sold.

Undertakings of the Issuer in respect of the Cover Pool

Pursuant to the Transaction Documents, the Issuer or the Servicer undertakes to manage the Cover Pool in the interest of the Covered Bondholders and the other Secured Creditors and undertakes to take in a timely manner, any actions required in order to ensure that the servicing of the Loan Assets is conducted in accordance with the collection policy and recovery procedure applicable to the Issuer.

Representations and Warranties of the Issuer

Under the Servicing and Cash Management Deed, the Issuer has made and will make certain representations and warranties regarding itself and the Cover Pool Assets including, *inter alia*:

- (a) its status, capacity and authority to enter into the Transaction Documents and assume the obligations expressed to be assumed by it therein;
- (b) the legality, validity, binding nature and enforceability of the obligations assumed by it;
- (c) the existence of the Cover Pool Assets;
- (d) the absence of any lien attaching to the Cover Pool Assets;

- (e) its full, unconditional, legal title to the Cover Pool Assets; and
- (f) the validity and enforceability against the relevant debtors of the obligations from which the Cover Pool Assets arise.

Eligibility Criteria

Each Loan Asset to be included in the Cover Pool shall comply with the following criteria (the **Eligibility Criteria**):

- (a) each Loan is an existing loan made to Borrowers who are individuals, is denominated in Euro and made to Borrowers who are resident in a Member State of the European Union which has adopted the Euro;
- (b) on the date on which a Loan is added to the Cover Pool, the total Outstanding Principal Balance of all Loans in the Cover Pool made to the primary Borrower under the Loan does not exceed 1 per cent. of the aggregate Outstanding Principal Balance of all Loans in the Cover Pool;
- (c) each Loan is governed by Greek law and is subject to the jurisdiction of the courts of Greece;
- (d) the nominal value of each Loan remains a debt which has not been paid or discharged;
- (e) it is not a Loan made to an employee of the Issuer;
- (f) the Loan is secured against completed properties only;
- (g) each Loan is secured by a valid and enforceable first ranking mortgage and/or mortgage pre-notation over property located in Greece that is used for residential purposes;
- (h) notwithstanding (g) above, if the mortgage and/or mortgage pre-notation is lower ranking, (i) the Issuer has determined to its satisfaction acting as a prudent mortgage lender that there are no actual claims capable of being made in connection with such prior ranking mortgages or pre-notations; or (ii) the Loans that rank higher have also been originated by the Issuer (or, as applicable, are Loans the legal and beneficial title to which are held by the Issuer) and are included in the Cover Pool;
- (i) all lending criteria and preconditions applied by the Originator's credit policy and customary lending procedures have been satisfied with regards to the granting of each Loan;
- (j) no Loan is guaranteed by Greek Government;
- (k) the purpose of such Loan is either to buy, construct or renovate a property or refinance a loan granted by another bank for one of these purposes;
- (l) it is either a fixed rate Loan or a floating rate Loan or a

combination of both;

- (m) it is not a Subsidised Loan;
- (n) on the date on which such Loan is added to the Cover Pool, it is not forborne in accordance with the policy of the Servicer.

Monitoring of the Cover Pool

Prior to the occurrence of an Issuer Event, the Servicer shall verify that:

- (a) the Cover Pool satisfies the Nominal Value Test on each Calculation Date;
- (b) the Cover Pool satisfies the Net Present Value Test on each Calculation Date; and
- (c) the Cover Pool satisfies the Interest Cover Test on each Calculation Date,

(collectively, the **Statutory Tests** and each a **Statutory Test**).

Calculation Date means the Athens Business Day which falls five Athens Business Days prior to each Programme Payment Date.

Statutory Tests

Pursuant to the Greek Covered Bond Legislation, the Cover Pool is subject to the Statutory Tests as set out in the Secondary Covered Bond Legislation. Failure of the Issuer to cure a breach of any one of the Statutory Tests within five Athens Business Days will result in (i) an Issuer Event and (ii) the Issuer not being able to issue further Covered Bonds. See "*Description of the Principal Documents*" – "*The Servicing and Cash Management Deed*".

Breach of Statutory Tests

If on a Calculation Date any one or more of the Statutory Tests being tested on such Calculation Date are not satisfied, the Issuer must cure any breach(es) of the relevant Statutory Tests within 5 Athens Business Days, failing which an Issuer Event shall occur.

The Servicer will immediately notify the Trustee, and where the Servicer is not Alpha, the Issuer and the Trustee, of any breach of any of the Statutory Tests.

In the event that the Issuer breaches any Statutory Test, the Issuer will not be permitted to issue any further Covered Bonds until such time as such Statutory Test breach has been cured.

Amortisation Test

In addition to the Statutory Tests and pursuant to the Servicing and Cash Management Deed, after the occurrence of an Issuer Event and so long as a Notice of Default has not been served, the Cover Pool will be subject to the Amortisation Test. The Amortisation Test is intended to ensure that the Cover Pool Assets are sufficient to meet the obligations under all Covered Bonds outstanding together with senior expenses that rank in priority or *pari passu* with amounts due on the Covered Bonds.

The Amortisation Test will be tested by the Servicer on each Calculation

Date following an Issuer Event. A breach of the Amortisation Test will constitute an Event of Default, which, following receipt of notice of such breach from the Servicer, will require the Trustee to serve a Notice of Default upon the Issuer whereupon the Covered Bonds of each Series will become immediately due and repayable and the Trustee may enforce the Security over the Charged Property.

The Servicer will immediately notify the Trustee and, where the Servicer is not Alpha, the Issuer and the Trustee, of any breach of the Amortisation Test and of the occurrence of an Event of Default.

Amendment to definitions

The Servicing and Cash Management Deed will provide that the definitions of Cover Pool, Cover Pool Asset, Eligibility Criteria, Statutory Test and Amortisation Test may be amended by the Issuer (without the consent of the Trustee) from time to time as a consequence of, *inter alia*, including in the Cover Pool Additional Cover Pool Assets that are New Asset Types and/or changes to the hedging policies or servicing and collection procedures of Alpha provided that Fitch have been notified in writing of such amendment and Moody's has provided confirmation in writing that the ratings on the Covered Bonds would not be adversely affected within 15 days of such notification by, or withdrawn as a result of such amendment. The Servicing and Cash Management Deed shall set forth the conditions for any such amendment to be effected.

See "*Description of Principal Documents – Servicing and Cash Management Deed – Amendment to Definitions*".

Issuer Events

Prior to, or concurrent with the occurrence of an Event of Default, if any of the following events (each, an **Issuer Event**) occurs:

- (a) an Issuer Insolvency Event;
- (b) the Issuer fails to pay any principal or interest in respect of the Covered Bonds of any Series or in each case within a period of seven Athens Business Days from the due date thereof;
- (c) default is made by the Issuer in the performance or observance of any obligation, condition or provision binding on it (other than any obligation for the payment of amounts due under the Covered Bonds or Coupons of any Series) under the Trust Deed, the Deed of Charge or any other Transaction Document to which the Issuer is a party which, in the opinion of the Trustee, would have a materially prejudicial effect on the interests of the Covered Bondholders of any Series, and (except where such default is or the effects of such default are, in the opinion of the Trustee, not capable of remedy when no such continuation and notice as is hereinafter mentioned will be required) such default continues for 30 days (or such longer period as the Trustee may permit) after written notice has been given by the Trustee to the Issuer requiring the default to be remedied;
- (d) any present or future Indebtedness in respect of moneys borrowed or raised in an amount of €15,000,000 or more (other than Indebtedness under this Programme) of the Issuer becomes due

and payable prior to the stated maturity thereof as extended by any grace period originally applicable thereto; or if any present or future guarantee of, or indemnity given by the Issuer in respect of such Indebtedness is not honoured when called upon or within any grace period originally applicable thereto;

- (e) if there is a breach of a Statutory Test on a Calculation Date and such breach is not remedied within five Athens Business Days; or
- (f) if it is or will (in the opinion of the Trustee, having taken legal advice from a reputable firm of lawyers or a reputable legal expert) become unlawful or illegal for the Issuer to comply with any of its obligations under or in respect of the Covered Bonds or any of the Transaction Documents where such unlawfulness or illegality cannot be remedied and, in the case of an unlawfulness or illegality which can be remedied, is not remedied within 30 days after written notice has been given by the Trustee to the Issuer requiring the same to be remedied,

then (for as long as such Issuer Event is continuing) (i) no further Covered Bonds will be issued, (ii) the Servicer will procure that any and all payments due under the Cover Pool Assets are paid henceforth directly into the Transaction Account or the Third Party Collection Account (as applicable) in accordance with the Servicing and Cash Management Deed, (iii) all collections of principal and interest on the Cover Pool Assets will be dedicated exclusively to the payment of interest and repayment of principal on the Covered Bonds and to the fulfilment of the obligations of the Issuer vis-à-vis the Secured Creditors in accordance with the relevant Priority of Payments, (iv) if Alpha is the Servicer, its appointment as Servicer will be terminated and a Replacement Servicer will be appointed pursuant to the terms of the Servicing and Cash Management Deed and the Covered Bond Legislation and (v) the Servicer or, as applicable, the Replacement Servicer, appointed pursuant to the Servicing and Cash Management Deed will have the option to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed. See "*Description of the Principal Documents*" – "*The Servicing and Cash Management Deed*".

Authorised Investments

Pursuant to the Servicing and Cash Management Deed, the Servicer is entitled in its discretion prior to an occurrence of an Issuer Event to draw sums from time to time standing to the credit of the Transaction Account for purchasing Authorised Investments. See "*Description of the Principal Documents*" – "*The Servicing and Cash Management Deed*".

Servicing and collection procedures

The Servicer will be responsible for the servicing of the Cover Pool, including, *inter alia*, for the following activities:

- (a) collection and recovery in respect of each Cover Pool Asset;
- (b) administration and management of the Cover Pool;

- (c) management of any judicial or extra judicial proceeding connected to the Cover Pool;
- (d) keeping accounting records of the amounts due and collected under the Loan Assets and the Hedging Agreements;
- (e) preparation of monthly reports relating to the relevant immediately preceding Programme Payment Period (the **Servicer Reports**) (to be submitted to the Issuer, the Trustee (if requested), the Asset Monitor and the Rating Agencies) on the amounts due by debtors, and on the collections and recoveries made in respect of the Loan Assets and Hedging Agreements; and
- (f) carrying out the reconciliation of the amounts due and the amounts effectively paid by the Borrowers under the Loans on the relevant Programme Payment Date.

ACCOUNTS AND CASH FLOW STRUCTURE:

Segregation Event and Collection Account

Prior to the occurrence of an Issuer Event, Alpha will deposit on a daily basis within one Athens Business Day of receipt, all collections of interest and principal it receives on the Cover Pool Assets and all moneys received from Marketable Assets and Authorised Investments, if any, included in the Cover Pool into a segregated account maintained at Alpha (the **Collection Account**). Alpha will not commingle any of its own funds and general assets with amounts standing to the credit of the Collection Account. For the avoidance of doubt, any cash amounts standing to the credit of the Collection Account shall not comprise part of the Cover Pool for the purposes of the Statutory Tests.

All amounts deposited in, and standing to the credit of, the Collection Account shall constitute segregated property distinct from all other property of Alpha pursuant to paragraph 9 of Article 152 and by virtue of an analogous application of paragraphs 14 through 16 of Article 10 of Greek law 3156/2003.

Prior to a reduction in the long-term senior unsecured credit rating of Alpha below the Minimum Credit Rating (such occurrence, a **Segregation Event**) or an Issuer Event, Alpha will be entitled to draw sums from time to time standing to the credit of the Collection Account in addition to any other funds available to it for any purpose including to make payments on the Covered Bonds.

Following the occurrence of a Segregation Event but prior to the occurrence of an Issuer Event, (i) all amounts deposited shall remain in the Collection Account for the benefit of the holders of the Covered Bonds and the other Secured Creditors and (ii) Alpha shall only be entitled to withdraw moneys from the Collection Account (A) to the extent that amounts standing to the credit of the Collection Account shall at all times exceed the equivalent of the aggregate of (i) any amounts on any Covered Bonds Series outstanding falling due for payment or required to be transferred before or on the following Interest Payment Date of each Covered Bond Series outstanding, provided that the Interest Payment Date

falls before or on the date falling three calendar months after the date of the withdrawal (or in the case of Zero Coupon Covered Bonds, the amount by which the Amortised Face Amount on the next Programme Payment Date (provided such Programme Payment Date falls on or before the date that falls three calendar months after the date of withdrawal) exceeds the Amortised Face Amount of such Zero Coupon Covered Bond on the Programme Payment Date on the date of withdrawal, on the basis that the Accrual Yield and the Reference Price are the same on each of such date), (ii) such other payments falling due on or before the date falling three calendar months after the date of the withdrawal which rank senior to or *pari passu* with the payments on the Covered Bonds (by reference to the Pre Event of Default Priority of Payments) and/or, (iii) any sums required to be transferred to the Reserve Ledger on or before the date falling three calendar months after the date of the withdrawal, or (B) (subject to (A) above) for the purpose of transferring funds to the Transaction Account or making payments on the Covered Bonds and/or such other payments which rank senior to or *pari passu* with the payments on the Covered Bonds (by reference to the Pre Event of Default Priority of Payments).

If Alpha's rating(s) are reinstated above the level at which a Segregation Event occurs and so long as no Issuer Event has occurred and is continuing, then Alpha will be entitled to draw sums standing to the credit of the Collection Account in addition to any other funds available to it for any purpose including to make payments on the Covered Bonds.

Credit Institution means a credit institution for the purposes of Greek law 4261/2014 of the Hellenic Republic.

Transaction Account

On or about the Programme Closing Date, a segregated Euro denominated account will be established with the Account Bank (the **Transaction Account**). Prior to the occurrence of a Segregation Event or an Issuer Event, Alpha will be entitled to withdraw amounts from time to time standing to the credit of the Transaction Account, if any, that are in excess of the sum of: (i) any cash amounts required to satisfy the Statutory Tests and (ii) the Reserve Ledger Required Amount. Following the occurrence of a Segregation Event but prior to the occurrence of an Issuer Event, Alpha shall no longer be entitled to withdraw moneys from the Transaction Account other than for purposes of making payments on the Covered Bonds and/or such payments which rank senior to or *pari passu* with the payments on the Covered Bonds (by reference to in accordance with the Pre Event of Default Priority of Payments). If Alpha's rating(s) are reinstated above the level at which a Segregation Event occurs, and so long as no Issuer Event has occurred, then Alpha will be entitled to withdraw amounts from time to time standing to the credit of the Transaction Account, if any, that are in excess of the sum of: (i) any cash amounts required to satisfy the Statutory Tests and (ii) the Reserve Ledger Required Amount.

Following the occurrence of an Issuer Event (as defined above), the Servicer shall (i) procure that within two Athens Business Days of the occurrence of such Issuer Event, all collections of principal and interest on deposit in the Collection Account (or, if applicable, the Third Party Collection Account) are transferred to the Transaction Account and (ii) provide notification to all Borrowers that any and all future payments

due under the Loan Assets are henceforth to be effected directly to a bank account opened in the name of the Issuer with the Replacement Servicer, a Greek Credit Institution or a Greek branch of a foreign Credit Institution (the **Third Party Collection Account**). The Servicer shall procure that all amounts deposited into the Third Party Collection Account shall be transferred to the Transaction Account within three Athens Business Days of receipt and provide any requisite notice to procure that this occurs. Following an Issuer Event, the Transaction Account will be used for the crediting of, *inter alia*, in respect of the Cover Pool Assets:

- (a) all amounts required to be credited to the Reserve Ledger;
- (b) any amounts received by the Issuer or the Servicer in respect of the Loan Assets and the Marketable Assets;
- (c) any amounts credited by the Issuer for effecting payments on the Covered Bonds;
- (d) any amounts deposited by the Issuer to effect an optional substitution of Cover Pool Assets (including any amount deposited by the Issuer to prevent a sale of any Loan Assets to a third party);
- (e) any amounts transferred by the Servicer in connection with the sale of Cover Pool Assets;
- (f) all amounts paid to the Issuer by the Hedging Counterparties under the Hedging Agreements (other than Swap Collateral Excluded Amounts (if any)); and
- (g) all amounts deriving from maturity or liquidation of Authorised Investments.

The Issuer (or the Servicer on its behalf) will maintain records in relation to the Transaction Account in accordance with the Transaction Documents.

Following the occurrence of an Issuer Event, the Issuer (or the Servicer on its behalf) shall transfer any amounts it receives in respect of any Cover Pool Assets (including any Subsidy Payments) to the Transaction Account within two Athens Business Days of receipt. See "*Description of the Principal Documents*" – "*The Servicing and Cash Management Deed*".

The Transaction Account will be maintained with the Account Bank for as long as the Account Bank is an Eligible Institution.

Reserve Ledger means the ledger on the Transaction Account of such name maintained by the Servicer pursuant to the Servicing and Cash Management Deed.

Reserve Ledger Required Amount means an amount calculated as at each Calculation Date equal to the amount that will be required to be paid by the Issuer in respect of the Covered Bonds in respect of interest (in respect of those Covered Bonds where there is no Swap Agreement in place and all amounts to be paid to a Covered Bond Swap Provider (in respect of those Covered Bonds where there is a Swap Agreement in place)

(other than any principal exchange amounts)) and all amounts paid to the other Secured Creditors for the immediately following twelve month period from and including the Programme Payment Date to which such Calculation Date relates.

Event of Default

If one of the following events (each an **Event of Default**) occurs, and is continuing:

- (a) on the Final Maturity Date (if the relevant Series of Covered Bonds are not subject to an Extended Maturity Date) or, if such series of Covered Bonds are subject to an Extended Final Maturity Date, the Extended Final Maturity Date, in respect of any Series of Covered Bonds, the Extended Final Maturity Date in respect of any Series of Covered Bonds, there is a failure to pay any amount of principal due on such Covered Bonds on such date and such default is not remedied within a period of seven Athens Business Days from the due date thereof; or
- (b) on any Interest Payment Date, a default in the payment of the amount of interest due on any Series of Covered Bonds occurs and such default is not remedied within a period of 14 Athens Business Days from the due date thereof; or
- (c) breach of the Amortisation Test pursuant to Clause 8 of the Servicing and Cash Management Deed on any Calculation Date following an Issuer Event,

then the Trustee shall, upon receiving notice in writing from the Principal Paying Agent or any Covered Bondholder or, in respect of (c) the Servicer of such Event of Default, serve a notice of default (a **Notice of Default**) on the Issuer.

Following the service of a Notice of Default, the Covered Bonds of each Series shall become immediately due and payable.

Following the service of a Notice of Default, the Trustee shall be entitled to direct the Servicer to dispose of part or all of the Cover Pool Assets. See "*Description of Principal Documents - Servicing and Cash Management Deed*".

Priority of Payments prior to the delivery of a Notice of Default

At any time upon or after the occurrence of any Issuer Event but prior to the delivery of a Notice of Default, the Servicer shall apply all Covered Bonds Available Funds on each Programme Payment Date in making the following payments and provisions in the following order of priority (the **Pre Event of Default Priority of Payments**) (in each case only if and to the extent that payments of a higher priority have been made in full):

- (a) *first*, in or towards satisfaction of all amounts then due and payable or to become due and payable prior to the next Programme Payment Date to the Trustee or any Appointee (including remuneration or amounts by way of indemnity payable to it) under the provisions of the Trust Deed or any other Transaction Document together with interest and applicable VAT (or other similar taxes) thereon to the extent provided therein;

- (b) *second*, to pay *pari passu* and *pro rata*, according to the respective amounts thereof, any additional fees, costs, expenses and taxes due and payable on the Programme Payment Date or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date to the Trustee or any Appointee in order to fund any notice to be given to any parties in accordance with any of the Transaction Documents or to the Covered Bondholders in connection with the assignment and/or collection and/or management of the Cover Pool Assets;
- (c) *third*, *pari passu* and *pro rata* according to the respective amounts thereof, to pay all amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date, to the Account Bank and the Agents under the Bank Account Agreement and the Agency Agreement, respectively;
- (d) *fourth*, *pari passu* and *pro rata*, according to the respective amounts thereof, (i) to pay the Servicer an amount equal to any amount representing the cost of Levy in respect of such Loans received from Borrowers, such amount to be used by the Servicer towards satisfaction of the Issuer's obligation to pay any Levy, and (ii) to pay all amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date (and for which payment has not been provided for elsewhere in this Pre Event of Default Priority of Payments), to any Secured Creditors other than the Account Bank, the Agents, the Hedging Counterparties and the Covered Bondholders and Couponholders;
- (e) *fifth*, *pari passu* and *pro rata*, according to the respective amounts thereof (a) to pay all amounts of interest due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date on any Covered Bonds and Coupons and (b) to pay any amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date under any Hedging Agreement other than Subordinated Termination Payments to any Hedging Counterparties under any such Hedging Agreements;
- (f) *sixth*, for so long as any Covered Bonds remain outstanding, to credit the Reserve Ledger with an amount equal to the difference between the Reserve Ledger Required Amount and the amount standing to the credit of the Reserve Ledger after having made the payments under paragraphs (a) to (e) above;
- (g) *seventh*, to pay *pari passu* and *pro rata*, all amounts of principal due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date (if any) on any Covered Bonds, not including any amount due on the Final Maturity Date on any Series of Covered Bonds which have an Extended Final Maturity Date

specified in the applicable Final Terms;

- (h) *eighth*, to pay all Series of Covered Bonds (i) on the Final Maturity Date of any Series of Covered Bonds which have an Extended Final Maturity Date specified in the applicable Final Terms or (ii) in relation to which the Final Redemption Amount was not paid in full on the Final Maturity Date and an Extended Final Maturity Date is specified in the applicable Final Terms;
- (i) *ninth*, for so long as any Covered Bonds remain outstanding, any remaining Covered Bonds Available Funds will remain standing to the credit of the Transaction Account, or, as applicable, be deposited in the Transaction Account;
- (j) *tenth*, if no Covered Bonds remain outstanding, to pay *pari passu* and *pro rata*, according to the respective amounts thereof, any amount due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date to any Hedging Counterparties arising out of any Subordinated Termination Payment; and
- (k) *eleventh*, if no Covered Bonds remain outstanding, to pay any excess to the Issuer.

Subordinated Termination Payment means, subject as set out below, any termination payments due and payable to any Hedging Counterparty under a Hedging Agreement where such termination results from (a) an Additional Termination Event "*Ratings Event*" as specified in the schedule to the relevant Hedging Agreement, (b) the bankruptcy of the relevant Hedging Counterparty, or (c) any default and/or failure to perform by such Hedging Counterparty under the relevant Hedging Agreement, other than, in the event of (a) or (c) above, the amount of any termination payment due and payable to such Hedging Counterparty in relation to the termination of such transaction to the extent of any premium received by the Issuer from a replacement hedging counterparty.

Covered Bonds Available Funds

Following the occurrence of an Issuer Event, payments on the Covered Bonds will be made from the Covered Bonds Available Funds in accordance with the Pre Event of Default Priority of Payments.

Covered Bonds Available Funds means, at any time upon or after the occurrence of an Issuer Event (in respect of any Series of Covered Bonds) and, in respect of any Programme Payment Date, as the case may be, the aggregate of:

- (a) all amounts standing to the credit of the Transaction Account at the immediately preceding Calculation Date;
- (b) all amounts (if any) paid or to be paid on or prior to such Programme Payment Date by the Hedging Counterparties into the Transaction Account pursuant to the Hedging Agreement(s);
- (c) all amounts of interest paid on the Transaction Account during the

Programme Payment Period immediately preceding such Programme Payment Date; and

- (d) all amounts deriving from repayment at maturity of any Authorised Investment on or prior to such Programme Payment Date.

For the avoidance of doubt:

- (i) should there be any duplication in the amounts included in the different items of the Covered Bonds Available Funds above, the Servicer shall avoid such duplication when calculating the Covered Bonds Available Funds; and
- (ii) the Covered Bonds Available Funds will not include: (A) any early termination amount received by the Issuer under a Hedging Agreement, but only to the extent that such amount is to be applied in acquiring a replacement Interest Rate Swap or Covered Bond Swap (as applicable); (B) any Excess Swap Collateral or Swap Collateral, except to the extent that the value of such Swap Collateral has been applied, pursuant to the provisions of the relevant Hedging Agreement, to reduce the amount that would otherwise be payable by the Hedging Counterparty to the Issuer on early termination of the Interest Rate Swap or Covered Bond Swap (as applicable) and, to the extent so applied in reduction of the amount otherwise payable by the Hedging Counterparty, such Swap Collateral is not to be applied in acquiring a replacement swap; (C) any premium received by the Issuer from a replacement Hedging Counterparty in respect of a replacement Interest Rate Swap or a Covered Bond Swap, to the extent it is to be used to make any termination payment due and payable by the Issuer with respect to the previous Interest Rate Swap or Covered Bond Swap; and (D) any tax credits received by the Issuer in respect of an Interest Rate Swap or Covered Bond Swap (as applicable) used to reimburse the relevant Hedging Counterparty for any gross-up in respect of any withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature (and wherever imposed) made under the relevant Interest Rate Swap or Covered Bond Swap (as applicable).

Excess Swap Collateral means, in respect of a Hedging Agreement, an amount (which will be transferred directly to the Hedging Counterparty in accordance with the Hedging Agreement) equal to the amount by which the value of the collateral (or the applicable part of any collateral) provided by the Hedging Counterparty to the Issuer pursuant to the Hedging Agreement exceeds the Hedging Counterparty's liability under the Hedging Agreement (such liability determined as if no collateral had been provided) as at the date of termination of the Hedging Agreement or which it is otherwise entitled to have returned to it under the terms of the Hedging Agreement.

Programme Payment Period means the period from (and including) a Programme Payment Date (or, in the case of the first Programme Payment Period, the Programme Closing Date) to (but excluding) the next

Programme Payment Date.

Swap Collateral means, at any time, any asset (including, without limitation, cash and/or securities) other than Excess Swap Collateral, which is paid or transferred by a Hedging Counterparty to the Issuer as collateral in respect of the performance by such Hedging Counterparty of its obligations under the relevant Hedging Agreement together with any income or distributions received in respect of such asset and any equivalent of such asset into which such asset is transformed.

**Priority of Payments
following the delivery of a
Notice of Default**

Following delivery of a Notice of Default, all funds deriving from the Cover Pool Assets and the Transaction Documents, and any other sums standing to the credit of the Transaction Account shall be applied on any Business Day in accordance with the following order of priority of payments (the **Post Event of Default Priority of Payments** and, together with the Pre Event of Default Priority of Payments, the **Priorities of Payments** and, each of them a **Priority of Payments**) (in each case only if and to the extent that payments of a higher priority have been made in full) provided that any such amount has not been paid by the Issuer using funds not forming part of the Cover Pool:

- (a) *first*, to pay any Indemnity to which the Trustee or any Appointee or any Receiver is entitled pursuant to the Trust Deed or any other Transaction Document and any costs and expenses incurred by or on behalf of the Trustee or any Appointee or any Receiver (i) following the occurrence of a Potential Event of Default, Issuer Event or, as applicable, an Event of Default (to the extent that any such amounts have not yet been paid out of the Covered Bond Available Funds before the delivery of a Notice of Default) and (ii) following the delivery of a Notice of Default in connection with or as a result of the enforcement or realisation of (A) the security granted under the Statutory Pledge and the Deed of Charge and/or (B) any other right or remedy that the Trustee is entitled to, or is required to pursue, under or in connection with the Transaction Documents and/or the Covered Bonds for the purpose of protecting the interests of the Covered Bondholders and/or the other Secured Creditors;
- (b) *second, pari passu and pro rata* according to the respective amounts thereof, (i) to pay all amounts of interest and principal then due and payable on any Covered Bonds and Coupons, (ii) to pay any additional fees, costs, expenses and taxes due and payable in connection with any listing or deposit of the Covered Bonds or to fund any notice to be given to any parties in accordance with any of the Transaction Documents or to the Covered Bondholders, (iii) to pay all amounts due and payable to any Secured Creditors other than the Covered Bondholders and Couponholders with the exception of those amounts set out in items (b) and (d), and (iv) any amounts due and payable under any Hedging Agreement other than the Subordinated Termination Payments to any Hedging Counterparties under any such Hedging Agreements;
- (c) *third*, to pay *pari passu and pro rata*, according to the respective amounts thereof, any amount due and payable to any Hedging

Counterparties arising out of any Subordinated Termination Payment; and

- (d) *fourth*, following the payment in full of all items under (a) to (c) above, to pay all excess amounts to the Issuer.

Indemnity means any indemnity amounts due to the Trustee pursuant to the Trust Deed, the Deed of Charge or otherwise, including (without limitation) Clause 14 of the Trust Deed. See "*Description of Principal Documents*" – "*Deed of Charge*".

Potential Event of Default means any condition, event or act which, with the lapse of time and/or the issue, making or giving of any notice, certification, declaration, demand, determination and/or request and/or the taking of any similar action and/or the fulfilment of any similar condition, would constitute an Event of Default.

Servicing and Cash Management Deed

Under the terms of the Servicing and Cash Management Deed entered into on the Programme Closing Date (as amended and restated or supplemented from time to time) between the Issuer, the Trustee and the Servicer (the **Servicing and Cash Management Deed**), the Servicer has been authorised, subject to the conditions specified therein, to administer the cash flows arising from the Cover Pool.

The Servicing and Cash Management Deed sets forth the terms and conditions upon which the Servicer shall be required to administer the Cover Pool Assets.

Pursuant to the Servicing and Cash Management Deed, the Servicer has undertaken to prepare and deliver certain reports (including the Servicer Reports) in connection with the Loan Assets. Pursuant to the Servicing and Cash Management Deed, the Servicer will agree to perform certain obligations in connection with the management of the Cover Pool.

The Servicing and Cash Management Deed contains provisions under which the Issuer shall be obliged, upon the terms and subject to the conditions specified therein, to appoint an appropriate entity to perform the Servicing and Cash Management Services to be performed by the Servicer.

Programme Closing Date means 20 May 2010.

See "*Description of Principal Documents – Servicing and Cash Management Deed*".

Asset Monitor Agreement

Under the terms of the asset monitor agreement entered into on the Programme Closing Date (as amended, restated and/or supplemented from time to time) between the Asset Monitor, the Servicer, the Issuer and the Trustee (the **Asset Monitor Agreement**), the Asset Monitor has agreed to carry out various testing and notification duties in relation to the calculations performed by the Servicer in relation to the Statutory Tests and, if required, the Amortisation Test.

Trust Deed

Under the terms of the Trust Deed entered into on the Programme Closing Date (such Trust Deed as modified and/or supplemented and/or restated

from time to time, the **Trust Deed**), the Trustee will be appointed to act as the Covered Bondholders' representative in accordance with paragraph 2 of Article 152.

Deed of Charge

The Issuer shall, where necessary, assign its rights arising under the Hedging Agreements, the other English law governed Transaction Documents (other than the Deed of Charge and the Trust Deed) and the Asset Monitor Agreement (the **Deed of Charge**).

In addition, the Covered Bondholders and the other Secured Creditors have agreed that, upon the occurrence of an Issuer Event, all the Covered Bonds Available Funds will be applied in or towards satisfaction of all the Issuer's payment obligations towards the Covered Bondholders and the other Secured Creditors, in accordance with the terms of the Servicing and Cash Management Deed and the relevant Priority of Payments.

The Trustee has been authorised, in accordance with the Deed of Charge, subject to a Notice of Default being delivered to the Issuer following the occurrence of an Event of Default or upon failure by the Issuer to exercise its rights under the Transaction Documents, to exercise, in the name and on behalf of the Issuer, all the Issuer's rights arising out of the Transaction Documents to which the Issuer is a party.

The Deed of Charge and any non-contractual obligations arising out of or in connection with it shall be governed by English Law (except in relation to the Statutory Pledge which shall be governed by and construed in accordance with Greek law).

Agency Agreement

Under the terms of an agency agreement entered into on the Programme Closing Date between the Issuer, the Agents and the Trustee (as amended and/or supplemented and/or restated from time to time, the **Agency Agreement**), the Agents have agreed to provide the Issuer with certain agency services and the Paying Agents have agreed, *inter alia*, to make available for inspection such documents as may be required from time to time by the rules of the Luxembourg Stock Exchange and to arrange for the publication of any notice to be given to the Covered Bondholders.

Bank Account Agreement

Under the terms of the bank account agreement entered into on the Programme Closing Date (as amended and restated and/or supplemented from time to time) between the Account Bank, the Servicer, the Issuer and the Trustee (the **Bank Account Agreement**), the Account Bank has agreed to operate the Transaction Account, any Swap Collateral Accounts and any other account required under the Transaction Documents (together with the Transaction Account and each Swap Collateral Account, the **Bank Accounts**) in accordance with the instructions given by the Servicer.

Hedging Agreements

The Issuer may, from time to time during the Programme, enter into Interest Rate Swap Agreements and Covered Bond Swap Agreements (together the **Hedging Agreements** and each, a **Hedging Agreement**) with one or more Hedging Counterparties for the purpose of, *inter alia*, protecting itself against certain risks (including, but not limited to, interest rate, liquidity, currency and credit) related to the Loan Assets and/or the Covered Bonds. In accordance with the terms set forth in the Servicing and Cash Management Deed, the Issuer may, at its discretion, include its

rights and claims arising from the Hedging Agreements, together with the cash flows deriving therefrom, in the Cover Pool provided that, *inter alia* the terms and conditions of such Hedging Agreements shall not adversely affect the ratings of the then outstanding Covered Bonds.

The Hedging Agreements and any non-contractual obligations arising out of or in connection any of them shall be governed by English Law.

The Issuer's rights arising from the Hedging Agreements will be included as part of the Cover Pool at the Issuer's discretion.

Interest Rate Swap Agreement means each agreement between the Issuer, the relevant Interest Rate Swap Provider and the Trustee governing the Interest Rate Swap in the form of an ISDA Master Agreement, including a schedule and one or more confirmations and a credit support annex.

Covered Bond Swap Agreement means each agreement between the Issuer, a Covered Bond Swap Provider and the Trustee governing any Covered Bond Swaps in the form of an ISDA Master Agreement, including a schedule and one or more confirmations and any credit support annex.

Transaction Documents

The Servicing and Cash Management Deed, the Programme Agreement, each Subscription Agreement, the Agency Agreement, the Trust Deed, the Deed of Charge, the Bank Account Agreement, the Asset Monitor Agreement, the Master Definitions and Construction Schedule, each of the Final Terms, each Registration Statement, the Conditions, the Covered Bonds, the Coupons, the Hedging Agreements, any agreement entered into with a new Servicer, together with any additional document entered into in respect of the Covered Bonds and/or the Cover Pool and designated as a Transaction Document by the Issuer and the Trustee, are together referred to as the **Transaction Documents**.

Subscription Agreement means an agreement supplemental to the Programme Agreement (by whatever name called) in or substantially in the form set out in the Programme Agreement or in such other form as may be agreed between the Issuer and the Lead Manager (named therein) or one or more Dealers (as the case may be).

Investor Report

On the Athens Business Day which falls three Athens Business Days prior to each Programme Payment Date (each an **Investor Report Date**), the Servicer will produce an investor report (the **Investor Report**), which will contain information regarding the Covered Bonds and the Cover Pool Assets, including statistics relating to the financial performance of the Cover Pool Assets for the immediately preceding Collection Period. Such report will be available to the prospective investors in the Covered Bonds and to Covered Bondholders on Bloomberg and on the Issuer's website www.alphabank.gr.

Collection Period means the period from (and including) a Collection Period Start Date (or, in the case of the first Collection Period, the Programme Closing Date) to the next Collection Period End Date.

Collection Period Start Date means the first calendar day of each

calendar month.

Collection Period End Date means the last calendar day of each calendar month.

DOCUMENTS INCORPORATED BY REFERENCE

The following documents which have previously been published and have been filed with the CSSF shall be deemed to be incorporated in, and form part of, this Base Prospectus:

1. Audited consolidated and non-consolidated financial statements (produced in accordance with International Financial Reporting Standards) for the financial year ended 31 December 2018 for Alpha, including:
 - (i) Consolidated Balance Sheet set out on page 66 of the 2018 annual financial report;
 - (ii) Balance Sheet set out on page 300 of the 2018 annual financial report;
 - (iii) Consolidated Income Statement set out on page 65 of the 2018 annual financial report;
 - (iv) Income Statement set out on page 299 of the 2018 annual financial report;
 - (v) Consolidated Statement of Comprehensive Income set out on page 67 of the 2018 annual financial report;
 - (vi) Statement of Comprehensive Income set out on page 301 of the 2018 annual financial report;
 - (vii) Consolidated Statement of Changes in Equity set out on pages 68 to 69 of the 2018 annual financial report;
 - (viii) Statement of Changes in Equity set out on page 302 of the 2018 annual financial report;
 - (ix) Consolidated Statement of Cash Flows set out on page 70 of the 2018 annual financial report;
 - (x) Statement of Cash Flows set out on page 303 of the 2018 annual financial report;
 - (xi) Notes to the Group Financial Statements set out on pages 71 to 296 of the 2018 annual financial report;
 - (xii) Notes to the Financial Statements set out on pages 304 to 499 of the 2018 annual financial report;
 - (xiii) Independent Auditors' Report: report on the consolidated financial statements set out on pages 55 to 61 of the 2018 annual financial report;
 - (xiv) Independent Auditors' Report: report on the financial statements set out on pages 55 to 61 of the 2018 annual financial report; and
 - (xv) Appendix set out on pages 501 to 502 of the 2018 annual financial report.

Any other information incorporated by reference that is not included in the cross-reference list above is considered to be additional information that is not required by the relevant Annexes of the Prospectus Regulation.

2. Audited consolidated and non-consolidated financial statements (produced in accordance with International Financial Reporting Standards) for the financial year ended 31 December 2017 for Alpha, including:

(i)	Consolidated Balance Sheet	set out on page 54 of the 2017 annual financial report;
(ii)	Balance Sheet	set out on page 244 of the 2017 annual financial report;
(iii)	Consolidated Income Statement	set out on page 53 of the 2017 annual financial report;
(iv)	Income Statement	set out on page 243 of the 2017 annual financial report;
(v)	Consolidated Statement of Comprehensive Income	set out on page 55 of the 2017 annual financial report;
(vi)	Statement of Comprehensive Income	set out on page 245 of the 2017 annual financial report;
(vii)	Consolidated Statement of Changes in Equity	set out on pages 56 to 57 of the 2017 annual financial report;
(viii)	Statement of Changes in Equity	set out on page 246 of the 2017 annual financial report;
(ix)	Consolidated Statement of Cash Flows	set out on page 58 of the 2017 annual financial report;
(x)	Statement of Cash Flows	set out on page 247 of the 2017 annual financial report;
(xi)	Notes to the Group Financial Statements	set out on pages 59 to 239 of the 2017 annual financial report;
(xii)	Notes to the Financial Statements	set out on pages 248 to 397 of the 2017 annual financial report;
(xiii)	Independent Auditors' Report: report on the consolidated financial statements	set out on pages 43 to 49 of the 2017 annual financial report; and
(xiv)	Independent Auditors' Report: report on the financial statements	set out on pages 43 to 49 of the 2017 annual financial report.
(xv)	Appendix	set out on page 399 of the 2017 annual financial report

Any other information incorporated by reference that is not included in the cross-reference list above is considered to be additional information that is not required by the relevant Annexes of the Prospectus Regulation.

3. The unaudited interim financial statements of the Issuer as at, and for the period ended, up to 31 March 2019, prepared in accordance with the International Financial Reporting Standards, including the information set out in the following pages of the Issuer's Q1 quarterly report for 2019:

(i)	Consolidated Balance Sheet	set out on page 4 of the interim consolidated financial statements;
(ii)	Consolidated Income Statement	set out on page 3 of the interim consolidated financial statements;

(iii)	Consolidated Statement of Comprehensive Income	of set out on page 5 of the interim consolidated financial statements;
(iv)	Consolidated Statement of Changes in Equity	set out on pages 6 to 7 of the interim consolidated financial statements;
(v)	Consolidated Statement of Cash Flows	set out on page 8 of the interim consolidated financial statements;
(vi)	Notes to the Group Financial Statements	set out on pages 9 to 79 of the interim consolidated financial statements;

4. The sections entitled "Terms and Conditions of the Covered Bonds" set out on pages 64 to 100 (inclusive) of the Base Prospectus dated 20 May 2010, set out on pages 68 to 105 (inclusive) of the Base Prospectus dated 28 July 2011, set out on pages 89 to 125 (inclusive) of the Base Prospectus dated 30 October 2014, set out on pages 85 to 123 (inclusive) of the Base Prospectus dated 27 January 2016, set out on pages 89 to 127 (inclusive) of the Base Prospectus dated 27 July 2017 and set out on pages 87 to 124 (inclusive) of the Base Prospectus dated 16 January 2018 (for the avoidance of doubt, the applicable Final Terms for a Series or Tranche of Covered Bonds will indicate the Terms and Conditions applicable to such Series or Tranche and unless otherwise indicated in the applicable Final Terms, the Terms and Conditions of all Covered Bonds issued after the date hereof shall be those set out in full in this Base Prospectus). The remaining portions of the Base Prospectus dated 20 May 2010, 28 July 2011, 30 October 2014, 27 January 2016, 27 July 2017 and 16 January 2018 are not relevant for prospective investors and are not incorporated by reference into this Base Prospectus.

The Issuer's consolidated and non-consolidated annual financial statements are prepared in accordance with IFRS and are included in the annual financial reports produced in accordance with Greek law 3556/2007, as amended and in force, for the Issuer.

Any information not listed in the cross reference tables above is considered to be additional information to be disclosed to investors rather than information required by the relevant Annexes of Commission Regulation (EC) No 809/2004 implementing the Prospectus Directive.

Following the publication of this Base Prospectus a supplement to this Base Prospectus may be prepared by the Issuer and approved by the CSSF in accordance with Article 16 of the Prospectus Directive. Statements contained in any such supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

Copies of documents incorporated by reference in this Base Prospectus pursuant to paragraphs 1 to 4 above can be obtained from the registered office of the Issuer and from the specified offices of the Paying Agents for the time being in London and Luxembourg and for Covered Bonds listed on the official list of the Luxembourg Stock Exchange from the internet site of the Luxembourg Stock Exchange at www.bourse.lu.

The Issuer will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Covered Bonds, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Covered Bonds.

TERMS AND CONDITIONS OF THE COVERED BONDS

The following are the Terms and Conditions of the Covered Bonds which will be incorporated by reference into each Global Covered Bond (as defined below) and each Definitive Covered Bond (as defined below), in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such Definitive Covered Bond will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Final Terms in relation to any Series or Tranche of Covered Bonds may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Covered Bonds. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Covered Bond and Definitive Covered Bond. Reference should be made to "Applicable Final Terms" for a description of the content of Final Terms which will specify which of such terms are to apply in relation to the relevant Covered Bonds.

This Covered Bond is one of a Series (as defined below) of Covered Bonds issued by Alpha Bank A.E. (the **Issuer**) pursuant to the Trust Deed (as defined below).

References herein to the Covered Bonds shall be references to the Covered Bonds of this Series and shall mean:

- (a) in relation to any Covered Bonds represented by a global Covered Bond (a **Global Covered Bond**), units of the lowest denomination specified in the relevant Final Terms (**Specified Denomination**) in the currency specified in the relevant Final Terms (**Specified Currency**);
- (b) any Global Covered Bond;
- (c) any definitive Covered Bonds (in bearer form (**Bearer Definitive Covered Bonds**) issued in exchange for a Global Covered Bond in bearer form; and
- (d) any definitive Covered Bonds in registered form (**Registered Definitive Covered Bonds** and, together with Bearer Definitive Covered Bonds, **Definitive Covered Bonds**) (whether or not issued in exchange for a Global Covered Bond in registered form).

The Covered Bonds and the Coupons (as defined below) are constituted by a trust deed (such trust deed as amended and/or supplemented and/or restated from time to time, the **Trust Deed**) dated the Programme Closing Date and made between *inter alios* the Issuer and Citicorp Trustee Company Limited at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB (the **Trustee**, which expression includes the trustee or trustees for the time being of the Trust Deed) as trustee for the Covered Bondholders.

The Covered Bonds and the Coupons (as defined below) have the benefit of an agency agreement (such agency agreement as amended and/or supplemented and/or restated from time to time, the **Agency Agreement**) dated the Programme Closing Date and made between *inter alios* the Issuer, Citibank, N.A., London Branch as principal paying agent (the **Principal Paying Agent**, which expression shall include any successor principal paying agent), the other paying agents named therein (together with the Principal Paying Agent, the **Paying Agents**, which expression shall include any additional or successor paying agents) Citibank, N.A., London Branch as registrar (the **Registrar**, which expression shall include any successor registrar, and, together with any transfer agent appointed thereunder, the **Transfer Agents**, which expression shall include any successor transfer agents) and together with the Paying Agents, the Registrar and any Calculation Agent referred to below, the **Agents**). Interest bearing Definitive Covered Bonds have (unless otherwise indicated in the applicable Final Terms) interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons

or talons. The Final Terms for this Covered Bond (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Covered Bond which supplement these Terms and Conditions (the **Conditions**) and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the Conditions, replace or modify the Conditions for the purposes of this Covered Bond. References to the **applicable Final Terms** are, unless otherwise stated, to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Covered Bond.

The expression **Prospectus Directive** means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive) to the extent implemented in the relevant Member State of the European Economic Area and includes any relevant implementing measure in the relevant Member State.

Any reference to **Covered Bondholders** or holders in relation to any Covered Bonds shall mean the holders of the Covered Bonds and shall, in relation to any Covered Bonds represented by a Global Covered Bond, be construed as provided below. Any reference herein to **Couponholders** shall mean the holders of the Coupons and shall, unless the context otherwise requires, include the holders of the Talons.

As used herein, **Tranche** means Covered Bonds which are identical in all respects (including as to listing and admission to trading) and **Series** means a Tranche of Covered Bonds together with any further Tranche or Tranches of Covered Bonds which (a) are expressed to be consolidated and form a single series and (b) have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

Copies of the applicable Final Terms and the other Transaction Documents are available for inspection during normal business hours at the registered office of the Issuer and of the Principal Paying Agent and at the specified office of each of the other Paying Agents. If the Covered Bonds are to be admitted to trading on the regulated market of the Luxembourg Stock Exchange the applicable Final Terms will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu) save that, if this Covered Bond is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive, the applicable Final Terms and the other Transaction Documents will only be obtainable by a Covered Bondholder holding one or more Covered Bonds and such Covered Bondholder must produce evidence satisfactory to the Issuer and the relevant Paying Agent as to its holding of such Covered Bonds and identity. The Covered Bondholders and the Couponholders are deemed to have notice of, are bound by, and are entitled to the benefit of, all the provisions of, and definitions contained in, the Trust Deed and the applicable Final Terms and the other Transaction Documents which are applicable to them. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed and the other relevant Transaction Documents.

Except where the context otherwise requires, capitalised terms used and not otherwise defined in these Conditions shall bear the meanings given to them in the applicable Final Terms and/or the master definitions and construction schedule made between the parties to the Transaction Documents on or about the Programme Closing Date (as amended and/or supplemented and/or restated from time to time, the **Master Definitions and Construction Schedule**), a copy of each of which may be obtained as described above.

1. **Form, Denomination and Title**

The Covered Bonds are in bearer form or in registered form (as specified in the applicable Final Terms) and, in the case of Definitive Covered Bonds, serially numbered, in the currency (the **Specified Currency**) and the denominations (the **Specified Denomination(s)**) specified in the applicable Final Terms. Covered Bonds of one Specified Denomination may not be exchanged for Covered Bonds of another Specified Denomination and Bearer Covered Bonds may not be exchanged for Registered Covered Bonds and *vice versa*.

This Covered Bond may be a Fixed Rate Covered Bond, a Floating Rate Covered Bond, a Zero Coupon Covered Bond or a combination of any of the foregoing, depending upon the Interest Basis as specified in the applicable Final Terms.

The Covered Bonds will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and set out in the applicable Final Terms save that the minimum denomination of each Covered Bond will be at least €100,000 (or, if the Covered Bonds are denominated in a currency other than euro, at least the equivalent amount in such currency) or such other higher amount as is required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

It is a condition precedent to the issuance of a new Series or Tranche of Covered Bonds that (i) there is no Issuer Event or Event of Default outstanding and that such issuance would not cause an Issuer Event or Event of Default, (ii) such issuance would not result in a breach of any of the Statutory Tests, (iii) Moody's have confirmed the then current rating of all Covered Bonds issued and outstanding under the Programme and that the ratings of such Covered Bonds will not be adversely affected or withdrawn as a result of such issuance and Fitch has been notified of such issuance, (iv) the Bank of Greece in accordance with paragraph II.3 of the Secondary Covered Bond Legislation has been notified of such issuance and (v) if applicable, in respect of any Series or Tranche, a Hedging Agreement is entered into.

Bearer Definitive Covered Bonds are issued with Coupons attached, unless they are Zero Coupon Covered Bonds in which case references to Coupons and Couponholders in these Conditions are not applicable.

Subject as set out below, title to the Bearer Covered Bonds and Coupons will pass by delivery and title to the Registered Covered Bonds will pass upon registration of transfer in accordance with the provisions of the Agency Agreement. The Issuer, the Paying Agents and the Trustee will (except as otherwise required by law) deem and treat the bearer of any Bearer Covered Bond or Coupon and the registered holder of any Registered Covered Bond as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Covered Bond, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Covered Bonds are represented by a Global Covered Bond held on behalf of or, as the case may be, registered in the name of a common depository for, Euroclear Bank S.A./N.V. (**Euroclear**) and/or Clearstream Banking, *société anonyme* (**Clearstream, Luxembourg**), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Covered Bonds (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Covered Bonds standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error and any such certificate or other document may comprise any form of statement or printout of electronic records provided by the relevant clearing system (including, without limitation, Euroclear's EUCLID or Clearstream's Cedcom system) in accordance with its usual procedures and in which the holder of a particular nominal amount of the Covered Bonds is clearly identified with the amount of such holding) shall be treated by the Issuer, the Paying Agents and the Trustee as the holder of such nominal amount of such Covered Bonds for all purposes other than with respect to the payment of principal or interest or other amounts on such nominal amount of such Covered Bonds, for which purpose the bearer or, as applicable, the registered holder of the relevant Global Covered Bond shall be treated by the Issuer, any Paying Agent and the Trustee as the holder of such nominal amount of such Covered Bonds in accordance with and subject to the terms of the relevant Global Covered Bond and the expressions **Covered Bondholder** and **holder of Covered Bonds** and related expressions shall be construed accordingly.

Covered Bonds which are represented by a Global Covered Bond will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any successor operator and/or successor clearing system and/or any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer, the Principal Paying Agent and the Trustee.

2. Transfers of Registered Covered Bonds

2.1 Transfers of interests in Registered Global Covered Bonds

Transfers of beneficial interests in Registered Global Covered Bonds will be effected by Euroclear or Clearstream, Luxembourg and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Covered Bond will, subject to compliance with all applicable legal and regulatory restrictions, be exchangeable for Registered Definitive Covered Bonds or for a beneficial interest in another Registered Global Covered Bond only in the authorised denominations set out in the applicable Final Terms and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Agency Agreement.

2.2 Transfers of Registered Covered Bonds in definitive form

Subject as provided in Conditions 2.3 and 2.4 upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Definitive Covered Bond may be transferred in whole or in part in the authorised denominations set out in the applicable Final Terms. In order to effect any such transfer (a) the holder or holders must (i) surrender the Registered Covered Bond for registration of the transfer of the Registered Covered Bond (or the relevant part of the Registered Covered Bond) at the specified office of the Registrar or any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing, and (ii) complete and deposit such other certifications as may be required by the Registrar or, as the case may be, the relevant Transfer Agent, and (b) the Registrar or, as the case may be, the relevant Transfer Agent, must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request.

Any such transfer will be subject to such reasonable regulations as the Issuer, the Trustee and the Registrar may from time to time prescribe (the initial such regulations being set out in the Agency Agreement).

Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent, will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent, is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request, a new Registered Definitive Covered Bond of a like aggregate nominal amount to the Registered Definitive Covered Bond (or the relevant part of the Registered Definitive Covered Bond) transferred.

In the case of the transfer of part only of a Registered Definitive Covered Bond, a new Registered Definitive Covered Bond in respect of the balance of the Registered Definitive Covered Bond not

transferred will (in addition to the new Registered Definitive Covered Bond in respect of the nominal amount transferred) be so authenticated and delivered or (at the risk of the transferor) sent by uninsured mail to the address specified by the transferor.

2.3 Registration of transfer upon partial redemption

For the avoidance of doubt, in the event of a partial redemption of Covered Bonds under Condition 7 (*Redemption and Purchase*), the Issuer shall not be required to register the transfer of any Registered Covered Bond, or part of a Registered Covered Bond, which is partially redeemed.

2.4 Costs of registration

Covered Bondholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer, Registrar or Transfer Agent may require the payment of a sum sufficient to cover any stamp duty, Taxes or any other governmental charge that may be imposed in relation to the registration.

3. Status of the Covered Bonds

The Covered Bonds and any relative Coupons constitute direct, unconditional and unsubordinated obligations of the Issuer secured by the statutory pledge provided by paragraph 4 of Article 152 of the Greek Covered Bond Legislation (the **Statutory Pledge**) on the Greek law Cover Pool Assets. They are issued in accordance with the Greek Covered Bond Legislation and are backed by the assets of the Cover Pool. The Covered Bonds will at all times rank *pari passu* without any preference among themselves, irrespective of their Series, for all purposes except for the timing of the repayment of principal and the timing and amount of interest payable.

4. Priorities of Payments

4.1 Pre Event of Default Priority of Payments

Notwithstanding the Deed of Charge Security but subject to Clause 8.1(*Application*) of the Deed of Charge, at any time upon or after the occurrence of any Issuer Event, but prior to the delivery of a Notice of Default, the Servicer shall apply all Covered Bonds Available Funds on each Programme Payment Date in making the following payments and provisions in the following order of priority (the **Pre Event of Default Priority of Payments**) (in each case only if and to the extent that payments of a higher priority have been made in full:

- (a) *first*, in or towards satisfaction of all amounts then due and payable or to become due and payable prior to the next Programme Payment Date to the Trustee or any Appointee (including remuneration or amounts by way of indemnity payable to it) under the provisions of the Trust Deed or any other Transaction Document together with interest and applicable VAT (or other similar taxes) thereon to the extent provided therein;
- (b) *second*, to pay *pari passu* and *pro rata*, according to the respective amounts thereof, any additional fees, costs, expenses and taxes due and payable on the Programme Payment Date or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date to the Trustee or any Appointee in order to fund any notice to be given to any parties in accordance with any of the Transaction Documents or to the Covered Bondholders in connection with the assignment and/or collection and/or management of the Cover Pool Assets;

- (c) *third, pari passu and pro rata* according to the respective amounts thereof, to pay all amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date, to the Account Bank and the Agents under the Bank Account Agreement and the Agency Agreement, respectively;
- (d) *fourth, pari passu and pro rata*, according to the respective amounts thereof, (i) to pay the Servicer an amount equal to any amount representing the cost of Levy in respect of such Loans received from Borrowers, such amount to be used by the Servicer towards satisfaction of the Issuer's obligation to pay any Levy, and (ii) to pay all amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date (and for which payment has not been provided for elsewhere in this Pre Event of Default Priority of Payments), to any Secured Creditors other than the Account Bank, the Agents, the Hedging Counterparties and the Covered Bondholders and Couponholders;
- (e) *fifth, pari passu and pro rata*, according to the respective amounts thereof (a) to pay all amounts of interest due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date on any Covered Bonds and (b) to pay any amounts due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date under any Hedging Agreement other than Subordinated Termination Payments to any Hedging Counterparties under any such Hedging Agreements;
- (f) *sixth*, for so long as any Covered Bonds remain outstanding, to credit the Reserve Ledger with an amount equal to the difference between the Reserve Ledger Required Amount and the amount standing to the credit of the Reserve Ledger after having made the payments under paragraphs (a) to (e) above;
- (g) *seventh*, to pay *pari passu and pro rata*, all amounts of principal due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date (if any) on any Covered Bonds, not including any amount due on the Final Maturity Date on any Series of Covered Bonds which have an Extended Final Maturity Date specified in the applicable Final Terms;
- (h) *eighth*, to pay all Series of Covered Bonds (i) on the Final Maturity Date of any Series of Covered Bonds which have an Extended Final Maturity Date specified in the applicable Final Terms or (ii) in relation to which the Final Redemption Amount was not paid in full on the Final Maturity Date and an Extended Final Maturity Date is specified in the applicable Final Terms;
- (i) *ninth*, for so long as any Covered Bonds remain outstanding, any remaining Covered Bonds Available Funds will remain standing to the credit of the Transaction Account, or, as applicable, be deposited in the Transaction Account;
- (j) *tenth*, if no Covered Bonds remain outstanding, to pay *pari passu and pro rata*, according to the respective amounts thereof, any amount due and payable on the Programme Payment Date, or to provide for all such amounts that will become due and payable prior to the next Programme Payment Date to any Hedging Counterparties arising out of any Subordinated Termination Payment; and
- (k) *eleventh*, if no Covered Bonds remain outstanding, to pay any excess to the Issuer.

4.2 Post Event of Default Priority of Payments

Following delivery of a Notice of Default, all funds deriving from the Cover Pool Assets, the Transaction Documents and any other sums standing to the credit of the Transaction Account shall be applied on any Business Day in accordance with the following order of priority of payments (the **Post Event of Default Priority of Payments** and, together with the Pre Event of Default Priority of Payments, the **Priorities of Payments** and, each of them a **Priority of Payments**) (in each case only if and to the extent that payments of a higher priority have been made in full) provided that any such amount has not been paid by the Issuer using funds not forming part of the Cover Pool:

- (a) *first*, to pay any Indemnity to which the Trustee or any Appointee or any Receiver is entitled pursuant to the Trust Deed or any other Transaction Document and any costs and expenses incurred by or on behalf of the Trustee or any Appointee or any Receiver (i) following the occurrence of a Potential Event of Default, Issuer Event or, as applicable, an Event of Default (to the extent that any such amounts have not yet been paid out of the Covered Bond Available Funds before the delivery of a Notice of Default) and (ii) following the delivery of a Notice of Default in connection with or as a result of the enforcement or realisation of (A) the security granted under the Statutory Pledge and the Deed of Charge and/or (B) any other right or remedy that the Trustee is entitled to, or is required to pursue, under or in connection with the Transaction Documents and the Covered Bonds for the purpose of protecting the interests of the Covered Bondholders and/or the other Secured Creditors;
- (b) *second, pari passu and pro rata* according to the respective amounts thereof, (i) to pay all amounts of interest and principal then due and payable on any Covered Bonds and Coupons, (ii) to pay any additional fees, costs, expenses and taxes due and payable in connection with any listing or deposit of the Covered Bonds or to fund any notice to be given to any parties in accordance with any of the Transaction Documents or to the Covered Bondholders, (iii) to pay all amounts due and payable to any Secured Creditors, other than the Covered Bondholders and Couponholders with the exception of those amounts as set out in items (b) and (d), and (iv) any amounts due and payable under any Hedging Agreement other than the Subordinated Termination Payments to any Hedging Counterparties under any such Hedging Agreements;
- (c) *third, to pay pari passu and pro rata*, according to the respective amounts thereof, any amount due and payable to any Hedging Counterparties arising out of any Subordinated Termination Payment; and
- (d) *fourth*, following the payment in full of all items under (a) to (c) above, to pay all excess amounts to the Issuer.

5. Interest

The applicable Final Terms will indicate whether the Covered Bonds are Fixed Rate Covered Bonds, Floating Rate Covered Bonds or Zero Coupon Covered Bonds.

5.1 Interest on Fixed Rate Covered Bonds

This Condition 5.1 applies to Fixed Rate Covered Bonds only. The applicable Final Terms contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this Condition 5.1 for full information on the manner in which interest is calculated on Fixed Rate Covered Bonds. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction and any applicable Determination Date.

Each Fixed Rate Covered Bond bears interest on its Principal Amount Outstanding from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable, subject as provided in these Conditions, in arrear on the Interest Payment Date(s) in each year up to (and including) the Final Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period (as defined in Condition 5.5 (*Business Day, Business Day Convention, Day Count Fractions and other adjustments*)) ending on (but excluding) such date will amount to the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on but excluding such date (**Fixed Coupon Amount**). Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the broken amount specified in the relevant Final Terms (the **Broken Amount**) so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

5.2 Interest on Floating Rate Covered Bonds

This Condition 5.2 applies to Floating Rate Covered Bonds only. The applicable Final Terms contains provisions applicable to the determination of floating rate interest and must be read in conjunction with this Condition 5.2 for full information on the manner in which interest is calculated on Floating Rate Covered Bonds. In particular, the applicable Final Terms will identify any Specified Interest Payment Dates, any Specified Period, the Interest Commencement Date, the Business Day Convention, any Additional Business Centres, whether ISDA Determination or Screen Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Agent, the Margin, any maximum or minimum interest rates and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Floating Rate Option, Designated Maturity and Reset Date. Where Screen Rate Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Reference Rate, Interest Determination Date(s) and Relevant Screen Page.

(a) Interest Payment Dates

Each Floating Rate Covered Bond bears interest on its Principal Amount Outstanding from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms;
or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the **Specified Period** in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, the expression **Interest Period** shall mean the period from (and including) an Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Covered Bonds will be determined in the manner specified in the applicable Final Terms.

(c) ISDA Determination for Floating Rate Covered Bonds

Where **ISDA Determination** is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (c), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent or other person specified in the applicable Final Terms under an interest rate swap transaction if the Principal Paying Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Covered Bonds (the **ISDA Definitions**), and under which:

- (i) the Floating Rate Option is as specified in the applicable Final Terms;
- (ii) the Designated Maturity is the period specified in the applicable Final Terms; and
- (iii) the relevant Reset Date is the day specified in the applicable Final Terms.

For the purposes of this subparagraph (c), (1) **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

When this subparagraph (c) applies, in respect of each relevant Interest Period the Principal Paying Agent or the above-mentioned person will be deemed to have discharged its obligations under Condition 5.2(f) below in respect of the determination of the Rate of Interest if it has determined the Rate of Interest in respect of such Interest Period in the manner provided in this subparagraph (c).

(d) Screen Rate Determination for Floating Rate Covered Bonds

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (i) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five

or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest pursuant to this subparagraph (d) in the event that the Relevant Screen Page is not available or if, in the case of (i) above, no such offered quotation appears or, in the case of (ii) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

(e) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms for a Floating Rate Covered Bond specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms for a Floating Rate Covered Bond specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(f) Determination of Rate of Interest and calculation of Interest Amounts

The Principal Paying Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Covered Bonds for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Covered Bonds which are represented by a Global Covered Bond, the aggregate outstanding nominal amount of the Covered Bonds represented by such Global Covered Bond; or
- (ii) in the case of Floating Rate Covered Bonds in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Covered Bond in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Covered Bond shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(g) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the

applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it (in consultation with the Issuer) determines appropriate.

Designated Maturity means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(h) Notification of Rate of Interest and Interest Amounts

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Trustee and to any stock exchange or other relevant competent authority or quotation system on which the relevant Floating Rate Covered Bonds are for the time being listed, quoted and/or traded or by which they have been admitted to listing or trading and to be published in accordance with Condition 17 (*Notices*) as soon as possible after their determination but in no event later than the fourth Business Day (as defined in Condition 5.5) thereafter and in the case of any notification to be given to the Luxembourg Stock Exchange on or before the first Business Day of each Interest Period. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment or alternative arrangements will promptly be notified to the Trustee and each stock exchange or other relevant authority on which the relevant Floating Rate Covered Bonds are for the time being listed, quoted and/or traded or by which they have been admitted to listing or trading and to Covered Bondholders in accordance with Condition 17 (*Notices*).

(i) Determination or Calculation by the Trustee

If for any reason at any relevant time after the Issue Date, the Principal Paying Agent defaults in its obligation to determine the Rate of Interest or the Principal Paying Agent defaults in its obligation to calculate any Interest Amount in accordance with subparagraph 5.2(c) or 5.2(d) above as the case may be, and in each case in accordance with paragraph 5.2(f) above, the Trustee may determine the Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition, but subject always to any Minimum Rate of Interest or Maximum Rate of Interest specified in the applicable Final Terms), it shall deem fair and reasonable in all the circumstances or, as the case may be, the Trustee may calculate the Interest Amount(s) in such manner as it shall deem fair and reasonable in all the circumstances. In making any such determination or calculation, the Trustee may appoint and rely on a determination or calculation by a calculation agent (which shall be an investment bank or other suitable entity of international repute). Each such determination or calculation shall be deemed to have been made by the Principal Paying Agent.

(j) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5.2, whether by the Principal Paying Agent, the Calculation Agent or the Trustee shall (in the absence of wilful default, negligence, fraud or manifest error) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the other Paying Agents, the Trustee and all Covered Bondholders and Couponholders and (in the absence of wilful default, negligence or fraud) no liability to the Issuer the Covered Bondholders or the Couponholders shall attach to the Principal Paying Agent, the

Calculation Agent or the Trustee in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5.3 Interest on Zero Coupon Covered Bonds

Zero Coupon Covered Bonds will be offered and sold at a discount to their nominal amount and will not bear interest. When a Zero Coupon Covered Bond becomes repayable prior to its Maturity Date it will be redeemed at the Early Redemption Amount calculated in accordance with Condition 7.7 (*Early Redemption Amounts*). In the case of late payment the amount due and repayable shall be calculated in accordance with Condition 7.10 (*Late Payment*).

5.4 Accrual of interest

Interest (if any) will cease to accrue on each Covered Bond (or in the case of the redemption of part only of a Covered Bond, that part only of such Covered Bond) on the due date for redemption thereof unless, upon due presentation thereof, payment of principal is improperly withheld or refused or unless default is otherwise made in respect of payment, in which event, interest will continue to accrue as provided in Condition 7.10 (*Late Payment*).

5.5 Business Day, Business Day Convention, Day Count Fractions and other adjustments

(a) In these Conditions, **Business Day** means:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and Athens and any Additional Business Centre specified in the applicable Final Terms; and
- (ii) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London and any Additional Business Centre) or as otherwise specified in the applicable Final Terms or (B) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **TARGET2 System**) is open.

(b) If a **Business Day Convention** is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (i) in any case where Specified Periods are specified in accordance with Condition 5.2(a)(ii), the **Floating Rate Convention**, such Interest Payment Date (1) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (II) below shall apply mutatis mutandis, or (2) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (I) such Interest Payment Date shall be brought forward to the immediately preceding Business Day, and (II) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (ii) the **Following Business Day Convention**, such Interest Payment Date shall be postponed to the next day which is a Business Day; or

- (iii) the **Modified Following Business Day Convention**, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
 - (iv) the **Preceding Business Day Convention**, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.
- (c) **Day Count Fraction** means, in respect of the calculation of an amount of interest for any Interest Period:
- (i) if **Actual/Actual (ICMA)** is specified in the applicable Final Terms:
 - (A) in the case of Covered Bonds where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period (as defined in Condition 5.2(c)(ii)) during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (B) in the case of Covered Bonds where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of (I) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and (II) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
 - (ii) if **Actual/Actual** or **Actual/Actual (ISDA)** is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366, and (ii) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
 - (iii) if **Actual/365 (Fixed)** is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
 - (iv) if **Actual/365 (Sterling)** is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
 - (v) if **Actual/360** is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
 - (vi) if **30/360, 360/360** or **Bond Basis** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360x(Y^2 - Y^1)] + [30x(M^2 - M^1)] + (D^2 - D^1)}{360}$$

where:

"Y¹" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y²" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M¹" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M²" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D¹" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D¹ will be 30; and

"D²" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D¹ is greater than 29, in which case D² will be 30;

- (vii) if **30E/360** or **Eurobond Basis** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y^2 - Y^1)] + [30 \times (M^2 - M^1)] + (D^2 - D^1)}{360}$$

where:

"Y¹" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y²" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M¹" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M²" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D¹" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D¹ will be 30; and

"D²" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D² will be 30;

- (viii) if **30E/360 (ISDA)** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y^2 - Y^1)] + [30 \times (M^2 - M^1)] + (D^2 - D^1)}{360}$$

where:

"Y¹" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y²" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M¹" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M²" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D¹" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D¹ will be 30; and

"D²" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Final Maturity Date or (ii) such number would be 31 and D² will be 30; or

such **other** Day Count Fraction as may be specified in the applicable Final Terms.

- (d) **Determination Date** has the meaning given in the applicable Final Terms.
- (e) **Determination Period** means each period from (and including) a Determination Date to (but **excluding**) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).
- (f) **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.
- (g) **Interest Commencement Date** means in the case of interest-bearing Covered Bonds, the date specified in the applicable Final Terms from (and including) which the relevant Covered Bonds will accrue interest.
- (h) **Interest Payment Date** means, in respect of Fixed Rate Covered Bonds, the meaning given in the applicable Final Terms and in respect of Floating Rate Covered Bonds, the meaning given in Condition 5.2, together the **Interest Payment Dates**.
- (i) **Interest Period** means the period from (and including) an Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.
- (j) **Principal Amount Outstanding** means in respect of a Covered Bond on any day the principal amount of that Covered Bond on the relevant Issue Date thereof less principal amounts received by the relevant Covered Bondholder in respect thereof on or prior to that day provided that the Principal Amount Outstanding in respect of a Covered Bond that has been purchased and cancelled by the Issuer shall be zero.
- (k) If **adjusted** is specified in the applicable Final Terms against the Day Count Fraction, interest in respect of the relevant Interest Period shall be payable in arrear on the relevant Interest Payment Date and calculated from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date, as such Interest Payment Date shall, where applicable, be adjusted in accordance with the Business Day Convention.

- (l) If **not adjusted** is specified in the applicable Final Terms against the Day Count Fraction, interest in respect of the relevant Interest Period shall be payable in arrear on the relevant Interest Payment Date and calculated from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date, but such Interest Payment Dates shall not be adjusted in accordance with any Business Day Convention.
- (m) **sub-unit** means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, euro 0.01.

6. Payments

6.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively);
- (b) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (c) payments in U.S. Dollars will be made by transfer to a U.S. Dollar account maintained by the payee with a bank outside of the United States (which expression, as used in this Condition 6, means the United States of America, including the State and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction), or by cheque drawn on a United States bank.

In no event will payment in respect of Covered Bonds be made by a cheque mailed to an address in the United States. All payments of interest in respect of Covered Bonds will be made to accounts located outside the United States except as may be permitted by United States tax law in effect at the time of such payment without detriment to the Issuer.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. References to Specified Currency will include any successor currency under applicable law.

6.2 Presentation of Bearer Definitive Covered Bonds and Coupons

Payments of principal and interest (if any) will (subject as provided below) be made in accordance with Condition 6.1 (*Method of payment*) only against presentation and surrender of Bearer Definitive Covered Bonds or Coupons (or, in the case of part payment of any sum due, endorsement of the Bearer Definitive Covered Bond (or Coupon)), as the case may be, only at a specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States

of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Fixed Rate Covered Bonds in definitive bearer form (other than Long Maturity Covered Bonds (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall include Coupons falling to be issued on exchange of matured Talons), failing which an amount equal to the face value of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the total amount due) will be deducted from the amount due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 11 (*Prescription*)) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 11 (*Prescription*)) or, if later, five years from the date on which such Coupon would otherwise have become due but in no event thereafter.

Upon amounts in respect of any Fixed Rate Covered Bond in definitive bearer form becoming due and repayable by the Issuer prior to its Final Maturity Date (or, as the case may be, Extended Final Maturity Date), all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the due date for redemption of any Floating Rate Covered Bond or a Long Maturity Covered Bond in definitive bearer form, all unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Covered Bond** is a Fixed Rate Covered Bond (other than a Fixed Rate Covered Bond which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Covered Bond shall cease to be a Long Maturity Covered Bond on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the Principal Amount Outstanding of such Covered Bond.

If the due date for redemption of any Bearer Definitive Covered Bond is not an Interest Payment Date, interest (if any) accrued in respect of such Covered Bond from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against presentation and surrender of the relevant Bearer Definitive Covered Bond.

6.3 Payments in respect of Bearer Global Covered Bonds

Payments of principal and interest (if any) in respect of Covered Bonds represented by any Bearer Global Covered Bond will (subject as provided below) be made in the manner specified above in relation to Bearer Definitive Covered Bonds and otherwise in the manner specified in the relevant Bearer Global Covered Bond against presentation or surrender, as the case may be, of such Bearer Global Covered Bond if the Bearer Global Covered Bond is not intended to be issued in new global covered bond (**NGCB**) form at the specified office of any Paying Agent outside the United States. On the occasion of each payment, (i) in the case of any Bearer Global Covered Bond which is not issued in NGCB form, a record of such payment made on such Bearer Global Covered Bond, distinguishing between any payment of principal and any payment of interest, will be made on such Bearer Global Covered Bond by the Paying Agent and such record shall be prima facie evidence that the payment in question has been made and (ii) in the case of any Global Covered Bond which is issued in NGCB form, the Paying Agent shall instruct Euroclear and Clearstream, Luxembourg to make appropriate entries in their records to reflect such payment.

No payments of principal, interest or other amounts due in respect of a Bearer Global Covered Bond will be made by mail to an address in the United States or by transfer to an account maintained in the United States.

6.4 Payments in respect of Registered Covered Bonds

Payments of principal in respect of each Registered Covered Bond (whether or not in global form) will be made against presentation and surrender of the Registered Covered Bond at the specified office of the Registrar or any of the Paying Agents. Such payments will be made in accordance with Condition 6.1 by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Covered Bond appearing in the register of holders of the Registered Covered Bonds maintained by the Registrar (the **Register**) at the close of business on the business day (**business day** being for the purposes of this Condition 6.4 a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the **Record Date**). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account, or (ii) the principal amount of the Covered Bonds held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account (which, in the case of a payment in Yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest in respect of each Registered Covered Bond (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Covered Bond appearing in the Register at the close of business on the Record Date at the holder's address shown in the Register on the Record Date and at the holder's risk. Upon application of the holder to the specified office of the Registrar not less than three business days before the due date for any payment of interest in respect of a Registered Covered Bond, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) in respect of the Registered Covered Bonds which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Covered Bond on redemption will be made in the same manner as payment of the principal in respect of such Registered Covered Bond.

Holders of Registered Covered Bonds will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Covered Bond as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Covered Bonds.

None of the Issuer, the Trustee or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Covered Bonds or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 General provisions applicable to payments

The bearer of a Global Covered Bond (or, as provided in the Trust Deed, the Trustee) shall be the only person entitled to receive payments in respect of Covered Bonds represented by such Global Covered Bond and the obligations of the Issuer will be discharged by payment to, or to the order of, the holder of such Global Covered Bond (or the Trustee, as the case may be) in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Covered Bonds represented by such Global Covered Bond must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Covered Bond (or the Trustee, as the case may be). No person other than the holder of the relevant Global Covered Bond (or, as provided in the Trust Deed, the Trustee) shall have any claim against the Issuer in respect of any payments due on that Global Covered Bond.

Notwithstanding the foregoing provisions of this Condition, payments of principal and/or interest in respect of Bearer Covered Bonds in U.S. Dollars will only be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. Dollars at such specified offices outside the United States of the full amount of principal and/or interest on the Bearer Covered Bonds in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. Dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer adverse tax consequences to the Issuer.

6.6 Payment Day

If the date for payment of any amount in respect of any Covered Bond or Coupon is not a Payment Day (as defined below), the holder thereof shall not be entitled to payment of the relevant amount due until the next following Payment Day and shall not be entitled to any interest or other sum in respect of any such delay. In this Condition (unless otherwise specified in the applicable Final Terms), **Payment Day** means any day which (subject to Condition 11 (*Prescription*)) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) the relevant place of presentation;
 - (ii) London;
 - (iii) Athens; and
 - (iv) any Additional Financial Centre specified in the applicable Final Terms; and
- (b) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the

place of presentation, Athens, London and any Additional Financial Centre) or as otherwise specified in the applicable Final Terms or (ii) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

6.7 Interpretation of principal and interest

Any reference in these Conditions to principal in respect of the Covered Bonds shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 8 (*Taxation*) or under any undertakings or covenants given in addition thereto, or in substitution therefor, pursuant to the Trust Deed;
- (b) the Final Redemption Amount (as defined in the Final Terms) (the **Final Redemption Amount**) of the Covered Bonds;
- (c) the Early Redemption Amount of the Covered Bonds but excluding any amount of interest referred to therein;
- (d) the Optional Redemption Amount(s) (if any) of the Covered Bonds;
- (e) in relation to Zero Coupon Covered Bonds, the Amortised Face Amount (as defined in Condition 7.7(b)); and
- (f) any premium and any other amounts (other than interest) which may be payable under or in respect of the Covered Bonds.

Any reference in these Conditions to interest in respect of the Covered Bonds shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8 (*Taxation*) or under any undertakings given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

6.8 Redenomination

Where redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Covered Bondholders and the Couponholders, on giving prior written notice to the Trustee, the Agents, the Registrar (in the case of Registered Covered Bonds), Euroclear and Clearstream, Luxembourg and at least 30 days' prior notice to the Covered Bondholders in accordance with Condition 17 (*Notices*), elect that, with effect from the Redenomination Date specified in the notice, the Covered Bonds shall be redenominated in euro. In relation to any Covered Bonds where the applicable Final Terms provides for a minimum Specified Denomination in the Specified Currency which is equivalent to at least euro 100,000 and which are admitted to trading on a regulated market in the European Economic Area, it shall be a term of any such redenomination that the holder of any Covered Bonds held through Euroclear and/or Clearstream, Luxembourg must have credited to its securities account with the relevant clearing system a minimum balance of Covered Bonds of at least euro 100,000.

The election will have effect as follows:

- (a) the Covered Bonds shall be deemed to be redenominated in euro in the denomination of euro 0.01 with a nominal amount for each Covered Bond equal to the nominal amount of that Covered Bond in the Specified Currency, converted into euro at the Established Rate, provided that, if the Issuer determines, in consultation with the Agents and the Trustee, that the then market practice in respect of the redenomination in euro of internationally offered

securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Covered Bondholders, the competent listing authority, stock exchange and/or market (if any) on or by which the Covered Bonds may be listed and/or admitted to trading and the Paying Agents of such deemed amendments;

- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Covered Bonds will be calculated by reference to the aggregate nominal amount of Covered Bonds presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if Definitive Covered Bonds are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations of euro 100,000 and/or such higher amounts as the Agents may determine and notify to the Trustee and the Covered Bondholders and any remaining amounts less than euro 100,000 shall be redeemed by the Issuer and paid to the Covered Bondholders in euro in accordance with Condition 7 (*Redemption and Purchase*);
- (d) if issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Covered Bonds) will become void with effect from the date on which the Issuer gives notice (the **Exchange Notice**) that replacement euro-denominated Covered Bonds and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Covered Bonds and Coupons so issued will also become void on that date although those Covered Bonds and Coupons will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Covered Bonds and Coupons will be issued in exchange for Covered Bonds and Coupons denominated in the Specified Currency in such manner as the Agents may specify and as shall be notified to the Covered Bondholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Covered Bonds;
- (e) after the Redenomination Date, all payments in respect of the Covered Bonds and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Covered Bonds to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the Covered Bonds are Fixed Rate Covered Bonds and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention;
- (g) if the Covered Bonds are Floating Rate Covered Bonds, the applicable Final Terms will specify any relevant changes to the provisions relating to interest; and
- (h) such other changes shall be made to this Condition (and the Transaction Documents) as the Issuer may decide, after consultation with the Agents and the Trustee, and as may be specified in the notice, to conform it to conventions then applicable to instruments denominated in euro.

6.9 Definitions

In these Conditions, the following expressions have the following meanings:

Accrual Yield has, in relation to a Zero Coupon Covered Bond, the meaning given in the applicable Final Terms.

Calculation Amount has the meaning given in the applicable Final Terms.

Earliest Maturing Covered Bonds means, at any time, the Series of the Covered Bonds (other than any Series which is fully collateralised by amounts standing to the credit of the Transaction Account) that has or have the earliest Final Maturity Date as specified in the applicable Final Terms (ignoring any acceleration of amounts due under the Covered Bonds prior to an Event of Default).

Early Redemption Amount means the amount calculated in accordance with Condition 7.7 (*Early Redemption Amounts*).

Established Rate means the rate for the conversion of the relevant Specified Currency (including compliance with rules relating to roundings in accordance with applicable European Community regulations) into euro established by the Council of the European Union pursuant to Article 123 of the Treaty.

euro means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty.

Extraordinary Resolution means (a) a resolution passed at a meeting of the Covered Bondholders duly convened and held in accordance with the Trust Deed by a majority consisting of not less than three-fourths of the persons voting thereat upon a show of hands or if a poll is duly demanded by a majority consisting of not less than three-fourths of the votes cast on such poll; or (b) a resolution in writing signed by or on behalf of the holders of not less than three-fourths of the Principal Amount Outstanding of the Covered Bonds of the relevant Series which would be entitled to attend a meeting if a meeting were convened, which resolution in writing may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the Covered Bondholders.

Minimum Rate of Interest means in respect of Floating Rate Covered Bonds, the percentage rate per annum (if any) specified in the applicable Final Terms.

Notice of Default has the meaning given to it in Condition 10 (*Events of Default and Enforcement*).

Optional Redemption Amount has the meaning (if any) given in the applicable Final Terms.

Optional Redemption Date has the meaning (if any) given in the applicable Final Terms.

Potential Event of Default means any condition, event or act which, with the lapse of time and/or the issue, making or giving of any notice, certification, declaration, demand, determination and/or request and/or the taking of any similar action and/or the fulfilment of any similar condition, would constitute an Event of Default.

Rate of Interest means the rate of interest payable from time to time in respect of Fixed Rate Covered Bonds and Floating Rate Covered Bonds, as determined in, or as determined in the manner specified in, the applicable Final Terms.

Redenomination Date means (in the case of interest bearing Covered Bonds) any date for payment of interest under the Covered Bonds or (in the case of Zero Coupon Covered Bonds) any date, in each case specified by the Issuer in the notice given to the Covered Bondholders pursuant to Condition 6.8 (*Redenomination*) above and which falls on or after the date on which the country of the relevant Specified Currency first participates in the third stage of European economic and monetary union.

Reference Price has, in respect of a Zero Coupon Covered Bond, the meaning given in the applicable Final Terms.

Screen Rate Determination means, if specified as applicable in the applicable Final Terms, the manner in which the Rate of Interest on Floating Rate Covered Bonds is to be determined in accordance with Condition 5.2(d).

Secured Creditors means the Covered Bondholders, the Couponholders, the Trustee, any Receiver, the Asset Monitor, the Account Bank, the Agents, the Servicer, the Hedging Counterparties and any other creditor of the Issuer pursuant to any transaction document entered into in the course of the Programme having recourse to the Cover Pool.

Treaty means the Treaty establishing the European Community, as amended.

7. Redemption and Purchase

7.1 Final redemption

- (a) Unless previously redeemed or purchased and cancelled as specified below, each Covered Bond will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Final Maturity Date.
- (b) If an Extended Final Maturity Date is specified in the applicable Final Terms for a Series of Covered Bonds and the Issuer has failed to pay the Final Redemption Amount on the Final Maturity Date specified in the Final Terms, then (subject as provided below) payment of any unpaid Final Redemption Amount by the Issuer shall be deferred until the Extended Final Maturity Date, provided that any amount representing the Final Redemption Amount due and remaining unpaid on the Final Maturity Date shall be paid by the Issuer on any Interest Payment Date occurring thereafter up to (and including) the relevant Extended Final Maturity Date.
- (c) The Issuer shall confirm to the Covered Bondholders (in accordance with Condition 17), the rating agencies, any relevant Hedging Counterparty, the Trustee, the Registrar (in the case of a Registered Covered Bond) and the Principal Paying Agent as soon as reasonably practicable and in any event at least four Business Days prior to the Final Maturity Date of any inability of the Issuer to pay in full the Final Redemption Amount in respect of a Series of Covered Bonds on the Final Maturity Date. Any failure by the Issuer to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.
- (d) Where the applicable Final Terms for a relevant Series of Covered Bonds provides that such Covered Bonds are subject to an Extended Final Maturity Date, such failure to pay by the Issuer on the Final Maturity Date shall not constitute a default in payment (but, for the avoidance of doubt, such failure to pay shall constitute an Issuer Event).

7.2 Redemption for taxation reasons

Subject to Condition 7.7 (*Early Redemption Amounts*) the Covered Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the relevant Covered Bond is not a Floating Rate Covered Bond) or on any Interest Payment Date (if the relevant Covered Bond is a Floating Rate Covered Bond), on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Trustee and, in accordance with Condition 17 (*Notices*), the Covered Bondholders (which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately before the giving of such notice that on the occasion of the next date for payment of interest on the relevant Covered Bonds, the Issuer is or would be required to pay additional amounts as provided or referred to in Condition 8 (*Taxation*). Covered Bonds redeemed pursuant to this Condition 7.2 (*Redemption for taxation reasons*) will be redeemed at their Early Redemption Amount referred to in Condition 7.7 (*Early Redemption Amounts*) together (if appropriate) with interest accrued to (but excluding) the date of redemption.

7.3 Redemption at the option of the Issuer (Issuer Call)

If an issuer call is specified in the applicable Final Terms (**Issuer Call**), the Issuer may (to the extent funds are available for such purpose), having given not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Trustee, the Principal Paying Agent, the Registrar (in the case of the redemption of Registered Covered Bonds) and, in accordance with Condition 17 below, the Covered Bondholders (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Covered Bonds then outstanding on any Optional Redemption Date specified in the applicable Final Terms and at the Optional Redemption Amount(s) specified in the applicable Final Terms together, if applicable, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount (if any) as specified in the applicable Final Terms.

In the case of a partial redemption of Covered Bonds, the Covered Bonds to be redeemed (the **Redeemed Covered Bonds**) will be selected individually by lot, in the case of Redeemed Covered Bonds represented by Definitive Covered Bonds, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) in the case of Redeemed Covered Bonds represented by a Global Covered Bond, in each case, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the **Selection Date**). In the case of Redeemed Covered Bonds represented by Definitive Covered Bonds, a list of the serial numbers of such Redeemed Covered Bonds will be published in accordance with Condition 17 (*Notices*) not less than 15 days (or such shorter period as may be specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Covered Bonds represented by Definitive Covered Bonds or represented by Global Covered Bonds shall, in each case, bear the same proportion to the aggregate nominal amount of all Redeemed Covered Bonds as the aggregate nominal amount of Definitive Covered Bonds or Global Covered Bonds outstanding bears, in each case, to the aggregate nominal amount of the Covered Bonds outstanding on the Selection Date, provided that such nominal amounts shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination. No exchange of the relevant Global Covered Bond will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this Condition 7.3 and notice to that effect shall be given by the Issuer to the Covered Bondholders in accordance with Condition 17 (*Notices*) at least five days (or such shorter period as is specified in the applicable Final Terms) prior to the Selection Date.

7.4 Redemption at the option of the Covered Bondholders (Investor Put)

- (a) If an investor put is specified as being applicable in the Final Terms (the **Investor Put**), then if and to the extent specified in the applicable Final Terms, upon the holder of this Covered Bond giving to the Issuer, in accordance with Condition 17 (*Notices*), not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms, the Issuer will, upon the expiry of such notice provided that the Servicer has notified the Trustee in writing that there will be sufficient funds available to pay any termination payment due to the relevant Covered Bond Swap Provider(s), redeem in whole (but not in part), such Covered Bond on the Optional Redemption Date as specified in the applicable Final Terms and at the relevant Optional Redemption Amount together, if applicable, with interest accrued to (but excluding) the relevant Optional Redemption Date.
- (b) If this Covered Bond is in definitive form, to exercise the right to require redemption of this Covered Bond, the holder of this Covered Bond must deliver such Covered Bond, on any Business Day (as defined in Condition 5.5) falling within the above-mentioned notice period at the specified office of any Paying Agent, accompanied by a duly signed and completed notice of exercise of the Investor Put in the form (for the time being current) obtainable from any specified office of any Paying Agent (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is by cheque, an address) to which payment is to be made under this Condition 7.4.
- (c) Any Put Notice given by a Covered Bondholder of any Covered Bond pursuant to this Condition shall be irrevocable.

It may be that before an Investor Put can be exercised, certain conditions and/or circumstances will need to be satisfied. Where relevant, the provisions will be set out in the applicable Final Terms.

7.5 Repurchase by the Issuer at the option of the Covered Bondholders (Investor Repurchase Put)

- (a) If an investor Repurchase Put is specified in the Final Terms (the **Investor Repurchase Put**), then if and to the extent that the Issuer does not redeem the Covered Bonds in full on the Final Maturity Date (taking into account any applicable grace periods), upon the holder of this Covered Bond giving to the Issuer not less than 30 nor more than 60 days' notice (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, be required to purchase such Covered Bond on the date specified on such notice (the Repurchase Date) and at the relevant Optional Redemption Amount as specified in, or determined in the manner specified in, the applicable Final Terms, together, if applicable, with interest accrued to (but excluding) the relevant Repurchase Date.
- (b) If this Covered Bond is in definitive form, to exercise the right to require redemption of this Covered Bond, the holder of this Covered Bond must deliver such Covered Bond, on any Business Day (as defined in Condition 5.5) falling within the above-mentioned notice period at the specified office of any Paying Agent, accompanied by a duly signed and completed notice of exercise of the Investor Repurchase Put in the form (for the time being current) obtainable from any specified office of any Paying Agent (a Put Notice) and in which the holder must specify a bank account (or, if payment is by cheque, an address) to which payment is to be made under this Condition 7.5.
- (c) Any notice given by a Covered Bondholder of any Covered Bond pursuant to this Condition shall be irrevocable.

Any failure by the Issuer to repurchase Covered Bonds pursuant to this Condition shall not constitute an Event of Default.

7.6 General

Prior to the publication of any notice of redemption pursuant to Condition 7.2 (*Redemption for taxation reasons*) or Condition 7.3 (*Redemption at the option of the Issuer (Issuer Call)*), the Issuer shall deliver to the Trustee a certificate signed by two directors (at the relevant time) of the Issuer stating that the Issuer is entitled or required to effect such redemption and setting forth a statement of facts showing that the conditions set out in Condition 7.2 (*Redemption for taxation reasons*) or Condition 7.3 (*Redemption at the option of the Issuer (Issuer Call)*) for such right or obligation (as applicable) of the Issuer to arise have been satisfied and that the Issuer will have the funds, not subject to the interest of any other persons, required to fulfil its obligations hereunder in respect of the Covered Bonds and any amounts required under the Servicing and Cash Management Deed and/or the Deed of Charge to be paid *pari passu* with, or in priority to, the Covered Bonds and the Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions set out above, in which event it shall be conclusive and binding on all Covered Bondholders and Couponholders.

7.7 Early Redemption Amounts

For the purpose Condition 7.2 (*Redemption for taxation reasons*) and Condition 10 (Events of Default and Enforcement):

- (a) each Covered Bond (other than a Zero Coupon Covered Bond) will be redeemed at its Early Redemption Amount; and
- (b) each Zero Coupon Covered Bond will be redeemed at an amount (the **Amortised Face Amount**) equal to the sum of:
- (c) the Reference Price; and
- (d) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of the Covered Bonds to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Covered Bond becomes due and repayable.

Where such calculation in paragraph (b) above is to be made for a period which is not a whole number of years, it shall be made (A) in the case of a Zero Coupon Covered Bond payable in a Specified Currency other than euro, on the basis of a 360-day year consisting of 12 months of 30 days each, or (B) in the case of a Zero Coupon Covered Bond payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non leap year divided by 365) or (C) on such other calculation basis as may be specified in the applicable Final Terms.

7.8 Purchases

The Issuer or any subsidiary of the Issuer may at any time purchase or otherwise acquire Covered Bonds (provided that, in the case of Bearer Definitive Covered Bonds, all unmatured Coupons and Talons appertaining thereto are attached thereto or surrendered therewith) at any price in the open market either by tender or private agreement or otherwise. If purchases are made by tender, tenders must be available to all Covered Bondholders alike. Such Covered Bonds may be held, reissued, resold or, at the option of the Issuer or the relevant subsidiary, surrendered to any Paying Agent and/or the Registrar for cancellation.

7.9 Cancellation

All Covered Bonds which are redeemed will forthwith be cancelled (together with, in the case of Bearer Definitive Covered Bonds, all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Covered Bonds so cancelled and any Covered Bonds purchased and surrendered for cancellation pursuant to Condition 7.8 (*Purchases*) and cancelled (together with, in the case of Bearer Definitive Covered Bonds, all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

7.10 Late Payment

If any amount payable in respect of any Covered Bond is improperly withheld or refused upon its becoming due and repayable or is paid after its due date, the amount due and repayable in respect of such Covered Bond (the **Late Payment**) shall itself accrue interest (both before and after any judgment or other order of a court of competent jurisdiction) from (and including) the date on which such payment was improperly withheld or refused or, as the case may be, became due, to (but excluding) the Late Payment Date in accordance with the following provisions:

- (a) in the case of a Covered Bond other than a Zero Coupon Covered Bond at the rate determined in accordance with Condition 5.1 (*Interest on Fixed Rate Covered Bonds*) or 5.2 (*Interest on Floating Rate Covered Bond*), as the case may be; and
- (b) in the case of a Zero Coupon Covered Bond, at a rate equal to the Accrual Yield,

in each case on the basis of the Day Count Fraction specified in the applicable Final Terms or, if none is specified, on a 30/360 basis.

For the purpose of this Condition 7.10, the Late Payment Date shall mean the earlier of:

- (i) the date which the Principal Paying Agent determines to be the date on which, upon further presentation of the relevant Covered Bond, payment of the full amount (including interest as aforesaid) in the relevant currency in respect of such Covered Bond is to be made; and
- (ii) the seventh day after notice is given to the relevant Covered Bondholder (whether individually or in accordance with Condition 17 (*Notices*)) that the full amount (including interest as aforesaid) in the relevant currency in respect of such Covered Bond is available for payment,

provided that in the case of both (i) and (ii), upon further presentation thereof being duly made, such payment is made.

8. Taxation

- (a) All payments of principal and interest in respect of the Covered Bonds and the Coupons (if any) by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by the Hellenic Republic or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. Neither the Issuer, nor any other entity shall be obliged to pay any additional amount to any Covered Bondholder on account of such withholding or deduction.

- (b) If the Issuer becomes subject at any time to any taxing jurisdiction other than the Hellenic Republic, references in the Conditions to the Hellenic Republic shall be construed as references to the Hellenic Republic and/or such other jurisdiction.

9. Issuer Events

Prior to, or concurrent with the occurrence of an Event of Default, if any of the following events (each, an **Issuer Event**) occurs:

- (a) an Issuer Insolvency Event;
- (b) the Issuer fails to pay any principal or interest in respect of the Covered Bonds of any Series or in each case within a period of seven Athens Business Days from the due date thereof;
- (c) default is made by the Issuer in the performance or observance of any obligation, condition or provision binding on it (other than any obligation for the payment of amounts due under the Covered Bonds or Coupons of any Series) under the Trust Deed, the Deed of Charge or any other Transaction Document to which the Issuer is a party which, in the opinion of the Trustee, would have a materially prejudicial effect on the interests of the Covered Bondholders of any Series and (ii) (except where such default is or the effects of such default are, in the opinion of the Trustee, not capable of remedy when no such continuation and notice as is hereinafter mentioned will be required), such default continues for 30 days (or such longer period as the Trustee may permit) after written notice has been given by the Trustee to the Issuer requiring the same to be remedied;
- (d) any present or future Indebtedness in respect of moneys borrowed or raised in an amount of €15,000,000 or more (other than Indebtedness under this Programme) of the Issuer becomes due and payable prior to the stated maturity thereof as extended by any grace period originally applicable thereto; or if any present or future guarantee of, or indemnity given by the Issuer in respect of such Indebtedness is not honoured when called upon or within any grace period originally applicable thereto;
- (e) if there is a breach of a Statutory Test on a Calculation Date and such breach is not remedied within five Athens Business Days; or
- (f) if it is or will (in the opinion of the Trustee, having taken legal advice from a reputable firm of lawyers or a reputable legal expert) become unlawful or illegal for the Issuer to comply with any of its obligations under or in respect of the Covered Bonds or any of the Transaction Documents where such unlawfulness or illegality cannot be remedied and, in the case of an unlawfulness or illegality which can be remedied, is not covered within 30 days after written notice has been given by the Trustee to the Issuer requiring the same to be remedied,

then (for as long as such Issuer Event is continuing) (i) no further Covered Bonds will be issued, (ii) the Servicer will procure that any and all payments due under the Cover Pool Assets are effected henceforth directly to the Transaction Account or the Third Party Collection Account (as applicable) in accordance with the Servicing and Cash Management Deed, (iii) all collections of principal and interest on the Cover Pool Assets will be dedicated exclusively to the payment of interest and repayment of principal on the Covered Bonds and to the fulfilment of the obligations of the Issuer vis-à-vis the Secured Creditors in accordance with the relevant Priority of Payments, (iv) if Alpha Bank A.E. is the Servicer, its appointment as Servicer will be terminated and a new servicer (the **Replacement Servicer**) will be appointed pursuant to the terms of the Servicing and Cash Management Deed and the Secondary Covered Bond Legislation and (v) the Servicer or, as applicable, the Replacement Servicer appointed pursuant to the Servicing and Cash Management

Deed and the Covered Bond Legislation will have the option to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell in whole or in part the Loan Assets in accordance with the provisions of the Servicing and Cash Management Deed.

Issuer Insolvency Event means, in respect of the Issuer:

- (a) an order is made or an effective resolution passed for the liquidation or winding up of the Issuer, except for the purposes of a reconstruction, amalgamation or merger or following the transfer of all or substantially all of the assets of the relevant entity, the terms of which have previously been approved in writing by the Trustee or by an Extraordinary Resolution of the Covered Bondholders of all Series taken together as a single Series or which has been effected in compliance with the terms of Condition 18;
- (b) the Issuer stops or threatens to stop payment to its creditors generally;
- (c) the Issuer shall stop or threatens to stop payment or shall be unable to, or shall admit inability to, pay its debts as they fall due, or shall be adjudicated or found bankrupt or insolvent by a court of competent jurisdiction or shall make a conveyance or assignment for the benefit of, or shall enter into any composition or other arrangement with, its creditors generally;
- (d) a receiver, trustee or other similar official shall be appointed in relation to the Issuer or in relation to the whole or substantial part of the assets of, the Issuer or an interim supervisor of the Issuer is appointed by the Bank of Greece or an encumbrancer shall take possession of the whole or substantial part of the assets of the Issuer, or a distress or execution or other process shall be levied or enforced upon or sued out against the whole or (in the opinion of the Trustee) a substantial part of the assets of the Issuer and in any of the foregoing cases it or he shall not be discharged within 60 days;
- (e) the imposition on the Issuer of resolution measures in accordance with article 37 of Greek law 4335/2015; or
- (f) a supervisor (*Epitropos*) of the Issuer is appointed in accordance with article 137 of Greek law 4261/2014 or Issuer is placed in liquidation in accordance with article 145 of Greek law 4261/2014.

Subsidiary means, with respect to any person, any corporation or other business entity of which such person owns or controls (either directly or through another subsidiary or other subsidiaries) 50 per cent. or more of the issued share capital or other ownership interest having ordinary voting power to elect directors, managers or trustees of such corporation or other business entity (other than capital stock or other ownership interest of any other classes which have voting power on the occurrence of any contingency).

10. Events of Default and Enforcement

10.1 Events of Default

If any of the following events occurs, and is continuing:

- (a) on the Final Maturity Date (if the relevant Series of Covered Bonds are not subject to an Extended Maturity Date) or, if such series of Covered Bonds are subject to an Extended Final Maturity Date, the Extended Final Maturity Date, in respect of any Series of Covered

Bonds, there is a failure to pay any amount of principal due on such Covered Bonds on such date and such default is not remedied within a period of seven Athens Business Days from the due date thereof; or

- (b) on any Interest Payment Date, a default in the payment of the amount of interest due on any Series of Covered Bonds occurs and such default is not remedied within a period of 14 Athens Business Days from the due date thereof; or
- (c) breach of the Amortisation Test pursuant to Clause 8 of the Servicing and Cash Management Deed on any Calculation Date following an Issuer Event,

then the Trustee shall, upon receiving notice in writing from the Principal Paying Agent or any Covered Bondholder or, in respect of (c) the Servicer of such Event of Default, serve a notice (a **Notice of Default**) on the Issuer.

Following the service of a Notice of Default, the Covered Bonds of each Series shall become immediately due and payable.

10.2 Enforcement

The Trustee may at any time, at its discretion and without further notice, take such proceedings or steps or exercise rights or powers under or in connection with the Deed of Charge, the Trust Deed, the Covered Bonds or any other Transaction Document against the Issuer and/or any other person as it may think fit to enforce the provisions of the Deed of Charge, the Trust Deed, the Covered Bonds or any other Transaction Document in accordance with its terms and the pledge created under the Greek Covered Bond Legislation and may, at any time after the Security has become enforceable, take such proceedings or steps or exercise such rights or powers as it may think fit to enforce the Security, but it shall not be bound to take any such proceedings or steps unless (i) it shall have been so directed by (A) an Extraordinary Resolution of all the Covered Bondholders of all Series (with the Covered Bonds of all Series taken together as a single Series and converted into Euro at the relevant Covered Bond Swap Rate) or (B) a request in writing by the holders of not less than 25 per cent. of the aggregate Principal Amount Outstanding of the Covered Bonds of all Series then outstanding (with the Covered Bonds of all Series taken together as a single Series and converted into Euro at the relevant Covered Bond Swap Rate), and (ii) it shall have been indemnified and/or secured and/or prefunded to its satisfaction.

In exercising any of its powers, trusts, authorities and discretions under this Condition 10.2 the Trustee shall only have regard to the interests of the Covered Bondholders of all Series taken together and shall not have regard to the interests of any individual Covered Bondholders (whatever their number) or any other Secured Creditors.

No Covered Bondholder or Couponholder shall be entitled to proceed directly against the Issuer or to take any action with respect to the Trust Deed, any other Transaction Document, the Covered Bonds, the Coupons, or the Security unless the Trustee, having become bound so to proceed, fails so to do within a reasonable period and such failure shall be continuing.

11. Prescription

Claims against the Issuer for payment of principal and interest in respect of the Covered Bonds (whether in bearer or registered form) will be prescribed and become void unless made, in the case of principal, within ten years or, in the case of interest, five years after the Relevant Date.

The Issuer shall be discharged from its obligation to pay principal on a Registered Covered Bond to the extent that the relevant Registered Covered Bond certificate has not been surrendered to the

Registrar by, or a cheque which has been duly despatched in the Specified Currency remains uncashed at, the end of the period of ten years from the Relevant Date for such payment.

The Issuer shall be discharged from its obligation to pay interest on a Registered Covered Bond to the extent that a cheque which has been duly despatched in the Specified Currency remains uncashed at the end of the period of five years from the Relevant Date in respect of such payment.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for paying in respect of which would be void pursuant to this Condition 11 (*Prescription*) or Condition 6 (*Payments*).

As used herein, the **Relevant Date** means the date on which payment in respect of the Covered Bond or Coupon first becomes due and payable but, if the full amount of the moneys payable on such date has not been received by the Principal Paying Agent on or prior to such date, the Relevant Date shall be the date on which such moneys shall have been so received and notice to that effect has been given to Covered Bondholders in accordance with Condition 17 (*Notices*).

12. Replacement of Covered Bonds, Coupons and Talons

If any Covered Bond, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent (in the case of Bearer Covered Bonds or Coupons) or the Registrar (in the case of Registered Covered Bonds), or any other place approved by the Trustee, of which notice shall be given to the Covered Bondholders in accordance with Condition 17 (and, if the Covered Bonds are then listed on any stock exchange which requires the appointment of an Agent in any particular place, the Paying Agent having its specified office in the place required by such stock exchange), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Covered Bonds, Talons or Coupons must be surrendered before replacements will be issued.

13. Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Bearer Covered Bond to which it appertains) a further Talon, subject to the provisions of Condition 11 (*Prescription*). Each Talon shall, for the purposes of these Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relevant Coupon sheet matures.

14. Trustee and Agents

- (a) In acting under the Agency Agreement and in connection with the Covered Bonds and the Coupons, the Agents act solely as agents of the Issuer and, in certain circumstances specified therein, of the Trustee and do not assume any obligations towards or relationship of agency or trust for or with any of the Covered Bondholders or Couponholders.
- (b) The initial Agents and their initial specified offices are set forth in the Base Prospectus and in the Master Definitions and Construction Schedule. If any additional Agents are appointed in connection with any Series, the names of such Agents will be specified in Part B of the applicable Final Terms. The initial Calculation Agent (if any) is specified in the relevant Final Terms. The Issuer reserves the right at any time, with the prior written approval of the Trustee, to vary or terminate the

appointment of any Agent and to appoint a successor Principal Paying Agent or Calculation Agent and additional or successor Agents *provided, however, that*:

- (c) there will at all times be a Principal Paying Agent and a Registrar;
- (d) so long as the Covered Bonds are listed on any stock exchange or admitted to listing by any other relevant authority there will at all times be a Paying Agent (in the case of Bearer Covered Bonds) and a Transfer Agent (in the case of Registered Covered Bonds) with a specified office in such place as may be required by the rules and regulations of such stock exchange or other relevant authority;
- (e) if a Calculation Agent is specified in the relevant Final Terms, the Issuer (or following the occurrence of an Issuer Event, the Servicer) shall at all times maintain a Calculation Agent;
- (f) if and for so long as the Covered Bonds are listed on any stock exchange which requires the appointment of an Agent in any particular place, the Issuer (or following the occurrence of an Issuer Event, the Servicer) shall maintain an Agent having its specified office in the place required by such stock exchange;
- (g) Notice of any variation, termination, appointment or change in any of the Agents or in their specified offices shall promptly be given to the Covered Bondholders by the Issuer in accordance with Condition 17 (Notices); and
- (h) Under the Trust Deed and the Deed of Charge, the Trustee is entitled to be indemnified and/or secured and/or prefunded to its satisfaction and relieved from responsibility in certain circumstances and to be paid its remuneration, costs and expenses and all other liabilities in priority to the claims of the Covered Bondholders and the other Secured Creditors.

15. Meetings of Covered Bondholders, Modification and Waiver

- (a) *Meetings of Covered Bondholders*: The Trust Deed contains provisions for convening meetings of Covered Bondholders of each Series to consider matters relating to the Covered Bonds, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution of Covered Bondholders of the relevant Series. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Issuer upon the request in writing signed by Covered Bondholders holding not less than one-tenth of the aggregate principal amount of the outstanding Covered Bonds of the relevant Series. The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more persons holding or representing not less than a clear majority of the aggregate principal amount of the outstanding Covered Bonds of the relevant Series or, at any adjourned meeting, one or more persons being or representing Covered Bondholders of such Series whatever the principal amount of the Covered Bonds of such Series held or represented; *provided, however, that* Series Reserved Matters, described in the Trust Deed, may only be sanctioned by an Extraordinary Resolution passed at a meeting of Covered Bondholders of the relevant Series at which one or more persons holding or representing not less than two-thirds or, at any adjourned meeting, not less than one-third of the aggregate principal amount of the outstanding Covered Bonds of the relevant Series form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Covered Bondholders and Couponholders of the relevant Series, whether present or not.

Notwithstanding the provisions of the immediately preceding paragraph, any Extraordinary Resolution to direct the Trustee to take any enforcement action pursuant to Condition 10.2 (*Enforcement*) (each a **Programme Resolution**) shall only be capable of being passed at a single meeting of the holders of the Covered Bonds of all Series then outstanding. Any such meeting to consider a Programme Resolution may be convened by the Issuer or the Trustee or by Covered Bondholders holding at least 25 per cent. of the aggregate Principal Amount Outstanding of the

Covered Bonds of all Series then outstanding. The quorum at any such meeting for passing a Programme Resolution is one or more persons holding or representing a clear majority of the aggregate Principal Amount Outstanding of the Covered Bonds of all Series for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing Covered Bonds whatever the nominal amount of the Covered Bonds of all Series then outstanding. A Programme Resolution passed at any meeting of the Covered Bondholders of all Series shall be binding on all Covered Bondholders of all Series, whether or not they are present at the meeting, and on all Couponholders in respect of such Covered Bonds.

In connection with any meeting of the holders of Covered Bonds of more than one Series where such Covered Bonds are not denominated in Euro, the nominal amount of the Covered Bonds of any Series not denominated in Euro shall be deemed, for the purposes of such meeting, to be an amount in Euro equal to the Principal Amount Outstanding of such Covered Bonds converted to Euro using the relevant Covered Bond Swap Rate.

- (b) *Rating Agency Confirmation and Notification:* Any such modification referred to in paragraph (a) above may only be effected provided that each of the Rating Agencies has been notified.
- (c) *Modification:* The Trustee may, without the consent or sanction of any of the Covered Bondholders or Couponholders of any Series or any of the other Secured Creditors (other than the Swap Providers in respect of a modification to the Pre Event of Default Priority of Payments, the Post Event of Default Priority of Payments, these Conditions, the Eligibility Criteria or the Servicing and Cash Management Deed which, in the opinion of the Trustee, adversely affects their interests (such consent or sanction not to be unreasonably withheld or delayed) at any time and from time to time concur with the Issuer and any other party, to:
 - (i) any modification (other than in respect of a Series Reserved Matter) of the terms and conditions applying to the Covered Bonds of one or more Series (including these Conditions), the related Coupons or any Transaction Document provided that in the sole opinion of the Trustee such modification is not materially prejudicial to the interests of any of the Covered Bondholders of such Series, or
 - (ii) any modification of the terms and conditions applying to Covered Bonds of any one or more Series (including these Conditions), the related Coupons or any Transaction Document which is in the sole opinion of the Trustee of a formal, minor or technical nature or is to correct a manifest error.

Series Reserved Matter means in relation to Covered Bonds of a Series:

- (i) reduction or cancellation of the amount payable or, where applicable, modification of the method of calculating the amount payable or modification of the date of payment or, where applicable, modification of the method of calculating the date of payment in respect of any principal or interest in respect of the Covered Bonds other than in accordance with the terms thereof;
- (ii) alteration of the currency in which payments under the Covered Bonds and Coupons are to be made other than in accordance with Condition 6.8;
- (iii) alteration of the quorum or majority required to pass an Extraordinary Resolution;
- (iv) the sanctioning of any such scheme or proposal for the exchange or sale of the Covered Bonds for or the conversion of the Covered Bonds into, or the cancellation of the Covered Bonds in consideration of, shares, stock, covered bonds, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer or any other company formed or to be

formed, or for or into or in consideration of cash, or partly for or into or in consideration of such shares, stock, bonds, covered bonds, debentures, debenture stock and/or other obligations; and

- (v) alteration of this definition of Series Reserved Matter.
- (d) *Breach/ waiver*: The Trustee may without the consent of any of the Covered Bondholders of any Series and/or Couponholders and any Secured Creditors and without prejudice to its rights in respect of any subsequent breach, Issuer Event, Potential Event of Default, or Event of Default from time to time and at any time but only if in so far as in its opinion the interests of the Covered Bondholders of any Series shall not be materially prejudiced thereby, waive or authorise any breach or proposed breach by the Issuer of any of the covenants or provisions contained in the Trust Presents or the other Transaction Documents or determine that any Issuer Event, Potential Event of Default or Event of Default shall not be treated as such for the purposes of the Trust Presents PROVIDED ALWAYS THAT the Trustee shall not exercise any powers conferred on it by this Condition 15(d) in contravention of any express direction given by Extraordinary Resolution or by a request under Condition 10 (*Events of Default and Enforcement*) but so that no such direction or request shall affect any waiver, authorisation or determination previously given or made. Any such waiver, authorisation or determination may be given or made on such terms and subject to such conditions (if any) as the Trustee may determine, shall be binding on the Covered Bondholders and/or the Couponholders and shall be notified by the Issuer (i) (if, but only if, the Trustee shall so require) to the Covered Bondholders in accordance with Condition 17 (*Notices*) and (ii) to the Rating Agencies as soon as practicable thereafter.
- (e) Notwithstanding the provisions of this Condition 15, the Trustee shall be obliged, without any consent or sanction of the Covered Bondholders of any Series, the related Receiptholders and/or the Couponholders and without the consent of the Secured Creditors, to concur with the Issuer in making any modification (other than in respect of a Series Reserved Matter), for the avoidance of doubt, irrespective of whether such modification is materially prejudicial to the interests of the Covered Bondholders of any Series, to:
 - (i) the terms and conditions applying to the Covered Bonds of one or more Series (including the Conditions), the related Coupons or any Transaction Document for the purpose of complying with, or implementing or reflecting, any change in the criteria of one or more of the Rating Agencies which may be applicable from time to time, provided that in relation to any amendment under this Condition 15, the Issuer certifies in writing to the Trustee that such modification is necessary to comply with such criteria or, as the case may be, is solely to implement and reflect such criteria and the Issuer either
 - (A) has obtained from each of the Rating Agencies written confirmation (or certifies in writing to the Trustee that it has been unable to obtain written confirmation, but has received either oral confirmation from an appropriately authorised person at each of the Rating Agencies) that such modification would not result in a downgrade, withdrawal or suspension of the then current ratings assigned to the Covered Bonds by such Rating Agency and would not result in any Rating Agency placing any Series of Covered Bonds on rating watch negative (or equivalent) or in relation to Fitch a 'no comments' confirmation in relation to the proposed amendments and, if relevant, delivers a copy of each such confirmation to the Trustee; or
 - (B) certifies in writing to the Trustee that the Rating Agencies have been informed of the proposed modification and none of the Rating Agencies has indicated that such modification would result in a downgrade, withdrawal or suspension of the then current ratings assigned to the Covered Bonds by such Rating Agency or such

Rating Agency placing any Covered Bonds on rating watch negative (or equivalent);
or

- (ii) the terms and conditions applying to the Covered Bonds of one or more Series (including the Conditions), the related Coupons or any Transaction Document for the purpose of complying with, or implementing or reflecting, any change that is requested by the Issuer in order to enable the Issuer to comply with any requirements which apply to it under Regulation (EU) 648/2012 (the **European Markets Infrastructure Regulation** or **EMIR**), subject to receipt by the Trustee of a certificate of the Issuer (upon which the Trustee may rely without further enquiry or liability to any person) certifying to the Trustee that the requested amendments are to be made solely for the purpose of enabling the Issuer to satisfy any requirements which apply to it under EMIR,
- (iii) the terms and conditions applying to the Covered Bonds of one or more Series (including the Conditions), the related Coupons or any Transaction Document for the purpose of changing the Screen Rate or the base rate that then applies in respect of any Covered Bonds to an alternative base rate (any such rate, which may include an alternative Screen Rate, an **Alternative Base Rate**) and making such other amendments as are necessary or advisable in the commercially reasonable judgment of the Issuer (or the Servicer on its behalf) to facilitate such change (a **Base Rate Modification**), **provided that** the Issuer (or the Servicer on its behalf), certifies to the Trustee:
 - (x) that such Base Rate Modification is being undertaken due to:
 - (A) a material disruption to LIBOR or EURIBOR, an adverse change in the methodology of calculating LIBOR or EURIBOR or either of LIBOR or EURIBOR ceasing to exist or be published;
 - (B) the insolvency or cessation of business of the LIBOR administrator or EURIBOR (in circumstances where no successor administrator has been appointed);
 - (C) a public statement by the relevant administrator that it will cease publishing LIBOR or EURIBOR as the case may be permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of LIBOR or EURIBOR as the case may be);
 - (D) a public statement by the supervisor of the relevant administrator that LIBOR and/or EURIBOR has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner;
 - (E) a public announcement of the permanent or indefinite discontinuation of the relevant Screen Rate or base rate that applies to the Covered Bonds;
 - (F) public statement by the supervisor of the relevant administrator that means LIBOR or EURIBOR may no longer be used or that its use is subject to restrictions or adverse consequences;
 - (G) a public announcement of the permanent or indefinite discontinuation of the relevant Screen Rate or base rate that applies to the Covered Bonds at such time; or
 - (H) the reasonable expectation of the Issuer (or the Servicer on its behalf) that any of the events specified in sub-paragraphs (A), (B), (C), (D), (E), (F) or

(G) above will occur or exist within six months of the proposed effective date of such Base Rate Modification; and

- (y) such Alternative Base Rate is:
 - (A) a base rate published, endorsed, approved or recognised by the Federal Reserve or the Bank of England, any regulator in the United States, the United Kingdom or the European Union or any stock exchange on which the Notes are listed (or any relevant committee or other body established, sponsored or approved by any of the foregoing);
 - (B) the Sterling Over Night Index Average or the Broad Treasuries Repo Financing Rate (or any rate which is derived from, based upon or otherwise similar to either of the foregoing);
 - (C) a base rate utilised in a material number of publicly-listed new issues of Sterling-denominated or Euro-denominated (as applicable) asset backed floating rate notes prior to the effective date of such Base Rate Modification; or
 - (D) such other base rate as the Issuer (or the Servicer on its behalf) reasonably determines.

provided that the Trustee shall not be obliged to concur with the Issuer in making any modification that may impact on the Trustee's rights, duties and obligations under the Trust Deed, the Conditions or any other Transaction Document.

16. Further Issues

The Issuer may from time to time, without the consent of the Covered Bondholders or the Couponholders or any other Secured Creditors, create and issue further Covered Bonds having the same terms and conditions as the Covered Bonds in all respects (or in all respects except for the first payment of interest thereon, issue date and/or issue price) so as to form a single series with the Covered Bonds provided that (i) no Issuer Event or Event of Default has occurred which is continuing and that such issuance would not cause an Issuer Event or Event of Default, (ii) such issuance would not result in a breach of any of the Statutory Tests, (iii) each Rating Agency has been notified of such issuance, (iv) the Bank of Greece in accordance with paragraph II.3 of the Secondary Covered Bond Legislation has been notified of such issuance and (v) if applicable, in respect of any Series or Tranche, a Hedging Agreement is entered into.

17. Notices

All notices regarding the Bearer Covered Bonds will be valid if published in one leading English language daily newspaper of general circulation in London or any other daily newspaper in London approved by the Trustee and, (for so long as any Bearer Covered Bonds are listed on the official list of the Luxembourg Stock Exchange) if published in a daily newspaper of general circulation in Luxembourg or on the website of the Luxembourg Stock Exchange www.bourse.lu. It is expected that such publication will be made in the Financial Times in London and (in relation to Bearer Covered Bonds listed on the official list of the Luxembourg Stock Exchange) in the *Luxemburger Wort* or the *Tageblatt* in Luxembourg. The Issuer or, in the case of a notice given by the Trustee, the Trustee shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange or any other relevant authority on which the Bearer Covered Bonds are for the time being listed. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on

which publication shall have been made in all the required newspapers or where published in such newspapers on different dates, the last date of such first publication). If publication as provided above is not practicable, notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

All notices regarding the Registered Covered Bonds will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Registered Covered Bonds are listed, quoted or traded on a stock exchange or are admitted to listing or trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published on the relevant website or published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice will be deemed to have been given on the date of such publication. If the giving of notice as provided above is not practicable, notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Bearer Covered Bondholders.

So long as the Covered Bonds are represented in their entirety by any Global Covered Bonds held on behalf of Euroclear and/or Clearstream, Luxembourg, there may be substituted for such publication in such newspaper(s) or such mailing, the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the Covered Bondholders provided that, in addition, for so long as any Covered Bonds are listed on a stock exchange or admitted to listing or trading by any other relevant authority and the rules of the stock exchange, or as the case may be, other relevant authority so require, such notice will be published on the relevant website or published in a daily newspaper of general circulation in the place or places required by that stock exchange or, as the case may be, any other relevant authority. Any such notice shall be deemed to have been given to the Covered Bondholders on the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg, as appropriate.

Notices to be given by any Covered Bondholder shall be in writing and given by lodging the same, together (in the case of any Covered Bond in definitive form) with the relevant Covered Bond or Covered Bonds, with the Principal Paying Agent (in the case of Bearer Covered Bonds) or the Registrar (in the case of Registered Covered Bonds). Whilst the Covered Bonds are represented by Global Covered Bonds, any notice may be given by any Covered Bondholder to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Paying Agent, the Registrar, Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

18. Substitution of the Issuer

- (a) If so requested by the Issuer, the Trustee may, without the consent of any Covered Bondholder or Couponholder or any other Secured Creditor, agree with the Issuer to the substitution in place of the Issuer of any other body incorporated in any country in the world as the debtor in respect of the Covered Bonds, any Coupons and the Trust Deed and each other Transaction Document (the **New Company**) upon notice by the Issuer and the New Company to be given to the Covered Bondholders and the other Secured Creditors in accordance with Condition 17 (*Notices*), *provided that*:
- (i) the Issuer is not in default in respect of any amount payable under the Covered Bonds;
 - (ii) the Issuer and the New Company have entered into such documents (the **Documents**) as are necessary, in the opinion of the Trustee, to give effect to the substitution and in which the

New Company has undertaken in favour of the Trustee and each Covered Bondholder to be bound by the Trust Deed, these Conditions and each other Transaction Document as the principal debtor in respect of the Covered Bonds in place of the Issuer (or of any previous substitute under this Condition 18 (*Substitution of the Issuer*));

- (iii) if the New Company is resident for tax purposes in a territory (the **New Residence**) other than that in which the Issuer prior to such substitution was resident for tax purposes (the **Former Residence**), the Documents contain an undertaking and/or such other provisions as may be necessary to ensure that the Trustee and each Covered Bondholder has the benefit of an undertaking in terms corresponding to the provisions of this Condition 8 (*Taxation*), with the substitution of references to the Former Residence with references to the New Residence;
 - (iv) the New Company and the Issuer have obtained all necessary governmental approvals and consents for such substitution and for the performance by the New Company of its obligations under the Transaction Documents;
 - (v) legal opinions shall have been delivered to the Trustee (with a copy of such legal opinions also to be provided to the Rating Agencies) from lawyers of recognised standing in the jurisdiction of incorporation of the New Company, in England and in Greece as to matters of law relating to the fulfilment of the requirements of this Condition 18 (*Substitution of the Issuer*) and that the Covered Bonds and any Coupons and/or Talons are legal, valid and binding obligations of the New Company;
 - (vi) if Covered Bonds issued or to be issued under the Programme have been assigned a credit rating by Fitch and Moody's (together the **Rating Agencies** and each a **Rating Agency**), each Rating Agency has been notified of the proposed substitution and Moody's have confirmed, within 30 days of receiving such notice, that the then current rating of the then outstanding Covered Bonds would not be downgraded as a result of such substitution;
 - (vii) each stock exchange on which the Covered Bonds are listed shall have confirmed that, following the proposed substitution of the New Company, the Covered Bonds will continue to be listed on such stock exchange;
 - (viii) if applicable, the New Company has appointed a process agent in England to receive service of process on its behalf in relation to any legal proceedings arising out of or in connection with the Covered Bonds, the Trust Deed and/or any other Transaction Document;
 - (ix) without prejudice to the rights of reliance of the Trustee under the immediately following paragraph (x), the Trustee is satisfied that the relevant transaction is not materially prejudicial to the interests of the Covered Bondholders of any Series; and
 - (x) if two directors of the New Company (or other officers acceptable to the Trustee) have certified that the New Company is solvent both at the time at which the relevant transaction is proposed to be effected and immediately thereafter (which certificate the Trustee can rely on absolutely), the Trustee shall not be under any duty to have regard to the financial conditions, profits or prospect of the New Company or to compare the same with those of the Issuer.
- (b) Upon such substitution the New Company shall succeed to, and be substituted for, and may exercise every right and power, of the Issuer under the Covered Bonds, any Coupons and the Trust Deed with the same effect as if the New Company has been named as the Issuer herein, and the Issuer shall be released from its obligations under the Covered Bonds, any Coupons and/or Talons and under the Trust Deed.

- (c) After a substitution pursuant to Condition 18(a) the New Company may, without the consent of any Covered Bondholder or Couponholder, effect a further substitution. All the provisions specified in Conditions 18(a) and 18(b) shall apply *mutatis mutandis*, and references in these Conditions to the Issuer shall, where the context so requires, be deemed to be or include references to any such further New Company.
- (d) After a substitution pursuant to Condition 18(a) or 18(c) any New Company may, without the consent of any Covered Bondholder or Couponholder, reverse the substitution, *mutatis mutandis*.
- (e) The Transaction Documents shall be delivered to, and kept by, the Principal Paying Agent. Copies of the Transaction Documents will be available free of charge during normal business hours at the specified office of the Principal Paying Agent.

19. Renominalisation and Reconventioning

If the country of the Specified Currency becomes or, announces its intention to become, a Participating Member State, the Issuer may, without the consent of the Covered Bondholders and Couponholders, on giving at least 30 days' prior notice to the Covered Bondholders and the Paying Agents, designate a date (the **Redenomination Date**), being an Interest Payment Date under the Covered Bonds falling on or after the date on which such country becomes a Participating Member State to redenominate all, but not some only, of the Covered Bonds of any series.

20. Governing Law and Jurisdiction

The Covered Bonds and any non-contractual obligations arising out of or in connection with the Covered Bonds shall be governed by, and shall be construed in accordance with, English law, save that the security under the Statutory Pledge referred to in Condition 3 (*Status of the Covered Bonds*) above, shall be governed by, and construed in accordance with Greek law.

21. Submission to jurisdiction

- (a) Subject to Condition 21(c) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Covered Bonds and the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Covered Bonds and the Coupons (a **Dispute**) and accordingly each of the Issuer and the Trustee and any Covered Bondholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.
- (b) For the purposes of this Condition 21, the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (c) To the extent allowed by law, the Trustee, the Covered Bondholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions.

22. Appointment of Process Agent

The Issuer irrevocably appoints Alpha Bank London Limited at Capital House, 85 King William Street, London EC4N 7BL (Attn.: Lindsay Mackay (Managing Director)/Graham Ballantyne (General Manager), Email: lindsaym@alpha-bank.co.uk/ grahamb@alpha-bank.co.uk, Fax: 00 44 207 332 0010), as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of Alpha Bank London Limited being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the

Trustee as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

23. Third Parties

No person shall have any right to enforce any term or condition of this Covered Bond under the Contracts (Rights of Third Parties) Act 1999.

FORMS OF THE COVERED BONDS

The Covered Bonds of each Series will be in either bearer form, with or without interest coupons and/or talons attached or registered form, without interest coupons and/or talons attached. Bearer Covered Bonds will be issued outside the United States in reliance on Regulation S and Registered Covered Bonds may be issued outside the United States in reliance on Regulation S.

Bearer Covered Bonds

Each Tranche of Bearer Covered Bonds will initially be issued in the form of a temporary global covered bond without interest coupons attached (a **Temporary Global Covered Bond**) which will:

- (a) if the Bearer Global Covered Bonds (as defined below) are issued in new global covered bond (**NGCB**) form, as stated in the applicable Final Terms, be delivered on or prior to the issue date of the relevant Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, *société anonyme* (**Clearstream, Luxembourg**); and
- (b) if the Bearer Global Covered Bonds are not issued in NGCB form, be delivered on or prior to the issue date of the relevant Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg.

Bearer Covered Bonds will only be delivered outside the United States and its possessions.

Where the Global Covered Bonds issued in respect of any Tranche are in NGCB form, the applicable Final Terms will also indicate whether such Global Covered Bonds are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Covered Bonds are to be so held does not necessarily mean that the Covered Bonds of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGCBs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Final Terms.

Whilst any Bearer Covered Bond is represented by a Temporary Global Covered Bond, payments of principal, interest (if any) and any other amount payable in respect of the Bearer Covered Bonds due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Covered Bond if the Temporary Global Covered Bond is not issued in NGCB form) only outside the United States and its possessions and to the extent that certification (in a form to be provided by Euroclear and/or Clearstream, Luxembourg) to the effect that the beneficial owners of interests in such Bearer Covered Bond are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Global Covered Bond is issued, interests in such Temporary Global Covered Bond will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a permanent global covered bond without interest coupons attached (a **Permanent Global Covered Bond** and, together with the Temporary Global Covered Bonds, the **Bearer Global Covered Bonds** and each a **Bearer Global Covered Bond**) of the same Series or (b) for Bearer Definitive Covered Bonds of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of Bearer Definitive Covered Bonds, to such notice period as is specified in the applicable Final Terms), in each case against

certification of non-U.S. beneficial ownership as described above unless such certification has already been given. Purchasers in the United States and certain United States persons will not be able to receive Bearer Definitive Covered Bonds or interests in the Permanent Global Covered Bond. The holder of a Temporary Global Covered Bond will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Covered Bond for an interest in a Permanent Global Covered Bond or for Bearer Definitive Covered Bonds is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Covered Bond will be made outside the United States and its possession and through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Global Covered Bond (if the Permanent Global Covered Bond is not issued in NGCB form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Covered Bond will be exchangeable (free of charge), in whole but not in part, for Bearer Definitive Covered Bonds with, where applicable, interest coupons and talons attached upon either (a) provided the Covered Bonds have a minimum Specified Denomination, or integral multiples thereof, not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Covered Bond) to the Principal Paying Agent as described therein or (b) upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, whether statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or (ii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Bearer Global Covered Bond (and any interests therein) exchanged for Bearer Definitive Covered Bonds. The Issuer will promptly give notice to Covered Bondholders of each Series of Bearer Global Covered Bonds in accordance with Condition 17 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Covered Bond) or the Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (b) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

Bearer Global Covered Bonds, Bearer Definitive Covered Bonds and any Coupons or Talons attached thereto will be issued pursuant to the Trust Deed.

The following legend will appear on all Bearer Covered Bonds (other than Temporary Global Covered Bonds) talons and interest coupons relating to such Bearer Covered Bonds where TEFRA D is specified in the applicable Final Terms:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States persons (as defined for U.S. federal tax purposes), with certain exceptions, will not be entitled to deduct any loss on Bearer Covered Bonds, talons or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale or other disposition in respect of such Bearer Covered Bonds, talons or interest coupons.

Covered Bonds which are represented by a Bearer Global Covered Bond will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Covered Bonds

Registered Global Covered Bonds will be (a) if the applicable Final Terms specify the Registered Global Covered Bonds are intended to be held in a manner which would allow Eurosystem eligibility (being the new safekeeping structure (NSS)), deposited on the relevant Issue Date with the Common Safekeeper; or (b) if the applicable Final Terms specify the Registered Global Covered Bonds are not intended to be held in a manner which would allow Eurosystem eligibility, deposited on the relevant Issue Date with a nominee or Common Depository for Euroclear or Clearstream, Luxembourg, as applicable.

Any indication that the Registered Global Covered Bonds are to be held in a manner which would allow Eurosystem eligibility does not necessarily mean that the Registered Global Covered Bonds of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

Payments of principal, interest and any other amount in respect of the Registered Global Covered Bonds will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 6.4) as the registered holder of the Registered Global Covered Bonds. None of the Issuer, the Trustee, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Covered Bonds or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Covered Bonds in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6.4) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Covered Bond will be exchangeable (free of charge), in whole but not in part, for Registered Definitive Covered Bonds without Coupons or Talons attached only upon the occurrence of an Exchange Event. For these purposes, Exchange Event means that (a) in the case of a Registered Global Covered Bond registered in the name of the Common Depository or its nominee, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, whether statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available or (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Registered Global Covered Bond (and any interests therein) exchanged for Registered Definitive Covered Bonds. The Issuer will promptly give notice to Covered Bondholders of each Series of Registered Global Covered Bonds in accordance with Condition 17 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any registered holder of an interest in such Registered Global Covered Bond) or the Trustee may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (b) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

General

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Covered Bonds*"), the Principal Paying Agent shall arrange that, where a further Tranche of Covered Bonds is issued which is intended to form a single Series with an existing Tranche of Covered Bonds, the Covered Bonds of such further Tranche shall be assigned a common code and ISIN and, where applicable, CINS number which are different from the common code, ISIN and CINS number assigned to Covered Bonds of any other Tranche of the same Series until at least the Exchange Date applicable to the Covered Bonds of such further Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any successor operator and/or successor clearing system and/or additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer, the Principal Paying Agent and the Trustee.

No Covered Bondholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become so bound to proceed, fails so to do within a reasonable period and the failure shall be continuing.

[IMPORTANT - PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Covered Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, the **Insurance Mediation Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the **Prospectus Directive**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Covered Bonds or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Covered Bonds or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]²

[MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Covered Bonds has led to the conclusion that: (i) the target market for the Covered Bonds is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)]**[MiFID II]**; and (ii) all channels for distribution of the Covered Bonds to eligible counterparties and professional clients are appropriate. [Consider any negative target market.] Any person subsequently offering, selling or recommending the Covered Bonds (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Covered Bonds (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]³

APPLICABLE FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Covered Bonds issued under the Programme.

[Date]

ALPHA BANK A.E.

Legal Entity Identifier (LEI): 5299009N55YRQC69CN08

Issue of [Aggregate Nominal Amount of Tranche] [Title of Covered Bonds]

Under the €8 billion

Direct Issuance Global Covered Bond Programme

PART A – CONTRACTUAL TERMS

[Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions set forth in the Base Prospectus dated 11 July 2019 [and the supplement to the Base Prospectus dated [date]] which [together] constitute[s] a base prospectus (the **Base Prospectus**) for the purposes of the Prospectus Directive (Directive 2003/71/EC) as amended (the **Prospectus Directive**). This document constitutes the final terms of the Covered Bonds described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Base Prospectus. Full information on the Issuer and the offer of the Covered Bonds is only available on the basis of the combination of this Final Terms and the Base

² Legend to be included on front of the Final Terms if the Covered Bonds potentially constitute “packaged” products and no key information document will be prepared or the issuer wishes to prohibit offers to EEA retail investors for any other reason, in which case the selling restriction should be specified to be “Applicable”.

³ Legend to be included on front of the Final Terms if following the ICMA 1 “all bonds to all professionals” target market approach.

Prospectus. The Base Prospectus has been published on the Luxembourg Stock Exchange website (www.bourse.lu).]

[The following alternative language applies if the first Tranche of an issue which is being increased was issued under a Base Prospectus with an earlier date

[Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions (the **Terms and Conditions**) set forth in the Base Prospectus dated [[20 May 2010] [28 July 2011] [30 October 2014] [27 January 2016][27 July 2017][16 January 2018]] which are incorporated by reference in the Base Prospectus dated [●]. This document constitutes the final terms of the Covered Bonds described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Base Prospectus dated 11 July 2019 [and the supplement to it dated [date]], which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (the **Base Prospectus**). Full information on the Issuer and the offer of the Covered Bonds is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectuses has been published on the Luxembourg Stock Exchange website (www.bourse.lu).]

[Include whichever of the following apply or specify as "Not Applicable" (N/A). Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs or subparagraphs (in which case the sub-paragraphs of the paragraphs which are not applicable can be deleted). Italics denote directions for completing the Final Terms]

1. (a) Series Number: []
- (b) Tranche Number: []
- (c) Date on which the Covered Bonds will be consolidated and form a single Series: The Covered Bonds will be consolidated and form a single Series with [Provide issued amount/ISIN/maturity date/issue date of earlier Tranches] on [the Issued Date/exchange of the Temporary Global Covered Bond for interests in the Permanent Global Covered Bond, as referred to in paragraph [●] below, which is expected to occur on or about [date]][Not Applicable]
2. Specified Currency or Currencies: []
3. Aggregate Nominal Amount of Covered Bonds: []
 - (a) Series: []
 - (b) Tranche: []
4. Issue Price: [] per cent. of the Aggregate Nominal Amount [plus accrued interest from [insert date] (if applicable)]
5. (a) Specified Denominations: []

(N.B. Covered Bonds must have a minimum denomination of EUR 100,000 (or equivalent))

(Note – where multiple denominations above [€100,000] or equivalent are being used the following sample wording should be followed:

"[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000]. No Covered Bond in definitive form will be issued with a denomination above [€199,000].")

(b) Calculation Amount: []

(If only one Specified Denomination, insert the Specified Denomination. If more than one Specified Denomination, insert the highest common factor. N.B. There must be a common factor in the case of two or more Specified Denominations.)

6. (a) Issue Date: []

(b) Interest Commencement Date: []

(NB An Interest Commencement Date will not be relevant for certain Covered Bonds, for example Zero Coupon Covered Bonds)

7. (a) Final Maturity Date: *[Fixed rate - specify date / Floating rate - Interest Payment Date falling in or nearest to [specify month and year]*

(b) Extended Final Maturity Date []

[Fixed rate – specify date / Floating rate – Interest Payment Date falling in or nearest to [specify month and year, in each case falling [1 year] after the Final Maturity Date]]

8. Interest Basis: [[] per cent. Fixed Rate]

[[LIBOR/EURIBOR] +/- [] per cent floating rate]

[Zero Coupon]

9. Redemption/Payment Basis: Subject to any purchase and cancellation or early redemption, the Covered Bonds will be redeemed on the Final Maturity Date at [] per cent of their nominal amount

10. Change of Interest Basis: *[Specify the date when any fixed to floating rate change occurs or cross refer to paragraphs 13 and 14 below and identify there][Not Applicable]*

11. Put/Call Options: [Not Applicable]
 [Investor Put]
 [Issuer Call]
 [(further particulars specified below)]
12. [Date [Board] approval for issuance of Covered Bonds obtained:] []
 (N.B. Only relevant where Board (or similar) authorisation is required for the particular tranche of Covered Bonds)

PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

13. **Fixed Rate Covered Bond Provisions** [Applicable/Not Applicable]
 (If not applicable, delete the remaining subparagraphs of this paragraph)
- (a) Rate[(s)] of Interest: [] per cent. per annum payable in arrear on each Interest Payment Date
- (b) Interest Payment Date(s): [[] in each year up to and including the Final Maturity Date, or the Extended Final Maturity Date, if applicable]
 (Amend appropriately in the case of irregular coupons)
- (c) Business Day Convention: [Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/[Not applicable]]
- (d) Additional Business Centre(s): []
- (e) Fixed Coupon Amount[(s)]: [] per Calculation Amount
 (Applicable to Covered Bonds in definitive form)
- (f) Broken Amount(s): [[] per Calculation Amount payable on the Interest Payment Date falling [in/on] []][Not applicable]
- (g) Day Count Fraction: [30/360/Actual/Actual [(ICMA/ISDA)]] [adjusted/not adjusted]
- (h) [Determination Date] [[] in each year][Not applicable]
 (N.B. Only relevant where Day Count Fraction is Actual/Actual (ICMA))
 [Insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon]

14. **Floating Rate Covered Bond Provisions** [Applicable/Not Applicable]
- (If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (a) Interest Period(s) [●]
- (b) Specified Interest Payment Dates [●], [●], [●] and [●] in each year up to and including the Final Maturity Date or the Extended Final Maturity Date, if applicable.
- (c) Business Day Convention: [Floating Rate Convention/Following Business Day Convention/ Modified Following Business Day Convention/Preceding Business Day Convention] [Not applicable]
- (d) Additional Business Centre(s): []
- (e) Manner in which the Rate(s) of Interest and Interest Amount is/are to be determined: [Screen Rate Determination / ISDA Determination]
- (f) Party responsible for calculating the Rate of Interest and Interest Amount (if not the Principal Paying Agent): []
- (g) Screen Rate Determination:
- Reference Rate: [] month [LIBOR/EURIBOR]]
 - Interest Determination Date(s): []
- (Second London business day prior to the start of each Interest Period if LIBOR (other than Sterling or Euro LIBOR or EURIBOR), first day of each Interest Period if Sterling LIBOR and the second day on which the TARGET2 System is open prior to the start of each Interest Period if EURIBOR or Euro LIBOR)*
- (N.B. Specify the Interest Determination Date(s) up to and including the Extended Final Maturity Date, if applicable)*
- Relevant Screen Page: []
- (In the case of EURIBOR, if not Reuters EURIBOR 01 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately)*
- (h) ISDA Determination:
- Floating Rate Option: []

– Designated Maturity: []

– Reset Date: []

(In the case of a LIBOR or EURIBOR based option, the first day of the Interest Period).

(N.B. The fall-back provisions applicable to ISDA Determination under the 2006 ISDA Definitions are reliant upon the provision by reference banks of offered quotations for LIBOR and/or EURIBOR which, depending on market circumstances, may not be available at the relevant time)

(i) Linear Interpolation [Not Applicable/Applicable – the Rate of interest for the [long/short] [first/last] Interest Period shall be calculated using Linear Interpolation (*specify for each short or long interest period*)]

(j) Margin(s): [+/-][] per cent. per annum

(k) Minimum Rate of Interest: [] per cent. per annum

(l) Maximum Rate of Interest: [] per cent. per annum

(m) Day Count Fraction: [Actual/ Actual [(ICMA)/(ISDA)]
Actual/365 (Fixed)
Actual/365 (Sterling)
Actual/360
[30/360][360/360][Bond Basis]
[30E/360][Eurobond Basis]
30E/360 (ISDA)
[adjusted/not adjusted]

15. **Zero Coupon Covered Bond Provisions** [Applicable/Not Applicable]

(If not applicable, delete the remaining sub-paragraphs of this paragraph)

(a) Accrual Yield: [] per cent. per annum

(b) Reference Price: []

(c) Business Day Convention: [Floating Rate Convention/Following Business Day Convention/ Modified Following Business Day Convention/Preceding Business Day Convention/[Not Applicable]]

(d) Day Count Fraction in relation to Early Redemption Amounts and Late Payments: [30/360]
[Actual/Actual [(ICMA)/(ISDA)]]
[adjusted/not adjusted]

PROVISIONS RELATING TO REDEMPTION

16. **Notice periods for Condition 7.2** *(Redemption for taxation reasons)*: Minimum period: [30] days
Maximum period: [60] days
17. **Issuer Call** [Applicable/Not Applicable]
(If not applicable, delete the remaining sub-paragraphs of this paragraph)
- (a) Optional Redemption Date(s): []
- (b) Optional Redemption Amount(s): [] per Calculation Amount
- (c) (If redeemable in part:
- (i) Minimum Redemption Amount: [] per Calculation Amount
- (ii) Maximum Redemption Amount: [] per Calculation Amount
- (d) Notice Periods: Minimum period: [15] days
Maximum period: [30] days
(N.B. When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems (which require a minimum of 5 clearing system business days' notice for a call) and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Principal Paying Agent or Trustee)
18. **Investor Put** [Applicable/Not Applicable]
(If not applicable, delete the remaining sub-paragraphs of this paragraph)
- (a) Optional Redemption Date(s): []
- (b) Optional Redemption Amount(s) [] per Calculation Amount
- (c) Notice periods: Minimum period: [15] days
Maximum period: [30] days
(N.B. When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems (which require a minimum of 15 clearing system business days' notice for a put) and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Principal Paying Agent or Trustee)

19. **Investor Repurchase Put:** [Applicable/Not Applicable]
20. **Final Redemption Amount:** [] per Calculation Amount
21. **Early Redemption Amount payable on redemption for taxation reasons or on event of default:** [] per Calculation Amount

GENERAL PROVISIONS APPLICABLE TO THE COVERED BONDS

22. **Form of Covered Bonds:** [Bearer Covered Bonds:
- Temporary Global Covered Bond exchangeable for a Permanent Global Covered Bond which is exchangeable for Bearer Definitive Covered Bonds [on 60 days' notice given at any time/only upon an Exchange Event]]
- [Permanent Global Covered Bond which is exchangeable for Bearer Definitive Covered Bonds [on 60 days' notice given at any time/only after an Exchange Event]]
- (N.B. The exchange upon notice should not be expressed to be applicable if the Specified Denomination of the Covered Bonds in paragraph 5 includes language substantially to the following effect: "[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000].")*
- [Registered Covered Bonds:
- Registered in the name of a nominee of the [[common safekeeper]/[common depositary for Euroclear and Clearstream, Luxembourg]]
23. **[New Global Covered Bond][New Safekeeping Structure]:** [Yes/No]
24. **Additional Financial Centre(s) or other special provisions relating to payment dates:** [Not Applicable/give details].
- (Note that this item relates to the date of payment and not the end dates of Interest Periods for the purposes of calculating the amount of interest to which paragraph [13(d) relates])*
25. **Talons for future Coupons to be attached to Bearer Definitive Covered Bonds:** [Yes, as the Covered Bonds have more than 27 coupon payments, Talons may be required if, on exchange into definitive form, more than 27 coupon payments are still to be made/No]

THIRD PARTY INFORMATION

[[Relevant third party information] has been extracted from [*specify source*]. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by (*specify source*), no facts have been omitted which would render the reproduced information inaccurate or misleading.]

Signed on behalf of Alpha Bank A.E.

By:

Duly Authorised

PART B – OTHER INFORMATION

1. LISTING AND ADMISSION TO TRADING

- (a) Admission to trading and admission to listing: [Application has been made by the Issuer (or on its behalf) for the Covered Bonds to be admitted to trading on [*Specify relevant regulated market and, if relevant, listing on an official list*] with effect from []].

(NB Where documenting a fungible issue need to indicate that original Covered Bonds are already admitted to trading.)

- (b) Estimate of total expenses related to admission to trading: []

2. RATINGS

Ratings: The Covered Bonds to be issued [[have been/are expected to be] rated]/[The following ratings reflect ratings assigned to Covered Bonds of this type issued under the Programme generally]:

[insert details] by *[insert legal name of the relevant credit rating agency entity(ies) and associated defined terms]*.

[Each of *[defined terms]* is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**)

(The above disclosure should reflect the rating allocated to Covered Bonds of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating.)

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE

Save for any fees payable to the [Managers/Dealers], so far as the Issuer is aware, no person involved in the issue of the Covered Bonds has an interest material to the offer. The [Managers/Dealers] and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. – *Amend as appropriate if there are other interests]*

[(When adding any other description, consideration should be given as to whether such matters described constitute "significant new factors" and consequently trigger the need for a supplement to the Base Prospectus under Article 16 of the Prospectus Directive.)]

INSOLVENCY OF THE ISSUER

The Greek Covered Bond Legislation contains provisions relating to the protection of the Covered Bondholders and other Secured Creditors upon the insolvency of the Issuer.

In the event of insolvency of the Issuer, the Greek Covered Bond Legislation provides that the Cover Pool will at all times remain segregated from the insolvency estate of the Issuer until payment of any amounts due to the Covered Bondholders has been made in full. Upon registration of the Registration Statements with the public registry, the issue of the Covered Bonds, the creation of the Statutory Pledge and the security governed by foreign law (including pursuant to the Deed of Charge), the payments to Covered Bondholders and other Secured Creditors and the entry into of any agreement relating to the issue of Covered Bonds will not be affected by the commencement of insolvency proceedings in respect of the Issuer. All collections from the Cover Pool Assets shall be applied solely towards payment of amounts due to the Covered Bondholders and other Secured Creditors.

Pursuant to the Greek Covered Bond Legislation, both before and after the commencement of insolvency proceedings in respect of the Issuer, the Cover Pool may be autonomously managed until full payment of the amounts due to the Covered Bondholders and the other Secured Creditors has been made. To ensure continuation of the servicing in the event of insolvency of the Issuer acting as the Servicer the Greek Covered Bond Legislation provides that the Transaction Documents may provide for the substitution of the Servicer upon the insolvency of the Issuer.

In the event of the Issuer's insolvency under Greek law 4261/2014, in the event that no Replacement Servicer is appointed pursuant to the Transaction Documents, the Bank of Greece may appoint a servicer, if the trustee fails to do so. Such person may either be (a) an administrator or a liquidator (under articles 137 or 145 respectively of Greek law 4261/2014), and in such an event servicing of the Cover Pool will be included in their general powers over the Issuer's assets; or (b) in addition to such persons, a person specifically carrying out the servicing of the Cover Pool. Any such person appointed as described in paragraph (a) or (b) above shall be obliged to service the Cover Pool in accordance with the terms of the Servicing and Cash Management Deed.

Any of the aforementioned parties performing the role of the servicer, as well as the special liquidator that will be appointed by the Bank of Greece to undertake the management of the Issuer, will be required to treat the Cover Pool as a segregated pool of assets on the basis of the segregation provisions of Article 152 and in accordance with the Servicing and Cash Management Deed, the terms of which, including, *inter alia*, the termination, substitution and replacement provisions, will at all times apply.

In the event that the Issuer is placed into liquidation in accordance with article 145 of Greek law 4261/2014, Covered Bondholders and the other Secured Creditors shall be satisfied in respect of the portion of their claims that is not paid off from the Cover Pool from the remaining assets of the Issuer as unsecured creditors (i.e. after satisfaction of preferred creditors in accordance with article 145A of Greek law 4261/2014 (added through par. 1 of article 120 of Greek law 4335/2015, as amended and currently in force).

Further to the above, the covered bonds are excluded from the liabilities which are subject to the bail-in tool of article 44 of Greek law 4335/2015, as in force (which transposed into Greek law article 44 of Directive 2014/59/EU) to the extent that they are secured. In particular, all secured assets relating to a covered bond cover pool should remain unaffected, segregated and with enough funding. However, the resolution authority may exercise its power of conversion or write down, where appropriate, in relation to any part of a secured liability to the extent that exceeds the value of the security.

USE OF PROCEEDS

The net proceeds from each issue of Covered Bonds will be applied by the Issuer for its general corporate purposes.

OVERVIEW OF THE GREEK COVERED BOND LEGISLATION

The following is a summary of the provisions of the Greek Covered Bond Legislation relevant to the transactions described in this Base Prospectus and of which prospective Covered Bondholders should be aware. The summary does not purport to be, and is not, a complete description of all aspects of the Greek legislative and regulatory framework pertaining to covered bonds and prospective Covered Bondholders should also read the detailed information set out elsewhere in this Base Prospectus.

Introduction

The transactions described in this Base Prospectus are the subject of specific legislation, the Greek Covered Bond Legislation. As mentioned elsewhere in the Base Prospectus, the Greek Covered Bond Legislation includes Article 152 of Greek law 4261/2014 (such law being published in the Government Gazette No. 170/A/05-05-2014 and dealing with, *inter alia*, the access to the activity of credit institutions (transposition of Directive 2013/36/EU) (defined elsewhere in this Base Prospectus as Article 152) and the Act of the Governor of the Bank of Greece No. 2598/2007 entitled "Regulatory framework for covered bonds issued by credit institutions" and published in the Government Gazette No. 2236/B/21-11-2007, as amended and restated by the codifying Act of the Governor of the Bank of Greece No. 2620/2009 (published in the Government Gazette No. 2107/B/29-09-2009). The Greek Covered Bond Legislation has been enacted, with a view, *inter alia*, to complying with the standards of article 52(4) of Directive 2009/65/EC (as amended), and entitles credit institutions to issue (directly or through a special purpose vehicle) covered bonds with preferential rights in favour of the holders thereof and certain other creditors over a cover pool comprised by certain assets discussed in further detail below.

The provisions of the Greek Covered Bond Legislation that are relevant to the Programme may be summarised as follows:

Article 152

Credit institutions may issue Covered Bonds pursuant to the provisions of Article 152 and the general provisions of Greek law on bonds (articles 1-9, 12 and 14 of Greek law 3156/2003).

In deviation from the Greek general bond law provisions, the bondholders' representative (also referred to as the trustee) may be a credit institution or an affiliated company of a credit institution entitled to provide services in the European Economic Area. Unless otherwise set out in the terms and conditions of the bonds the trustee is liable towards bondholders for wilful misconduct and gross negligence.

Cover Pool – composition of assets

Paragraph 3 of Article 152 provides that the assets forming part of the cover pool may include receivables deriving from loans and credit facilities of any nature and, on a supplementary basis, receivables deriving from financial instruments (such as, but not limited to, receivables deriving from interest rate swaps contracts), deposits with credit institutions and securities, as specified by a decision of the Bank of Greece.

Following an authorisation originally provided by Article 91 of Greek law 3601/2007 and repeated by Article 152, the Bank of Greece has defined, in the Secondary Covered Bond Legislation, the cover pool eligible assets as follows:

- (a) certain eligible assets set out in paragraph 8(b) of Section B of the Bank of Greece Act No. 2588/20-08-2007 (on the "Calculation of Capital Requirements for Credit Risk according to the Standardised Approach") (as amended as of 31 December 2010 by the Bank of Greece Act No. 2631/29-10-2010), including claims deriving from loans and credit facilities of any nature secured by residential real

estate. Following the entry into force of Regulation 575/2013 on 1 January 2014, the reference to paragraph 8(b) should be read as a reference to Article 129 of Regulation 575/2013;

- (b) derivative financial instruments satisfying certain requirements as to the scope thereof and the capacity of the counterparty;
- (c) deposits with credit institutions (including any cash flows deriving therefrom) provided that such deposits comply with paragraph 8(b) of Section B of the Bank of Greece Act No 2588/20-08-2007, as amended as of 21 December 2010 by the Bank of Greece Act No 2631/29-10-2010 and by the Bank of Greece Act 7/10-01-2013; and
- (d) Marketable Assets.

Loans that are in arrears for more than 90 days shall not be included in the Cover Pool for the purposes of the calculations required under the Statutory Tests.

The Bank of Greece has also set out requirements as to the substitution and replacement of cover pool assets by other eligible assets (including, *inter alia*, marketable assets, as defined in the Act of the Monetary Policy Council of the Bank of Greece No. 96/22.4.2015, as amended and in force).

Benefit of a prioritised claim by way of statutory pledge

Claims comprised in the cover pool are named in a document (defined elsewhere in this Base Prospectus as a Registration Statement) signed by the issuer and the trustee and registered in a summary form including the substantial parts thereof, in accordance with paragraph 5 of article 152 of Greek law 4261/2014, in conjunction with article 3 of Greek law 2844/2000. The form of the Registration Statement has been defined by Ministerial Decree No. 95630/08-09-2008 (published in the Government Gazette No 1858/B/12-09-2008) of the Minister of Justice. Receivables forming part of the cover pool may be substituted for others and receivables may be added to the cover pool in the same manner.

Holders of covered bonds and certain other creditors having claims relating to the issuance of the covered bonds (such as, *inter alios*, the trustee, the servicer and financial derivatives counterparties) named as secured creditors in the terms and conditions of the covered bonds are secured (by operation of paragraph 4 of Article 152) by a statutory pledge over the cover pool, or, where a cover pool asset is governed by foreign law, by a security *in rem* created under applicable law.

With respect to the preferential treatment of covered bondholders and other secured creditors and pursuant to paragraph 6 of Article 152, claims that have the benefit of a statutory pledge rank ahead of claims referred to in article 975 of the Code of Civil Procedure (a general provision of Greek law on creditors' ranking), unless otherwise set out in the terms and conditions of the covered bonds. In the event of bankruptcy of the issuer, covered bondholders and other creditors secured by the statutory pledge shall be satisfied in respect of the portion of their claims that is not paid off from the cover pool in the same manner as unsecured creditors from the remaining assets of the issuer.

To ensure bankruptcy remoteness of the assets in the cover pool, paragraph 7 of Article 152 provides that upon registration of the Registration Statement with the public registry, the validity of the issue of the covered bonds, the creation of the statutory pledge and the real security governed by foreign law, if any, the payments to covered bondholders and other creditors secured by the statutory pledge, as well as of the entry into force of any agreement relating to the issue of covered bonds may not be affected by the commencement of insolvency proceedings in respect of the issuer.

Paragraph 8 of Article 152 safeguards the interests of covered bondholders and other secured creditors in providing that assets included in the cover pool may not be attached/seized nor disposed by the issuer

without the written consent of the trustee, unless otherwise set out in the terms and conditions of the covered bonds.

Paragraph 9 of Article 152 deals with the servicing of the cover pool. In particular, it provides that the terms and conditions of the covered bonds may specify that either from the beginning or following the occurrence of certain events, such as, but not limited to, the commencement of insolvency proceedings in respect of the issuer, the trustee may assign to third parties or carry out itself the collection of and, in general, the servicing of the cover pool assets by virtue of an analogous application of the Greek provisions on servicing applicable to securitisations (paragraphs 14 through 16 of article 10 of Greek law 3156/2003).

Paragraph 9 of Article 152 also provides that the trustee may also, pursuant to the terms and conditions of the bonds and the terms of its relationship with the bondholders, sell and transfer the assets forming part of the cover pool either by virtue of an analogous application of articles 10 and 14 of Greek law 3156/2003 concerning securitisation of receivables or pursuant to the general legislative provisions and utilise the net proceeds from the sale to pay the claims secured by the statutory pledge, in deviation from articles 1239 and 1254 of the Greek Civil Code on enforcement of pledges and any other legislative provision to the contrary. For the purposes of facilitating the transfer pursuant to the above mentioned securitisation provisions of Greek law 3156/2003 the transferor shall not be required to have a permanent establishment in Greece.

In the event of the issuer's insolvency the Bank of Greece may appoint a servicer, if the trustee fails to do so. Sums deriving from the collection of the receivables that are covered by the statutory pledge and the liquidation of other assets covered thereby are required to be applied towards the payment of the covered bonds and other claims secured by the statutory pledge pursuant to the terms and conditions of the covered bonds.

Paragraph 9 of Article 152 also deals with banking secrecy and personal data processing. In particular, it provides that the provisions of paragraphs 20 through 22 of article 10 of Greek law 3156/2003 that regulate these issues in the securitisation transactions shall apply *mutatis mutandis* to the sale, transfer, collection and servicing, in general, of the assets constituting the cover pool.

Paragraph 11 of Article 152 confirms that covered bonds may be listed on a regulated market within the meaning of paragraph 10 of Article 2 of Greek law 3606/2007, as in force, and paragraph 14 of Article 4 of Directive 2004/39/EC and offered to the public pursuant to applicable provisions.

Article 152 authorises the Bank of Greece to deal both with specific issues, such as, the definition of the cover pool, the ratio between the value of the cover pool assets and that of covered bonds, the method for the evaluation of cover pool assets and requirements to ensure adequacy of the cover pool and any details in general for the implementation of Article 152.

The Secondary Covered Bond Legislation

The Secondary Greek Covered Bond Legislation has been issued by the Bank of Greece by virtue of authorisations given by Article 152 as aforesaid. To this effect, the Secondary Greek Covered Bond Legislation sets out requirements for the supervisory recognition of covered bonds, including, requirements as to the issuer's risk management and internal control systems; requirements as to a minimum amount of regulatory own funds on a consolidated basis and capital adequacy ratio; definition and eligibility criteria as to the initial cover pool and the substitution and replacement of cover pool assets; requirements in respect of the ratio between the value of the cover pool assets and the value of covered bonds, the ratio between the net present value of liabilities under the covered bonds and the net present value of the cover assets, the ratio between interest payments on covered bonds and interest payments on cover pool assets and the revaluation of the value of the real estate property mortgaged; requirements for the performance of quarterly reviews by the servicer and annual audits thereof by independent chartered accountants; requirement to appoint a trustee; provisions regarding measures to be taken in the event of insolvency procedures in respect of the issuer; procedures for the submission of documents to obtain approval by the Bank of Greece in respect of

the issuance of covered bonds; provisions relating to the position weighting of covered bonds; and data reporting and disclosure requirements.

THE ISSUER AND THE GROUP

The Group is one of the leading banking and financial services groups in Greece, offering a wide range of services including retail banking, corporate banking, asset management and private banking, insurance distribution, investment banking and brokerage, treasury and real estate management. The Group is active in Greece, its principal market, and in most markets of South-eastern Europe (Cyprus, Romania and Albania). The Group also maintains a presence in United Kingdom and in Jersey. The Issuer is the parent company of the Group and its principal bank.

According to estimates on the basis of data published by the Bank of Greece, the Group has a strong market share in each of its four domestic lines of business (retail banking, corporate banking, asset management and insurance, and investment banking and treasury). The Group's client base comprises of retail clients, small and medium-sized enterprises, self-employed professionals, large corporations, high-net worth individuals, private and institutional investors and the Greek government.

The Group, through an extensive national and international branch and ATM network, in combination with advanced online and telephone channels, offers banking and financial services to its individual and corporate customers. These features extend the Group's presence in the domestic Greek market, as well as in the international markets in which it operates.

The Issuer's management considers other competitive strengths of the Group as being its large customer base, its highly motivated and trained personnel, its advanced IT systems and its fairly recently reorganised and modernised branch network, which has extended its ability in product innovation and in offering a wide range of services and opportunities for cross-selling products of the Group through its traditional and alternative distribution channels.

In 2018, the Group delivered a profitable performance. Net Interest Income at 31 December 2018 amounted to €1,756.0 million, down by 9.6 per cent. year on year, due to lower contribution from loans. Net fee and commission income stood at €335.2 million at 31 December 2018, up by 3.6 per cent. year on year, supported by higher revenues from cards, increased fee generation from new loans originations and restructurings as well as on the back of a higher contribution from investment banking and brokerage. In Q4 2018, net fee and commission income amounted to €87.3 million, up by 10.6 per cent. quarter-on-quarter or €8.4 million, on higher loan generated fees, in line with the pick-up of the Issuer's new loan disbursements as well as an increased contribution from bancassurance. At 31 December 2018, gains less losses on financial transactions and impairments on group companies amounted to €462.7 million, compared to €144.7 million at 31 December 2017, mostly attributed to gains realisation from our Greek Government Bonds portfolio. At 31 December 2018, other income stood at €49.7million.

Operating expenses continued to decline, down 10.1 per cent. year-on-year to €1,162.4 million, at 31 December 2018 mainly as a result of lower General expenses. Cost to Income ratio, considering exclusion of non-recurring expenses and also trading income, stood at 51.0 per cent. Group headcount was reduced from 11,727 in December 2017 to 11,314 Employees at the end of December 2018 (-3.5 per cent. year-on-year), mainly on the back of the VSS implemented in our operations in Greece during 2018. Staff exits in 2018 reached 784 Employees, taking into account the Voluntary Separation Scheme (VSS) in June 2018. As at 31 December 2018 staff costs stood at €475.3 million remaining at circa the same levels compared to prior year with the positive contribution from VSS scheme being eliminated by non-recurring items. General administrative expenses amounted to €532.4 million, down by 4.1 per cent. year-on-year, positively affected by the lower NPL remedial management costs and third-party fees which posted a decrease of 17.9 per cent. year-on-year. The Group Network, at the end of December 2018, declined to a total of 629 Branches, from 670 in December 2017, as a result of the ongoing platform rationalisation in Greece.

At 31 December 2018, impairment losses on loans and advances to customers amounted to €1,656.1 million, materially affected by additional impairments recognized in Q4 to account for the Issuer's upsizing of expected disposals,

Profit/ (Loss) Before Tax at €(289.4) million at 31 December 2018. At 31 December 2018, Income Tax was positive at €342.3 million, mainly affected by the redefinition of the Issuer's tax base of loan impairments resulting in additional DTA recognition. Profit After Tax at €53 million at 31 December 2018 vs. €21.1 million at 31 December 2017.

As of 31 December 2018, the Group had total assets of €61.0 billion, total due to customers (including debt securities in issue) of €38.7 billion and total net loans and advances to customers of €40.2 billion.

As of 31 December 2018, the share capital of the Group amounted to €463.1 million divided into 1,543,699,381 shares, of which:

- 1,374,525,214 are common, nominal, paperless shares with voting rights, of a nominal value of €0.30 each, which are listed for trading on the Securities Market of Athex; and
- 169,174,167 are common, nominal, voting, dematerialised shares in accordance with the restrictions foreseen in the provision of article 7a of Law 3864/2010, owned by the Hellenic Financial Stability Fund – of a nominal value of €0.30 each. These shares, which are listed for trading on the Securities Market of Athex, have rights stipulated by law and are subject to the restrictions of the law.

As of 31 December 2018, the Issuer's equity was held by approximately 116,000 shareholders. On the same date, the shareholder base comprised the HFSF, representing approximately 11 per cent., and private shareholders representing approximately 89 per cent. of the common shareholder base. The private shareholders are analysed as follows:

- institutional shareholders representing approximately 84 per cent. of the shareholder base (of which approximately 79 per cent. were foreign institutional investors and 5 per cent. were Greek institutional investors); and
- individuals representing approximately 5 per cent. of the shareholder base.

The Acquisition of Emporiki

On 1 February 2013 the bank completed the acquisition of Emporiki from Crédit Agricole. As of the date of acquisition Emporiki was consolidated in the financial statements of the Group. On 28 June 2013, Emporiki was merged into the Issuer.

As a result of the acquisition of **Emporiki**, in 2013 the Issuer recognised negative goodwill of €3,283 million resulting from the difference between the fair value of the net assets acquired and the purchase price. The negative goodwill recognised is not subject to income tax. Emporiki offered a large variety of banking products and services to individuals, SMEs and large companies and enjoyed a strong market presence in Greece and Cyprus through an extensive network of branches in both countries. The transaction represented a major step in the restructuring of the Greek banking sector and strengthened the position of the Issuer within the market, creating one of the largest financial groups in Greece and adding total assets of €19.1 billion to the Group's balance sheet as of 1 February 2013, significantly strengthening the Group's Core Tier 1 position.

In addition, at the completion of the transaction, Crédit Agricole also subscribed for €150 million convertible bonds issued by the Issuer. In February 2017, Crédit Agricole exercised its conversion option under the convertible bonds, which resulted in the allocation of 6,818,181 new ordinary shares in the Issuer to Crédit

Agricole. The transaction resulted in a net recapitalisation of the combined entity by an aggregate amount of approximately €2.9 billion and contributed towards the Issuer's own recapitalisation plan.

2013 Capital Increase

On 16 April 2013, the second iterative meeting of the Extraordinary General Meeting of the Issuer's Shareholders convened and approved the Issuer's €4,571 million Capital Strengthening Plan (announced on 2 April 2013) and granted the power to the Board of Directors to implement, assessing the financial conditions, the General Meeting's resolutions (the "**Capital Strengthening Plan**"). On 3 June 2013, the Issuer announced the successful completion of its €457.1 million rights issue (the "**Rights Issue**"), and the allotment of all of the shares offered in the €92.9 million private placement to institutional and other qualified private investors. As a consequence, the Issuer was the first among the Greek banks to raise more than 10 per cent. of its total recapitalisation amount and thus to meet successfully the required private sector contribution test set by Greek law 3864/2010. The remaining part of the €4,571 million Capital Strengthening Plan was covered by the HFSF through direct subscription to shares. The Rights Issue was fully underwritten by a syndicate of international investment banks.

For each new share subscribed for in the capital increase by private sector investors, the HFSF issued on 10 June 2013 separately traded warrants which allow their holders to purchase shares subscribed by the HFSF at selected intervals over the four and a half years that follow the share capital increase, at the subscription price of €0.44 per share increased by an annual margin.

2014 Capital Increase

On 28 March 2014 the Extraordinary General Meeting of the shareholders of the Issuer approved the raising of capital by the Issuer, up to the amount of €1.2 billion through a private placement with qualified investors, with the issuance of 1,846,153,846 new, ordinary, registered shares offered at €0.65 each. The offering, which was fully underwritten by a syndicate of international banks, was priced on 25 March 2014, while the new shares commenced trading on Athex on 4 April 2014.

The proceeds from the capital increase were used to strengthen the Issuer's capital base with high-quality common equity capital and allow for the redemption of Greek State preference shares in issuance of €940 million, whereas the remaining amount of the capital raised was directed to cover the €262 million capital needs assessed in the 2014 Stress Test (as described under '*ECB's Comprehensive Assessment*' below). The Greek State preference shares of €940 million were subsequently redeemed on 17 April 2014.

Acquisition of Citi's Greek retail operations

On 13 June 2014, the Issuer announced that it had entered into a definitive agreement with Citi for the acquisition of Citi's Greek retail banking business, including Diners Club of Greece. Under the agreement, the acquired operations comprise Citi's wealth management unit with customers' assets under management of approximately €2.0 billion, out of which deposits amount to approximately €0.9 billion and net loans, mainly credit card balances, amount to €0.4 billion, as well as a retail branch network of 20 units which serves 480 thousand clients. The acquisition was completed on 30 September 2014. As a result of the acquisition, the personnel working in the retail banking network of Citi joined the Issuer.

In June 2015 Diners Club Greece was merged into the Issuer by way of absorption and, in September 2015 the migration of Citibank's retail banking operations and Diners Club Greece operations into the Issuer's operating systems was completed.

ECB's Comprehensive Assessment

On 26 October 2014 the ECB and the EBA announced the outcome of the Comprehensive Assessment. The assumptions and methodological approach of the Comprehensive Assessment were established to assess

banks' capital adequacy against an 8 per cent. and a 5.5 per cent. CET1 capital benchmark under the baseline and adverse scenarios respectively. The Stress Test period covered a three-year time horizon (2014-2016). In the static scenario, the Stress Test has been carried out using a static balance sheet assumption as at 31 December 2013 and did not take into account any business actions already implemented after 31 December 2013, which would have impacted the capital position and/or the financial standing of the Issuer.

The Issuer completed the Comprehensive Assessment successfully and was the only Greek systemic bank that registered no capital shortfall for the baseline and adverse scenarios under both the static and the dynamic assumptions, producing excess capital, without taking into account developments with direct capital impact realised post December 2013.

The Issuer exceeded the hurdle rates of 5.5 per cent. and 8 per cent. for the adverse and baseline scenarios for both static and dynamic assumptions with a (safe) margin ranging between €1.3 and €3.2 billion. More specifically the Issuer concluded the adverse scenarios with a CET1 of 8.07 per cent. and a capital surplus of €1.3 billion in the static assumption and CET1 of 8.45 per cent. with a capital surplus of €1.8 billion under the dynamic assumption.

The quality and level of the Issuer's capital were further strengthened due to the capital issuance of €1,200 million, which took place in the first quarter of 2014, and the repayment of Greek State preference shares of €940 million (as described in "2014 Capital Increase" above). This net capital impact, amounting to €260 million, which was not included in the "join-up" result, due to the methodology applied, led to a CET1 capital ratio of 8.6 per cent. and a surplus of 3.1 per cent. in the static adverse scenario.

Asset Quality Review (AQR)

During the third quarter of 2015 the negotiations of the Hellenic Republic for the coverage of the financing needs of the Greek economy were completed on the basis of the announcements at the Euro Summit on 12 July 2015, resulting in an agreement for new financial support by the ESM. The agreement with the ESM, that was signed on 19 August 2015, provided for the assessment of the four Greek systemic credit institutions (including the Issuer) by the SSM in order to determine the impact from the deterioration of the Greek economy on their financial positions as well as any capital needs (the "**2015 Comprehensive Assessment**").

The 2015 Comprehensive Assessment comprised the AQR and a forward-looking stress test, including a baseline and an adverse scenario, in order to assess the specific recapitalisation needs of the individual banks under the third economic adjustment programme for Greece.

On 31 October 2015 the ECB announced that the 2015 Comprehensive Assessment revealed a total capital shortfall of €262.6 million and €2,743 million for the Issuer under the baseline and the adverse scenarios respectively, including an AQR adjustment (€1.7 billion), after comparing the projected solvency ratios against the thresholds defined for the exercise. On 13 November 2015 in connection with its approval of the Issuer's capital raising plans, the ECB recognised internal capital measures of €180 million, thus reducing the remaining adverse scenario capital shortfall that had to be addressed by the Issuer to €2,563 million.

2015 Capital Increase

By virtue of the resolution of the Extraordinary General Meeting of the shareholders of the Issuer that took place on 14 November 2015 the following items (among other things) were resolved: (i) the increase of the nominal value of each share by way of a reverse split from €0.30 to €15.00 along with a decrease of the total number of the existing shares (including the capitalisation of an amount of €42.60 in order to create an integral number of shares) from 12,769,059,858 to 255,381,200 ordinary, dematerialised, registered shares, with voting rights (each an "**Ordinary Share**"), by a ratio of one (1) new share to fifty (50) old shares and the subsequent decrease of the nominal value of each Ordinary Share from €15.00 to €0.30 and credit of the amount arising from the decrease to the special reserve of article 4 par. 4a of Greek law 2190/1920; and

(ii) the share capital increase by payment in cash (including the equivalent to cash capitalisation of money claims), along with the abolition of pre-emption rights of the shareholders of the Issuer, by the issuance of new, ordinary, registered, dematerialised shares, with voting rights to be specified by the Board of Directors of the Issuer.

The Issuer's Board of Directors at its meeting on 19 November 2015 specified the above resolution of the General Meeting regarding the share capital increase by the issuance of 1,281,500,000 new ordinary, registered, dematerialised shares of the Issuer, of a nominal value of €0.30 per share at a €2.00 price per share (post reverse split) through: (i) payment in cash of an amount of €1,552,169,172.00 via a private placement through a book-building process, which commenced and was completed outside Greece, pursuant to the exception of article 3 par. 2 indent (α), to qualified investors, in accordance with article 2 par. 1 indent (στ) of Greek Law 3401/2005 and pursuant to article 3 par. 2 indent (γ) of Greek Law 3401/2005, and (ii) capitalisation of monetary claims of an amount of €1,010,830,828.00, in the context of the voluntary exchange of outstanding securities by their holders that participated in a liability management exercise. The proceeds from the capital increase were intended to strengthen the Issuer's capital adequacy ratios.

The Issuer was the first systemic bank in the Greek banking system in 2015 to be recapitalised by private funds, with its private placement having been subscribed by 1.72 times with no further HFSF participation, as the latter held approximately 11 per cent. in the share capital of the Issuer with restricted voting rights.

Disposal of subsidiaries / branches

On 12 December 2014 the Issuer announced the agreement to sell all of the shares held in its insurance subsidiary in Cyprus, Alpha Insurance Limited, in a transaction valued at €14.5 million. The transaction was completed on 16 January 2015.

On 23 January 2015 the Issuer announced the sale of the entire share capital of Cardlink S.A., formerly held by the Issuer and Eurobank Ergasias S.A. at 50 per cent. each, for a total transaction consideration of €15 million. Cardlink S.A. operates in the area of network service provision of point of sale terminals for electronic transactions with payment cards.

On 6 November 2015 the Issuer concluded a definitive agreement regarding the acquisition of the Issuer's branch in Bulgaria by Eurobank's subsidiary in Bulgaria, Postbank, subject to the receipt of regulatory and supervisory approvals. The sale was completed on 29 February 2016.

On 10 May 2016, the Issuer announced the conclusion of the sale of 100 per cent. of Alpha Bank A.D. Skopje to Silk Road Capital, following receipt of all applicable regulatory approvals.

On 16 December 2016, the Issuer concluded the sale and transfer to Home Holdings S.A., a joint venture formed by "Tourism Enterprises of Messinia S.A." and "D-Marine Investments Holding B.V.", of its approximately 97.3 per cent. stake in the share capital of the Athens Exchange-listed company "Ionian Hotel Enterprises S.A." (hereinafter "**IHE**"). The total proceeds from the transaction amounted to €143.3 million, including the refinancing of the existing debt of IHE.

On 30 January 2017, it was announced that an agreement was signed with the Serbian MK Group of companies, on the sale of Alpha Bank AE's 100 per cent. stake in the share capital of Alpha Bank Srbija A.D. The transaction was completed on 11 April 2017.

On 8 March 2019, the Issuer entered into a binding agreement for the sale of 100 per cent. of the shares of Alpha Investment Properties I A.E., which holds a portfolio of prime office real assets and its sale is part of Alpha Bank's strategy to deleverage non-core assets, to Mavani Holdings Limited, an entity owned by Brook Lane Special Situations Fund. The consideration was agreed at €95.3 million, while the closing of the transaction took place in June 2019.

On 31 May 2019, Alpha Bank Group through its subsidiary Alpha Bank Group Investments Limited, following an open tender process, sold 100 per cent. of the shares of AEP Chanion S.A. to Pangera REIC and Pavalia Enterprises Limited, an entity owned by Dimand S.A. for a total consideration of €8.68 million. AEP Chanion S.A. was the sole owner of a prominent land plot in the city of Chanion.

Other material milestones and transactions

On 12 June 2014 the Issuer successfully issued a €500 million senior unsecured bond, with a 3-year maturity and 3.5 per cent. yield to maturity, with the book being oversubscribed by four times.

On 9 July 2014 the European Commission announced its approval of the Issuer's restructuring plan, as submitted to the European Commission by the Greek Ministry of Finance on 12 June 2014.

On 6 October 2014 the Issuer successfully completed a voluntary separation scheme for its personnel, in line with its planning and with the participation of circa 2,200 employees.

On 4 December 2014 the Issuer completed a shipping securitisation transaction in excess of USD 500 million, the first such Greek transaction since 2008.

On 12 November 2015 the Issuer concluded its Liability Management Exercise, launched on 28 October 2015. The total accepted amount of the validly tendered securities amounted to €1,010,845,000.00 and contributed to the 2015 share capital increase. The offer was voluntary and offered the exchange of specific series of notes to shares, achieving a high participation rate of 93 per cent.

On 26 November 2015 the DGComp approved the Issuer's revised restructuring plan, which was found to be in line with EU state aid rules and aims to enable the Issuer to return to viability.

On 21 June 2016, Visa Inc. completed the acquisition of Visa Europe. At the date of completion of the transaction, Visa Inc. purchased from Visa Europe's members shares they held in their capacity as members. In this context, the Group recognised as financial results from shares the amount of €55.6 million and acquired preference shares of Visa Inc. which were classified as available for sale portfolio in accordance with IAS 39, that were applied until 31 December 2017, and were recognised at a fair value of €16.3 million. On 1 January 2018 Visa's preference shares were classified under IFRS9 at the Fair Value through Comprehensive Income (FVOCI) category, at a fair value of €18.6 million.

Further to the Issuer's announcement on 24 December 2014, "Cepal Hellas Financial Services S.A. - Servicing of Receivables From Loans and Credits" (former Aktua Hellas) a Law 4354/2015 company, was established on 24 February 2016 which is owned by the joint venture between the Issuer and Centerbridge Partners Europe, LLP. Such company, was the first one, on 29 November 2016, to be granted a license by the Bank of Greece to manage receivables from loans and credits, pursuant to Law 4354/2015, as in force.

On 17 May 2016, the Issuer announced the execution of a Framework agreement with Eurobank and KKR Credit for the establishment of a management platform of large exposures. On 10 May 2017 the platform was approved by the Bank of Greece and Pillarstone was granted a servicing license.

On 23 March 2018, the Issuer completed the disposal of a Portfolio of Retail Unsecured Non-Performing Loans of a gross balance of €3.7 billion as of 30 June 2017, to a company of the Norwegian group B2Holding.

In May 2018, the Issuer together with Alpha Bank Romania S.A. completed the disposal of a Romanian Non-Performing wholesale loans portfolio, to entities financed by a consortium of international investors including Deutsche Bank AG, funds advised by AnaCap Financial Partners LLP and funds advised by APS Investments S.à.r.l. This transaction completed the actions carried out by the Bank to sell a significant part of

its Romanian Non-Performing Exposures, which included the sale of a Non-Performing Retail loans to the Norwegian group B2Holding, in the third quarter of 2017.

On 31 July 2018, the four systemic banks (Alpha Bank, National Bank of Greece, Eurobank and Piraeus Bank) entered into an internationally innovative servicing agreement with a credit institution specialised on servicing of non-performing loans, doBank S.p.A (doBank), in line with their strategic framework to reduce their non-performing exposures by protecting the viability of small and medium enterprises and supporting the recovery of the Greek economy. doBank will support the four systemic Banks in the exclusive management of common non-performing exposures of more than 300 Greek SMEs with approximate nominal value of €1.8 billion.

On 28 November 2018, the Issuer entered into a binding agreement with a consortium comprised of funds managed by affiliates of Apollo Global Management, LLC, and IFC (International Finance Corporation), a member of the World Bank Group, for the disposal of a mixed pool (i) of Non-Performing Loans to Greek SMEs mainly secured by real estate assets and, together with the wholly-owned Group Company Alpha Leasing S.A., (ii) of repossessed real estate assets in Greece,, with a total on-balance sheet gross book value of approximately €1.0 billion and €56 million respectively, as of 30 September 2018. The NPL Portfolio transaction was partially completed in 27 December 2018, while the completion of the REO Portfolio transaction is expected to take place within 2019.

On 21 December 2018, the transfer of non Performing and uncollateralised retail loans portfolio in Greece was completed. The transaction price as incurred taking into consideration the transaction costs and other liabilities, amounted to €62,612, whilst the gain amount of €7,846 was recognized in the caption “Gains less losses from discontinued recognition of financial instruments at amortised cost”.

On 31 December 2018, the Issuer successfully exited the restructuring plan approved by DGComp.

BUSINESS OF THE GROUP

Introduction

The Issuer was established in 1879 as the banking branch of J.F. Costopoulos Company. On 11 April 2000 Alpha Credit Bank A.E. merged with Ionian Bank and the new entity was renamed Alpha Bank A.E.

The Issuer was incorporated and registered in the Hellenic Republic as a public company under Greek Codified Law 2190/20 (as of 1 January 2019 Codified law 2190/1920 was replaced by Law 4548/2018) with limited liability (General Commercial Registry number 223701000, former Registry of Corporations number 6066/06/B/86/05) on 10 March 1918. With telephone number 00 30 210 326 4198. The Issuer is subject to regulation and supervision by the ECB, the Bank of Greece, the Hellenic Capital Market Commission (the **HCMC**), the Greek Ministry of Development and Greek banking, securities and accounting laws.

The purpose of the Issuer as set out in Article 4 of the Issuer's Articles of Incorporation is "to engage, on its account or on behalf of third parties, in Greece and abroad, independently or collaboratively, including a joint venture with third parties, in any and all (main and secondary) operations, activities, transactions and services allowed to credit institutions, in conformity with whatever rules and regulations (domestic, Community, foreign) may be in force each time."

All the activities of each of its companies are divided into six business units, with enhanced management and administrative responsibilities. The management of its overall strategy and the coordination of activities between business units is undertaken by its executive committee. Furthermore, the Issuer has strengthened the distinction between retail and wholesale banking and extended this organisational principle across the Group to apply to its operations in Southeastern Europe (Cyprus, Romania and Albania). It also maintains a presence in the United Kingdom and in Jersey.

At the income-generation level the Issuer operates the following business units:

(a) ***Retail Banking***

This unit includes all individuals (retail banking customers), professionals, small and very small companies operating in Greece and abroad excluding countries in South Eastern Europe.

The Group, through its extended branch network, offers all types of deposit products (deposits/savings accounts, working capital/ current accounts, investment facilities/ term deposits, Repos, Swaps), loan facilities (mortgages, consumer, corporate loans, letters of guarantee) and debit and credit cards of the above customers.

(b) ***Corporate Banking***

This unit includes all medium-sized and large companies, corporations with international business activities, corporations managed by the Corporate Banking Division and shipping companies operating in Greece and abroad except from South Eastern European countries. The Group offers working capital facilities, corporate loans, and letters of guarantee for the above mentioned corporations. This sector also includes leasing products which are provided by the subsidiary company Alpha Leasing A.E. as well as factoring services which are provided by the subsidiary company ABC Factors A.E.

(c) ***Asset Management and Insurance***

This unit consists of a wide range of asset management services offered through Group's private banking units and its subsidiary, Alpha Asset Management A.E.D.A.K. In addition, it includes

income received from the sale of a wide range of insurance products to individuals and companies through either AXA Insurance, which is the corporate successor of the former subsidiary Alpha Insurance A.E. or through the subsidiary Alphalife A.A.E.Z.

(d) ***Investment Banking and Treasury***

This unit includes stock exchange, advisory and brokerage services related to capital markets, and also investment banking facilities, which are offered either by the Issuer or specialized subsidiaries (Alpha Finance A.E.P.E.Y., Alpha Ventures S.A.). It also includes the activities of the dealing room in the interbank market (FX swaps, bonds, futures, IRS, interbank placements - loans etc.).

(e) ***South-Eastern Europe***

This unit consists of the Issuer's branches and the Group's subsidiaries, which operate in South-Eastern Europe. It is noted that Bulgaria's Branch and Alpha Bank's subsidiary Alpha Bank AD Skopje and Alpha Bank Srbija A.D, are not included anymore in the results of the continuing activities in this sector anymore.

(f) ***Other***

This segment includes the non-financial activities of the Issuer, as well as unallocated/one-off income and expenses and intersegment transactions.

A more detailed description of each business unit follows:

Retail Banking

The Issuer is a major participant in the retail banking sector in Greece and as at 31 December 2018 had a domestic network of 617 branches, 7 private banking (customer service centres), five commercial centres. Each Greek branch network is supported by a nationwide network of 1,154 ATMs. Its retail banking activities and products include deposits, investment products, distribution of bancassurance and standard insurance products (most commonly, policies attached to mortgage sales), banking activities on commission (mutual funds, credit cards, capital transfers, brokerage activities and payroll services), loans to individuals (consumer and housing loans) and loans to small-sized firms.

Retail deposits

The retail deposits of the Greek private sector increased by €6.0 billion at the end of December 2018 on a year-on-year basis. The Issuer's market share of retail deposits reached 21.54 per cent at the end of December 2018, while the overall market share in Greek deposits at the end of December 2018 stood at 22.10 per cent.

Retail loans

The decline in disposable income during the crisis led to a clear fall in demand for new loans. Despite the recovery of economic activity over the past two years, credit expansion to the households remained in negative territory, showing, however, signs of deceleration. More specifically, the annual rate of decline in housing loans (adjusted for write-offs, loan transfers, reclassifications and exchange rate variations) remained broadly stable (Dec. 2018: -2.8 per cent.; Dec. 2017: -2.9 per cent.), while the annual rate of change in consumer credit stood at -0.8 per cent. in December 2018 (2017: -0.5 per cent.)

Total Loans to customers attributed to the Retail Lending (which includes loans to small businesses) on a consolidated basis amounted to €29.6 billion as of 31 December 2018, whereas for Greece they stood at €25.5 billion.

Lending to Individuals

Despite the economic downturn in the last few years, the Issuer has maintained its position as one of the leading banks in the retail credit market by offering a full range of products designed to cover all personal and housing needs.

The Issuer offers housing loans with variable or fixed rates that finance the purchase of a house or land, as well as construction, renovation, extension or repair works.

Regarding consumer loans, the Issuer offers a wide variety of consumer finance solutions through a consumer loans product mix that has been designed to respond to the needs of its retail banking customers. The Issuer's consumer loans are offered either with variable or fixed rates and finance either specific needs (purpose loans for car acquisition, educational purposes or home refurbishments) or other personal needs.

During 2018 the Issuer focused on boosting new sales. In this context, the new product "Alpha Renovation" was introduced. "Alpha Renovation" is a specialized housing loan with a fast disbursement procedure that allows quick completion of renovation works so that Customers benefit immediately from a modern and efficient home.

At the same time, the Issuer redesigned the consumer loans product portfolio aiming at simplifying the product offering and providing modern solutions to Customers. "Alpha Metron Ariston with Cash Collateral" was introduced, allowing Customers to finance their personal needs with preferential rates while maintaining their savings.

The Issuer participated in the "Exoikonomisi Kat' Oikon II" Programme, a co-financed programme of the Ministry of Environment and Energy, designed to provide motives to owners of residential properties to improve the energy efficiency of their homes. During 2018 the Issuer accepted 4,000 financing applications regarding the EKO II Programme.

At the same time, the Issuer continues to support its existing customers by offering comprehensive solutions to allow them to service their loans promptly. The Issuer continuously works towards the development and support of programmes that assist Customers facing serious financial difficulties.

As of 31 December 2018 the Group's mortgage lending stood at €18.6 billion.

The Group has a portfolio of consumer loans in Greece of €3.9 billion as at 31 December 2018.

Payment cards

The Issuer has a leading position in the Greek market for both card issuance and acquiring. The Issuer's debit and credit card portfolio exceeds 4 million cards. In Credit Cards, the Issuer maintain significant market share in terms of billings and balances. The sales volume of credit and debit cards in 2018 was approximately €6.7 billion. As at 31 December 2018, outstanding balances reached €1.4 billion. With respect to its acquiring business, is the only Acquirer in Greece of all the major payment schemes: American Express, Visa, MasterCard and Diners and operates a network of approximately 150,000 associated merchants, holding a significant position in the Greek acquiring market.

Loans to small businesses

Small businesses financing facilities in the Greek market had an outstanding balance of €5.1 billion as at 31 December 2018.

Corporate Banking

Corporate Banking

The Issuer provides a full range of corporate banking services to Greek companies, foreign corporations active in Greece and, to a lesser degree, public sector entities. Corporate clients serviced by the Issuer's Corporate Banking division generally have an annual turnover of at least €75 million. The Issuer's credit portfolio is mainly composed by companies in the manufacturing, trade, transportation, construction, real estate, energy, fuels and infrastructure sectors.

The Issuer offers a number of services to corporate customers, including acceptance of deposits, short-medium and long-term lending both in euro and foreign currencies, cashing cheques, foreign exchange transactions, transactions in treasury and money market instruments, letters of guarantee, factoring and leasing. Moreover services offered include other cash and risk management services. The Issuer also provides certain other banking services to corporate customers, including arrangement and participation in syndicated loans to large-sized companies and participation in bilateral debt restructuring transactions, according to clients' financial needs.

Commercial Banking

The Issuer provides services to approximately 8,500 medium-sized companies in mainland and islands, with credit limits over €1 million and/or annual turnover between €2.5 million and €75 million.

The Issuer provides its clientele with a centralised customer relationship management system offering a wide spectrum of tailor made solutions to meet the clients' needs. Under the current adverse economic conditions, the Issuer has maintained a high-quality medium-size companies' portfolio, mainly by focusing on balancing the collateral provided by each company with the assessment of the company's credit-worthiness.

Shipping Finance

The Issuer has been successfully involved in shipping finance since 1997, providing specialised products and services (remittances, foreign exchange transactions, hedging solutions etc.) to Greek-owned ocean-going shipping companies (companies that mainly control ocean-going tankers and dry bulk carriers) and coastal shipping companies.

Despite the fluctuations in the freight markets and world economy, Greek shipowners continue to demonstrate their commitment and strong position in the shipping industry. Bank lending, although currently limited, remains the main means of raising funds. Therefore, the Issuer will continue to aim for the best possible response to its Customers' needs.

Alpha Leasing

Alpha Leasing, established in 1981, is a wholly owned subsidiary of the Issuer, and provides a wide range of financial leasing services and products to its customers. Alpha Leasing is service-oriented, focusing on the selective implementation of its customers' investment plans (2,106 customers as at 31 December 2018), while securing low risk and acceptable return levels for its portfolio. As at 31 December 2018 total receivables from leasing (post provisions) amounted to €478 million (compared with €509 million at 31 December 2017). Alpha Leasing currently has 40 employees (as of now, 31 December 2018).

ABC Factors

Through ABC Factors, the Issuer provides a wide range of factoring services (domestic factoring with and without recourse, reverse factoring, invoice discounting, accounts receivables control, management and collection services, import and export factoring and forfaiting). Since its establishment in 1995, ABC Factors

has held a leading position in the Greek factoring market based on the value of the assigned receivables and profit before taxes, according to a comparative analysis of the competition (Source: Hellenic Factoring Association).

For the period from 1 January to 31 December 2018, the turnover of ABC Factors (amount of trade receivables) amounted to €4.60 billion (compared to €4.10 billion for the relevant period of 2017) and the company engaged 83 employees.

Asset Management & Insurance

The Asset Management & Insurance Unit includes private banking, asset management, and insurance services.

Private Banking Unit

Since 1993, the Issuer has been providing a full range of portfolio management services as well as upgraded banking services to high net-worth clients. The services are provided under the trade name “Alpha Private Bank”, by a network of six exclusively designated 'Private Banking Centres', seven service points at selected branches in Greece's largest cities and one 'Private Banking Centre', at Alpha Bank London Limited, a 100 per cent owned subsidiary bank based in the UK, regulated by the Bank of England.

The unit, operating under the supervision of the Private and Investment Banking Executive General Manager and with support from a team of portfolio counselors and analysts, provides the Issuer's upper client segment with optimised portfolio management solutions under Discretionary, Advisory, Transactional Advisory and Execution Only framework. The sales team consists of 50 specialised and certified private bankers in Greece and 6 bankers in London. Despite the continuing capital controls regime imposed in the country since 2015, the total Assets Under Management stood at €4.3 billion and 6,200 investment portfolios as of 31 December 2018, contributing €27.5 million in gross revenues, an increase of 2 per cent in gross revenues as against year 2017.

During 2018, aiming at improving Private Banking “Customer Journey” through the enhancement of investment services, the unit introduced the:

- “InvestoR” Electronic Platform which, through the automation and homogenization of the advisory selling process, offers Customers a holistic investment approach in full compliance with the MIFID II Regulatory Directive.
- Use of mobile devices (tablets) in Portfolio Management facilitating direct and personalized communication of the private banker with the Customer.
- Consolidation of the Alpha Private Bank Customer Phone Service, which provides swift and secure specialised banking services to Private Banking Customers during extended working hours, without visiting an Alpha Bank Branch.

In recognition of the consistent high quality that defines the Issuer’s Private Banking services, Alpha Bank was named “Best Private Bank in Greece” for 2018 by the internationally acclaimed publications “Professional Wealth Management (PWM)” and “The Banker” of the Financial Times Group.

Alpha Asset Management A.E.D.A.K.

Alpha Asset Management A.E.D.A.K.'s objective is the development and management of mutual funds, offered to private and institutional clients of Alpha Bank. Additionally, it is actively engaged in the portfolio management of institutional investors such as pension/occupational funds, insurance companies and other entities. The company offers a wide range of investment solutions, consisting of 31 mutual funds covering

almost all investment categories (equities, bonds, money market and alternative investments), providing access both to developed and emerging markets.

Alpha Asset Management A.E.D.A.K. is the second largest mutual funds management company in Greece and as of 31 December 2018, its market share stood at 18.3 per cent. of the entire mutual funds industry (Source: Hellenic Fund & Asset Management Association). As of 31 December 2018 total assets under management of the company stood at €1.612 billion, of which €1.111 billion were invested in mutual funds and €501 million in segregated accounts of institutional clients.

Alphalife A.A.E.Z.

Alphalife A.A.E.Z., a wholly owned subsidiary of the Issuer, is active exclusively in the Bancassurance market of investment and pension life insurance products, solely through the branch network of the Issuer.

Despite the fact that the commencement of its business in 2010 coincided with the economic recession in Greece, there has been an increase in premium production, in the portfolio of insurance contracts and in reserves and assets under the management of AlphaLife during the period between 2010 and 31 December 2018. Key figures for the year ended 31 December 2018 are: insurance premiums received of €55.6 million, assets under management of €387.5 million and profits before tax of €15.3 million.

Investment Banking and Treasury

Investment Banking

The Investment Banking Unit includes the activities of Corporate Finance, Structured Finance and Real Estate Investments, as these are described below.

Corporate Finance

Corporate Finance offers services relating to mergers and acquisitions, restructurings, privatisation projects, valuations, capital market transactions, public tenders and concessions and holds a leading position among the local investment banking units.

Corporate Finance services in 2018 primarily focused on the provision of advisory services to private sector companies relating to M&As, privatisation projects under the Hellenic Asset Development Fund (“HRADF”) as well as capital market transactions for the listing of corporate bonds on the ATHEX. Specifically, in December 2018, it successfully completed the tender procedure for the sale of 66 per cent. of the Hellenic Gas Transmission Operator (DESFA) to the consortium of SNAM-Enagas-Fluxys, where it served as Financial Advisor to HRADF.

Currently, Corporate Finance acts as financial advisor to the HRADF in the award of a concession to operate, maintain and commercially exploit Egnatia Motorway (Egnatia Odos), which is a major privatisation transaction.

Also, Corporate Finance advised DEPA for the sale of a 51 per cent. stake in EPA Thessaloniki-Thessalia to Eni S.p.A. for €57 million and the acquisition of a 49 per cent. stake in EPA Attiki S.A. and EDA Attiki S.A. from Attiki Gas BV for €39 million and €111 million. accordingly.

From the capital market perspective, Corporate Finance provided underwriting, structuring, advisory and selling services to the companies, “GEK – TERNA SA” and “Coral SA” for the listing of corporate bonds in the ATHEX.

In addition, advisory services were offered to private companies trading on the ATHEX, in connection with rights issuances and tender offers.

Structured Finance

The Issuer holds a leading position in the Greek structured finance market, offering project financing on a non-recourse basis for large projects in infrastructure (motorways, airports, ports etc.) and energy (renewables, cogeneration and thermal power plants), either on a bilateral or a syndicated basis, in Greece and abroad. The Issuer is also active in commercial real estate finance through structured financing of projects in Greece and South Eastern Europe.

In 2018, the Structured Finance Division was actively involved in arranging new structured financings on a syndicated (along with other commercial banks but also with IFIs such as European Investment Banks and European Bank for Reconstruction and Development) or bilateral basis in the power sector, with a focus on renewable energy sources and wind farms, thus affirming the Issuer’s dominant position in this sector. Up until the end of 2018 Alpha Bank had financed RES projects with a total installed capacity of more than 700MW.

The Division also arranged the financing of the landmark Public-Private Partnership (PPP) project for the management of waste in the Region of Peloponnese.

In the field of advisory services, the Division acts as advisor to the Hellenic Republic Asset Development Fund (TAIPED) for the privatisations.

In the real estate sector, the Structured Finance Division successfully completed a number of selective transactions, mainly with Real Estate Investment Companies (REICs).

The Division’s loan book moderately increased at approximately €1.1 billion, due to parallel scheduled repayments in its loan portfolio.

On the basis of existing mandates regarding the arrangement of financing for various projects, the volume and the performance of the loan portfolio are expected to increase in the following years, with business growth driven primarily by projects in the renewable energy sector, PPPs and the development of income properties.

Real Estate Investments

The Issuer continues with its operations in the area of Real Estate Investments in Greece and in South Eastern Europe (SEE), including the formulation and execution of related strategic and business plans of real estate assets acquired as a result of the enforcement of the respective securities under loan facility agreements. The aim of the Investment Banking division's management is to safeguard and maximise recovery value of those assets, as well as to secure their efficient and risk-fenced management usually through the establishment of special purpose vehicles and their subsequent sale via well-run processes. The Investment Banking division acts as one of the internal REO commercialization channels in close collaboration with Alpha Real Estate Management and Investments SA and Alpha Astika Akinita S.A., as well as with its subsidiaries in SEE and other external partners.

Alpha Finance Investments Services S.A.

Alpha Finance Investment Services S.A. is a member of ATHEX and the Cyprus Stock Exchange. It offers a wide range of products and services to both retail and institutional clients, including access to the major foreign equity markets. In addition, Alpha Finance Investment Services S.A. acts as a market maker for Alpha ETF FTSE ATHEX Large Cap Equity Fund and for stocks and derivatives traded on ATHEX.

For the period ending 31 December 2018 Alpha Finance Investment Services S.A. reported net after tax losses of €2,34 million on revenues of €6.51 million, with shareholders' funds amounting to €25.3 million, compared to net after tax losses of €1.45 million on revenues of €5.96 million and shareholders' funds of €29.2 million for the respective period in 2017.

Treasury

The Issuer participates in the interbank spot, money, bond and derivatives markets. Its use of sophisticated systems to measure risk, along with the Issuer's conservative trading profile, have contributed to risk limitation, enhancement of flexibility in adapting to changing market conditions, and improved performance. The Treasury Division is particularly active in both the Greek primary and secondary bond markets as well as in the primary and secondary European and international debt capital markets.

South Eastern & rest of Europe

The Group is active in SEE, having a presence in Cyprus, Romania, Albania as well as in the United Kingdom through its London Branch and the subsidiary Alpha Bank London Ltd. The Group also has a presence in Jersey. As at 31 December 2018, the Group in SEE and the rest of Europe had a total of 186 Branches and 3.167 employees. Alpha Bank has made significant inroads in restoring its viability across all business metrics and has put effort in completing all material commitments of its Restructuring plan leading to a successful exit as of 31 December 2018

As at 31 December 2018 gross loans in SEE amounted to €7.2 billion corresponding to 13.7 per cent. of total loans of the Group on a consolidated basis, while deposits amounted to €5.2 billion corresponding to 13.4 per cent. of total deposits of the Group on a consolidated basis.

Other Activities

Alpha Astika Akinita A.E.

Alpha Astika Akinita S.A. was founded in 1942 and since 1999 the company's shares have been listed on ATHEX. The company is operating mainly in the Greek real estate market. It also extends its activities to the markets of Romania, Bulgaria and Cyprus through its subsidiaries, Alpha Real Estate Services S.R.L., Alpha Real Estate Bulgaria E.O.O.D., Chardash Trading E.O.O.D. and Alpha Real Estate Services L.L.C.

The main objective of Alpha Astika Akinita S.A. is to manage and value real estate properties and rights owned by the Group. Furthermore, it offers appraisal, technical consultation and comprehensive services for exploiting real estate owned by third parties. Regarding its property management services, brokerage, property valuation, investment appraisals, project management and evaluation of property development projects, Alpha Astika Akinita S.A. has been certified with ISO 9001.

Moreover, the company owns 18.42 per cent. of the share capital of Propindex S.A., a company which creates, calculates and produces indicators related to the real estate market.

Custodial Services

The Issuer has a specialized organizational unit that performs custodial functions servicing local and foreign institutional investors and retail clients. As at 31 December 2018, total assets under the Issuer's custody were approximately €6 billion as follows:

- The value of the institutional clientele's portfolio amounted to approximately €3 billion, while the fees from 1 January 2018 to 31 December 2018 amounted to approximately €2 million. The main categories of institutional clients under custody are insurance companies, institutions for occupational retirement provision (IORPs), banks and asset management companies.
- The value of the retail clientele's portfolio amounted to approximately €3 billion while the portfolio maintenance commissions for 2018, amounted to approximately €1.5 million.

NPL Management

As a result of the Greek financial crisis started in 2009, the NPE/NPL levels increased across all business segments resulting in the deterioration of the Issuer's loan portfolio.

However, in a challenging economic environment, the Issuer set as a paramount importance the effective management of NPEs, as this will lead, not only to the improvement of the Issuer's financial strength but also to the release of funds towards households and productive business sectors contributing to the development of the Greek economy in general.

On the 30 September 2016 the Issuer submitted to the Single Supervisory Mechanism (SSM) the NPE/NPL targets along with the NPE Strategy Explanatory Note and the relevant Action Plan, depicting the Issuer's full commitment towards the active management and reduction of NPEs over the business plan period 2016-2019. On the 29 September 2017 the Issuer submitted the updated NPE/NPL targets to the SSM including the review of the progress made in reducing NPEs/NPLs against the first year's targets, as well as the key changes to the Issuer's strategy and Business Plan regarding NPEs.

On 30 September 2018, the Issuer submitted a revised Business Plan, including targets per asset class for the period 2018 – 2021 according to the latest request from SSM. The Issuer's objective for the management of troubled assets is to significantly reduce the Solo-level NPE volume at approximately €8.0 billion, implying an NPE ratio of 20 per cent., approximately by 2021 while curtailing new NPE/NPL formation and minimizing medium term losses for the Issuer.

Moreover, on 29 March of 2019, the Issuer submitted a revised NPE Business Plan, including targets per asset class for the period 2018 - 2021. The Issuer's objective for the management of troubled assets is to reach NPE balances of approximately €7.4 billion by the end of 2021, a reduction of approximately €14.3

billion or 66 per cent., compared to the ending balance of Q4 2018. Apart from the extension of the reference period up to 2021, the updated NPE Business Plan illustrates different mix solutions in comparison with the targets of the previous submissions.

The achievement of objectives is driven by the implementation of initiatives across four main pillars.

- Governance, policies and operating model through increased oversight and active involvement of the Management and the BoD with clear roles and accountabilities through the relevant Committees
- Portfolio segmentation and analysis based on detailed execution roadmaps within a strict and defined segmentation framework under continuous review, update and improvement
- Establishment of new flexible restructuring products with additional functionalities, which are based on debtors' repayment ability and outlook aiming at long-term viable restructurings
- Effective human resources management focusing on know-how and training, which is further improved through attracting specialized executives
- Strategic joint venture initiatives:
 - With Pillarstone (subsidiary of the international private equity firm KKR) on the management of selected large corporate non-performing exposures
 - With doBank Hellas – in cooperation with the other Greek systemic banks – an assignment agreement had been signed for the management of Non Performing SMEs exposures of approximately €400 million over total SME's exposures of the Greek systemic Banks of €1.8 billion approximately. The aim of this common initiative of the 4 Greek systemic banks is to tackle with SMEs NPEs, in cases where the banks have common exposure, in coordination and with a uniform credit policy as well as to provide common solutions

It should be stressed that the successful implementation of the Issuer's NPE strategy is conditional on a number of external/ systemic factors that include – among others – the following:

- Realization of a continuously improving economic environment;
- Intensification of the electronic auctions to support liquidations and serve as a credible enforcement threat to non-cooperative borrowers; albeit the positive expected impact of the E-Auctions platform, there are certain impediments of legal (e.g. ability of borrower's petition in L.3869 shortly before auction) and systemic (e.g. limited functionality of existing platform) nature that are adversely affecting the flow of E-Auctions;
- Acceleration of Household Insolvency Law (L.3869) court decisions – further legislative changes that facilitate interbank cooperation in managing cases within L. 3869 framework; some progress has been recorded with respect to enhancing the case-processing capacity of courts through new staff appointments and training of judges on financial topics;
- New debtor protection scheme on primary residences of vulnerable households; upon finalization of amendments the potential impact will be reassessed;
- Improvements in management and transfer of NPLs framework (L.4354); significant transactions are now finalized while conditions are steadily improving for a series of portfolios to be transferred within the upcoming period; abovementioned deals will be further supported by the fact that the domestic servicing industry is finally gaining traction with the establishment and licensing of several servicers;

- Enhancement of legal framework of Corporate Bankruptcy (L.3588) is expected to speed up recoveries and efficiency of corporate cases resolution, while preserving assets' value;
- Realization of NPL Forum's outcome for the resolution of common large corporate cases and the cooperation of the banks aiming at a joint management of SME's respectively;
- Implementation of the revised legal protection framework for Bank's Staff (L.4472, Art.65), will further support towards the acceleration of NPL sales and restructurings with debt forgiveness; and
- Out-of-Court Workout (L.4469) enhancements are slightly expected to contribute in the non-performing business loans resolution - mainly in bilateral restructurings.

The Issuer's full commitment towards the active management and reduction of NPEs over the Business Plan period not only remains intact, but is reinforced through the constant review and calibration of the Issuer's strategies, products, and processes to the evolving macroeconomic environment.

Distribution Network

Branch Networks

The Issuer's presence in Greece and other countries in which it operates is supported by a network comprising 617 branches at 31 December 2018, which includes approximately 431 retail branches in Greece, 5 commercial centres in Greece, 7 Private Banking customer service centers in Greece and 186 retail branches outside Greece.

Alternative Networks

In February 2018 the Issuer working consistently to meet the goals of its business plan introduced the new online documents update platform providing customers with the ability to submit electronically the documents required to certify or update their personal details without having to visit a branch.

In March 2018, the Issuer launched the new individual customer online registration to e-Banking services, allowing customers sign up quickly to e-Banking without requiring their physical presence at the branch.

“myAlpha Web for Businesses” - In April 2018 in line with the constant improvement of the services provided, an upgrade of the approvals management and user rights functions was launched to meet the multiple needs of corporate structures and particular requirements regarding their approval levels.

In November 2018, in order to enhance the safety of customer transactions, the procedure for acquiring additional security codes for sensitive transactions has changed. Additional security codes service is now obligatory for every new subscription and customers receive a 6-digit code by an SMS text message or a viber message each time they want to carry out a sensitive transaction. In the same context, payment procedures were also simplified, the majority of which are carried out without requesting an additional security code.

In December 2018, myAlpha wallet registration procedure was simplified permitting customers to subscribe using their existing e-Banking username and password.

Distinctions in 2018

Mobile Excellence Awards 2018

2018 was yet another year where Alpha Bank received a significant number of distinctions for its advanced e-Banking and payment services. Specifically the Issuer received the following awards:

- Grand award for the multiple distinctions of the Alpha Bank mobile applications
- Gold Awards in the "Mobile Banking Services" and "Mobile Wallet" categories
- Silver Awards in the "Business Process Re-engineering through Mobile" and "Use of Mobile for P2P Payment" categories for myAlpha mobile.

myAlpha

Alpha Bank's new pillar "myAlpha" includes all electronic services and electronic products, such as "myAlpha Web", "myAlpha Mobile" and "myAlpha Phone", as well as the digital wallet "myAlpha wallet".

e-Banking

At the end of 2018, active e-Banking customers (web and mobile) for individuals and businesses increased by 23 per cent., with more than 85 per cent. of all transactions made at the Issuer being alternative network transactions.

In 2018, the payment services offered were expanded with the addition of 110 new payment codes, bringing the total number of available payments to more than 700. At the same time, the efforts to optimize the provision of product information as well as to improve transactions service levels continued, resulting in further improvement of customer experience.

Aiming to provide customers with uninterrupted quality services and efficient support, a series of functional upgrades were carried out such as customers' online registration for e-Banking, the online uploading platform which provides customers the ability to submit electronically the documents required to complete their certification process or update their personal details. Regarding "myAlpha Mobile", as of September 2018, the new "Scan To Pay" feature enables customers to execute a significant number of payments to organisations and businesses with greater flexibility, since users are no longer required to enter payment codes, but simply use their mobile phone to scan bill's barcode or QR code.

myAlpha web

Active subscribers to "myAlpha Web for Individuals and Businesses" increased by 15 per cent., while transactions made using the service also increased by 11 per cent. compared to 2017.

In specific, "MyAlpha Web for Individuals" expanding its customer base continued its upward trend in 2018, with a 14 per cent. increase in active users over 2017.

In addition to operational upgrades, new online products were added to the service, such as the "Alpha Save Smart" account, as well as the option to apply for new debit cards. Regarding online products, online term deposits account for approximately 16 per cent. of the total number of individuals' term deposit accounts and 9 per cent. of their value, while as regards the saving product "Alpha save smart", 50 per cent. of new accounts have been opened online, with amounts representing 20 per cent. of the total product portfolio.

As part of the efforts to constantly improve the services provided and adopt new technologies in electronic banking, "Alpha Web for Businesses", which was upgraded in 2017 in line with modern design standards, offering customers new features that ensure greater flexibility and security in their transactions, continued its upward trend in 2018, expanding its customer base with a 19 per cent. increase of active users over 2017.

myAlpha mobile

"myAlpha Mobile" has evolved dynamically in recent years, attracting increasingly more users. Active users increased by 50 per cent. over 2017, while there was an 83 per cent. increase in users served exclusively

through “myAlpha Mobile” on their mobile phones. In 2018, one out of two subscribers to the Issuer’s alternative networks uses the mobile app on a monthly basis and one out of four e-Banking subscribers uses only the mobile service to obtain updates and carry out transactions.

myAlpha phone

myAlpha phone provides information to customers and helps them carry out transactions via an automated system or with the assistance of a call centre agent. This is particularly useful for customers with reduced mobility or visual impairments.

Electronic payment services

myAlpha wallet

In 2018, Alpha Bank continued its efforts to further develop electronic banking with innovative solutions and proceeded with introducing new features and services to “my Alpha wallet”, Alpha Bank’s digital wallet for payments and purchases all over the world.

Significant additions to the service were the ability to access the service using the e-Banking or the bleep app access codes (for new or existing users), as well as, the ability to include corporate cards in the “myAlpha wallet” profile.

Mobile app

In addition to the above new features, “myAlpha wallet” has been further improved, always with a view to being increasingly user-friendly. A widget option was added to the “Tap 'n Pay” app, allowing customers to carry out even faster contactless transactions, while customers were also given the option to rearrange their card display order.

“MyAlpha wallet” continued its upward trend, marking a 31 per cent. increase in users. The service now has over 85,000 registered users, who made over 115,000 account payments this year. At the same time, in 2018, the service app was downloaded approximately 85,000 times from the App Store and Google Play. “Tap ‘n Pay” users increased by 50 per cent. to approximately 20,000, carrying out approximately 300,000 transactions with a total value of €7 million.

Electronic Services for Businesses

Alpha e-Commerce

In 2018, the features of “Alpha e-Commerce” were upgraded, improving the existing innovative services provided to cooperating businesses.

The increase in new businesses joining the “Alpha e-Commerce” service and in transactions carried out via this service continued in 2018. Specifically, compared to 2017:

- the number of active subscribers grew by 27 per cent.; and
- the number of transactions grew by 39 per cent.

The increase in the number of transactions made through the “MyBank” service was also remarkable, as it doubled in comparison to 2017. Specifically, the transactions exceeded 125,000 and respectively the turnover was €40 million.

“Alpha e-Commerce”, with the addition of the Discover card payment option, became the only e-commerce platform in the Greek market to accept almost all card brands issued globally (Visa, Mastercard, American Express®, Diners Club, Discover and Maestro).

“Alpha Mass Payments”

“Alpha Mass Payments” is dedicated to collecting dues via standing orders and/or alternative networks, as well as carrying out mass payments (e.g. payroll, payment of suppliers etc.). The service’s user-friendly interface offers features that allow users to create, send and monitor the progress of mass payment orders (e.g. payroll or payment of suppliers) and effectively serves small and medium-sized enterprises.

Automated Banking Services

To enhance customer service and increase the efficiency of the Issuer’s ATMs network while rationalising their operating costs, approximately 310 feasibility studies, primarily concerning the configuration of the network of off-site ATMs (withdrawals, relocations, new installations, replacements, adjustment of rentals etc.), were carried out in 2018 and cost-benefit reports were compiled on the operation of all off-site ATMs.

The Issuer also installed 133 new ATMs (53 off-site and 80 in branches) and withdrew 59 ATMs (18 off-site and 41 due to changes in the branch network). Moreover, as part of the ATM replacement plan with state-of-the-art machines, launched in 2018, 57 per cent. of branches now offer online cash deposits. Transactions increased by 3 per cent. over 2017.

Out of a total of 1,154 ATMs, 292 (25 per cent.) allow use by persons with visual impairments, due to their special settings.

To serve customers even better and to reduce the workload of branch tellers involving deposits and cash payments, 100 new automated cash transaction centres (ACTCs) were installed, covering 76.4 per cent. of the branch network. Furthermore, six new payments were added and the service was upgraded with the option of card payments, resulting in a 27.5 per cent. increase in ACT transactions over 2017 and a 48.3 per cent. increase in ACT transaction value over 2017.

Alpha alerts and Alpha e-statements

“Alpha e-Statements” continued its successful course, significantly contributing to the efforts to reduce paper and ink use and save resources, as a considerable number of Bank customers opt for electronic statements instead of paper bank statements.

The “Alpha alerts” and “Alpha e-statements” services, which offer even greater security in transactions, are now also available via Alpha Bank’s digital wallet “my Alpha wallet”.

Donations for Social Purposes

Regarding donations for social purposes, it should be mentioned that e-Banking supports donations to approximately 70 different organisations.

Customer and Bank Officer Information - Training

- Managing the communication with Alpha Bank subscribers, regarding comments on smartphone apps on Google Play and App Store.
- Creating promotional material and managing subscriber feedback on Twitter and LinkedIn, in cooperation with the Marketing and Public Relations Division.

- Promotional events via text messages sent to mobile phones and messages sent via e-Banking to directly inform subscribers about the options and new features of “e-Banking” and “myAlpha wallet”.
- Creating a new section for the new “myAlpha” e-banking pillar, which includes all the electronic products, tools, networks and e-services of the Issuer for individuals and businesses.
- Participating in the “New Officers for Individual Customers” training course, which includes the Alpha e-Banking for individuals module, for the e-services training of new officers.

RISK MANAGEMENT

Risk Management Framework

The Group has established a comprehensive management framework, which has evolved over time, and takes into account the common European legislation and banking system rules, the regulatory principles and supervisory guidance and the best international practices. This risk management framework is implemented in the course of day-to-day business, enabling corporate governance to remain effective.

The Group's focus is to maintain the highest operating standards, ensure compliance with regulatory risk rules and retain confidence in the conduct of its business activities through the sound provision of financial services.

Furthermore, as of November 2014, the Group falls under the SSM, which is the new system of prudential regulation comprising the ECB and the Bank of Greece. In addition, as a significant credit institution, the Group is directly supervised by the ECB.

The SSM works in cooperation with the EBA, the European Parliament, the Eurogroup, the European Commission, the competent national resolution authorities, the Single Resolution Mechanism, and the European Systemic Risk Board (**ESRB**), within their respective competences.

The CRD IV and the CRR became effective on 1 January 2014. The Directive and the Regulation gradually introduce the new capital adequacy framework (**Basel III**) of credit institutions.

In this new regulatory and supervisory risk management framework, the Group strengthens the internal governance and strategy of risk management and redefines its business model in order to achieve full compliance with the increased regulatory requirements and the guidelines relating to the governance of data risks, data collection, and data incorporation in the required reports towards the management and supervisory authorities.

The new approach of the Group sets up a foundation for the continuous redefinition of its Risk Management strategy through (a) the determination of the extent to which the Issuer is willing to undertake risks (risk appetite) (b) the assessment of the potential impacts of business development strategies in the definition of Risk Management limits, to ensure that the relevant decisions combine the anticipated profitability with the potential losses and (c) the development of appropriate monitoring procedures of implementation of these strategies through a mechanism which allocates Risk Management responsibilities between the Issuer units. Specifically, the Group develops, taking into consideration the nature, scale, and the complexity of its business as well as its risk profile, the risk management strategy around the following three lines of defence, which constitute a critical factor of its efficient operation:

- Development units of banking and trading arrangements (host functions and handling customer requests, promotion and marketing of banking products to the public (credits, deposit products and investment facilities), and in general the conduct of transactions (front line)), which are functionally separated from requests approval units, confirmation, accounting and settlement units. These units constitute the first line of defence and "ownership" of risk, which recognizes and manages risks that will arise in the conduct of the Issuer's business;
- Management and control risk and regulatory compliance units, which are separated both between themselves and from the first line of defence. They constitute the second line of defence and their function is complementary in conducting banking business of the first line of defence in order to ensure objectivity in decision making, measuring the effectiveness of these decisions in terms of risk conditions and compliance with the existing legislative and regulatory framework involving internal

regulations and ethical standards and the total view and evaluation of the total risk exposure of the Issuer and the Group; and

- Internal audit units, which are separate from aforementioned units, constitute the third line of defence. These units, through audit mechanisms and procedures, cover on an ongoing basis each operation of the Issuer and the Group and assess the consistent implementation of the business strategy, involving the risk management strategy, through the correct implementation of internal policies and procedures, and contributes to their efficient and secure operation.

The Board of Directors supervises the overall operations of the risk management sector. Regarding risk management, the Board of Directors is supported by the Risk Management Committee. The Risk Management Committee through monthly meetings addresses to the Board of Directors issues regarding the Group's risk-taking strategy and capital management. It is responsible for the implementation and monitoring compliance of risk management policies. The Group re-assesses the effectiveness of the risk management framework on a regular basis in order to ensure compliance with international best practices.

For a more comprehensive and effective identification and monitoring of all types of risks, Management Committees have been established: the Assets Liabilities Management Committee, the Operational Risk Committee, and the Credit Risk Committee.

The General Manager and Group Chief Risk Officer supervises the Risk Management Divisions and reports on a regular as well as ad hoc basis to the Management Committees, the Risk Management Committee and the Board of Directors. With respect to credit risk, the reporting to the abovementioned committees covers the following areas:

- The risk profile of portfolios by rating grade;
- The transition among rating grades (migration matrix);
- The estimation of the relevant risk parameters by rating grade, group of clients, etc.;
- The trends of basic rating criteria;
- The changes in the rating process, the criteria or in each specific parameter; and
- The concentration risk (by risk type, sector, country, collateral, portfolio, etc.).
- The evolution of Gross Loans, +90 days past due loans, Non-Performing exposures and the monitoring KPIs per segment on a Group basis.
- The Cost of Risk.
- The transition of exposures from Stage 2 to 1 per asset class (IFRS 9).
- The maximum risk appetite per country, sector, currency, business Units, limit breaches and mitigation plans.

Organizational Structure of Risk Management Divisions

Under the supervision of the General Manager and the Group Chief Risk Officer the following Risk Management Divisions operate within the Group and have been given the responsibility of implementing the risk management framework, according to the directions of the Risk Management Committee:

- Market and Operational Risk Division;

- Credit Risk Data and Analysis Division;
- Credit Risk Data Management Division;
- Credit Risk Analysis Division;
- Credit Control Division;
- Credit Risk Policy and Control Division;
- Credit Risk Methodologies Division;
- Credit Risk Cost Assessment Division;
- Risk Models Validation Division
- Wholesale Credit Division;
- Wholesale Credit Workout; and
- Retail Credit Division

Committees

Troubled Assets Committee

The Troubled Assets Committee (**TAC**) is chaired by the Executive General Manager—Wholesale Banking NPL or the Executive General Manager-Retail Banking NPL (subject to the topic presented) and reports to the Deputy CEO–Non Performing Loans and Treasury Management. TAC convenes regularly every month or ad hoc upon any Member's initiative.

The key responsibilities of the TAC are outlined below:

- Approval of Non-Performing Loans Policies and Procedures and the operational framework of the Wholesale Banking and Retail Banking Arrears Committees (limits, composition, frequency of file reviews, officers responsible for proposals, meetings, etc.), also apprising the Credit Risk Committee
- Assessment and monitoring of the targets set to the Non-Performing Loans Divisions within the context of the Issuer's budget
- Creation of specific forbearance, resolution and closure measures available to customers managed by the Non-Performing Loans Divisions, along with the periodic evaluation and monitoring of their effectiveness
- Setting the criteria on which the long-term viability of the proposed forbearance types and resolution and closure measures is examined
- Review of the internal reports related to the portfolio of the Non-Performing Loans Divisions
- Preparation, evaluation and approval of Wholesale Banking and Retail Banking Arrears Management Strategy which is further forwarded to the Credit Risk Committee for update and to Risk Management Committee for approval;

- The preliminary approval of yearly budget, Business Plans and targets set to Non-Performing Loan Units (Wholesale and Retail) within the context of the Issuer’s operational planning, which are further forwarded to the Executive Committee and the Board of Directors to obtain final approval;
- Approval of reports regarding NPE management, submitted to the European Central Bank and the Financial Stability Fund; and
- Oversight of the Troubled Assets Committees of Group subsidiaries.

Wholesale Banking Announcement Review Committee

The four-person strong Committee convenes regularly semi-annually and is considered being at quorum if the Executive General Manager—Wholesale Banking NPL and the Manager of the Wholesale Credit Division, as well as one more member are present.

The Committee assesses the announcement of customers to the NPL Wholesale Banking Division that show indications of possible default, being under the responsibility of the Commercial Banking, the Corporate Banking Division, the Shipping Division and the Investment Banking Division.

Assessed customers include all those that have shown objective evidence of individual impairment of debt obligations, irrespective of the relevant proposal for impairment recognition, or evidence of financial difficulty and are considered to meet the criteria specified in the NPL Wholesale Banking regulation for the announcement to the NPL Wholesale Banking Division.

Risk Management Committee

The composition of the Risk Management Committee is designated by the Board of Directors. Currently, the Risk Management Committee comprises four members, out of whom three are Non-Executive Independent Members. One of the members is appointed Chairman of the Committee and the remaining are appointed members of the Committee. All the members of the Committee have knowledge of the financial sector, and possess experience in the banking sector, especially in risk undertaking and management and in equity management.

The Risk Management Committee recommends to the Board of Directors the risk undertaking and capital management strategy and defines the principles of managing risk with regard to identifying, forecasting, measuring, monitoring and managing risk. It ensures the development of an in-house risk management system and evaluates reports submitted by the Chief Risk Officer. It provides for the conduct of at least annual stress tests and is informed of the sections of the report prepared by the external auditors pertaining to risk management as provided by the supervisory authorities.

The Risk Management Committee evaluates the adequacy and effectiveness of the risk management policy and procedures of the Issuer and the Group, in terms of the:

- Undertaking, monitoring, and management of risks (market, credit, interest rate, liquidity, operational, or other material risks) per category of transactions and customers per risk level (e.g. country, profession and activity);
- Determination of the applicable maximum risk appetite on an aggregate basis for each type of risk and further allocation of each of these limits per country, sector, currency, Business Unit, etc.; and
- Establishment of stop-loss limits or of other corrective actions.

The Risk Management Committee ensures communication among the internal auditor, the external auditors, the supervisory authorities and the Board of Directors on risk management issues, and convenes monthly or ad hoc.

Assets Liabilities Management Committee

The Assets Liabilities Management Committee (**ALCO**) convenes regularly every quarter under the chairmanship of the Managing Director-CEO. The General Managers, the Executive General Managers and the Managers of the Asset Liability Management Division, the Market and Operational Risk Division, Analysis and Performance Management Division, Asset Gathering Management Division, the Accounting and Tax Division, the Economic Research Division, the Wholesale Banking Credit Risk Division, the Retail Banking Credit Risk Division, the Trading Division, the Capital Management and Banking Supervision Division and the Financial Markets Division participate as members. The Committee examines and decides on issues related to treasury and balance sheet management and monitors the course of the results, the budget, the funding plan, the capital adequacy and the overall financial volumes of the Issuer and the Group approving the respective actions and policies. In addition, the Committee approves the interest rate policy, the structure of the investment portfolios and the total market, interest rate and liquidity risk limits.

Operational Risk Committee

The Operational Risk Committee convenes regularly every quarter under the chairmanship of the Managing Director—CEO and with the participation of the General Managers, the Information Technology and Operations Executive General Manager and the Manager of the Market and Operational Risk Division. The Operational Risk Committee ensures that the appropriate organizational structure, processes, methodologies and infrastructure to manage operational risk are in place. In addition, it is regularly updated on the operational risk profile of the Group and the results of the operational risk assessment process; reviews recommendations for minimizing operational risk; assesses forecasts regarding third party lawsuits against the Issuer; approves the authorisation limits of the Committees responsible for the management of operational risk events of the Issuer and the Group companies and reviews the operational risk events whose financial impact exceeds the limits of the other Committees.

Credit Risk Committee

The Credit Risk Committee convenes regularly at least every quarter under the chairmanship of the Managing Director—CEO and with the participation of the General Managers and the Managers of the Credit Risk Data and Analysis Division, the Credit Control Division and the Capital Management and Banking Supervision Division. The Credit Risk Committee assesses the adequacy and the efficacy of the credit risk management policy and procedures of the Issuer and the Group with respect to the undertaking, monitoring and management of credit risk per Business Unit (Wholesale Banking, Retail Banking, Wealth Management/Private Banking), geographic area, product, activity, sector, etc., and resolves on the planning of the required corrective actions.

Unlikeliness to Pay (UTP) Review Committee

The UTP Review Committee convenes monthly with the participation of the Non-Performing Loans – Wholesale Banking Executive General Manager, the Executive General Manager of Wholesale Banking or of Private and Investment Banking and the Manager of Credit Control Division. The UTP Review Committee assesses obligors with UTP triggers and decide on their classification to the non-performing exposures perimeter. In addition, the UTP Review Committee assesses, on top of the relevant NPL Committees, the exit from the non-performing status and in particular the “absence of concern” criterion.

Compliance Division

The Compliance Division is responsible for managing the compliance risk of the Issuer and the Group companies. The Compliance Division, as of March 2019 is established under the General Manager - Chief Legal and Governance Officer, reports to the Audit Committee of the Board of Directors and is subject to the audits conducted by the Internal Audit Division, as to the adequacy and effectiveness of its procedures, in accordance with the provisions of the Issuer and Group companies' "Compliance Audit Program".

The main responsibilities of the Division include:

- Managing Compliance Risk and monitoring the implementation of the regulatory framework;
- Assessing Group Compliance level;
- Representing the Issuer and the Group companies before the regulatory and other authorities and communicating with them;
- Preventing and suppressing money laundering; and
- Safekeeping banking secrecy.

The Compliance Division is administratively independent and has unrestricted access to all data and information necessary for its purpose. The Division develops the Annual Compliance Programme, in accordance with the regulatory framework in force, as well as the Compliance Policies and Procedures Framework of the Issuer and the Group companies. In the context of the Division's financial independence, it also prepares its own annual budget which is approved by the General Management.

The Division cooperates with the Audit Division, the Legal Services Division and the Market and Operational Risk Division, aiming to jointly address issues regarding the observance of the regulatory framework, as well as with the competent Divisions and Group companies on a case-by-case basis.

Compliance Division monitors and coordinates the operation of the Group Companies' Compliance Units. Compliance Units have been set up and operate under the supervision of a Compliance Officer, specializing in the local regulatory framework, , in Group Companies of the Issuer located in Greece and abroad.

Internal Audit Division

The Internal Audit Division is responsible for the internal audit of the Issuer and the Group, and reports to the Audit Committee of the Board of Directors and the Managing Director—CEO.

In addition to operational and process audits, the Internal Audit Division also performs audits on the safe and efficient operation of the Group's information systems, and special audits, when there is evidence that the interests of the Group are harmed. The Internal Audit Division maintains the Internal Audit Policy and Procedures Manual for the Group and recommends changes in the audit methodology. It reports in writing of its audit findings and makes proposals addressing any weaknesses identified.

The Internal Audit Division conducts audits on a continuous basis according to a risk-based audit plan. The audit plan is based on the prioritization of the audited areas by identifying and assessing the risks and the special factors associated with them. In addition, regulatory requirements and extraordinary developments in the overall economic environment are taken into account. The Audit Committee approves the audit plan and is updated every quarter on its implementation, the main conclusions of the audits and the implementation of the audit recommendations.

The Internal Audit Division assesses the adequacy and effectiveness of the Internal Control System in the Issuer and the Group companies to the Management and submits an annual report, through the Audit Committee, to the Board of Directors. This report is also communicated to the Bank of Greece.

An evaluation of the adequacy of the Internal Control System of the Issuer is also performed every three years by external auditors, other than the statutory auditors.

Specific Risks

Credit Risk

Credit risk arises from the potential borrowers' or counterparties' weakness to repay their debts as resulting from their loan obligations to the Group.

The primary objective of the Group's strategy for the management of credit risk is the continuous, timely and systematic monitoring of the loan portfolio and the maintenance of credit risk exposures within the framework of acceptable overall risk appetite limits. This objective aims to maximize the risk-adjusted return while ensuring the conduct of its daily business activities within a sound, well-defined credit granting process, which is supported by clear and strict credit criteria.

The framework of the Group's credit risk management is developed based on an explicit set of credit policy processes, systems and models for the measurement, monitoring and auditing of credit risk, which are subject to continuous review in order to ensure compliance with the new institutional and regulatory framework and international best practices and their adaptation to the requirements of the respective financial circumstances and the nature and extent of the Group's business.

The development and improvement of the aforementioned framework is obtained through the actions below:

- Ongoing update of Wholesale and Retail Banking credit policies in Greece and abroad to adapt to the given macroeconomic and financial conditions and the Group's risk appetite as well as the total maximum acceptable risk appetite limit for each kind of risk;
- Implementation of the Group Loan Collateral Policy that includes the framework of the basic principles, the rules and the criteria governing the process of initial valuation and revaluation of the value of all types of collateral of the Issuer loan portfolio and the portfolio of Group Companies;
- Implementation of a unified Group Credit Control Framework for Wholesale and Retail Banking credit facilities, that defines the type, methodology and content of the credit controls conducted by the Risk Management Unit for Retail Banking, Wholesale Banking and Private and Investment Banking credit facilities for the Issuer and the Group Companies in Greece and abroad. At the same time, second line of defense control mechanisms have been strengthened to ensure compliance with Credit Risks Policies at Bank and Group level;
- On-going validation of the risk models in order to ensure their accuracy, reliability, stability and predictive power;
- Alignment of the credit risk rating systems of Greece and all Group Subsidiaries abroad based on the requirements of the new International Financial Reporting Standard 9 (IFRS 9);
- Implementation of Impairment Calculation system based on the requirements of the new International Financial Reporting Standard 9 (IFRS 9);
- Development and maintenance of the necessary policies, procedures and models for the adoption of the International Financial Reporting Standard (IFRS) 9 at Group level;

- Update of the Group Loan Impairment Policy, in compliance with the new evolving institutional and supervisory requirements for prudential supervision, according to the International Financial Reporting Standard (IFRS) 9 requirements;
- Design and implement initiatives in order to enhance the level of automation, accuracy, comprehensiveness, quality, reconciliation and validation of data, as part of the Issuer's strategic objective to a holistic approach for the development of an effective data aggregation and reporting framework, in line with BCBS 239 requirements;
- Implementation of the mechanism for the submission of the analytical credit data, the credit risk data, the data of the counterparties for legal entities financing, the governance structure, the operational model and the quality control framework in order to meet the requirements for the monthly submission of analytical credit risk data according to the European Union regulation 2016/867 and the Bank of Greece Governor's Act 2677/19.5.2017 (AnaCredit);
- Implementation of an automated Early Warning Mechanism, according the Group's Early Warning Policy. More specifically, these procedures and actions are defined to identify borrowers or parts of the loan portfolio in time, with probability of non-serving the Group's debts, so that targeted actions at the borrower level and / or portfolios by country where the Group operates;
- Update of Environmental and Social Risk Policy. During the credit approval process, supplementary to the credit risk assessment, the strict compliance of the principles of an environmentally and socially responsible credit facility is also examined;
- Systematic estimation and evaluation of credit risk per counterparty and per sector of economic activity;
- Periodic stress test exercises as a tool for assessing the impact of various macroeconomic scenarios on business strategy formulation, business decisions and the Group's capital position. Crisis simulation exercises are conducted in accordance with the requirements of the supervisory framework and constitute a key component of the Group's credit risk management strategy;
- Ongoing update of Wholesale and Retail Banking Forbearance Policies, taking into consideration the Alpha Bank Group's NPE Business Plan for the reduction of the NPL/NPE stock; and
- Centralized and automated approval process for retail banking applications in Greece and abroad.

Additionally, the actions below are in progress in order to enhance and develop the internal system of credit risk management:

- Continuous update of databases in order to perform statistical tests in the Group's credit risk rating models;
- Upgrade and automation of the above mentioned process in relation to Wholesale and Retail banking by using specialized statistical software;
- Gradual implementation of an automatic interface of the credit risk rating systems with the central systems (core banking systems I-flex) for all Group companies abroad;
- Reinforcing the completeness and quality control mechanism of crucial fields of Wholesale and Retail Credit for monitoring, measuring and controlling of the credit risk;
- Update of the validation framework for credit risk models with discrete statistical measures by model type;

- Development of the Credit Risk Model Management Policy, which defines the governance mechanisms and the primary roles and responsibilities encompassing the entire model lifecycle for the credit risk models, as well as establishes robust lines of defense for the appropriate identification, quantification, management and control of model risk that can potentially arise over the course of the model lifecycle process; and
- Update of the framework and policies for the management of overdue and non-performing loans, in addition to the existing obligations, which arise from the Commission Implementing Regulation 2015/227 of January 9, 2015 of the European Committee for amending Executive Committee Act (EU) No. 680/2014 of the Committee for establishing executive technical standards regarding the submission of supervisory reports by institutions. The framework of supervisory commitments for the management of overdue and non-performing loans from credit institutions is determined from the regulation (EU) No. 575/2013 of the European Parliament and the Council and Executive Committee Act of Bank of Greece 42/30.5.2014 and the amendment of this with the Executive Committee Acts 47/9.2.2015, 102/30.8.2016, 134/5.3.2018 and 136/2.4.2018.

This framework develops based on the following pillars:

- (a) the establishment of an independent operation management for the “Troubled assets” (Troubled Asset Committee). This is achieved by the representation of the Administrative Bodies in the Evaluation and Monitoring of Denounced Customers Committee as well as in the Arrears Councils,
- (b) the establishment of a separate management strategy for these loans, and
- (c) the improvement of IT systems and processes in order to comply with the required periodic reporting to management and supervisory mechanisms.

Market Risk

Market risk is the risk of losses arising from unfavourable changes in the value or volatility of interest rates, foreign exchange rates, stock exchange indices and equities and commodities. Losses may occur either from the trading portfolio or from the Assets-Liabilities management.

The market risk in the Issuer's trading portfolio is measured by Value at Risk (**VaR**). The method applied for calculating VaR is historical simulation. The Issuer applies a holding period of one or 10 days, depending on the time required to liquidate the portfolio. For the calculation of VaR for one day of the Issuer's transaction portfolio, a two-year volatility period and a 99 per cent. trust period is used.

The Value at Risk methodology is complemented with scenario analysis and stress testing, in order to estimate the potential size of losses that could arise from the trading portfolio for hypothetical as well as historical extreme movements of market parameters (stress testing).

Within the scope of policy-making for financial risk management by the ALCO, exposure limits, maximum loss (stop loss) and value at risk for various products of the trading positions have been set.

In particular the following limits have been set for the following risks:

- Foreign currency risk regarding spot and forward positions and foreign exchange options;
- Interest rate risk regarding positions on bonds and interest rate swaps, interest futures and interest options;

- Price risk regarding positions in equities, index futures and options, commodity futures and swaps; and
- Credit risk regarding interbank transactions and bonds.

Positions held in these products are monitored on a daily basis and are examined for the corresponding limit percentage cover and for any limit excess.

Foreign Exchange Risk

The Group is exposed to fluctuations in foreign exchange rates. The general management sets limits on the total foreign exchange position as well as on the exposure by currency.

The management of the foreign currency position of the Issuer and the Group is centralized. All customer positions including loans, deposits and derivatives are transferred to departments of the management area which are responsible for the management of liquidity and foreign currency position.

The policy of the Group is the positions to be closed immediately using spot transactions or currency derivatives. In case that there are still open positions, they are daily monitored by the competent department and they are subject to limits.

Interest Rate Risk

In the context of analysis of the banking portfolio, interest rate gap analysis is performed. The main measure of Interest Rate risk is the Interest Risk Gap for each currency, which represents the re-pricing schedule showing assets, liabilities and off balance sheet exposures by time band according to their maturity (for fixed rate instruments), or next re-price date (for adjustable/ floating rate instruments). Interest rate gap incorporates assumptions about the interest rate runoff for products without predefined maturities (sight deposits, savings, working capital, credit cards etc.) or other balance sheet items which exhibit strong behavioural characteristics. Statistical modelling is a widely accepted methodology used in determining a runoff profile for items of this type and is required when the future behaviour of an item cannot be directly predicted by reference to its contractual characteristics.

The economic value and the Earning at Risk (EaR) are calculated by simulating dynamic scenarios that incorporate assumptions relating to the Group's business developments, customer behaviour and future market developments. Furthermore and in the context of IFRS 9 requirements, the economic value for loans which failed Solely Payments Principal & Interest (SPPI) and Purchased or Originated Credit Impaired (POCI) loans are calculated.

In addition interest rate sensitivity analysis of Bank/Group balance sheet through interest rate risk stress scenarios are take place on a monthly basis examining the impact of the unexpected economic losses caused by the change on interest rates.

According to BIS standards concerning interest rate limits on banking book, Alpha Bank implements limits on consolidated basis in terms of both economic value and earnings. Economic value measures compute a change in the net present value of the Issuer's assets, liabilities and off-balance items subject to specific interest rate shock and stress scenarios, while earning based measures focus on changes to future profitability within a time horizon of 1 year affecting also future levels of bank's own equity capital. Additionally, economic value measures reflect changes in value over the remaining life of the Issuer's assets, liabilities and off-balance sheet items while earnings-based measures cover only the short to medium term.

Liquidity Risk

As Liquidity risk is defined the risk to earnings arising from the Group's inability to meet its obligations as they become due, or fund new business, without incurring substantial losses, as well as the inability to manage unplanned contraction or changes in funding sources. Liquidity risk also arises from the Group's failure to recognize or address changes in market conditions that affect the ability to liquidate assets quickly and with minimal loss in value. Liquidity risk is also a Balance Sheet risk, since it may arise from banking book activities. A substantial portion of the Group's assets has historically been funded by customer deposits and bonds issued by the Group. Additionally, in order to extend the period and diversify the types of lending, the Issuer is additionally financed by issuing securities to the international capital markets and borrowing from the system of Central Banks. Total funding can be divided into: (i) customer deposits; and (ii) wholesale funding.

Liquidity monitoring is through the usage of a range of liquidity metrics for the measurement and analysis of liquidity risk. These metrics enable to understand the Group's day-to-day liquidity positions and structural liquidity mismatches, as well as its resilience under stressed conditions. Relating to the metrics for Medium – Long Term Liquidity risk exposure monitoring are concerned, the Issuer performs Liquidity Gap analysis for the Issuer, the subsidiaries abroad and for the Group on a monthly basis. Cash flows from all assets and liabilities are classified into time buckets, according to their contractual terms. Exceptions to the above rule are the loans (i.e. overdraft Accounts Working Capital) and customer deposits (i.e. savings and current accounts) that do not have contractual maturity and are allocated according to their transactional behavior (convention). Additionally, unencumbered securities are distributed according to their contractual maturity, taking into account relevant factors (haircuts).

Operational Risk

Operational risk is the risk of loss arising from inadequate or ineffective internal procedures, systems and people or from external events, including legal risk.

The Operational Risk Committee is responsible for the approval of the Group policy on operational risk management and has an oversight role in its implementation. The operational risk management policy is applicable to all units of the Group in Greece and abroad.

Consistent activities for assessment, monitoring and management of operational risk have been introduced in all Issuer units. Based on the results of risk assessment, action plans are scheduled in order to mitigate the critical operational risks. The Group has purchased several insurance policies such as Bankers Blanket Bond, Directors and Officers Liability, Cyber Crime bond and various Property related Insurance policies in order to further minimize the Group's exposure to operational risks. In addition, the Group actively monitors its operational risk profile through dedicated units and appropriate governance structures. As regards the calculation of the regulatory capital requirements for operational risk, the Group applies the standardized approach specified in Basel III, the EU directive on capital adequacy, and the relevant regulations of the Bank of Greece.

Counterparty Risk

Counterparty risk for the Group stems from its OTC transactions, the money market placements and the customer repurchase contracts/reverse customer repurchase agreements and arises from an obligor's failure to meet its contractual obligations before the final settlement of the transaction's cash flows. For the efficient management of counterparty risk, the Issuer has established a framework of counterparty limits.

Counterparty limits are based on the credit rating of the financial institutions and the product type. The credit ratings are provided by internationally recognized ratings agencies, in particular by Moody's and Standard & Poor's. According to the Issuer's policy, if agencies diverge on the creditworthiness of a financial institution, the lowest one will be taken into consideration.

The counterparty limits apply to all financial instruments in which the Treasury is active in the interbank market. The limits framework is revised according to the business needs of the Issuer and the prevailing conditions in international and domestic financial markets. A similar limit structure for the management of counterparty risk is enforced across all of the Group's subsidiaries.

The Group seeks to reduce counterparty risk by standardizing relationships with counterparties through ISDA and GMRA contracts, which encompass all necessary netting and margining clauses. Additionally, for almost all active counterparties that are financial institutions, CSAs have been put into effect, so that net current exposures are managed through margin accounts on a daily basis, through the exchange of cash or debt securities collateral.

The Group avoids taking positions on derivative contracts where the values of the underlying assets are highly correlated with the credit quality of the counterparty.

The estimation of counterparty exposure depends on the type of the financial product. In the case of money market placements the exposure is equal to the face amount of the deals. In OTC transactions, the exposure to counterparty risk is calculated on the basis of the credit exposure factors for the relevant exposure period of the deals and the type of transaction.

Capital Adequacy

Alpha, as a systemic bank, has been supervised since November 2014 by the Single Supervisory Mechanism (SSM), which consists of the European Central Bank (ECB) and the national regulatory authorities of the participating countries. The supervision is carried out in accordance with the Regulation (EU) No 575/2013 (CRR) and the relevant Directive 2013/36/EU (CRD IV), as transposed in Greece by Greek law 4261/2014.

The new framework, apart from the above, defines the regulatory own funds of credit institutions and addresses a series of other regulatory issues such as monitoring and control of large exposures, open foreign exchange position, concentration risk, liquidity ratios, the internal control system, including the risk management system, and the regulatory reporting and disclosures framework.

According to the above regulatory framework, the Group follows the transitional arrangements in force for the calculation of capital ratios. Moreover:

- Besides the 8 per cent. Capital Adequacy Ratio limit, there are limits of 4.5 per cent. for the CET1 ratio and 6 per cent. for the Tier 1 ratio.
- The gradual maintenance, from 1 January 2016 until 31 December 2019, of capital buffers additional to the CET1 Capital, is required. In particular:
 - Since 1 January 2018 a capital conservation buffer of 1.875 per cent. exists, which will gradually rise to 2.5 per cent. on 1 January 2019.
 - Bank of Greece through Executive Committee Acts set the following capital buffers for 2018:
 - Countercyclical capital buffer equal to zero per cent. (0 per cent.) for 2018.

Other systemically important institutions' (O-SII) buffer zero per cent. (0 per cent.) for 2018. These limits should be met both on a standalone and on a consolidated basis.

On 8 February 2019, the ECB informed Alpha Bank that since 1 March 2019 the minimum limit for the Overall Capital Requirement (OCR) is 13.75 per cent., increased by 0.875 per cent., due to the fully phased-in capital conservation buffer and the gradual increase of the O-SII buffer. The OCR is composed by the minimum own fund requirements (8 per cent.), according to article 92(1) of the CRR, the additional own

fund requirements (**P2R**), according to article 16(2)(a) of the Regulation 1024/2013/EU, and the combined buffer requirements (**CBR**), according to article 128(6) of the Directive 2013/36/EU. The above minimum ratio should be maintained on a phase-in basis under applicable transitional rules under CRR/ CRD IV, at all times.

Furthermore, Greek law 4335/2015, which transposed in Greece the European Directive 2014/59 (**BRRD**) which is part of Single Rulebook, is applicable in relation to recovery and resolution of credit institutions and investment firms. The Directive established a set of common rules to deal with banking crises across the EU and the orderly recovery and resolution of financial institutions, with the aim to avoid significant adverse effects on financial stability and to ensure that shareholders and creditors (including unsecured depositors) will share the burden in case of a potential recapitalization and/or liquidation.

The Bank Recovery and Resolution Directive (BRRD), requires banks to meet a minimum requirement for own funds and eligible liabilities (MREL) so as to be able to absorb losses and restore their capital position, allowing banks to continuously perform their critical economic functions during and after a crisis. MREL represents one of the key tools in enhancing banks' resolvability. In 2017, the SRB developed its MREL policy and adopted its first binding decisions for major and complex banking groups. The policy statement published in January 2019 highlights that for the 2018 resolution planning cycle SRB is moving from informative targets—communicated in the 2017 MREL policy—to bank-specific binding consolidated MREL targets for the majority of banks under the SRB remit. The MREL computation will remain calibrated for bail-in strategies, while the usage of transfer strategy policies requires that banks meet high standards in terms of separability and data availability. The SRB MREL policy contains an objective set of criteria in this regard and represents a step toward bank-specific MREL targets.

Regarding credit risk, the IFRS 9 standard adoption from 1 January 2018 and onwards completely redesigned the approach for impairment of financial assets, moving from the current incurred loss model to an expected credit loss model. The expected credit loss model provides for lifetime expected credit loss in cases of significant credit deterioration since initial recognition, resulting in earlier recognition of credit losses and increased sensitivity to credit risk parameters and assumptions about future conditions.

In this context, on 25 October 2017 a political agreement was reached between the European Parliament, the European Council and the European Commission on the proposal for a Regulation of the European Parliament and of the Council amending Regulation (EU) 575/2013 regarding the transition period to mitigate the impact of the introduction of IFRS 9 on regulatory capital. The regulation (2395/2017) was adopted by the European Parliament and the Council and was published in the Official Gazette of the European Union on 12 December 2017.

In accordance with the transitional provisions, it is allowed that banks may, from the first date of application of IFRS 9 and for a period of five years, add to the CET1 ratio the after tax amount of the difference in provisions that will result from the transition to the new IFRS 9 in relation to the provisions that would have been recognized at 31 December 2017 in accordance with IAS 39 ("Static" amount). The amount of the difference in provisions to be added to CET1 ratio will decrease annually on a weighting basis so that the amount of provisions added to the CET1 ratio gradually decreases, until the full impact of IFRS 9 is absorbed by the end of the five-year period (phase-in). The weighting factors were set per year at 0.95 in the first year, 0.85 in 2nd, 0.7 in 3rd, 0.5 in 4th and 0.25 in the last year.

DIRECTORS AND MANAGEMENT

The Issuer is managed by a Board of Directors comprising of a minimum of nine (9) and a maximum of eighteen (18) Members. The Members are elected by the General Meeting of Shareholders for a term of four years, following a secret ballot and may be re-elected by the Shareholders to serve multiple terms.

Failure on the part of a Member to attend six (6) consecutive meetings of the Board of Directors, without providing a valid reason, shall be construed as resignation from his/her position.

The Chair is elected from amongst the Non-Executive Members of the Board of Directors. The Board of Directors elects its Chair by absolute majority among the present and the duly represented Members following a secret ballot. The Board of Directors may elect a Vice Chair.

The Board of Directors resolves all matters concerning management and administration of the Issuer except those which, under the Articles of Incorporation or under applicable law, are the sole prerogative of Shareholders acting at a General Meeting. The Board of Directors is convened by invitation of the Chair or following a request by at least two Members. The Members have no personal liability to Shareholders or third parties and are only liable to the legal entity of the Issuer with regard to the administration of corporate affairs. The resolutions of the Board of Directors are passed by absolute majority of the Members present or duly represented at Board of Directors meetings, except in the case of share capital increases, for which, as per Greek law 4548/2018, a two-thirds majority is required. In case of tie vote, the vote of the Chair prevails.

A Member who is absent from a meeting may be represented by another Member whom he/she has appointed by notifying the Board of Directors. A Member may represent only one (1) other Member. To form a quorum, no less than one-half (1/2) plus one (1) of its Members must be present or duly represented. In any event, the number of Members present in person may not be less than six (6). By exception, when the Board of Members meets (in whole or partially) by teleconference, the participating Members should have the quorum required by the Articles of Incorporation, while the physical presence of the minimum number of Members is not required.

The Board of Directors designates its Executive and Non-Executive Members. Independent Members are appointed, according to Greek law 3016/2002, by the General Meeting of Shareholders.

The current Board of Directors was elected by the Ordinary General Meeting of Shareholders held on 29 June 2018. The Board's tenure ends at the Ordinary General Meeting of Shareholders which will take place in 2022.

The Board of Directors currently consists of thirteen (13) Members.

In the context of the recapitalisation of Greek banks, the Board of Directors, at its meeting on 7 June 2012, elected, in accordance with Greek law 3864/2010, article 6, paragraph 9, as representative and upon instruction of the HFSF, a Member (currently Mr Johannes Herman Frederik G. Umbgrove - please see section "*HFSF Influence*" below).

The Board of Directors, while retaining responsibility for approving general policy and overall responsibility for significant decisions affecting the Issuer, delegates day-to-day management to the CEO, the Deputy CEOs, the General Managers of the Issuer and the Executive Committee. The business address of the Board of Directors is: 40 Stadiou Street, 102 52 Athens, Greece.

Board of Directors

The following table sets forth the position of each Member and his/her status as an Executive, Non-Executive or Non-Executive Independent Member.

Position	Name	Principal outside activities
<i>Non-Executive Member:</i>		
Chair	Vasileios T. Rapanos	Vice-Chairman of the Board of Directors of the Hellenic Bank Association
<i>Executive Members:</i>		
CEO	Vassilios E. Psaltis	-
Deputy CEO	Spyros N. Filaretos	Member of the Board of Directors of the Hellenic Federation of Enterprises Vice-Chairman of the Board of Directors of AXA
Deputy CEO	Artemios Ch. Theodoridis	Member of the Board of Directors of Cepal Holdings S.A.
Deputy CEO	George C. Aronis	Member of the Board of Directors of AXA Chairman of the Executive Committee of the Hellenic Bank Association
<i>Non-Executive Members:</i>		
Member	Efthimios O. Vidalis	Non-Executive Member of the Board of Directors of Titan Cement Company S.A. Non-Executive Member of the Board of Directors of Future Pipe Industries Non-Executive Member of the Board of Directors of Fairfield-Maxwell Ltd
Member	Demetrios P. Mantzounis	-
<i>Non-Executive Independent Members:</i>		
Member	Jean L. Cheval	Member of the Board of Directors of HIME SAUR Member of the Board of Directors of EFG-Hermès
Member	Carolyn G. Dittmeier	President of the Statutory Audit Committee of Assicurazioni Generali SpA
Member	Richard R. Gildea	Member of the Board of Advisors at the Johns Hopkins University School of Advanced International Studies Member of Chatham House (the Royal Institute of International Affairs) Member of the International Institute of Strategic Studies
Member	Shahzad A. Shahbaz	Group CIO of Al Mirqab Holding Co Member of the Board of Directors of El Corte Ingles S.A.
Member	Jan A. Vanhevel	Member of the Board of Directors of Seafox Member of the Board of Directors of Soudal NV Member of the Board of Directors of Ravago SA Member of the Board of Directors of Opdorp Finance BVBA

Non-Executive Member (pursuant to the provisions of Law 3864/2010)

Member Johannes Herman Frederik G. Chairman of Demir Halk Bank (Nederland) N.V.
Umbgrove

Biographical Information

Below are brief biographies of the Members of the Board of Directors and of the General Managers who are members of the Issuer's Executive Committee.

Non-Executive Member

Chair

Vasileios T. Rapanos (Non-Executive Member)

He was born in Kos in 1947. He is Professor Emeritus at the Faculty of Economics of the University of Athens and has been an Ordinary Member of the Academy of Athens since 2016. He studied Business Administration at the Athens School of Economics and Business (1975) and holds a Master's in Economics from Lakehead University, Canada (1977) and a PhD from Queen's University, Canada. He was Deputy Governor and Governor of the Mortgage Bank (1995-1998), Chairman of the Board of Directors of the Hellenic Telecommunications Organisation (1998-2000), Chairman of the Council of Economic Advisors at the Ministry of Economy and Finance (2000-2004), and Chairman of the Board of Directors of the National Bank of Greece and the Hellenic Bank Association (2009-2012). He has been the Chair of the Board of Directors of the Issuer since May 2014.

Executive Members

Vassilios E. Psaltis, CEO

He was born in Athens in 1968 and holds a PhD and an MBA from the University of St. Gallen in Switzerland. He has worked as Deputy (acting) Chief Financial Officer at Emporiki Bank and at ABN AMRO Bank's Financial Institutions Group in London. He joined the Issuer in 2007. In 2010 he was appointed Group Chief Financial Officer (CFO) and in 2012 he was appointed General Manager. Through these posts, he spearheaded capital raisings of several billions from foreign institutional shareholders, diversifying the Issuer's shareholder base, as well as significant mergers and acquisitions that contributed to the consolidation of the Greek banking market, reinforcing the position of the Issuer. He was voted seventh best CFO among European banks (2014 and 2018) by institutional investors and analysts in the Extel international survey. He has been a Member of the Board of Directors of the Issuer since November 2018 and Chief Executive Officer since January 2019.

Spyros N. Filaretos, Deputy CEO, Chief Operating Officer (COO)

He was born in Athens in 1958. He studied Economics at the University of Manchester and at the University of Sussex. He joined the Issuer in 1985. He was appointed Executive General Manager in 1997 and General Manager in 2005. In October 2009 he was appointed Chief Operating Officer (COO) and in March 2017 Deputy CEO - Chief Operating Officer. He has been a Member of the Board of Directors of the Issuer since 2005.

Artemios Ch. Theodoridis, Deputy CEO, Non-Performing Loans and Treasury Management

He was born in Athens in 1959. He studied Economics and holds an MBA from the University of Chicago. He joined the Issuer as Executive General Manager in 2002. In 2005 he was appointed General Manager and

in March 2017 Deputy CEO, Non-Performing Loans and Treasury Management. He has been a Member of the Board of Directors of the Issuer since 2005.

George C. Aronis, Deputy CEO, Retail and Wholesale Banking Business Units

He was born in Athens in 1957. He studied Economics and holds an MBA, major in Finance, from the Athens Laboratory of Business Administration (ALBA). He has worked for multinational banks for 15 years, mostly at ABN AMRO BANK in Greece and abroad. He joined the Issuer in 2004 as Retail Banking Manager. In 2006 he was appointed Executive General Manager, in 2008 General Manager and in March 2017 Deputy CEO. He currently supervises the Retail and Wholesale Banking Business Units. He has been a Member of the Board of Directors of the Issuer since 2011.

Non-Executive Members

Efthimios O. Vidalis, Director

He was born in 1954. He holds a BA in Government from Harvard University and an MBA from the Harvard Graduate School of Business Administration. He worked at Owens Corning (1981-1998), where he served as President of the Global Composites and Insulation Business Units. Furthermore, he was Chief Operating Officer (1998-2001) and Chief Executive Officer (2001-2011) of the S&B Industrial Minerals Group, where he served on the Board of Directors for 15 years. He is a non-executive member of the Board of Directors of TITAN CEMENT COMPANY S.A. and of Future Pipe Industries. He was a member of the Board of Directors of the Hellenic Federation of Enterprises (SEV) from 2006 to 2016 as well as founder and Chairman of the SEV Business Council for Sustainable Development from 2008 to 2016. He has been a Member of the Board of Directors of the Issuer since May 2014.

Demetrios P. Mantzounis

He was born in Athens in 1947. He studied Political Sciences at the University of Aix-Marseille. He joined the Issuer in 1973. In 2002 he was appointed General Manager and from 2005 to 2018 he served as Managing Director. Based on the annual international survey conducted by Extel, he was voted among the 20 best CEOs of European banks at a Pan-European level in 2014, 2016 and 2018. Moreover, based on the same survey, he was voted Best CEO in Greece in 2014 and in 2016 and Second Best CEO in Greece in 2018. He has been a Member of the Board of Directors of the Issuer since 1995.

Non-Executive Independent Members

Jean L. Cheval

He was born in Vannes, France in 1949. He studied Engineering at the École Centrale des Arts et Manufactures, while he holds a DES (Diplôme d'Études Spécialisées) in Economics (1974) from the University of Paris I. After starting his career at BIPE (Bureau d'Information et de Prévisions Économiques), he served in the French public sector (1978-1983) and then worked at BANQUE INDOSUEZ-CRÉDIT AGRICOLE INDOSUEZ (1983-2001), wherein he held various senior management positions. He served as CEO and then as Chairman of the Banque Audi France (2002-2005), while he was Head of France at the Bank of Scotland (2005-2009). As of 2009 he has been working at Natixis in various senior management positions. He is currently a member of the Board of Directors of HIME-SAUR, France and of EFG-Hermès, Egypt. He has been a Member of the Board of Directors of the Issuer since June 2018.

Carolyn G. Dittmeier

She was born in 1956. She holds a BSc in Economics from the Wharton School of the University of Pennsylvania (1978). She is a statutory auditor, a certified public accountant, a certified internal auditor and a certified risk management assurance professional. She focused her career on the auditing sector, taking on

the role of Chief Internal Audit Executive of the Poste Italiane Group between 2002 and 2014. Previously, she had gained professional experience with the auditing firm KPMG and the Montedison Group as both financial controller and later Head of Internal Audit. She has carried out various professional and academic activities focusing on risk and control governance. She was Vice Chair of the Institute of Internal Auditors (IIA) from 2013 to 2014 (director since 2007), Chair of the European Confederation of Institutes of Internal Auditing-ECIIA (2011-2012) and of the Italian Association of Internal Auditors (2004-2010). Furthermore, she served as Independent Director and Chair of the Risk and Control Committee of Autogrill SpA, as well as Independent Director and Chair of the Risk and Control Committee of Italmobiliare SpA. She is currently President of the Statutory Audit Committee of Assicurazioni Generali SpA. She has been a Member of the Board of Directors of the Issuer since January 2017.

Richard R. Gildea

He was born in 1952. He holds a BA in History from the University of Massachusetts (1974) and an MA in International Economics, European Affairs from The Johns Hopkins University School of Advanced International Studies (1984). He served in JP Morgan Chase from 1986 to 2015, wherein he held various senior management positions throughout his career. He was Emerging Markets Regional Manager for the Central and Eastern Europe Corporate Finance Group, London (1993-1997) and Head of Europe, Middle East and Africa (EMEA) Restructuring, London (1997-2003), as well as Senior Credit Officer in EMEA Emerging Markets, London (2003-2007). From 2007 to 2015 he was Senior Credit Officer for JP Morgan's Investment Bank Corporate Credit in EMEA Developed Markets, London and was appointed Senior Risk Representative to senior committees within the Investment Bank. He is currently a member of the Board of Advisors at The Johns Hopkins University School of Advanced International Studies, Washington D.C., as well as a member of Chatham House (the Royal Institute of International Affairs), London and of the International Institute of Strategic Studies, London. He has been a Member of the Board of Directors of the Issuer since July 2016.

Shahzad A. Shahbaz

He was born in 1960. He holds a BA in Economics from Oberlin College, Ohio, U.S.A. He has worked at various banks and investments firms, since 1981, including the Bank of America (1981-2006), from which he left as Regional Head (Corporate and Investment Banking, Continental Europe, Emerging Europe, Middle East and Africa). He served as Chief Executive Officer (CEO) of NDB Investment Bank/Emirates NBD Investment Bank (2006-2008) and of QInvest (2008-2012). He is currently the Investment Advisor at Al Mirqab Holding Co. He has been a Member of the Board of Directors of the Issuer since May 2014.

Jan A. Vanhevel

He was born in 1948. He studied Law at the University of Leuven (1971), Financial Management at Vlekho (Flemish School of Higher Education in Economics), Brussels (1978) and Advanced Management at INSEAD (The Business School for the World), Fontainebleau. He joined Kredietbank in 1971, which became KBC Bank and Insurance Holding Company in 1998. He acquired a Senior Management position in 1991 and joined the Executive Committee in 1996. In 2003 he was in charge of the non-Central European branches and subsidiaries, while in 2005 he became responsible for the KBC subsidiaries in Central Europe and Russia. In 2009 he was appointed CEO and implemented the Restructuring Plan of the group until 2012, when he retired. From 2008 to 2011 he was President of the Fédération belge du secteur financier (Belgian Financial Sector Federation) and a member of the Verbond van Belgische Ondernemingen (Federation of Enterprises in Belgium), while he has been the Secretary General of the Institut International d' Études Bancaires (International Institute of Banking Studies) since May 2013. He was also a member of the Liikanen Group on reforming the structure of the EU banking sector. He has been a Member of the Board of Directors of the Issuer since April 2016.

Non-Executive Member pursuant to the provisions of Law 3864/2010

Johannes Herman Frederik G. Umbgrove

He was born in Vught, the Netherlands in 1961. He holds an LL.M. in Trade Law (1985) from Leiden University and an MBA from INSEAD (The Business School for the World), Fontainebleau (1991). He worked at ABN AMRO Bank N.V. (1986-2008), wherein he held various senior management positions throughout his career. He served as Chief Credit Officer CEEMEA of the Global Markets Division at The Royal Bank of Scotland group (2008-2010) and as Chief Risk Officer and member of the Management Board at Amsterdam Trade Bank N.V. (2010-2013). From 2011 until 2013 he was Group Risk Officer at Alfa Bank Group Holding. As of 2014 he has been a Risk Advisor at Sparrenwoude B.V. and as of 2018 he has been the Chairman of the Supervisory Board of Demir Halk Bank (Nederland) N.V. He has been a Member of the Board of Directors of the Issuer, representing the Hellenic Financial Stability Fund, since April 2018.

General Managers, members of the Issuer's Executive Committee

Spiros A. Andronikakis

He was born in Athens in 1960. He holds a BA in Economics and Statistics from the Athens University of Economics and Business, and an MBA in Financial Management and Banking from the University of Minnesota, U.S.A. He has worked in the Corporate Banking Units of Greek and multinational banks since 1985. He joined the Issuer in 1998. He was Corporate Banking Manager from 2004 to 2007. In 2007 he was appointed Chief Credit Officer and in 2012 General Manager and Chief Risk Officer.

Lazaros A. Papagaryfallou

He was born in Athens in 1971. He studied Business Administration at the Athens University of Economics and Business and holds an MBA in Finance from the University of Wales, Cardiff Business School. He started his career in Citibank and ABN AMRO and he joined the Issuer in 1998, having served as Manager of the Corporate Development, International Network and Strategic Planning Divisions. On 1 July 2013 he was appointed Executive General Manager of the Issuer and has contributed to the implementation of the Group's Restructuring Plan, the capital strengthening of the Issuer, the design and closing of mergers, acquisitions and portfolio transactions. On 2 January 2019 he was appointed as General Manager and CFO for the Group. During his career he served as Chairman and member in the Board of Directors of various group companies, in Greece and abroad, in banking, insurance, financial services, industry and real estate sectors.

Sergiu-Bogdan A. Oprescu

Sergiu Oprescu, 55, holds a MEng Graduate degree with concentration in Avionics from the Aeronautical Faculty, Politehnica University of Bucharest. He acquired a postgraduate degree in Banking from the University of Colorado and followed multiple executive programme studies at Harvard Business School, Stanford and London Business School. He joined Alpha Bank Romania in 1994 and held several senior positions before he was appointed Executive President in 2007. He served as Chairman of the Bucharest Stock Exchange from 2000 to 2006 and is currently President of the Board of Directors of the Romanian Association of Banks. On 11 February 2019 he was also appointed as General Manager of International Network of the Issuer.

Nikolaos V. Salakas

Nikos Salakas, 46, has studied Law at the National and Kapodistrian University of Athens and holds a postgraduate degree (LL.M. in International Business Law) from the University College London. He is

joining the Issuer after having worked for Koutalidis Law Firm, where he was leading the Banking and Finance Department as of 2010. He has more than 20 years of experience in domestic and international Banking, Financing, Restructuring and Securities transactions and he is ranked amongst the leading Greek lawyers by the IFLR, Legal 500 and Chambers and Partners. He has supported the Issuer in regulatory, M&A, strategic and finance transactions since 1999. On 1 March 2019 he was appointed as General Manager - Chief Legal and Governance Officer of the Issuer.

Board Practices

Corporate Governance

The Issuer's Corporate Governance Code

The Corporate Governance Code is sourced from international and Greek best practice and is compatible with applicable legislation and regulations concerning the Greek public interest entities. Furthermore, the Code takes into account and is compatible with the specific European regulatory framework on corporate governance applicable to significant banks supervised directly by the European Central Bank as well as with the specific requirements imposed by the Hellenic Financial Stability Fund.

The Issuer has always been implementing principles of Corporate Governance, enhancing transparency in communication with the Issuer's Shareholders and keeping investors promptly and continuously informed.

The Issuer, in keeping abreast of the international developments in corporate governance issues, continuously updates its corporate governance framework and consistently applies the principles and rules dictated by the Corporate Governance Code, focusing on the long-term protection of the interests of its depositors and customers, shareholders and investors, employees and other stakeholders.

The currently existing Corporate Governance Code was adopted by the Issuer's Board of Directors in October 2018 and has been posted on the Issuer's website: <https://www.alpha.gr/en/group/corporate-governance>, for the avoidance of doubt the content of such website does not form part of the Base Prospectus.

Committees

Committees secure the smooth and efficient operation of the Group, the formulation of a common strategy and policy, as well as the coordination of operations.

Board Committees

Audit Committee

The Audit Committee of the Board of Directors was established by a resolution of the Board of Directors on 23 November 1995. It consists of a Committee Chair, who is an Independent Non-Executive Member, two Independent Non-Executive Members and two Non-Executive Members. According to Greek law 4449/2017, article 44, the Members of the Audit Committee are appointed by the General Meeting of Shareholders. The current Members of the Audit Committee are Carolyn G. Dittmeier (Chair), Jan A. Vanhevel, Efthimios O. Vidalis, Jean L. Cheval and Johannes Herman Frederik G. Umbgrove.

The Audit Committee:

- Monitors and assesses, on an annual basis, the adequacy, effectiveness and efficiency of the Internal Control System of the Issuer and the Group.
- Monitors the financial reporting process of the Issuer and the Group.

- Supervises and assesses the procedures for drawing up the annual and interim Financial Statements of the Issuer and of the Group.
- Reviews the Financial Statements of the Issuer and of the Group, together with the Statutory Auditors' Report prior to their submission to the Board of Directors.
- Ensures the independent and unprejudiced conducting of internal and external audits in the Issuer.
- Assesses the performance and effectiveness of the Internal Audit and the Compliance Divisions of the Issuer and the Group.
- Meets with the Statutory Certified Auditors of the Issuer on a regular basis.
- Is responsible for the selection of the Statutory Certified Auditors of the Issuer and makes recommendations to the Board of Directors on the appointment or dismissal, rotation, tenure and remuneration of the Statutory Certified Auditors, according to the relevant regulatory and legal provisions.
- Ensures the independence of the Statutory Certified Auditors in accordance with the applicable laws, by monitoring, inter alia, the provision by them of Non-Audit Services to the Issuer and the Group. In relation to this, the Committee pre-approves proposals regarding the provision by the Statutory Certified Auditor of Non-Audit Services to the Issuer and the Group, based on the relevant Issuer's policy that the Audit Committee oversees and recommends to the Board of Directors for approval.

The Audit Committee convenes at least once every month and may invite any Member of the Management or Executive of the Issuer, as well as external auditors, to attend its meetings. The Heads of the Internal Audit and Compliance Divisions are regular attendees of the Committee meetings.

The Audit Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Committee.

The Chair of the Committee submits to the Board of Directors a formal report on the work of the Committee during the year.

Risk Management Committee

The Risk Management Committee of the Board of Directors was established by a resolution of the Board of Directors on 19 September 2006. It consists of a Committee Chair who is an Independent Non-Executive Member, two Independent Non-Executive Members and one Non-Executive Member all appointed by the Board of Directors. The current Members of the Risk Management Committee are Jan A. Vanhevel (Chair), Carolyn G. Dittmeier, Richard R. Gildea and Johannes Herman Frederik G. Umbgrove.

The main responsibilities of the Risk Management Committee include but are not limited to those presented below.

The Risk Management Committee:

- Reviews and recommends to the Board of Directors for approval the risk and capital management strategy.
- Reviews and recommends annually to the Board of Directors for approval the Group's risk appetite framework and statement.

- Determines the principles, which govern risk management across the Issuer and the Group in terms of the identification, measurement, monitoring, control, and mitigation of risks.
- Evaluates on an annual basis or more frequently, if necessary, the appropriateness of risk identification and measurement systems, methodologies and models, including the support of the Issuer's IT infrastructure.
- Reviews regularly, at least annually, the Group's ICAAP/ILAAP and related target ratios and recommends their approval to the Board of Directors.
- Assesses the overall effectiveness of capital planning, allocation processes and systems, and the allocation of capital requirements to risk types.
- Reviews the risk management and the NPE/NPL policy and procedures of the Issuer and the Group.

The Chief Risk Officer reports to the Board of Directors of the Issuer through the Risk Management Committee.

The Risk Management Committee convenes at least once a month and may invite any Member of the Management or Executive of the Issuer to attend its meetings. The Chief Risk Officer (CRO) is a regular attendee of the Committee meetings.

The Risk Management Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Committee.

The Chair of the Committee submits to the Board of Directors a formal report on the work of the Committee during the year.

Remuneration Committee

The Remuneration Committee of the Board of Directors was established by a resolution of the Board of Directors on 23 November 1995. It consists of a Committee Chair who is an Independent Non-Executive Member, one Independent Non-Executive Member and two Non-Executive Members appointed by the Board of Directors. The current Members of the Remuneration Committee are Richard R. Gildea (Chair), Efthimios O. Vidalis, Jean L. Cheval and Johannes Herman Frederik G. Umbgrove.

The main responsibilities of the Remuneration Committee include but are not limited to those presented below.

The Remuneration Committee:

- Ensures that the Issuer has a remuneration philosophy and practice that is market-based, equitable and focused on sound performance evaluation-based criteria.
- Formulates the Remuneration Policy for the Issuer and the Group as well as for the Members of the Boards of Directors across the Group and makes recommendations to the Board of Directors of the Issuer for approval thereof.
- On an annual basis, reviews and reports findings on remuneration data from the Issuer and the Group to the Board of Directors, with a view to monitoring the consistent application of the Remuneration Policy, assessing alignment with corporate goals and ensuring the alignment of remuneration practices with the risk profile.

- Assesses the mechanisms and systems adopted to ensure that the remuneration system properly takes into account all types of risks, liquidity and capital levels and that the overall Remuneration Policy is consistent with and promotes sound and effective risk management and is in line with the business strategy, objectives, corporate culture, values and long-term interest of the Issuer.
- Oversees the implementation and use of sound evaluation processes within the entire Issuer.

The Remuneration Committee convenes at least twice per year and may invite any Member of the Management or Executive of the Issuer to attend its meetings.

The Remuneration Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Committee.

The Chair of the Committee submits to the Board of Directors a formal report on the work of the Committee during the year.

In accordance with article 10 para.3 of law 3864/2010, and for as long as the Issuer is under the provisions of the said law, the annual compensation for each Member of the Board of Directors cannot exceed the total remuneration of the Governor of the Bank of Greece.

Corporate Governance and Nominations Committee

The Corporate Governance and Nominations Committee of the Board of Directors was established by a resolution of the Board of Directors on 27 June 2014. It consists of a Committee Chair who is an Independent Non-Executive Member, one Independent Non-Executive Member and two Non-Executive Members appointed by the Board of Directors. The current Members of the Corporate Governance and Nominations Committee are Shahzad A. Shahbaz (Chair), Efthimios O. Vidalis, Jean L. Cheval and Johannes Herman Frederik G. Umbgrove.

The main responsibilities of the Corporate Governance and Nominations Committee include but are not limited to those presented below.

The Corporate Governance and Nominations Committee:

- Ensures that the corporate governance principles of the Issuer and the Group, as embedded in the Corporate Governance Code of the Issuer, as well as the implementation of these principles reflect the legislation in force, regulatory expectations and international corporate governance best practices.
- Regularly reviews the Corporate Governance Code of the Issuer and makes appropriate recommendations to the Board of Directors on its update.
- Facilitates the regular review of the Charters of Board Committees, in consultation with the relevant Committees, by providing input to each Committee in order to ensure that the Charters remain fit-for-purpose and align with the Issuer's Corporate Governance Code as well as with corporate governance best practices.
- Develops and regularly reviews the selection criteria and appointment process for the Members of the Board of Directors.
- Identifies and proposes candidates suitable for appointment or re-appointment in vacant positions in the Board of Directors and its Committees.

- Assesses, at least annually, the structure, size, and composition of the Board of Directors, after considering relevant findings of the annual evaluation of the Board of Directors, in order to ensure that these are fit-for-purpose.
- Initiates and oversees the conduct of the annual evaluation of the Board of Directors in accordance with the Policy for the Annual Evaluation of the Alpha Bank Board of Directors and submits the relevant findings and recommendations to the Board of Directors.
- Oversees the design and implementation of the induction programme for the new Members of the Board of Directors as well as the ongoing knowledge and skills development for Members that support the effective discharge of their responsibilities.
- Formulates the Suitability and Nomination Policy for the Members of the Board of Directors and Key Function Holders, the Policy for the Succession Planning of Senior Executives and Key Function Holders and the Policy for the Evaluation of Senior Executives and Key Function Holders.
- Establishes the conditions required for securing smooth succession and continuity in the Board of Directors.

The Corporate Governance and Nominations Committee convenes at least twice per year and may invite any Member of the Management or Executive of the Issuer to attend its meetings.

The Corporate Governance and Nominations Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Committee.

The Chair of the Corporate Governance and Nominations Committee submits to the Board of Directors a formal report on the work of the Committee during the year.

Management Committees

Executive Committee

The Executive Committee is the senior executive body of the Issuer and is comprised of the following members:

- Vassilios E. Psaltis, CEO, Chair of the Executive Committee
- Spyros N. Filaretos, Deputy CEO, Chief Operating Officer (COO)
- Artemios Ch. Theodoridis, Deputy CEO, Non-Performing Loans and Treasury Management
- George C. Aronis, Deputy CEO, Retail and Wholesale Banking Business Units
- Spiros A. Andronikakis, General Manager, Chief Risk Officer (CRO)
- Lazaros A. Papagaryfallou, General Manager, Chief Financial Officer (CFO)
- Sergiu - Bogdan A. Opreacu, General Manager of International Network
- Nikolaos V. Salakas, General Manager, Chief Legal and Governance Officer

The indicative main responsibilities include but are not limited to: overall service model of the Issuer and the Group, three-year Business Plan, major investment and de-investment decisions, Credit and Operational Risk

Policies, the Human Resources Policy, Capital allocation to Business, High-level Communication issues, major issues of the Board of Directors.

Assets – Liabilities Management Committee (ALCo)

The Assets-Liabilities Management Committee (ALCo) examines and decides on issues related to Treasury and Balance Sheet Management and monitors the course of the results, the budget, the funding plan, the capital adequacy and the overall financial volumes of the Bank and the Group, approving the respective actions and policies. In addition, the Committee approves the interest rate policy, the structure of the investment portfolios and the total market, interest rate and liquidity risk limits.

Treasury and Balance Sheet Management Committee

The Treasury and Balance Sheet Management Committee convenes regularly on a fortnightly basis under the chairmanship of the Deputy CEO Arrears and Treasury. The Deputy CEO Retail and Wholesale Banking, the Chief Risk Officer, the Chief Financial Officer, The Deputy General Manager Treasury and the Managers of the Asset Liability Management Division, Market and Operational Risk Division participate as Members. The Committee further to a delegation by the Bank's Board of Directors decides on Interest Rate in the Banking Book (IRRBB) issues while examines and submits recommendations to ALCo or to the Executive Committee of the Issuer on issues generally related to Treasury and Balance Sheet Management, such as capital structure, total market, interest rate and liquidity risk limits, the funding policy of the Issuer and the Group, liquidity management, stress test assumptions, hedging strategies, funds transfer pricing, the structure of the investment portfolios and capital and liquidity allocation to the business units.

Credit Committees (Performing and Non-Performing Loans)

The Credit Committees approve new credit or restructuring proposals for performing and non-performing loans.

Troubled Assets Committee

The Troubled Assets Committee designs, proposes and implements the strategy for managing troubled assets by Business Unit (Wholesale Banking, Retail Banking), geographical region, product, activity, sector, etc.

Relationships and Other Activities

There are no potential conflicts of interest between the duties of the persons listed above pertaining to the Issuer and their private interests.

State Influence

For so long as the Issuer participated in the Hellenic Republic Bank Support Plan as set out Greek law 3723/2008, the Issuer was required to seat a government-appointed representative on its Board of Directors, who attended the General Meeting and had certain veto authorities.

As of 20 June 2017, the Issuer is no longer subject to the provisions Greek law 3723/2008 and the Hellenic Republic is not seated on the Board of Directors. See also "*Risk Factors – Liquidity Risk and The Hellenic Financial Stability Fund (the HFSF) as shareholder has certain rights in relation to the operation of the Issuer*".

HFSF Influence

The HFSF as at the date of this Base Prospectus, holds 11 per cent. of the Issuer's aggregate common share capital, but is only able to exercise voting rights subject to certain statutory restrictions, presented below.

Pursuant to Greek law 3864/2010, as in force, the HFSF will exercise its voting rights as follows:

As a result of meeting the required 10 per cent. private sector contribution test in the 2013 Share Capital Increase, the HFSF's voting rights are restricted and it may only exercise its voting rights for decisions regarding amendments to the Issuer's Articles of Incorporation, including capital increase or reduction or providing authorisation to the Board of Directors to that effect, merger, division, conversion, revival, extension of duration or dissolution of the credit institution, asset transfer including the sale of subsidiaries, or any other matter that requires an increased majority as provided in Greek Codified law 2190/1920 (as of 1 January 2019 Codified law 2190/1920 was replaced by Law 4548/2018). For calculating the quorum and majority of the General Meeting, shares held by the HFSF are not taken into account for resolving on issues other than the above-mentioned.

The HFSF fully exercises its voting rights without the above restrictions if it is concluded, following a decision of the members of the General Council of the HFSF, that the Issuer is in breach of material obligations under the New RFA, described and defined below, including those included in, or facilitating the implementation of, the restructuring plan.

Furthermore, in the context of the recapitalisation of Greek banks, the Board of Directors, at its meeting on 7 June 2012, elected, in accordance with Greek law 3864/2010, article 6, paragraph 9, as representative and upon instruction of the HFSF, Mr. Nikolaos G. Koutsos. The Board of Directors, at its meeting on 30 January 2014, elected as a non-executive member, in accordance with Greek law 3864/2010, upon instruction of the HFSF, Mrs. Panagiota S. Iplixian, as non-executive member of the Board of Directors, in replacement of Mr. Nikolaos G. Koutsos who resigned. The Board of Directors, at its meeting on 23 February 2017, elected, in accordance with Greek law 3864/2010, upon instruction of the HFSF, Mr. Spyridon-Stavros A. Mavrogalos-Fotis, as non-executive member of the Board of Directors, in replacement of Mrs. Panagiota S. Iplixian who resigned. The Board of Directors, at its meeting on 26 April 2018, elected, in accordance with Greek law 3864/2010, upon instruction of the HFSF, Mr. Johannes Herman Frederik G. Umbgrove, as non-executive Member of the Board of Directors, in replacement of Mr Spyridon-Stavros A. Mavrogalos-Fotis who resigned. As a representative of the HFSF on the Board of Directors, Mr. Johannes Herman Frederik G. Umbgrove has the following rights:

- (g) to request the convocation of the General Meeting;
- (h) to veto any decision of the Board of Directors:
 - (i) regarding the distribution of dividends and the remuneration policy concerning the Chair, the CEO and the other Members of the Board of Directors, as well as the General Managers and their deputies;
 - (ii) where the decision in question could seriously compromise the interests of depositors, or impair the Issuer's liquidity or solvency or its overall sound and smooth operation of the Issuer (including business strategy, and asset/liability management); or
 - (iii) concerning corporate actions as per Greek law 3864/2010, article 7a, paragraph 3, where the decision in question could materially affect the participation of the HFSF in the share capital of the Issuer;
- (i) to request an adjournment of any meeting of the Board of Directors for three business days in order to get instructions from its Executive Committee;

- (j) to request the convocation of the Board of Directors; and
- (k) to approve the appointment of the Chief Financial Officer of the Issuer.

In exercising its rights, the representative of the HFSF is obliged by express provision of article 10 of Greek law 3864/2010 to take into account the business autonomy of the Issuer.

Further, the HFSF has free access to the books and records of the Issuer together with advisers of its choice.

As per article 10 of Greek law 3864/2010 the HFSF, with the assistance of an internationally renowned specialised independent adviser, is entitled to evaluate the corporate governance framework of the credit institutions, with which it has concluded a framework agreement (including the Issuer). Such evaluation includes the size, structure and competence allocation within the Board of directors and its committees according to the business needs of the credit institution. Based on the results of such evaluation, the HFSF makes specific recommendations for the improvement and possible changes in the corporate governance of the credit institutions. For the purposes of the evaluation by the HFSF, the Board of Directors and the committees cooperate with the HFSF and its advisers and provide any necessary information. The last corporate governance review of the Bank by the HFSF had been assigned to Promontory and was performed in June 2017.

Relationship Framework Agreement

The Issuer and the HFSF has entered into a Relationship Framework Agreement, in accordance with the provisions of the Memorandum of Economic and Financial Policies (the **RFA**). The RFA originally entered into force on 12 June 2013 but was subsequently replaced by a new Relationship Framework Agreement (the **New RFA**) entered into on 23 November 2015. The New RFA will remain in force so long as the HFSF has any ownership in the Issuer. The New RFA mainly governs: (a) matters of corporate governance of the Issuer; (b) the exercise of the rights of the HFSF's representative on the Board of Directors and HFSF's right to appoint one member to the Board Committees of the Issuer (including in the Audit, Risk Management, Remuneration, Corporate Governance and Nominations Committee, with rights to, among other things, include items in the agenda and convoke meetings); (c) the specific material matters that are subject to HFSF's consent (i.e., (i) the Group's risk and capital strategy document(s), and particularly the risk appetite statements and risk governance and any amendment, extension, revision or deviation thereof; and (ii) the Issuer's strategy, policy and governance regarding the management of its arrears and non-performing loans and any amendment, extension, revision or deviation thereof); (d) the monitoring by the HFSF of the implementation of the Issuer's restructuring plan; (e) the monitoring by the HFSF of the implementation of the Issuer's NPL management framework and of the Issuer's performance on NPL resolution; and (f) the monitoring and evaluating of the performance by the HFSF of the Issuer's Board of Directors and committees.

If the Issuer breaches any of its material obligations under the New RFA including its minimum commitments to be set by the HFSF under the restructuring plan, the HFSF is entitled to exercise its full voting rights in accordance with article 7(a) of Greek law 3864/2010.

As of 31 December 2018 the Issuer has successfully concluded its Restructuring Plan, the respective restructuring period has ended and accordingly the mandate of the Monitoring Trustee is also concluded.

Apart from its above representatives and the rights of the HFSF as a shareholder, HFSF does not currently have other powers or control over the appointment of any other Member of the Board of Directors. See also "Risk Factors—Risks Relating to the Hellenic Republic Economic Crisis".

SELECTED CONSOLIDATED FINANCIAL INFORMATION OF THE GROUP

The selected consolidated financial information of the Issuer set out below is extracted from the audited consolidated financial statements of the Issuer for year ended 31 December 2018, prepared in accordance with IFRS. For the avoidance of doubt, the audited consolidated financial statements of the Issuer for the year ended 31 December 2017, are restated in the audited consolidated financial statements of the Issuer for year ended 31 December 2018. The notes and audit reports in respect of these financial statements are incorporated by reference in this Base Prospectus — see "*Documents Incorporated by Reference*".

ALTERNATIVE PERFORMANCE MEASURES

The following metrics, are considered by the Issuers to be Alternative Performance Measures (**APMs**) as defined in the European Securities and Markets Authority Guidelines on Alternative Performance Measures.

Information contained in the below table is also available in Alpha Bank's annual Report as of 31 December 2018 (page: 501 – 502).

<i>Metric</i>	<i>Definition</i>	<i>Calculation</i>			<i>31.12.2018</i>	<i>31.12.2017</i>
Loans and Receivables to Deposit Ratio	The indicator reflects the relationship of loans and advances to customers before impairment to due to customers	Numerator	+	Loans and advances to customers	51,238	54,356
		Denominator	+	Due to customers	38,732	34,890
		Ratio	=		132.3%	155.8%
Cost/income ratio	The indicator reflects the relationship between recurring expenses and income of the period	Numerator	+	Total expenses before impairment losses and provisions to cover credit risk	1,162	1,293
			-	Non recurring expenses	69	191
		Denominator	+	Total Income of the period	2,605	2,467
			+	Share of profit/(loss) of associates and joint ventures	(1)	(3)
			-	Gains less losses on financial transactions and impairments on Group companies	463	145
		Ratio	=		51.0%	47.5%
		Cost of Risk Ratio	The indicator reflects the relationship between impairment	Numerator	+	Impairment losses and provisions to

	losses and provisions to cover credit risk, and average balances of loans and advances to customers before impairment losses and fair value adjustments			cover credit risk		
		Denominator	+	Average balances of loans and advances to customers before impairment losses and fair value adjustments	54,409	58,464
		Ratio	=		2.96%	1.72%
Net operating results (before impairment losses and provisions to cover credit risk and income tax)	The balance illustrates the total income minus the total expenses before impairment losses and provisions to cover credit risk and income tax		+	Total income	2,604.9	2,466.7
			-	Total expenses before impairment losses and provisions to cover credit risk and income tax	(1,162.3)	(1,293.0)
			=		1,442.6	1,173.7
Return on Assets Ratio	The indicator reflects the relationship of profit/(losses) after income tax to average total assets (arithmetic average opening and closing balance)	Numerator	+	Profit/(losses) after income tax	53	21
		Denominator	+	Average total assets	60,907	62,843
		Ratio	=		0.09%	0.03%

Below the NPL and NPE ratios of the Group are presented:

(amounts in billions of Euro)

NPL ratio	The indicator reflects the NPLs to the Gross Loans as at the end of the reference period.	Numerator	+	NPLs	17.6	19.8
		Denominator	+	Gross Loans	52.5	56.6
		Ratio	=		33.5 %	34.9%
NPE ratio	The indicator reflects the NPEs to the Gross Loans as at the end of the reference period.	Numerator	+	NPEs	25.7	29.3
		Denominator	+	Gross Loans	52.5	56.6
		Ratio	=		48.9%	51.7%

Gross Loans means total gross amount of loans and advances to customers, as disclosed for credit risk monitoring purposes.

Non-performing loans (under IFRS) (**NPLs**) are considered those if one of the following conditions apply: a) Exposures which are more than 90 days past-due b) Exposures under Legal actions.

NPL ratio is the NPLs divided by the Gross Loans as at the end of the reference period. Gross Loans means total gross amount of loans and advances to customers, as disclosed for credit risk monitoring purposes.

Non-performing exposures (**NPEs**) are those that satisfy either or both of the following criteria: a) Exposures which are more than 90 days past-due, b) The debtor is assessed as unlikely to pay its credit obligations in full without realisation of collateral, regardless of the existence of any past due amount or of the number of days past due.

NPE ratio is the NPEs divided by the Gross Loans as at the end of the reference period. Gross Loans means total gross amount of loans and advances to customers, as disclosed for credit risk monitoring purposes.

Non recurring expenses include extraordinary events which do not occur with a certain frequency, and events that are directly affected by the current market conditions and/or present significant variation between the reporting periods.

Non recurring expenses of 31 December 2018 are related to impairment losses on fixed and intangible assets, to losses from sales of fixed assets, the provisions for litigation, the extraordinary general administrative expenses as well as the provision for the performance incentives scheme and the costs of the Issuer's separation scheme.

Respectively, non-recurring expenses as of 31 December 2017 are related to the costs of the Issuer's separation scheme, the costs for performance incentives schemes and extraordinary employer's contributions, the impairment losses on fixed assets, the provisions for litigation or reversals of other provisions, the extraordinary general administrative expenses, the cost of annual commission on the amount of deferred tax asset guaranteed by the Greek State (article 8 of Law 4472/19.5.2017) and to reorganization costs.

OVERVIEW OF THE BANKING SERVICES SECTOR IN GREECE

The recovery of the domestic economic activity strengthened further in 2018, with real GDP growing by 1.9 per cent. from 1.5 per cent. in 2017. This strengthening recovery was mainly driven by, firstly, net exports of goods and services, and secondly, the rebound of private consumption.

In the first nine months of 2018, Greek banks registered profits before taxes that were however weak, due to the fact that: (a) the increase of net non-interest income was not sufficient to counterbalance the decrease in net interest income and (b) the decrease in expenses was lower than that of the respective period of 2017. The capital adequacy of the banking system remained satisfactory, as the Common Equity Tier 1 (CET1) ratio on a consolidated basis stood at 15.6 per cent. in September 2018, while the Capital Adequacy ratio at 16.2 per cent. In addition, according to the EU-wide stress testing exercise conducted in the beginning of 2018, there was no capital shortfall identified for the four systemic Greek banks (*Bank of Greece, Governor's Annual Report for 2018, April 2019*).

Liquidity conditions continued to improve in the banking system, as private sector's deposits amounted to €134.5 billion in December 2018 from €126.3 billion in December 2017, of which household deposits were €110.0 billion and business deposits were equal to €24.5 billion. Total deposits in the banking system (private sector and General Government deposits) amounted to €152.4 billion in December 2018, recording an annual increase of 10.4 per cent. The drivers leading to the increase of deposits in the banking system were the acceleration of economic expansion in 2018 and the strengthening of confidence in the Greek economy, whereas the wider use of means of electronic payments also contributed positively. (*Bank of Greece, Bank Credit and Deposits, Monetary Policy - Interim Report, December 2018*).

The outstanding amount of credit to the domestic private sector amounted to €170.3 billion at the end of December 2018, compared to €184.0 billion at the end of December 2017. More specifically, credit to non-financial corporations continued to show signs of gradual improvement. The annual rate change of credit to non-financial corporations remained in positive territory standing at 0.2 per cent. in 2018. With regard to household credit, the annual rate of change of consumer and mortgage credit⁵ remained negative, showing, however, signs of stabilization (*Bank of Greece, Bank credit and deposits*).

In 2018 the progress made, regarding the non-performing loans (NPLs) management continued, with the NPLs amounting to €81.8 billion at the end of December 2018, reduced by €12.7 billion compared to December 2017 and by €25.4 billion in March 2016, when the highest NPLs level was recorded. The ratio of NPLs to total loans remains high not only overall (45.4 per cent. in December 2018), but also per loan category (44.5 per cent. for mortgages, 53 per cent. for consumer loans and 44.6 per cent. for the business loans' portfolio). The decrease of NPLs stock in 2018, is mostly due to write-offs and loans sales (Euro 5.9 billion and Euro 5.8 billion, respectively) (*Bank of Greece, Governor's Annual Report for 2018, April 2019*).

The dependency of Greek Banks from the Emergency Liquidity Assistance (ELA) mechanism was reduced further in 2018. More specifically, in 31 December 2018, the total funding received by the Greek Banks from the Eurosystem (ELA plus the funding received directly by the European Central Bank) was equal to €11.0 billion, from €33.7 billion in December 2017 (*Bank of Greece, Governor's Annual report for 2018, April 2019*).

Today 36 banks operate in Greece, of which 8 are commercial banks, 7 are cooperative banks, 21 are branches of foreign banks, and one is a special credit institution (*Bank of Greece, April 2019*). Banks represent the 11.3 per cent. of the total market capitalization (Athens Exchange: Monthly Statistical Bulletin February 2019) of the Athens Stock Exchange.

⁵ Calculated by taking into account reclassifications, loan write-offs and transfers as well as exchange rate variations

Greek banks have established their international presence, particularly in Emerging European countries (Albania, Republic of North Macedonia, Ukraine, Romania and Serbia) in view of the European perspective of most of these countries. As of December 2017, according to the Hellenic Bank Association, the Greek banks were active in 11 countries, through 20 subsidiaries, of which 12 in EU countries and 8 in non-EU countries, and 6 sub-branches, while employ 15,823 people in total. The Greek banks have developed a network of 1,092 branches; of which 71.3 per cent. of them were in EU countries (UK, Bulgaria, Luxembourg, Malta, Romania and Cyprus) and 28.7 per cent. in non-EU countries (South Africa, Republic of North Macedonia, Ukraine, Serbia and Albania).

THE MORTGAGE AND HOUSING MARKET IN GREECE

The size of the Greek mortgage market has grown rapidly from a relatively low percentage of GDP, partly due to the process of convergence of the Greek economy to achieve integration into the European Monetary Union. The residential mortgage market grew by on average annual growth rate of 22.5 per cent. from 2000 to 2010. Since then, due to the adverse macroeconomic environment, market outstandings have been decreasing at an average annual rate of -3.3 per cent. At the end of 2016, the four largest lenders in the Greek residential mortgage market were the National Bank of Greece, the Issuer, Eurobank Ergasias S.A. and Piraeus Bank, together accounting for almost 100 per cent. of the total market.

Mortgage Products

Currently, all banks offer the following mortgage products:

- long-term fixed rate mortgages (which account for a small percentage of the market);
- floating rate mortgages, based primarily on EURIBOR and to a limited extent on ECB refinance rates;
- mortgages with a fixed rate for an initial period (for example 3, 5, 10 or 15 years) converting to a floating rate thereafter. At the expiry of the initial period, most banks also offer customers the option to choose one of the then applicable fixed rates; and
- preferential floating rate mortgages granted in favour of the banks' employees.

Typically, mortgage loans have a term of 15 to 25 years, with a maximum term of 30 years.

The Greek Housing Market

Traditionally, real estate has been the primary savings vehicle for Greek households, representing by now a large share of household wealth. This implies a relatively low turnover in the market, which is enhanced due to culturally strong family ties, which makes a virtue of children remaining in their parents' house until they get married and purchase a house of their own, as well as because there is virtually no buy-to-let market in Greece. As a result, owner occupancy is one of the highest in the EU although it tends to be overstated due to many people owning family houses in villages in which their family used to live before migrating to the cities. Within Greece, home ownership is highest in the regions and lowest in Athens, as would be expected. Second home ownership is also very high.

It is worth noting the revival in residential investment, which recorded increases during 2018, for the first time since 2007. The positive dynamics of residential investment during 2018 synchronized with the recovery of residential real estate prices (2018: +1.5 per cent.), relating also to the marked development of the short-term rental market over the past years via home-sharing economy (e.g. Airbnb and HomeAway platforms).

The average age of new borrowers is in the early 40s, indicating that young people prefer to reach a state of financial stability before investing in their own house.

Apartments are the most common type of residential property available, with townhouses and detached houses being prevalent to the more affluent city areas.

Security for Housing Loans

In Greece, security for housing loans is created by establishing a mortgage or a pre-notation of a mortgage. A mortgage can be established usually by a notarial deed, which is, however, quite costly and therefore not preferred among banks and borrowers (or by a judicial decision, or by law in special cases).

Instead, in most cases, banks obtain a pre-notation of a mortgage, which is an injunction over the property entitling its beneficiary to obtain a mortgage as soon as a final judgment for the secured claim has been obtained, but which is valid as of the date of the pre-notation. From the point of view of enforceability, ranking of the security and preferred right to the proceeds of the auction, there is no difference between a holder of mortgage and a holder of a pre-notation of a mortgage, since the latter is treated as a secured creditor of the property. Both the holder of a pre-notation of a mortgage and a mortgagee need an enforcement right before commencing enforcement procedures. The difference between them is that the pre-notation is a conditional security interest whose preferential treatment is subject to the un-appealable adjudication of the claim it purports to secure and the timely conversion of the pre-notation into a full mortgage, whereas a mortgagee's claim is enforceable pursuant to the mortgage deed itself.

Establishing a pre-notation is the most common way of establishing security for a housing loan in Greece. The pre-notation, as a form of injunction, can be established with or without the consent of the owner(s) of the property on which the mortgage will be secured, but is only granted pursuant to a court decision (interim measures procedure) or a court payment order.

The procedures adopted by lenders of housing loans in practice has led to an arrangement whereby pre-notations are granted "by consent": where both the lending bank and the borrower appear before the competent court and consent to the establishment of the pre-notation on the specific real estate property. The court issues the decision immediately (in fact, the decision is drafted beforehand by the lending bank and is certified and signed by the judge who hears the claim).

Having certified the court decision and a summary thereof, the lawyer of the lending bank takes them to the Cadastre or the Land Registry, where applicable, along with a written request for the issuance (by the Cadastre and/or the Land Registry) of certificates confirming:

- (a) the ownership by the borrower of the mortgaged property;
- (b) the registration and class of the pre-notation;
- (c) the absence of (judicially raised) claims of third parties against the current and all previous owner(s) of the mortgaged property; and
- (d) any other mortgages, pre-notations or seizures preceding the pre-notation registered by the Issuer.

At the same time the Issuer's lawyer effects a search in the Cadastre and/or the Land Registry, where applicable, in order to confirm the uncontested ownership of the borrower and the first priority nature of the mortgage or pre-notation, before the loan can be disbursed.

Once the certificates are issued, they are reviewed by the bank's legal department and are included in the borrower's file. The legal review of both the ownership titles and the pre-notation registration is based on public documents, i.e. on notarial deeds and certificates issued by the competent land registries or cadastres. The history of the ownership titles for the previous twenty (20) years (which is the period for adverse possession) is examined. Such a review together with a titles search in the Cadastre and/or the Land Registry, precedes the approval of the loan. Upon registration of the pre-notation, a second titles' search is made to confirm the status quo.

Enforcing Security

Article 1 of Greek law 4335/2015 has brought significant amendments, *inter alia*, to the enforcement provisions of the Greek Code of Civil Procedure, which came into effect as of 1 January 2016. The above mentioned provisions apply only in respect of (judicial) demands for immediate payment based on an enforceable title and served to the debtor after 1 January 2016.

Once a loan agreement is in default and terminated, a letter is served on the borrower and on the guarantors (the **Debtors**), if any, informing them of this fact and requesting the persons indebted to pay all amounts due. Following notification and in the case of continued non-payment, a judge of the competent First Instance Court or Magistrate's Court (as the case may be) is presented with the case upon which the judge issues an order for payment to be served on the borrower together with a demand for immediate payment. Service of the order and demand for payment is the first action of enforcement proceedings. Three working days after serving the payment order and demand, the property can be seized and the auction process starts (see below for a description of the auction process).

The Debtor, after being served the order for payment, is granted 15 working days (or 30 working days if the Debtor is of an unknown address or resides abroad) to contest the validity of the order for payment, either on the merits of the case or on the ground of procedural irregularities. This can be done by filing an Article 632 Annulment Petition before the Court of First Instance or Magistrate's Court. At the same time, the borrower can file an Article 632 Suspension Petition for the suspension of the enforcement proceedings as a provisional measure. At the time of filing the Article 632 Suspension Petition, in most cases, immediate suspension is granted up until the hearing of the suspension petition. If the court decides that the arguments in the Article 632 Suspension Petition are correct and reasonable, the suspension of enforcement will be granted to the petitioner until the issue of the decision on the Article 632-633 Annulment Petition. If the judge decides that the Article 632 Suspension Petition has no grounds and rejects this, the suspended enforcement procedures can continue. Suspension of enforcement against a Debtor of an unknown address or residing abroad is granted by law during the 30 day period to file an Article 632 Annulment Petition. If the Debtor has not filed an Article 632 Annulment Petition and subsequent suspension in the first 15 working days, then the bank may again serve the order for payment whereby a second period of 15 working days, is granted to the Debtor to contest the payment order. Failure to contest the order for payment will result in the bank acquiring a final deed of enforcement and then the pre-notation is converted to a mortgage.

The Debtor may also file with the relevant First Instance Court an Article 933 Petition for Annulment of certain actions of the foreclosure proceedings based on reasons pertaining to the validity of the order for payment or the relevant claims and to procedural irregularities. Both Article 632 and Article 933 Annulment Petitions may be filed either concurrently or consecutively, but it should be noted that the both petitions may not be based on reasons pertaining to the validity of the order for payment, once the order of payment has become final as mentioned above. The time for the filing of an Article 933 Annulment Petition varies depending on the foreclosure action that is being contested.

According to the provisions of Law 4335/2015, the ability of the Debtor to challenge the compulsory enforcement actions, which are carried out by the creditor, is significantly restricted. In particular, by virtue of the provisions of the Code of Civil Procedure, as in force until 31 December 2015, the Debtor was entitled to challenge separately each compulsory enforcement action and as a result the completion of the enforcement procedure was significantly delayed. However, by virtue of Law 4335/2015, the Debtor is entitled to oppose to defects of the compulsory enforcement procedure in just two stages: the first one is set before the auction and is related to any reason of invalidity of the claim and the compulsory enforcement actions carried out before the auction, whereas the second one is set after the auction until the publication of the seizure report and is related to any defects, which arose from the auction until the awarding. In case that the compulsory enforcement procedure is based on a court's judgment or payment order, the litigant parties are only entitled to file an appeal issued against the judgment, which has been issued in relation to the Article 933 Annulment Petition. The possibility to file an appeal in cassation against the decision is abolished.

The filing of an Article 933 Annulment Petition entitles the Debtor to file a Suspension Petition in relation to the enforcement. In particular, if the Suspension Petition relates to the suspension of the auction, such petition should be filed at the latest fifteen (15) days before the date of the auction and the decision on the Suspension Petition must be issued at the latest by 12.00 p.m. on Monday prior to the auction date, provided that the Debtor pays at least one quarter of the claimed capital and the enforcement expenses and also that there is no risk for the creditor's interests, on the grounds that the Debtor will be able to satisfy the enforcing party or that, following the suspension period, a better offer would be achieved at auction.

The actual auction process starts with seizure of the property, which takes place 3 working days after the order for payment is served on the Debtor. The seizure statement that is issued by the bailiff who performs it, contains the auction date which, in respect of demands for immediate payment served to the Debtor after 1 January 2016, should take place within seven months from the date of completion of the seizure and in any case no later than eight months from the completion of the seizure (or within a deadline of three months since the continuation statement, in case the auction does not take place on the initial date and place and the notary public who will act as the auction clerk). At this point all mortgagees (including those holding a pre-notation of mortgage) are informed of the upcoming auction.

The minimum auction price is determined within the statement of the court bailiff and can be contested by the Debtor or any other lender at the latest fifteen (15) working days before the auction date. The relevant court's decision should be published at the latest by 12.00 p.m. eight (8) days before the auction date. The minimum auction price as regards the movable property, it cannot be less than 2/3 of the estimated value of the property (according to article 993 par. 2 of the Greek Civil Procedure Code, in conjunction with article 954 par. 2 of the Greek Civil Procedure Code, as amended and in force) and as regards the immovable property, the minimum auction price cannot be less than the seized immovable property's "market value". For demands for immediate payment served to the debtor after 1 January 2016, the market value of the seized immovable property is taken into account for the estimation of the value of the seized immovable property. The market value of the seized immovable property is calculated in accordance with Presidential Decree 59/2016 pursuant to which, the market value is determined by the relevant bailiff who appoints a certified appraiser (natural or legal person included in the Record of certified appraisers kept with the Ministry of Finance) for this purpose. The latter submits to the bailiff an appraisal report in accordance with the European or international recognized appraising standards and in accordance with the Code of Conduct issued by the Bank of Greece on the management of non-performing loans. Appraisal's fees are borne by the creditor initiating the enforcement proceedings but ultimately burden the Debtor.

In the auction, the property is sold to the highest bidder who then has ten (10) working days to pay the auction price along with the fees for the use of the electronic auctioning platform which burden the highest bidder. Once the price of the property is paid, the notary public prepares a special deed listing all the creditors and allocating the proceeds of the auction. Each bidder must submit a bank guarantee or banker's draft for an amount equal to 30 per cent of the starting price of the auctioned property and declare his/her attendance in the auction by 15.00, two (2) working days prior to the auction date. On the date of preceding the auction date, by 17.00, the auction clerk registers with electronic auction platform a list of the bidders entitled to participate in the auction. Pursuant to Article 966 of the Greek Civil Procedure Code, if no bidders appear at the auction, the immovable property is awarded at the minimum auction price to the person in favour of whom the enforcement proceedings were initiated, upon the latter's request. The hearing of such request shall mandatorily be scheduled as a matter of priority within eight (8) working days from the date of filing and it shall be served at least three (3) working days before the hearing date. A recent evaluation report of the auction property, dated after the date of the last auction shall be submitted on the hearing date before the competent Court. The relevant decision must be issued within eight (8) working days from the hearing. If no such request is submitted, a repetitive auction takes place within forty (40) days. If such repetitive auction is unsuccessful, the competent court, upon request of persons having legal interest, may order the conduct of another auction within thirty (30) days, at the same or a reduced auction price or allow the sale of the property to the person in favour of whom the enforcement proceedings were initiated or to third persons at a price determined by the court, which may also provide that part of the consideration may be paid in

instalments. Following two unsuccessful auctions, a petition may be filed by any interested party for a new auction date to be set, with the same or a lower fixed first price, or for a permission for a direct sale of the property at a price to be determined by the Court (in accordance with article 966 par. 2, as amended by article 23 of Greek law 4549/2018).

Each creditor must announce its claim to the notary public by no later than fifteen (15) days after the auction and submit all documents proving such claims, otherwise the notary public will not take his claim into account.

Once the allocation of proceeds amongst the creditors of the Debtor has been determined pursuant to a deed issued by a notary public, the creditors of the Debtor may dispute the allocation and file a petition contesting the deed pursuant to Article 979 in conjunction with Article 933 of the Code of Civil Procedure. The competent Court of First Instance adjudicates the matter but the relevant creditor is entitled to appeal against the decision to the Court of Appeal. The hearing date of the petition contesting such deed must be obligatory set within sixty (60) days from its filing (or within 120 days in case of the creditor residing abroad). This procedure may delay the collection of proceeds. This can further delay the time at which the Issuer finally receives the proceeds of the enforcement of the relevant property. However, the law provides that a creditor is entitled to the payment of its claim even if its allocation priority is subject to a challenge provided that such creditor provides a letter of guarantee securing repayment of the money in the event that such challenge is upheld. Once the list of creditors is confirmed and adjudicated, the proceeds are distributed accordingly to the deed setting out the allocation of proceeds in accordance with 975, 976, 977 and 977A of the Greek Civil procedure. In addition, mandatory suspension for all enforcement procedures, including auctions, between 1 and 31 August of each year and prohibition of auctions of real properties on the Wednesday before and after the date of any national, municipal or European elections.

Following the amendment of the Greek Civil Procedure Code by Greek law 4512/2018, as from 21 February 2018 onwards, the auction takes place exclusively through the use of electronic means, in particular through the use of the electronic auction platform (e-auctions.gr), under the responsibility of a certified notary public of the district of the seized property (or if not available for any reason, of the district of the execution place or, if not available for any reason, before any Athens notary public) under the responsibility of a competent notary public acting as auction clerk. The relevant process is detailed in article 959 of the Greek Civil Procedure Code, as replaced by article 207 par. 6 of the Greek law 4512/2018.

REGULATION AND SUPERVISION OF BANKS IN GREECE

The Group is subject to financial services laws, regulations, administrative actions and policies in each location where its members operate. The Bank of Greece is the central bank in Greece. The European Central Bank (the **ECB**) through the Single Supervisory Mechanism (**SSM**) and the support of the Bank of Greece is responsible for the licensing and supervision of credit institutions operating in Greece, in accordance with Regulation (EU) No. 1024/2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions and Greek law 4261/2014, on access to the activity of credit institutions and the prudential supervision of credit institutions (the **Banking Law**), Greek law 4370/2016 on the Greek deposit and investment guarantee fund, Greek law 4557/2018 on anti-money laundering, Greek law 4537/2018 on payment services, Greek law 3862/2010 on participation in credit institutions, Greek law 4335/2015 transposing Directive No. 2014/59/EU (establishing a framework for the recovery and resolution of credit institutions and investment firms), Regulation (EU) No. 806/2014 (establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund) and Greek law 1266/1982 on organisation, exercising monetary, credit and currency policy, each as amended and in force.

Regulation of the banking industry in Greece has changed in recent years as Greek law has been modified to a great extent so as to comply with applicable EU directives. In August 2007, EU Directives, including the transposition into Greek law of No. 2006/48/EC and 2006/49/EC regarding the adoption of the revised Basel Capital Accord, known as Basel II, relating to the taking up and pursuit of the business of credit institutions and to the capital adequacy of investment firms and credit institutions by virtue of Greek law 3601/2007 (which has now been repealed by the Banking Law).

As of 1 January 2014, a new framework on capital requirements for credit institutions on the basis of the Basel III accord was introduced by virtue of the CRD IV and CRR. CRD IV was transposed into Greek law by virtue of the Banking Law which entered into force on 1 January 2014 with the exception of specific provisions regarding the requirements to maintain a capital conservation buffer, an institution-specific countercyclical capital buffer, global and other systemically important institutions, the recognition of a systemic risk buffer rate, the setting and calculation of countercyclical capital buffers, the recognition of countercyclical buffer rates in excess of 2.5 per cent., the third country countercyclical buffer rates, the calculation of institution-specific countercyclical capital buffer rates and capital conservation measures which shall enter into force as of 1 January 2016, as well as provisions regarding administrative penalties and other administrative measures which entered into force as of 5 May 2014. The CRR is also applicable as of 1 January 2014, with the exception of certain provisions in relation to the option of authorities to derogate from the application of liquidity requirements on an individual basis, the taking of joint decisions by the consolidating supervisor and the competent authorities on the level of application of liquidity requirements on parent and subsidiary entities, the disclosure of information regarding an institution's leverage ratio, which are applicable as of 1 January 2015 and the provision regarding stable funding which applies from 1 January 2016. To provide guidance for the implementation of CRD IV, the European Commission issued Implementing Regulation (EU) No. 680/2014 of 16 April 2014 setting forth implementing technical standards with regard to supervisory reporting of institutions which was amended, *inter alia*, by the Implementing Regulation (EU) No. 2015/79 of 18 December 2014, Implementing Regulation 2015/227 of 9 December 2015, Implementing Regulation 2015/1278 of 9 July 2015, Implementing Regulation 2016/322 of 10 February 2016, Implementing Regulation 2016/428 of 23 March 2016 and 2018/1627 of 9 October 2018.

For more information as to the new capital requirements framework, see "*Guidelines for Capital Requirements*" below.

According to Article 166 of the Banking Law, any regulatory decisions issued by authorisation of the banking law previously in force (Law 3601/2007) and abolished by the Banking Law, remain in force until

they are replaced by new decisions issued by authorisation of the Banking Law provided that they are not contrary to the provisions of the Banking Law or the CRR.

The ECB is the central bank for the Eurozone managing the Eurozone's monetary policy. Within the context of establishing a European banking union based on a concise and detailed common rulebook for financial services regarding the entire internal market, composed by a single supervisory mechanism and a new deposit guarantee and resolution framework, Regulation 1024/2013 was issued conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions in the Eurozone.

According to Article 4 of the CRR, the ECB was conferred among other things, the below duties as of 4 November 2014:

- To authorise credit institutions and to withdraw authorisations of credit institutions;
- For credit institutions, that wish to establish a branch or provide cross-border services in a country outside the Eurozone, to carry out the tasks which the competent authority of the home Member State shall have under the relevant union law;
- To assess notifications of the acquisition and disposal of qualifying holdings in credit institutions;
- To ensure compliance with the acts which impose prudential requirements on credit institutions in the areas of own funds requirements, securitisation, large exposure limits, liquidity, leverage, and reporting and public disclosure of information on those matters;
- To ensure compliance with the acts which impose requirements on credit institutions to have in place robust governance arrangements, including the fit and proper requirements for the persons responsible for the management of credit institutions, risk management processes, internal control mechanisms, remuneration policies and practices and effective internal capital adequacy assessment processes, including Internal Ratings Based models;
- To carry out supervisory reviews, including where appropriate in coordination with the European Banking Authority, stress tests and on the basis of that supervisory review to impose on credit institutions specific additional own funds requirements, specific publication requirements, specific liquidity requirements and other measures, where specifically made available to competent authorities by relevant EU law;
- To carry out supervision on a consolidated basis over credit institutions' parent entities established within the Eurozone and to participate in supervision on a consolidated basis; and
- To carry out supervisory tasks in relation to recovery plans, and early intervention where a credit institution or group in relation to which the ECB is the consolidating supervisor, does not meet or is likely to breach the applicable prudential requirements, and, only in the cases explicitly stipulated by relevant EU law for competent authorities, structural changes required from credit institutions to prevent financial stress or failure, excluding any resolution powers.

As regards the monitoring of credit institutions, the national supervisory authorities will continue to be responsible for supervisory matters not conferred on the ECB, such as consumer protection, money laundering, payment services, and branches of third country banks. The ECB, on the other hand, is exclusively responsible for prudential supervision of “banks of systemic importance”, which includes the power to: (i) authorise and withdraw authorisation of banks in the Eurozone; (ii) assess acquisition and disposal of qualifying holdings in banks; (iii) ensure compliance with all prudential requirements on credit institutions; (iv) set, where necessary, higher prudential requirements for capital buffers aimed at addressing systemic or macro prudential risk under the conditions provided by EU law; (v) ensure compliance with requirements that impose, among others, robust corporate governance practices and internal capital adequacy

assessment controls; and (vi) intervene at the early stages when a credit institution does not meet or is likely to breach the applicable prudential requirements.

The ECB also has the right to impose pecuniary sanctions on credit institutions and adopt regulations only to the extent necessary to organise or specify the arrangements for the carrying out of the tasks conferred on it.

The ECB and the national central banks together constitute the Eurozone's central bank system. The ECB performs its supervisory duties through the SSM in collaboration with the competent national authorities, namely, in the case of Greece, the Bank of Greece.

The operation and supervision of credit institutions within the EU is governed by the CRD IV and Regulation (EU) No 575/2013, as amended by Regulation 2017/2401 which applies from 1 January 2019 and by Regulation 2017/2295 which applies from 2 January 2019, on prudential requirements for credit institutions and investment firms (the **CRR**) and Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 (**CRR II**), published in the Official Journal of the European Union on 7 June 2019 which entered into force 20 days after publication. The CRD IV Directive has been amended by Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 (the **CRD V Directive**), which will need to be transposed into Greek law before taking effect.

The Regulatory Framework – Prudential Supervision

Credit institutions operating in Greece are required to:

- Observe the liquidity ratios prescribed by the applicable articles of the Banking Law and the CRR and Commission Delegated Regulation (EU) 2015/61 supplementing the CRR with regard to liquidity coverage requirement for credit institutions, as well as several other Commission Delegated Regulations supplementing the CRR with regard to regulatory technical standards for own funds, additional liquidity outflows etc.;
- Maintain efficient internal audit, compliance and risk management systems and procedures (Act No. 2577/2006 of the Governor of the Bank of Greece, as supplemented and amended by successive Acts of the Governor of the Bank of Greece and decisions of the Banking and Credit Committee of the Bank of Greece);
- Submit to the ECB periodic reports and statements;
- Provide to the ECB or the Bank of Greece such further information as it may require; and
- In connection with certain operations or activities, make notifications to or request the prior approval of (as the case may be) the ECB or the Bank of Greece, in each case in accordance with the applicable laws of Greece and the relevant acts, decisions and circulars of the Bank of Greece (each as in force from time to time).

Under Greek legislation, the ECB, in the exercise of its control over Greek credit institutions, has the power to conduct audits and inspect the books and records of credit institutions. If a credit institution breaches any law or regulation falling within the scope of the supervisory power attributed to the ECB, the ECB is empowered, among others, to:

- Require the relevant credit institution to take appropriate measures to remedy the breach;
- Impose fines (Article 55A of the articles of association of the Bank of Greece, as amended by Act No. 2602/2008 of the Governor of the Bank of Greece);

- Appoint an administrator who shall evaluate the general financial, administrative and organisational state of the credit institution and take all necessary steps to ensure its proper operation, preparing it either for recovery or entry into liquidation proceedings; and
- Where the breach cannot be remedied, suspend or revoke the license of the credit institution and place it in a state of special liquidation.

The Bank of Greece was the competent authority for the resolution of credit institutions operating in Greece until 31 December 2015. As of 1 January 2016, the SSM became the competent authority for the resolution of credit institutions operating in.

Transposition of Directive 2001/24/EC of the European Parliament and of the Council of 4 April 2001 on the Reorganisation and Winding Up of Credit Institutions

Greece has faithfully transposed Directive No. 2001/24/EC by virtue of Greek law 3458/2006 on the winding-up and reorganisation of credit institutions. Greek law 3458/2006, as amended and in force, is in line with the provisions of Directive No. 2001/24/EC introduces a series of conflicts of laws rules on the laws applicable to the winding-up and reorganisation of a credit institution, including among others:

Law Governing the Reorganisation Measures

Article 4 sets the rule by providing that any reorganisation process shall be applied in accordance with the laws, regulations and procedures applicable in the Home State of the credit institution, subjected to such process. The process would be carried out in accordance with the provisions of the Banking Law.

Law Governing the Winding-Up Process

Article 11 introduces a conflict of laws rule on the winding up process for credit institutions, pursuant to which any credit institution shall be wound up in accordance with the laws, regulations and procedures applicable in Greece insofar as Greek law 3458/2006 does not provide otherwise.

The regulatory framework has been affected by the recapitalisation framework and the creation of the HFSF. See "*The Macroeconomic Environment in Greece*".

Transposition of Directive 2014/59/EU Establishing a Framework for the Recovery and Resolution of Credit Institutions

The European Council of October 18, 2012 reached the conclusion that "*in the light of the fundamental challenges facing it, the Economic and Monetary Union needs to be strengthened to ensure economic and social welfare as well as stability and sustained prosperity*" and that "*the process towards deeper economic and monetary union should build on the EU's institutional and legal framework and be characterised by openness and transparency towards non-euro area Member States and respect for the integrity of the Single Market.*" For that reason a banking union is created on the basis of a complete and detailed set of rules for financial services covering the entire internal market by establishing a single supervisory mechanism, the introduction of a new deposit guarantee and resolution framework.

Within that context, Directive No. 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (**BRRD**) and Regulation (EU) 806/2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions were adopted. The BRRD was transposed into Greek law by virtue of Article 2 of Greek law 4335/2015 and has entered into force on July 23, 2015 (with the exception of certain provisions related to the bail-in tool, which apply from January 1, 2016).

According to Greek law 4335/2015 (the **BRR Law**), the Bank of Greece remained the resolution authority for Greek systemic credit institutions until 31 December 2015, and as of 1 January 2016 the resolution powers were conferred to the SRM, established by virtue of the above Regulation (EU) 806/2014.

Greek law 4335/2015, as in force, provides, *inter alia*, the steps of preparation for the adoption of measures of recovery and resolution, including:

- (a) the drawing up and the submission of recovery plans by credit institutions to the Bank of Greece for evaluation, which provide the measures to be taken for the restoration of their financial position following a significant deterioration thereof; and
- (b) the drawing up of a resolution plan by the resolution authority for each credit institution.

Furthermore, Greek law 4335/2015, as in force, provides the competent authority with extensive powers for the early intervention in the operations of a credit institution in order to prevent its insolvency. Within this framework, the Bank of Greece, as the competent resolution authority, may take the following measures:

- Require the management body of the institution to implement one or more of the arrangements or measures set out in the recovery plan or to update such recovery plan;
- Require the management body of the institution to examine the situation, identify measures to overcome any problems identified and draw up an action program to overcome those problems and a timetable for its implementation;
- Require the management body of the institution to convene, or if the management body fails to comply with that requirement convene directly, a meeting of shareholders of the institution, and in both cases set the agenda and require certain decisions to be considered for adoption by the shareholders;
- Require one or more members of the management body or senior management to be removed or replaced if those persons are found unfit to perform their duties;
- Require the management body of the institution to draw up a plan for negotiation on restructuring of debt with some or all of its creditors according to the recovery plan, where applicable;
- Require changes to the institution's business strategy;
- Require changes to the legal or operational structures of the institution; and
- Acquire, including through on-site inspections and provide to the resolution authority, all the information necessary in order to update the resolution plan and prepare for the possible resolution of the institution and for the valuation of the assets and liabilities of the institution prior to and for the purpose of its resolution.

In case of significant deterioration of the financial condition of an institution or of significant infringements of the law, regulatory acts or the constitutional documents of the institution or in case of significant administrative irregularities, and provided that the above measures are not sufficient to reverse the deterioration, the competent authority, may require the removal of the senior management or management body of the institution, in its entirety or with regard to individuals. When the competent authority considers the replacement of the senior management or the management body as insufficient for the restoration of the situation, it may appoint one or more commissioners either to temporarily replace the board of directors of the institution or to temporarily cooperate with it. The role and duties of such commissioner shall, *inter alia*, include ascertaining the financial position of the institution, managing the business of the institution with a

view to preserving or restoring its financial position as well as taking measures to restore the sound and prudent management of the business of the institution.

In case a credit institution, despite the early intervention of the competent authority, becomes insolvent, the resolution authority may take measures for its resolution. In this regard, Greek law 4335/2015, as in force, introduces four new resolution tools:

- The sale of business tool: According to this tool the resolution authority has the power to transfer, on commercial terms, to a purchaser that is not a bridge institution shares or other instruments of ownership and/or some or all of the assets of the institution under resolution, namely rights, obligations and contractual relationships of such institution, without the consent of its shareholders or of any third party other than the acquirer. Following this, the institution is placed under special liquidation;
- The bridge institution tool: According to this tool the resolution authority has the power to transfer to a bridge institution shares or other instruments of ownership and/or some or all of the assets of the institution under resolution, namely rights, obligations and contractual relationships of such institution, without the consent of its shareholders or of any third party other than the bridge institution, which is then placed under special liquidation. The bridge institution, which is established to serve the purposes of the resolution, belongs in its entirety or partially to the Resolution Fund (namely the Resolution Scheme of the HDIGF pursuant to paragraph 1 of article 95 of the Greek law 4335/2015, but also see below under "*Single Resolution Fund*") or one or more public authorities, while it is created exclusively for the abovementioned purpose. The bridge institution or its assets are sold on commercial terms within two years from its establishment or otherwise the bridge institution is placed under liquidation;
- The asset separation tool: the resolution authority may use this tool to transfer assets, namely rights, obligations and contractual relationships of an institution under resolution or a bridge institution to one or more asset management vehicles, without the consent of the shareholders of the institution under resolution or of any third party other than the bridge institution. These asset management vehicles are legal persons owned in total or partially or controlled by one or more authorities, including the Resolution Fund or the resolution authority and created for the purpose of receiving some or all of the assets, rights and liabilities with the purpose of maximising their value until their eventual sale or orderly wind down; and
- The bail-in tool is a new tool which the resolution authority may use for the write down or conversion of the liabilities of the institution under resolution. (for a more detailed description of this tool please see below under "*The Bail-in tool*").

According to Article 32 of Greek law 4335/2015, the resolution tools may be used provided that the following conditions are cumulatively met:

- The institution is failing or is likely to fail, namely:
 - The institution infringes or there are objective elements to support a determination that the institution will, in the near future, infringe the requirements for continuing authorisation in a way that would justify the withdrawal of the authorisation by the competent authority including but not limited to because the institution has incurred or is likely to incur losses that will deplete all or a significant amount of its own funds;
 - The assets of the institution are or there are objective elements to support a determination that the assets of the institution will, in the near future, be less than its liabilities;

- The institution is or there are objective elements to support a determination that the institution will, in the near future, be unable to pay its debts or other liabilities as they fall due; and
- Extraordinary public financial support is required except when, in order to remedy a serious disturbance in national economy and preserve financial stability, the extraordinary public financial support takes any of the following forms: (i) a state guarantee to back liquidity facilities provided by the central bank according to the conditions governing its operation; (ii) a state guarantee of newly issued liabilities; or (iii) an injection of own funds or purchase of capital instruments at prices and on terms that do not confer an advantage upon the institution, where neither the circumstances referred to under the preceding three bullet points of this paragraph nor the circumstances referred to in paragraphs 2 and 9 of Article 59 of Greek law 4335/2015 are present at the time the public support is granted.
- Having regard to timing and other relevant circumstances, there is no reasonable prospect that any alternative private sector measures or supervisory action would prevent the failure of the institution within a reasonable timeframe; and
- A resolution action is necessary in the public interest and in particular for the achievement of and is proportionate to one or more of the resolution objectives and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The resolution procedure is governed by specifically defined principles set out in Article 34 of Greek law 4335/2015 and is based on a fair, prudent and realistic valuation of the assets and liabilities of the credit institution under resolution, performed in accordance with Article 36 of Greek law 4335/2015 by a valuator who is appointed by the resolution authority and is independent from any public authority, including the resolution authority and the institution, with the following purposes:

- To inform the determination of whether the conditions for resolution or the conditions for the write down or conversion of capital instruments are met;
- If the conditions for resolution are met, to inform the decision on the appropriate resolution action to be taken in respect of the institution;
- When the power to write down or convert relevant capital instruments is applied, to inform the decision on the extent of the cancellation or dilution of shares or other instruments of ownership, and the extent of the write down or conversion of relevant capital instruments in order to comply with the principle that no creditor will incur greater losses than it would have incurred if the institution under resolution had been wound up under normal insolvency proceedings ("creditor no worse off principle");
- When the bail-in tool is applied, to inform the decision on the extent of the write down or conversion of eligible liabilities;
- When the bridge institution tool or asset separation tool is applied, to inform the decision on the assets, rights, liabilities or shares or other instruments of ownership to be transferred and the decision on the value of any consideration to be paid to the institution under resolution or, as the case may be, to the owners of the shares or other instruments of ownership;
- When the sale of business tool is applied, to inform the decision on the assets, rights, liabilities or shares or other instruments of ownership to be transferred and to inform the resolution authority's understanding of what constitutes commercial terms; and

- In all cases, to ensure that any losses on the assets of the institution are fully recognised at the moment the resolution tools are applied or the power to write down or convert relevant capital instruments is exercised.

The Bail-in Tool

The bail-in tool includes the bail-in and/or the write down or conversion of capital instruments. The bail-in tool can be used separately or in conjunction with the other resolution measures. The bail-in tool entered into force on 1 November 2015 with the exception of the provisions according to which the application of the bail-in tool requires the contribution of private sector investors and creditors to loss absorption and recapitalisation of the credit institution must be equal to an amount not less than 8 per cent. of the total liabilities (including own funds) of the institution under resolution, measured at the time of resolution action in accordance with the valuation provided for in Article 36 of Greek law 4335/2015, which entered into force as of 1 January 2016.

The resolution authority may implement the bail-in tool for any of the following reasons:

- (a) for the recapitalisation of an institution that meets the requirements for resolution; or
- (b) for the conversion to share capital or the write down of the liabilities or the debt instruments transferred to a bridge institution in order to provide it with capital, or in the context of the implementation of the sale of business tool or asset separation tool. The restructuring of the liabilities using the bail-in tool takes place in a manner which ensures that the shareholders bear losses first, followed by relevant capital instruments, subordinated liabilities and senior unsecured liabilities, in accordance with their hierarchy in normal insolvency proceedings.

When applying the bail-in tool for the write down or conversion of capital instruments, the resolution authority shall take in respect of shareholders and holders of other instruments of ownership one or both of the following actions:

- Cancel existing shares or other instruments of ownership or transfer them to bailed-in creditors; and
- Provided that, in accordance to the valuation carried out under Article 36, the institution under resolution has a positive net value, dilute existing shareholders and holders of other instruments of ownership as a result of the conversion into shares or other instruments of ownership of: (i) relevant capital instruments issued by the institution pursuant to the power referred to in Article 59 paragraph 9 of Greek law 4335/2015; or (ii) eligible liabilities issued by the institution under resolution pursuant to the power referred to in point (f) of Article 63 paragraph 1 of the same law.

The following liabilities are excluded from the bail-in tool:

- Covered deposits;
- Secured liabilities including covered bonds and liabilities in the form of financial instruments used for hedging purposes which form an integral part of the cover pool and which according to national law are secured in a way similar to covered bonds;
- Any liability that arises by virtue of the holding by the institution of client assets or client money including client assets or client money held on behalf of UCITS as defined in paragraph 2 of Article 2 of Greek law 4099/2012 or of AIFs as defined in point (a) of paragraph 1 of Article 4 of Greek law 4209/2013, provided that such a client is protected under the applicable insolvency law;

- Any liability that arises by virtue of a fiduciary relationship between the institution (as fiduciary) and another person (as beneficiary) provided that such beneficiary is protected under the applicable insolvency or civil law;
- liabilities to institutions, excluding entities that are part of the same group, with an original maturity of less than seven days;
- liabilities with a remaining maturity of less than seven days, owed to systems or operators of systems designated according to Greek law 2789/2000 or their participants and arising from the participation in such a system;
- Deposits of the HDIGF and the Stock Exchange Members' Guarantee Fund;
- A liability to any one of the following:
 - An employee, in relation to accrued salary, termination compensation, pension benefits or other fixed remuneration, except for the variable component of remuneration that is not regulated by a collective bargaining agreement;
 - A commercial or trade creditor arising from the provision to the institution of goods or services that are critical to the daily functioning of its operations, including IT services, utilities and the rental, servicing and upkeep of premises;
 - Tax and social security authorities, provided that those liabilities are preferred under the applicable law; and
 - Deposit guarantee schemes arising from contributions due in accordance with Directive No. 2014/49/EU.

All secured assets relating to a covered bond cover pool should remain unaffected, segregated and with enough funding. However, neither this requirement nor the exclusion of the secured liabilities (including covered bonds) shall prevent the resolution authority, where appropriate, from exercising those powers in relation to any part of a secured liability that exceeds the value of the security.

The power to write down or convert relevant capital instruments conferred to the resolution authority under Articles 59 *et seq.* of Greek law 4335/2015, as in force, and which constitute the second part of the bail-in tool may be exercised either independently of the resolution action taken by the resolution authority within the context of the bail-in tool for the purpose of the recapitalization of a credit institution or in combination with the action taken by the resolution authority provided that the requirements set out in Articles 32 and 33 of Greek law 4335/2015 are fulfilled or in combination at the point of non-viability with the government financial stabilization tools provided for in Articles 56 to 58 of the same law (please see below under "*Extraordinary Public Financial Support*"), under the circumstances provided by the applicable legislation, for example when it is established that the conditions for resolution are met or when the competent authority establishes that if the said power is not exercised, the institution will cease to be viable (**PONV**). If an institution meets the requirements for resolution and the resolution authority decides to implement a resolution tool, then the exercise of the above power is required.

As is the case for the bail-in tool, the BRRD sets a special ranking of the instruments subject to the powers of write down or conversion in the following order: common shares, preferred shares, hybrids and subordinated securities. In that case the exercise of such power is based on the valuation performed by an independent valuator appointed by the resolution authority in accordance with Article 36. By virtue of Greek law 4335/2015, as in force, a new Article 145A was introduced into Greek law 4261/2014 determining the ranking of claims upon special liquidation of a credit institution.

More specifically, in accordance with Article 145A, as amended by virtue of Greek laws 4340/2015, 4346/2015 4438/2016 and more recently by Greek law 4583/2018, the following claims are ranked preferentially in the following order:

- (a) Employment claims of paragraph (d) of Article 154 of the Bankruptcy Code;
- (b) Claims of the State in case of application of Articles 57 or 58 of Greek law 4335/2015;
- (c) Claims from covered deposits or claims of the HDIGF which substitutes compensated depositors in their rights and liabilities for the amount of such compensation or claims of the HDIGF due to the use of the Deposit Guarantee Scheme in the context of a resolution according to Article 104 of Greek law 4335/2015;
- (d) Claims of the State from any cause, along with surcharges and interest accrued on such claims;
- (e) The following claims:
 - (i) Claims of the Resolution Fund according to paragraph 6 of Article 98 of Greek law 4335/2015 in case of financing with the purpose of fulfilling the obligations of the Resolution Fund according to the specific provisions of Article 95 of Greek law 4335/2015; and
 - (ii) Claims from eligible deposits exceeding €100,000 for the deposits of individuals and micro, small and medium-sized enterprises, as well as claims from deposits of individuals and micro, small and medium-sized enterprises which would have been eligible if they had not made via branches outside of the European Union of credit institutions which are registered in European Union,
- (f) Claims from covered investment services in the meaning of Articles 12 and 13 of Greek law 4370/2016, or relevant subrogation claims of the HDIGF.
- (g) Claims from eligible deposits, insofar as they exceed €100,000, according to article 9 of Greek law 4370/2016, but do not fall under (e) above;
- (h) Claims from deposits not covered under the compensation scheme of the HDGIF, with the exception of deposits falling under (b) above; and
- (i) Claims that are not included in the above cases, that are not subordinated according to the relevant agreements and that derive, indicatively, from loans and other credit agreements, product or services procurement agreements or derivatives. Said claims do not include (i) claims from bonds issued by credit institutions, with the exception of bonds guaranteed by the Hellenic Republic, (ii) claims from guarantees given by a credit institution in relation to bonds or hybrid notes issued by subsidiaries within the meaning of paragraph 2 of Article 32 of Greek law 4308/2014, irrespective of their registered seat, or (iii) claims of such subsidiaries when they derive from loan or deposit agreements with the credit institution, by virtue of which the credit institution is granted as loan or accepts as deposit the funds from the issue of bonds or hybrids by such subsidiaries. In case of such a deposit by the subsidiary to the credit institution, the exception applies to the part of the deposit not covered by the point (c) above. Claims under (i) to (iii) of this paragraph rank as non preferred claims unless the obligations of the subsidiary from the bonds or the hybrid notes issued by it in respect of which the guarantee was granted or the loan or deposit agreement was concluded in the sense of cases (ii) and (iii) above are subordinated obligations of the subsidiary, in which case the claims against the credit institution will also be subordinated in the same manner.

Claims under the first and second points of point (e) above are satisfied in equal parts. The provisions of Articles 154 *et seq.* of the Bankruptcy Code are applicable in all other respects.

Directive (EU) 2017/2399 amended BRRD, *inter alia*, with regards to the ranking of unsecured debt instruments in insolvency hierarchy in the context of ensuring sufficient loss-absorbing and recapitalisation capacity of institutions. Directive (EU) 2017/2399 required, *inter alia*, EU Member States to create a new class of “non-preferred” senior debt under the terms provided therein. The new class of “non-preferred” senior should rank in insolvency above own funds instruments and subordinated liabilities that do not qualify as own funds instruments, but below other senior liabilities. While institutions will have the discretion to issue both traditional senior debt, if they issue the latter, they need to explicitly state this in the relevant contractual documentation and, where applicable, the prospectus related to the issuance. Further to the abovementioned EU Directive, articles 103-104 of Greek law 4583/2018 were introduced into Greek legislation. It is noted that ranking of the deposits in the context of normal insolvency proceedings is not affected by the above provisions.

It is noted that according to the new Article 145A of Greek law 4261/2014, as amended and in force, in deviation from the above, the following claims are satisfied preferentially as follows: (a) If upon the special liquidation of a credit institution there exist rights from financial collateral agreements within the meaning of Article 2 of Greek law 3301/2004, the collateral taker is fully satisfied from the collateral to the exclusion of any other claims (paragraph 4 of Article 145 of Greek law 4261/2014); (b) During the activation of the procedure for the compensation of depositors according to the provisions of Article 15 of Greek law 4370/2016, as in force, the funds of the Deposit Guarantee Scheme of the HDIGF that are deposited with the failing credit institution, the relevant accrued interest as well as any contribution due to the Deposit Guarantee Scheme of the HDIGF are returned immediately to the latter from the management of the credit institution, in deviation of any other provision of substantive or procedural law and prior to the satisfaction of any other claim; and (c) during the activation of the procedure for the compensation of investors, according to the provisions of Article 15 of Greek law 4370/2016, as in force, the funds of the Investors Guarantee Scheme of the HDIGF that are deposited with the failing credit institution, the relevant accrued interest as well as any contribution due to the Investors Guarantee Scheme of the HDIGF are returned immediately to the latter from the management of the credit institution, in deviation of any other provision of substantive or procedural law and prior to the satisfaction of any other claim. By virtue of Greek law 4340/2015, the above-described ranking of the claims was rendered a mandatory rule of public interest.

In exceptional circumstances, when the bail in tool is implemented, the resolution authority may exclude or partially exclude certain liabilities from the application of the write down or conversion powers. This exception shall apply in case it is strictly necessary and proportionate and shall fall under the specific requirements provided by law.

Extraordinary Public Financial Support

In cases of an exceptional systemic crisis, extraordinary public financial support may be provided, by virtue of a decision of the Greek Minister of Finance, following a recommendation of the Systemic Stability Board of the Greek Ministry of Finance constituted by Greek law 3867/2010, as in force, and a consultation with the resolution authorities, through public financial stabilisation tools as a last resort and only after having assessed and utilised, to the maximum extent, the other resolution tools, in order to avoid, through the direct intervention, the winding-up of the said institutions and in order for the resolution purposes to be accomplished. The public financial stabilisation tools are:

- (a) public capital support provided by the Greek Ministry of Finance or by the HFSF following a decision by the Greek Minister of Finance; and
- (b) temporary public ownership of the institution, i.e. the transfer of the shares of an institution to a transferee of the Greek State or a company which is fully owned and controlled by the Greek State.

The following conditions must be cumulatively met in order for the public financial stabilisation tools to be implemented:

- (a) the institution meets the conditions for resolution;
- (b) the shareholders, owners of other instruments of ownership, holders of relevant capital instruments and the holders of eligible liabilities have contributed, through conversion, write down or by any other means, to the absorption of losses and the recapitalisation by an amount equal to at least 8 per cent. of the total liabilities, including own funds of the institution under resolution, calculated at the time of the resolution action in accordance with the valuation conducted; and
- (c) prior and final approval by the European Commission regarding the EU state aid framework for the use of the chosen tool has been granted.

In addition to the above, for the provision of public financial support, one of the following conditions must be met:

- (a) the application of the resolution tools would not suffice to avoid a significant adverse effect on the financial stability;
- (b) the application of the resolution tools would not suffice to protect the public interest, where extraordinary liquidity assistance from the central bank has previously been given to the institution; and
- (c) in respect of the temporary public ownership tool, the application of the resolution tools would not suffice to protect the public interest, where public equity support through the equity support tool has previously been given to the institution.

By way of exception, extraordinary public financial support may be granted to a credit institution in the form of an injection of own funds or purchase of capital instruments without the involvement of resolution measures, under the following cumulative conditions:

- in order to remedy a serious disturbance in the economy of an EU Member State and preserve financial stability;
- to a solvent credit institution in order to address a capital shortfall identified in a stress test, assets quality reviews or equivalent exercises;
- at prices and on terms that do not confer an advantage upon the institution;
- on a precautionary and temporary basis;
- subject to final approval of the European Commission;
- not to be used to offset losses that the institution has incurred or is likely to incur in the near future;
- the credit institution has not infringed and there are no objective elements to support that the credit institution will, in the near future, infringe its authorisation requirements in a way that would justify the withdrawal of its authorisation;
- the assets of the credit institution are not and there are no objective elements to support that the assets of the credit institution will, in the near future, be less than its liabilities;

- the credit institution is not and there are no objective elements to support that the credit institution will be unable to pay its debts or other liabilities when they fall due; and
- the circumstances for the exercise of the write down or conversion powers in respect of Additional Tier 1 and Tier 2 capital instruments of the institution do not apply.

Restrictions to the Free Movement of Capital

Article 63 of the Treaty on the Functioning of the EU (TFEU) establishes the free movement of capital among the European Union member states. However, according to Article 65 of the TFEU, in exceptional circumstances, the member states may impose restrictions to such freedom in order to, among other things, "*...take measures which are justified on grounds of public policy or public security*".

Within the context of such exception and for the protection of the public interest, namely, the systemic stability of the Greek banking system, a legislative act dated 28 June 2015 introduced a short term bank holiday and imposed capital controls applying to all credit institutions operating in Greece under any form, including branches of foreign credit institutions falling within the scope of Greek law 4261/2014 (the **Greek Banking Law**), as in force, the Consignment Deposits and Loans Fund, the payment institutions of Greek law 3862/2010, the electronic money institutions of Greek Law 4021/2011, as well as the branches and agents of payment institutions and electronic money institutions which have their registered seats abroad and operate lawfully in Greece (hereinafter the **Institutions**).

The short term bank holiday period ended on 20 July 2015, but the capital controls on banking activities remain in force, although they have been relaxed pursuant to a Legislative Act endorsed on 18 July 2015 (Government Gazette Issue A 84/18.7.2015), as amended by a Legislative Act dated 31 July 2015 (Government Gazette Issue A 90/31/7/2015) and they were ratified by article 4 of Greek law 4350/2015 as subsequently amended.

The main provisions of the capital controls legislation can be summarised, as follows:

- Cash withdrawals are permitted without any limitation in the amount as of October 1, 2018 from credit institutions in Greece, including withdrawals with the usage of credit and prepaid cards;
- Cash withdrawals are permitted up to the amount of €5,000 or its equivalent in foreign currency, as of October 1, 2018, per calendar month per depositor (Customer ID) from institutions abroad, including withdrawals with the usage of credit and prepaid cards issued by credit institutions operating in Greece;
- The transfer of capital or cash abroad, in any way, is prohibited, including the instruction to transfer funds to bank accounts kept with credit institutions seated and operating abroad, as well as the transfer of funds by using credit, prepaid and debit cards for cross border payments. The following are exceptionally allowed:
 - The transfer of banknotes in euro or other currency is permitted per individual person and per trip abroad up to the amount of €10,000 or its equivalent in foreign currency, while permanent residents abroad are excluded from the abovementioned restriction;
 - The acceptance and execution, by credit institutions, of orders for capital transfers abroad shall be specifically allowed up to an amount of €4,000 per depositor (Customer ID) during a two-month period and up to an aggregate monthly ceiling for all the credit institutions, to be determined and allocated among credit institutions by decision of the Committee for the Approval of Banking Transactions; and

- By way of derogation from the above, the use of credit and debit cards abroad shall be permitted for cashless purchases of goods or services up to a maximum amount specified per credit institution by the Committee for the Approval of Banking Transactions:
 - The acceptance and execution of orders for capital transfers abroad by the payment institutions supervised by the Bank of Greece, including their agents, as well as by payment institutions of other EU member states that legally provide money remittance services through their agents in Greece or through Hellenic Post S.A., shall be allowed up to an amount of €4,000 per individual person/transferor per two-month period and up to an aggregate monthly ceiling in euro for all the above Payment Service Providers, to be determined and allocated among Payment Service Providers by decision of the Committee for the Approval of Banking Transactions. The ceiling per Payment Service Provider, for which the exact method of calculation shall be specified by decision of the Committee for the Approval of Banking Transactions, shall be determined on the basis of the monthly net balance between the incoming (to Greece) and the outgoing (abroad) remittances processed by the Payment Service Provider.
- The opening of new accounts and the addition of co-beneficiaries to existing accounts is allowed, irrespective of the establishment of new Customer ID;
- The early prepayment, partially or in full, of loans to credit institutions is permitted;
- The early termination, in full or in part, of fixed term deposits is permitted;
- In case of an attachment of a monetary claim at the hands of a credit institution, the Bank of Greece or the Consignment Deposits and Loans Fund as a third party, the payment of the amount of the claim in cash is not allowed. The sum is either paid by way of the issuance of a check or obligatorily credited with a bank account of the attaching party kept with the same or another credit institution;
- Entering into agreements for the acceptance of payment card transactions is prohibited if such transactions are cleared by crediting an merchant's account held with an electronic money institution outside Greece;
- The transfer of custody abroad for financial instruments referred to in article 5 of Greek law 3606/2007 is prohibited; and
- Cash withdrawal up to a total of 100 per cent. is permitted from money that, following 1 September 2017, are transferred from abroad by means of credit transfer to existing accounts held with a credit institution operating in Greece under a procedure to be further determined by the Committee for the Approval of Banking Transactions.

The following transactions are exempt from the above restrictions and prohibitions:

- Transactions of the Hellenic Republic;
- Transactions of the Bank of Greece;
- Specific transactions, the conduct of which is approved by way of decision of the Committee for the Approval of Banking Transactions;
- Cross border payment instructions that exclusively pertain to the crediting of an account kept with an institution operating in Greece;

- Capital transfer transactions pertaining to the management of liquidity of a credit institution operating in Greece and to payment obligations in the framework of contract management such as indicatively, transactions with other local and foreign financial institutions, foreign clearing houses in the context of the credit institution's own portfolio management and which concern:
 - Monetary policy operations;
 - Settlement and clearing of transactions entered into force before 28 June 2015;
 - Charge/release of collateral, capital transfers to meet margin calls/collateral substitution (e.g. under ISDA, CSA, GMRA, CLS, Escrow, EIB etc.), provision of collateral, payments in the context of transactions governed by the above contracts and/or borrowing agreements of the credit institution on its own account;
 - Rollover, renewal and management of financial positions (indicatively, currency and derivative positions, other interbank transactions, etc.) having reached maturity and whose renewal is deemed necessary, either in part or in whole, with the same or a different counterparty;
 - Entry into and settlement of new interbank transactions (including but not limited to interbank lending, transactions in derivatives, FX spot, repo, buy/sellback and securities lending operations, etc.) or early termination or modification of the terms thereof, provided that such transactions do not lead to a material change in the total liquidity of the credit institution. Interbank transactions are understood to include transactions and payments carried out with domestic and foreign credit institutions, foreign clearing houses and subsidiaries of credit institutions operating in Greece;
 - Any other interbank transaction deemed necessary for managing the credit institution's liquidity and financial and foreign exchange position (including but not limited to currency and derivative positions, etc.) arising from the execution of permitted transactions with individuals or legal entities;
 - In general, fulfilment of obligations for taxes and levies, as well as commission fees and charges arising from transactions of a credit institution, investment firm, UCITS and their customers *vis-à-vis* exchanges, payment and securities settlement systems, depositories, clearing houses, rating agencies, custodians, correspondents/intermediaries, transaction registries, payment agents, regulated markets or other multilateral trading facilities (MTFs);
 - Execution of payments relating to securities and asset-backed securities issued directly or indirectly by the credit institution or its subsidiaries, including but not limited to:
 - Coupon payments, etc.;
 - Payment of invoices of third parties (fees and costs of lawyers, managers, trustees, paying agents, etc.);
 - Full or partial repayment of principal under contractual obligations or following the triggering of contractual clauses;
 - Payment of consultancy fees to external advisors on matters related to the transactions under points (i) through (viii) herein above; and
 - Debit/credit entries in nostro/vostro accounts of subsidiaries and third-party credit institutions, via orders-messages, irrespective of currency.

The transactions that fall within the above scope, insofar as their purpose is to ensure the smooth and orderly functioning of the credit institution may be executed without the need for special notification, provided that such transactions do not lead to a material change in the credit institution's liquidity. In the context of the above, the conduct of transactions concerning the customers of credit institutions is not allowed. Any transactions within the scope of this paragraph shall be communicated to the Committee for the Approval of Banking Transactions.

- All monetary sums transferred from abroad by way of transfer of credit to accounts kept with a credit institution operating in Greece, if these are transferred anew, in part or in whole, to an account kept with a credit institution operating abroad. Especially, shipping companies referred to in Greek laws 27/1975, 959/1979 and in the Greek Legislative Decree 2687/1953 may also make cash withdrawals from the amounts referred to in the first sentence of this paragraph up to the amount of fifty thousand (50,000) euro per day. By virtue of a decision issued by the Committee for the Approval of Banking Transactions, the cash withdrawals may be permitted and a cash withdrawal limit per day may also be set for other business sectors falling within the scope of the first sentence of this paragraph. The relevant evidencing of the transaction of inflow of capital from abroad and outflow of capital abroad shall be the responsibility of the credit institution and must be complete. The management of the credit institutions shall announce the manner and time of implementation of the provisions of this paragraph. This case also includes the transfer of funds abroad by an institution, for the purchase of foreign financial instruments, within the meaning of Article 5 of Law 3606/2007, as currently in force, provided that the originating bank account, held by the transferor on his/her own behalf or by the investment service provider as a client account at an institution, has been credited after the launch of the bank holiday of 28 June 2015, with funds from a foreign remittance, including cases of credit transfers as a result of a sale, buyback or redemption of foreign financial instruments or cash flows in respect of such financial instruments. If the transfer of funds outside the Greek banking system is permitted, then capital transfers are also permitted for the acquisition of units of UCITS of Greek law 4099/2012.

Further to the above, it is permitted to withdraw cash, up to a percentage of 50% in total, from amounts which are transferred abroad after 1 September 2017 by means of a credit transfer to existing accounts held with a credit institution in Greece, through a procedure determined by the Committee for the Approval of Banking Transactions. After 1 December 2017, the above mentioned percentage increased to 100%;

- Remittance or transfer of credit by a Greek public or private law educational organisation or technological institute or research university institute within the meaning of Greek Law 4310/2014 to an account kept with a credit institution seated and operating abroad, of a sum exclusively deriving from remittance or transfer of credit from abroad, which was carried out within the year 2015 exclusively to serve educational or research purposes. In order to carry out such transactions the credit institutions shall proceed with the opening of special accounts for this purpose and the amounts to be transferred will be credited exclusively to such accounts;
- Payments of payroll abroad for employees in diplomatic missions, permanent missions or other services of the Greek State, by way of transfer of credit of an amount equal to the payroll to an account kept with a credit institution operating outside Greece. Employees in diplomatic missions, permanent missions or other services of the Greek State abroad, which maintain payroll accounts with a credit institution seated and operating in Greece, are allowed to transfer an amount equal to the payroll abroad, documenting their capacity in writing;
- Payment abroad of pensions and welfare allowances of any nature by social security organisations governed by Greek law, by crediting an account held at a credit institution having its seat and operating outside Greece, provided that, prior to the commencement of the bank holiday that was declared by the legislative act dated 28 June 2015, the beneficiary of such pension or welfare

allowance used to receive his pension or welfare allowance in the aforementioned manner or had filed a relevant application, as well as if pension is paid to him/her for the first time after 22 July 2016, in the latter case provided that the beneficiary proves that he/she resides abroad at least for the last two years;

- The cash withdrawal from a bank account and the cash transfer abroad of a maximum lump sum of €2,000 or the equivalent in foreign currency for one escort of an individual who is travelling abroad for hospital treatment, provided that the purpose of travelling abroad for treatment is evidenced in writing;
- The payment of cash by the payment institutions supervised by the Bank of Greece, including their agents, as well as by the payment institutions of other EU Member States that provide legally money remittance services through their agents in Greece or through Hellenic Post S.A., to beneficiaries of remittances from abroad shall be allowed, provided that the payment institution: (i) has physically imported an at least equal amount from abroad, after the entry into force of the relevant legislation, and has reported such import to the Bank of Greece or (ii) has received an at least equal amount in cash from its customers/originators of remittances abroad. Moreover, the transfer of money remittances in Greece by payment of cash to the beneficiaries is allowed, provided that the payer has deposited the total amount in physical form;
- The payment of hospital bills and medical expenses and tuition, upon submission of the necessary documentation to the credit institution via which the transaction is conducted, proving that the relevant preconditions are in place. The payment of the expenses in question is obligatorily conducted electronically through the credit institution, to an account kept abroad for the crediting of such amounts and not to an account of the beneficiary;
- The transfer of a maximum sum of five thousand (5,000) euro or the equivalent in foreign currency, per calendar trimester, in total for residence and living expenses of students studying abroad or participating in student exchange programs. The payment is obligatorily made electronically via a credit institution, to an account kept abroad with the student as beneficiary. However, in cases where the above funds are directly credited to an account held by a student residence or a lessor of residential property for a student, upon submission of a lease contract or other relevant supporting document, then the transfer of an amount of up to eight thousand (8,000) euro or the equivalent in foreign currency shall be allowed per calendar trimester;
- Funds brought into the country by international organisations and lawfully established and operating charity institutions, where such amounts have been raised specifically for humanitarian purposes;
- Following the amendment on 14 November 2017, transactions of legal entities or professionals involving a transfer of funds abroad, in the context of their business activities, in an amount not in excess of €100,000 each, per customer, per day, following the submission of the relevant invoices and other evidence and documentation, compulsorily accompanied by a solemn declaration to the effect that the above documents are genuine and have not been submitted to any other credit institution. These transactions shall be processed directly by the branch networks of credit institutions, by crediting the counterparty's account, and shall be subject to the ceiling determined by the Committee for the Approval of Banking Transactions for each credit institution;
- Transactions of individuals warranted by important health-related reasons or extraordinary social reasons, involving payments abroad or cash withdrawals, against submission to the credit institution of the required documentation proving that the relevant conditions are met accompanied by a statutory declaration to the effect that the above documents are genuine and have not been submitted to any other credit institution. An aggregate monthly ceiling of €2,000 per individual (in a single or several transactions) shall apply for all credit institutions operating in Greece. These transactions shall be processed directly by the branch networks of credit institutions;

- In connection with the transactions referred to in the two bullets immediately preceding this paragraph, credit institutions shall transmit to the Committee for the Approval of Banking Transactions, not later than the last business day of every week, detailed lists of the capital transfers abroad that they have executed during the week ending that day. As a minimum, these lists shall include the following information: date of submission of the request, name of customer/transferor, amount, currency, name of supplier/transferee, kind of transaction, cause of import and imported product (where applicable), type of billing document (invoice, pro forma invoice, cash on delivery/COD, etc.), due date of invoice, date of execution of the fund transfer order;
- Cash withdrawals by Dioceses up to the amount of €10,000 per month, from only one credit institution and from only one account for each Diocese, against submission of a solemn declaration by their legal representative to the effect that they have not made any other withdrawal during the current month from any other account at the same or another credit institution. These transactions shall be processed directly by the branch networks of credit institutions; and
- Cash withdrawals by the Archdiocese of Athens up to the amount of €20,000 per month, from only one credit institution and from only one account, against submission of a solemn declaration by their legal representative to the effect that the Archdiocese of Athens has not made any other withdrawal during the current month from any other account at the same or another credit institution.

These transactions shall be processed directly by the branch networks of credit institutions. Liability for the correct implementation of the approval procedure by the branch networks of credit institutions shall lie with the credit institution's management, which must ensure to lay down the appropriate procedures to safeguard the lawful conduct of transactions directly through their network.

- Cash withdrawals of up to 100 per cent. in total from amounts that are deposited to bank accounts of the beneficiary (individual or legal entity) after 22 July 2016 in cash, in compliance with the provisions regarding the prevention and repression of money-laundering and terrorist financing.
- Amounts that constitute profits and dividends deriving from money invested in Greece can be transferred abroad up to 100 per cent. of such invested capital per each calendar year, to a bank account of a beneficiary held in a credit institution abroad, once such invested money has been transferred from abroad to Greece after July 18, 2015 through a wire transfer using the bank account that the above mentioned beneficiary holds in a credit institution in Greece.

As regards transactions in the Greek Capital Markets, the following apply, namely a transfer of funds from a credit institution is allowed in the following circumstances:

- With respect to capital transfers in Greece, including capital transfers through the respective clearing and settlement systems:
 - (a) for the clearing, including margin management, and settlement up to the end beneficiary, of transactions in financial instruments under Article 5 of Greek law 3606/2007, which are traded in Regulated Markets and Multilateral Trading Facilities (hereinafter MTFs) in Greece (hereinafter referred to as **Financial Instruments**), including any expenses and fees in respect of such transactions;
 - (b) for the fulfilment of obligations concerning money payments and generally cash distributions from issuers to holders of financial instruments under Article 5 of Greek law 3606/2007, by way of indication due to their expected maturity, corporate or similar actions (payments of interest, dividends and other relevant forms of income);
 - (c) for the performance of standing orders existing at the commencement of the bank holiday on 28 June 2015 for capital transfers from deposit accounts to Undertakings for Collective

Investments in Transferable Securities (UCITS) of Greek law 4099/2012, as in force, or to Alternative Investment Funds (AIFs) of Greek law 4209/2013 that are managed by AIF Managers (AIFMs) within the meaning of Greek law 4209/2013 or to unit-linked mutual funds within the context of saving-investment programmes/accounts;

- (d) for the acquisition of (i) newly issued Financial Instruments issued within the context of a capital increase or issuance of a bond loan and (ii) any kind of securities issued by credit institutions having their registered seat in Greece for the purpose of their recapitalisation; and
- (e) for the acquisition of units of UCITS of Greek law 4099/2012, as in force, which are distributed in Greece, on the condition that capital deriving from new distributions of units of UCITS may not be transferred or invested abroad, without prejudice to the provisions of paragraph 3. The Hellenic Capital Market Commission, within the scope of its competence, shall monitor and inform the Bank of Greece at least on a weekly basis on the total value of the distributed units of UCITS, as well as on the amount of their investments in Greece and abroad.

- The product of clearing and settlement of transactions on Financial Instruments, as well as the amount of cash distributions referred to under (b) above, may be credited into a bank account up to the end beneficiary, even outside the Greek banking system, on condition that the clearing and settlement of the transactions entered into through an investment account were conducted through the said account before the entry into force of the bank holiday on June 28, 2015. If the relevant transactions are effected outside regulated markets or multilateral trading facilities (MTFs), the party requesting the transfer of funds and the settlement must produce complete documentation on the transaction to the Institution or the legal entity being responsible for the clearing and settlement by submitting, indicatively, the elements of the order or the settlement document in written or electronic form, including the settlement's elements and details, and/or other elements of the said transaction that demonstrate that such transaction has taken place. Bank accounts held in the Greek banking system means accounts registering entries from the Bank of Greece and the IBAN code of which begins with the letters "GR". The product of the clearing and settlement process may be credited into a bank account up to the end beneficiary even outside the Greek banking system also in the case of new investment accounts, provided that the funds for the purchase or opening of positions in derivatives originated from foreign bank accounts. Further to the above, if the credit of the clearing and settlement proceeds to bank accounts outside the Greek banking system is permitted, then capital transfers are also permitted for the acquisition of units of UCITS of Greek law 4099/2012.
- Fund transfers from Institutions are permitted, even if directed outside Greece, to enable reinvesting reserves in:
 - UCITS governed by Law 4099/2012, as applicable, authorised by the Hellenic Capital Market Commission, AIFs governed by Law 4209/2013 and managed by AIFMs, which have been authorised by the Hellenic Capital Market Commission;
 - Portfolio investment Sociétés Anonymes under Law 3371/2005;
 - Insurance undertakings under Legislative Decree 400/1970;
 - Professional insurance funds; and
 - Insurance organisations/social security funds placed in foreign Financial Instruments.

The said reinvestment shall be effected in financial instruments, in accordance with the investment policy as in force before the commencement of the bank holiday of 28 June 2015, its value will not

exceed the value of the portfolio invested abroad at 31 July 2015, and it shall notably concern the reserves arising from sales of foreign financial instruments, the repayment of such financial instruments or distributions associated with such financial instruments.

- The general prohibition of transferring custody of financial instruments abroad does not apply to transfers of financial instruments to a custodian outside Greece for the purposes of clearing and settlement of transactions on such financial instruments. If such transactions are performed outside regulated markets or MTFs, including the conclusion of a pledge agreement, the person applying for the transfer of financial instruments within the context of the settlement, must submit to the relevant custodian full evidence evidencing that the underlying transaction has taken place. In case of a pledge agreement, if the loan agreement has been concluded prior to the commencement of the bank holiday of 28 June 2015, the transfer of financial instruments to a custodian outside Greece is permitted with a view to fulfil the obligations stemming from the underlying relationship, provided that all necessary supporting documentation has been submitted to the relevant custodian. It is noted that for the needs of supervising the implementation of the above restrictions and in particular for the granting of permission where provided for by the relevant legislation on capital controls, the Committee for the Approval of Banking Transactions was established and is operating at the Bank of Greece. The above Committee is supported by special sub-committees operating at each credit institution.

Finally the breach of the above restrictions is punishable by imprisonment of at least three (3) months and a monetary penalty of up to one tenth of the sum of the respective transaction. In addition, the credit institution shall be obligated to terminate the employment or project agreement with the person responsible for the breach.

The HFSF

The HFSF is a private law entity with the purpose of maintaining the stability of the Greek banking system by supporting the capital adequacy of both Greek credit institutions and subsidiaries of foreign credit institutions lawfully operating in Greece and acting in compliance with the commitments of the Greek State under Greek law 4046/2012, in relation to the Second Economic Adjustment Programme, as updated from time to time, and under the Agreement for Fiscal Targets and Structural Reforms dated 19 August 2015, a draft of which was ratified by Greek law 4336/2015, as updated from time to time. The liquidity support provided under Greek law 3723/2008 or under the operating framework of the Eurosystem and the Bank of Greece does not fall under the scope of the HFSF. The HFSF pursues its purpose based on a strategy agreed between the Ministry of Finance, the Bank of Greece and itself.

The HFSF was established by virtue of Greek law 3864/2010 which was repeatedly amended, among others by virtue of Greek laws 4254/2014, 4340/2015, 4346/2015, 4431/2016, 4456/2017, 4537/2018 and most recently by Greek law 4549/2018. HFSF's initial duration, which was set to expire on 30 June 2017, was extended to 31 December 2022. The Greek Minister of Finance can decide to extend the HFSF's duration if this would be deemed necessary for fulfilling the purpose of the HFSF.

Capital

The HFSF's capital consists of funds that were raised within the context of EU's and IMF's support mechanism for Greece by virtue of Greek law 3845/2010. It was gradually paid up by the Hellenic Republic and is evidenced by instruments which are not transferable until the expiry of the term of the HFSF. The HFSF's capital is provided from (a) funds drawn under the support mechanism for Greece set up by the EU and the IMF by virtue of Law 3845/2010 and the Master Financial Assistance Facility dated 15 March 2012 and (b) from funds drawn under the Financial Assistance Facility dated 19 August 2015, as in force from time to time, and are paid to the HFSF by the Hellenic Republic.

The Greek Minister of Finance may request the return of capital from the HFSF to the Hellenic Republic. Before the expiry of the HFSF's term or the initiation of a liquidation process, the Minister of Finance decides jointly with the European Financial Stability Facility (EFSF) and the European Stability Mechanism (ESM), the entity to and the manner by which the capital and assets and liabilities of HFSF will be transferred due to its expiration or liquidation. The above transfer will be to an entity independent of the Hellenic Republic and will take place in a manner that ensures that the financial and legal position of the EFSF and ESM will not be deteriorated for that reason. If, at the expiry of the HFSF's term, the HFSF has no obligation towards the EFSF and the ESM, and holds no assets over which the former have a security interest or other rights, the assets of the HFSF following completion of its liquidation process, will be transferred to the Hellenic Republic by operation of law. In case of liquidation of a credit institution, the HFSF, in its capacity as a shareholder of such credit institution, is satisfied preferentially towards any other shareholders together with the Hellenic Republic as holder of the Preference Shares of Greek law 3723/2008 (**Hellenic Republic Bank Support Plan**).

Organisation

The HFSF is managed by a seven-member General Council and a three-member Executive Committee. The General Council consists of seven (7) members (including the Chairman of the General Council), having international experience in banking issues, one (1) member being representative of the Ministry of Finance and one (1) member appointed by the Bank of Greece. The three-member Executive Committee consists of two (2) members, including the Managing Director, having international experience in banking or issues regarding the recovery of credit institutions and one (1) member nominated by the Bank of Greece. One (1) member of the Executive Committee is appointed as responsible for the support of the HFSF's role in facilitating the management of NPLs of the credit institution in which the HFSF has a holding. The members of the General Council and the Executive Committee are selected by a Selection Committee, established by a decision of the Greek Minister of Finance according to Article 4A of Law 3864/2010, as in force, following a public invitation for expression of interest and are appointed by a decision of the Greek Minister of Finance for a period, with the possibility for renewal, but in any case not exceeding the HFSF's duration. The Selection Committee consists of six (6) independent renown experts of integrity, from which three (3), including the Chairman, are appointed by the European Commission, the European Central Bank and the ESM respectively, two (2) by the Greek Minister of Finance and one (1) by the Bank of Greece. The above five institutions have an observer in the Selection Committee, the term of which is set at two (2) years with a possibility of renewal. Representatives of the European Commission as well as of the ECB and the ESM may also participate in the Executive Committee as observers. The Euro Working Group's prior consent is required for the appointment of the members of the General Council and the Executive Committee, as well as the renewal of their term of office and remuneration, excluding the appointment of the Ministry of Finance representative in the General Council and the member appointed by the Bank of Greece. The members of both the aforementioned bodies must be persons of an impeccable reputation, not engaged in activities set out in article 4, paragraph 6 of Greek law 3864/2010, as in force, and not engaged in activities incompatible with their participation in the said bodies, set out in article 4, paragraph 7 of Greek law 3864/2010, while their appointment may be terminated prior to its expiry by a decision of the Minister of Finance if (a) they are rendered non-eligible due to occurrence of events provided in paragraphs 6 and 7 of Article 4 of Law 3864/2010, as in force, or (b) following a reasoned decision of the Selection Committee for the reasons and by the process described in Article 4A of Greek law 3864/2010, as in force.

The General Council convenes at least ten (10) times per year and the Executive Committee at least once a week. In the meetings of the General Council and the Executive Committee, one (1) representative of the European Commission and one (1) of the ECB or their substitutes can also participate as observers without voting rights. Quorum is established in the General Council when at least five (5) members are present and in the Executive Committee when at least two (2) members are present. Each member of the General Council is entitled to one (1) vote. In case of a tied vote, the vote of the chairman is decisive. The General Council decides by majority of the present members, unless otherwise provided for by Greek law 3864/2010, as in force. Accordingly, each member of the Executive Committee is entitled to one (1) vote and, unless

otherwise provided for by Greek law 3864/2010, as in force, the Executive Committee decides by majority of two (2) of the present members. Accordingly, each member of the Executive Committee is entitled to one (1) vote and, unless otherwise provided for by Greek law 3864/2010, as in force, the Executive Committee decides by majority of two (2) of the present members.

The members of the General Council and the Executive Committee, except for the representative of the Ministry of Finance, operate independently in the exercise of their powers and do not seek for or receive mandates from the Greek government or other governmental entity or financial institution supervised by the Bank of Greece and they are not subject to any influence whatsoever. The General Council provides information, at least twice a year and in any other case deemed necessary, to the Minister of Finance, the Greek Parliament, the European Commission, the ESM and the ECB regarding the progress of its mission. The General Council informs, via prospectuses issued every two months, the Minister of Finance who may request to be further informed by the Chairman or the Managing Director. The HFSF publishes an annual report on its operational strategy and a semi-annual report of progress on the above strategy persons having any of the following positions during the last three years may not be appointed as members of the Selection Panel: members of the Greek Parliament or Government, officers, employees or counsels of any Greek Ministry or of other governmental authority or of the Bank of Greece, executive members, officers, employees or counsels of any credit institution operating in Greece or of the European Commission or of the ECB or of the ESM, holders of shares of a credit institution operating in Greece with a total value exceeding €100,000 or persons having a financial interest, directly or indirectly linked to a credit institution operating in Greece, with a total value exceeding €100,000.

The meetings of the Executive Committee are confidential.

Provision of Capital Support by the HFSF

Activation of Capital Support

Activation of the capital support provision for precautionary recapitalisation: According to the provisions of Greek law 3864/2010, as amended and in force, a credit institution, with a capital shortfall, as such has been determined by the competent authority according to Greek law 4335/2015, as in force, (ECB or Bank of Greece, as the case may be) may apply to the HFSF for capital support up to the amount of the capital shortfall determined by the competent authority.

This request by the credit institution must necessarily be accompanied by:

- A letter by the competent authority which determines the capital shortfall, the deadline by which the credit institution must have covered the above shortfall and the capital raising plan as it has been submitted to the competent authority.
- In respect of credit institutions with a restructuring plan that has been approved by the European Commission at the time of submission of the above request, the request is accompanied by a draft amendment of the already approved restructuring plan.
- In respect of credit institutions without a restructuring plan that has been approved by the European Commission at the time of submission of the above request, the request is accompanied by a draft restructuring plan.

The restructuring plan or the draft restructuring plan must describe on conservative assumptions, the means by which the credit institution's profitability will be satisfactorily restored within the following three (3) to five (5) years.

The HFSF may request from the credit institution amendments or additions to the draft restructuring plan or the draft of the restructuring plan under amendment. Following approval of the HFSF of the draft

restructuring plan or the draft of the restructuring plan under amendment, the latter is forwarded to the Minister of Finance and is submitted to the European Commission for approval.

For the pursuit of its goals and the exercise of its rights the HFSF determines the outline of a framework agreement or an amended framework agreement with all credit institutions which receive or have received financial support by the EFSF or the ESM. The credit institutions enter into the aforementioned framework agreement. The credit institutions provide the HFSF with all the information reasonably requested by the EFSF or the ESM so that the HFSF may relay it to the EFSF or the ESM, unless the HFSF informs the credit institutions that they must send the requested information directly to the EFSF or the ESM.

The HFSF may grant to credit institutions that have submitted a capital support request, a letter by which it undertakes to participate in the said credit institution's share capital increase provided that the procedure of Article 6a is applied and in accordance with the provisions of Article 7 of Greek law 3864/2010, as in force, on the provision of capital support, up to the amount of the capital shortfall determined by the competent authority and under the condition that the credit institution falls within the exception of sub-point (cc) of point (d) of paragraph 3 of Article 32 of Greek law 4335/2015 (precautionary recapitalisation), according to which the extraordinary public financial support being provided is required in order to remedy a serious disturbance in the national economy and to preserve financial stability. The HFSF provides the letter before the fulfilment of the conditions for the provision of the capital support set out in Article 6a of Law 3864/2010, as in force. The above-mentioned commitment of the HFSF ceases to be valid in case, for any reason whatsoever, the license of the credit institution is revoked or one of the resolution measures provided in paragraph 1 of Article 37 of Law 4335/2015 has been taken.

The capital support is provided by the HFSF only following the approval by the European Commission of the restructuring plan or the amended restructuring plan always in compliance with the EU's legislation regarding state aid and the relevant practices followed by the European Commission. Following the finalisation of the terms and conditions of the share capital increase, the provision of the requested capital support is subject to the compliance with the EU's legislation regarding state aid and the relevant practices followed by the European Commission and following the publication of the Cabinet Act (see below) provided for in Article 6a of Law 3864/2010, as in force. The HFSF monitors and evaluates the proper implementation of the restructuring plan and must further provide to the Ministry of Finance any necessary information and data, in order to meet its information requirements towards the European Commission.

Conditions for the Provision of Capital Support for the purpose of Precautionary Recapitalisation

If the voluntary measures that are provided in the restructuring plan or the amended restructuring plan cannot cover the total capital shortfall of the credit institution, as such has been determined by the competent authority, and in order to avoid a serious disturbance in the economy with negative consequences affecting citizens and in order for the state aid to be as minimal as possible, the mandatory application of the following measures may be decided by virtue of a Cabinet Act, following a proposal by the Bank of Greece, for the purpose of allocating the remainder of the capital shortfall to the holders of capital instruments and other liabilities, as deemed each time necessary.

The relevant measures include:

- (a) The absorption of any losses by the shareholders so that the credit institution's net asset value is zero, where necessary by the reduction of the nominal value of the shares, following a decision by the competent body of the credit institution.
- (b) The reduction of the nominal value of preference shares and other Common Equity Tier 1 instruments, and following this, if necessary, of the nominal value of Additional Tier 1 instruments and following this, if necessary, of the nominal value of Tier 2 instruments and other subordinated liabilities and, following this, if necessary, of the nominal value of unsecured senior liabilities non

preferred by mandatory provisions of law in order to restore the credit institution's net asset value to zero; or

- (c) In case the credit institution's net asset value exceeds zero, the conversion of other Common Equity Tier 1 instruments and following this, if necessary, of Additional Tier 1 instruments and following this, if necessary, of Tier 2 instruments and following this, if necessary, other subordinated liabilities and following this, if necessary, unsecured senior liabilities non preferred by mandatory provisions of law, into common shares in order to restore the necessary capital adequacy ratio, as required by the competent authority.

The allocation is completed by the publication of the relevant Cabinet Act at the Government Gazette. Without prejudice to the above, the allocation is made according to the following sequence, which applies according to the CRR and Article 145A(1) of the Banking Law, as in force:

- (a) Common shares;
- (b) If necessary, preference shares and other CET 1 instruments;
- (c) If necessary, Additional Tier 1 instruments;
- (d) If necessary, Tier 2 instruments;
- (e) If necessary, all other subordinated liabilities; and
- (f) If necessary, unsecured senior liabilities non-preferred by mandatory provisions of law.

In case of conversion of the preference shares issued according to Article 1 of Greek law 3723/2008, as amended and in force, into common shares, the latter have full voting rights. The ownership of such common shares passes to the HFSF as of their conversion without the need for any formalities.

Any liabilities undertaken by the credit institution through guarantees granted in relation to the issue of capital instruments or liabilities of third legal entities included in its consolidated financial statements, as well as any claims against the credit institution from loan agreements between the credit institution and the above legal entities may also be subjected to the above measures.

The above Cabinet Act, following a proposal by the Bank of Greece, determines the instruments or liabilities subject to the above measures, by class, type, percentage and amount of participation, on the basis, if necessary, of a valuation by an independent valuator appointed by the Bank of Greece. The above instruments or liabilities are converted mandatorily to capital instruments in the context of a share capital increase decided by the credit institution according to Article 7 of Greek law 3864/2010.

Exceptionally and provided there is a prior positive decision of the European Commission according to Articles 107 to 109 of the TFEU, the above measures may not be used either in their entirety or in relation to specific instruments, if the Ministerial Cabinet decides, following a proposal of the Bank of Greece that:

- (a) Such measures may jeopardise financial stability; or
- (b) The application of such measures may have disproportionate results, as in case the capital support to be provided by the HFSF is small in comparison with the credit institution's risk weighted assets or when a significant part of the capital shortfall has been covered by private sector measures.

The final appraisal of the above exceptions belongs to the European Commission, which will decide on a case by case basis. On the basis of the above reasons under (a) and (b) deviations may apply to the above sequence of liabilities and the principle of equal treatment.

The above measures are deemed, for the purposes of the recapitalisation, as reorganisation measures as per the definition of Article 3 of Greek law 3458/2006, as amended and in force.

The application of the measures, voluntary or mandatory, may not in any case (a) constitute grounds for the activation of contractual clauses which apply in cases of winding-up or insolvency or the occurrence of any other event, which may be considered or treated as a credit event or may lead to the breach of contractual obligations by the credit institution, and (b) be considered as non fulfilment or breach of contractual obligations of the credit institution that gives the counterparty a right of early termination or cancellation of the agreement for a material reason. The above applies also in the case of insolvency or an event of default *vis-à-vis* third parties by a group member when this is due to the application of the measures on its claims against another member of the same group.

Contractual clauses contrary to the above have no legal effect.

The holders of capital instruments or other claims, including unsecured senior liabilities non preferred by mandatory provisions of law of the credit institution that is subject to the above recapitalisation measures must not, following application of such measures, be in a worse financial position compared to the one they would be in if the credit institution had been wound up under normal insolvency proceedings (no creditor worse off principle). If the above principle is breached, the above holders of capital instruments and other claims, including unsecured common liabilities non-preferred by mandatory provisions of law have a right to compensation by the Hellenic Republic, provided they prove that their loss, directly due to the application of the mandatory measures, is greater than the loss they would have incurred if the credit institution were placed under special liquidation. In any case, the compensation may not exceed the difference between the value of their claims following the application of the relevant measures and the value of their claims in case of special liquidation, as such value is estimated by an independent entity appointed by the Bank of Greece in order to determine whether shareholders and holders of subordinated claims would be in a better financial position if the credit institution were placed under special liquidation immediately before the application of the relevant decision.

The Cabinet Act which decides the application of the above mandatory measures is published in the Government Gazette and a summary thereof is published in the Official Journal of the European Union in Greek, in two daily newspapers published nationwide in the members states where the credit institutions has established a branch or where it provides directly banking and other mutually accepted financial services, in the official language of such state.

The summary will include the following:

- (a) The reason and legal basis for the issuance of the Cabinet Act;
- (b) The legal remedies available against the Cabinet Act and the deadlines for their exercise; and
- (c) The competent courts before which the above legal remedies against the Cabinet Act may be exercised.

Paragraph 11 of the above described Article 6a provides that the necessary details for the application of Article 6a of Law 3864/2010, as in force, regarding the application of the above mandatory measures, including the process for the appointment of the independent valuers, the content of the independent valuations and the proposal of the Bank of Greece, the valuation methods of the claims or the capital instruments being converted, the substitution option of the issuer of the instruments, the completion of the conversion as well as the details for any compensation of the instrument holders, are regulated by a Cabinet Act.

Application of Public Financial Stability Measures

If the Greek Minister of Finance decides, according to paragraph 4 of Article 56 of Law 4335/2015, the application of the measure of public financial support, the HFSF is appointed as the authority that will apply Article 57 of Greek law 4335/2015, as in force, following a decision by the Greek Minister of Finance. In this case, the HFSF participates in the recapitalisation of the credit institution and receives in exchange the instruments determined in the paragraph 1 of Article 57 of Law 4335/2015, as in force.

Type of Capital Support

The HFSF provides capital support exclusively for the purpose of covering the credit institution's capital shortfall, as determined by the competent authority and up to the amount remaining after the application of the measures provided in the capital raising plan, any private sector participation, the approval of the restructuring plan by the European Commission and:

- (a) either the application of the mandatory measures of Article 6a of Greek law 3864/2010 described above, as amended and in force, when the European Commission as part of its approval of the restructuring plan has confirmed that the credit institution falls within the exception of the sub-point (cc) of point (d) of paragraph 3 of Article 32 of Greek law 4335/2015, or
- (b) when the credit institution has been subjected to resolution and measures have been taken according to Article 2 of Greek law 4335/2015, as in force.

The relationship framework agreement between the HFSF and the credit institution must be duly signed before the capital support can be given. The capital support that may be granted by the HFSF shall be provided through the participation of the HFSF in the increase of the share capital of a credit institution by issuance of common voting shares or contingent convertible securities or other convertible financial instruments. According to Cabinet Act No. 36 of 2 November 2015, the allocation of the HFSF's participation between common shares and contingent convertible securities or other convertible financial instruments will take place as follows:

In cases where the HFSF provides the capital support of Article 7 of Greek law 3864/2010, as in force, according with the precautionary recapitalisation procedure, then the capital support is allocated by 25 per cent. to common shares and by 75 per cent. to contingent convertible bonds.

In cases where the HFSF provides the capital support of Article 7 of Greek law 3864/2010 according with Article 6B of Greek law 3864/2010, as in force, the capital support is allocated as follows:

- (a) to common shares up to the amount necessary to cover losses already incurred or likely to be incurred shortly in the future; and
- (b) for the remaining amount that would correspond to a precautionary recapitalisation, by 25 per cent. to common shares and by 75 per cent. to contingent convertible bonds.

The HFSF may exercise, dispose of or waive its pre-emptive rights in cases of share capital increase or of issuance of contingent convertible securities or other convertible financial instruments of the credit institutions that request the provision of capital support.

The credit institution's decision for the aforementioned share capital increase including the decision for the issue of contingent convertible securities or other convertible financial instruments is made by its general meeting under simple quorum and majority and it cannot be revoked. It can also be made by a resolution of the board of directors authorised by the general meeting in accordance with Article 113 of Greek law 4548/2018. In any event, the general meeting's decision for the share capital increase or the issuance of contingent convertible securities or other convertible financial instruments or the authorisation of the board

of directors for the above, must expressly mention that it is made in the context of Greek law 3864/2010, as in force. The said decision of the general meeting may, instead of the maximum number of shares, provide for the maximum amount of capital which shall be covered and provide the Board of Directors of the credit institution the power to decide, *inter alia*, the remaining amount following the implementation of the measures set out in article 6A, the exact number of shares and the allocation of shares. The deadline regarding the convocation of the general meeting which will decide the share capital increase for the issuance of the common shares, convertible securities or the other financial instruments is set out at ten (10) calendar days as provided under paragraph 2 of article 115 of Greek law 4335/2015. The deadline for the convocation of any repeat and any iterative meetings thereof which will decide upon issues related to the recapitalisation of the credit institutions in accordance with Greek law 3864/2010, as in force, as well as filing of documents with supervisory authorities and certain deadlines related to the holding of the general meeting of shareholders are shortened to one-third of the deadlines prescribed by Greek Codified Law 4548/2018, as in force.

The share capital increases are subscribed for by the HFSF in cash or ESM notes and the subscription price is the trading price as determined following a book building process completed by each credit institution. The HFSF accepts such price provided it has appointed and received an opinion from an independent financial advisor, who opines that the book building process complies with international best practices under the specific circumstances. New shares cannot be offered to the private sector at a price lower than the price at which the HFSF subscribes for shares at the same offering. The offer price may be lower than the prices at which the HFSF subscribed at previous subscriptions or than the current trading price. The above manner of determining the subscription price does not apply to the cases where the HFSF must cover the amount not subscribed by private participation in share capital increases of credit institutions falling within case (b) of paragraph 2 of article 6 or following application of Article 6b of Law 3864/2010, as in force.

A Cabinet Act, following evaluation by the competent authority of the compatibility with Article 31 of the CRR and the giving of an opinion by the HFSF, determines the terms on which the contingent convertible securities or other convertible instruments may be issued by credit institutions and be subscribed by the HFSF, the conversion terms of the above contingent convertible securities or other convertible financial instruments, their nominal value and any other necessary detail for the implementation of the relevant article. The Cabinet Act No. 36 of 2 November 2015 (Government Gazette 135/2.11.2015), was issued in accordance with the above. The transfer of the above shares and convertible financial instruments is subject to the approval of the competent authority.

Warrants

According to Greek law 3864/2010 as it was in force prior to its amendment by Greek law 4340/2015, if a credit institution being recapitalised according to such law, achieved a Private Sector participation in its share capital increase of at least 10 per cent. the HFSF would issue to the investors that participated, for no additional charge, one Warrant for each new share acquired pursuant to Greek law 3864/2010 and Cabinet Act 38/9.11.2012. The terms of issuance of the Warrants are governed by the Greek law 3864/2010 and the Cabinet Act 38/2012, as in force. Each Warrant enables the holder thereof to purchase from the HFSF, at the exercise price and during the exercise period mentioned below, a predetermined number of ordinary shares of the credit institution held by the HFSF. Pursuant to Cabinet Act 38/9.11.2012 the exercise price and the pre-determined number of ordinary shares of the credit institution, held by the HFSF and deliverable under the Warrants, may be adjusted on the occurrence of certain corporate events. The HFSF informed the Bank that there would not be any adjustment to the Warrants as a result of the issuance of the New Shares (given the non-preemptive offering).

The Warrants are transferable securities within the meaning of article 56, of Greek law 4548/2018, are issued in registered form, are listed following a relevant request of the credit institution and freely traded on the ATHEX simultaneously with the admission to trading of the new shares. There are no limitations regarding the transfer of the Warrants.

The holders of the Warrants do not have voting rights.

See also "*Description of Share Capital—Warrants*".

Contingent Convertible Bonds

General Terms

The contingent convertible bonds issued in accordance with Article 7 of Greek law 3864/2010, as in force, are governed by Greek law and may be issued in dematerialised form and be included, following an application of the HFSF, in the electronic files of non-listed securities maintained by ATHEX.

The contingent convertible bonds are issued following a decision by the General Meeting of Shareholders before or after the completion of a share capital increase according to Article 7 of Law 3864/2010, as in force. The bonds are transferred only with the consent of the credit institution, not to be unreasonably withheld and the consent of the supervisory authorities, according to Article 7 paragraph 5(c) of Greek law 3864/2010, as in force.

The bonds have a nominal value of one hundred thousand (100,000) euro each, are issued at par and are of indefinite duration without a fixed repayment date. They are direct, unsecured and subordinated investments in the credit institution and rank at all times *pari passu* with themselves. The bonds' terms do not contain expressly events of default and as a consequence all bondholders will be able to enforce the terms of the bonds only during the liquidation procedure.

In case a credit institution is placed under special liquidation they rank:

- (a) after all other claims (including those of subordinated creditors), including (indicatively) claims against the credit institution from liabilities recognised as Additional Tier 1 or Tier 2 Capital, but with the exception of Same Ranking Liabilities (the **Higher Ranking Liabilities**),
- (b) *pari passu* with the credit institution's common shares and any other claim, which is agreed to rank *pari passu* with the bonds (**Same Ranking Liabilities**).

During the special liquidation of the credit institution, the bondholders, prior to any conversion date, have a right over any remaining assets of the credit institution (available for distribution after repayment in full of all Higher Ranking Liabilities) for the nominal amount of their bonds plus any accrued and unpaid interest.

Subject to any mandatory provisions of law, the bondholders don't have any set-off right, security or guarantee that may upgrade the ranking of their claim during special liquidation.

Conversion

If, at any time, the credit institution's Common Equity Tier I capital ratio, calculated on a consolidated or individual basis, is below 7 per cent. (**Activation Event**), the credit institution must:

- (a) convert the bonds by issuing to each bondholder Conversion Shares (as defined below), the number of which is determined by dividing 116 per cent. of the outstanding bonds' nominal value by the conversion price and further dividing by the percentage by which the bondholder participates in the total amount of the bond loan;
- (b) procure the publication of a conversion notification towards the bondholders, informing them, among other things, of the relevant conversion date, which may not be later than one month (or earlier if required by the supervising authorities), after which date the bonds will be converted; and

- (c) inform immediately the ECB, acting in the context of the SSM, of the occurrence of an Activation Event.

The above Act defines as Conversion Shares the common shares of the credit institution issued upon conversion of the bonds by dividing 116 per cent. of the specific nominal value by the price per common share of the credit institution, as set at the share capital increase taking place in accordance with Article 7 of Greek law 3864/2010, as in force.

Following their conversion as per the above, the bonds will be cancelled and may not be reissued nor may their nominal value be restored for any reason. The terms and conditions of the bonds provide for readjustments to the conversion price on standard terms in case of specific corporate actions.

The bonds are converted automatically to common shares of the credit institution if for any reason the credit institution does not pay, in full or in part, the interest due on two, not necessarily consecutive, interest payment dates.

Interest

The bonds have an interest rate equal to (a) an annual rate of 8 per cent. (the **Initial Interest Rate**) from the issue date and up to the 7th anniversary of the issue date and (b) following this, if not repaid, the current Adjusted Interest Rate. The Adjusted Interest Rate is defined as the sum of: (a) the 7-year Mid Swap Rate for the relevant interest period plus (b) a margin equal to the difference between the Initial Interest Rate and the 7-year Mid Swap Rate applicable on the issue date.

Payment of interest (in full or in part) lies exclusively on the discretion of the board of directors of the credit institution, but if paid, it is payable in cash. If the credit institution elects not to pay interest, such interest is cancelled and does not accumulate. The credit institution may not pay dividend on its common shares if it has decided not to pay interest on the preceding interest payment date.

The credit institution's board of directors may, in its absolute discretion, pay interest in the form of common shares of the credit institution. The number of common shares issued according to this option must be equal to the amount of interest divided by the price of common shares on the interest payment date (for as long as the common shares are listed in an organised market), otherwise to the value of Common Equity Tier 1 capital corresponding to one common share as deriving from the financial statements of the credit institution most recently published prior to the payment date or the nominal value of the common share, whichever is higher. If so decided by the board of directors of the credit institution, the share capital increase takes place automatically and without any other procedural requirements or corporate decisions (including the shareholders' consent) and the corresponding common shares are issued automatically. Any interest payment is subject to the restrictions of the Maximum Distributable Amount according to Article 141 of CRD IV.

The credit institution may, in its absolute discretion, elect to repay all or some of the bonds at any time, at their nominal value, plus any accrued and unpaid interest (excluding any cancelled interest), provided that it has received the consent required at the time according to CRD IV or the Banking Law and that other claims, the repayment or repurchase of which must precede, as may be determined by CRD IV, have been repaid. Repayment by choice of the credit institution must be in cash.

Bondholders may not request the repayment of their bonds but only their conversion into common shares on the 7th anniversary.

If, due to a legislative change, either (a) the bonds cease to be included in the credit institution's Common Equity Tier 1 capital or (b) a tax burden arises for the credit institution in relation to the bonds, as provided for in the above Act, the credit institution may substitute all the bonds or amend their terms, without the consent or approval of the bondholders, so that they may continue to be recognised in the credit institution's regulatory capital on terms that are not materially less beneficiary to the bondholders.

Disposal of Shares and Bonds

The manner and process for the disposal of all or part of the shares of a credit institution held by the HFSF within 5 years from the entry into force of Greek law 4340/2015 are determined by a decision of the HFSF. The disposal may take place in one transaction or in instalments, in HFSF's discretion, provided that the disposal takes place within the above time limit and in compliance with state aid rules. Within the above deadline the shares may not be disposed to an undertaking that belongs directly or indirectly to the state according the legislation in force.

In order to take the above decision, the General Council of the HFSF receives a report from an internationally renowned independent financial advisor with experience on such matters. The report is accompanied by a detailed timetable for the disposal of shares and justifies sufficiently the conditions and manner of disposal as well as the necessary actions for the completion of the disposal and compliance with the timetable.

The disposal takes place in a manner that is consistent with the purposes of the HFSF. Without prejudice to the provisions of Greek law 3401/2005, the disposal may take place by a public offer or an offer to one or more specific investors: (i) through an open contest or interest solicitation from selected investors, (ii) through exchange trade orders, (iii) by public offer of shares for cash or in exchange of other securities and (iv) by book building.

The HFSF may reduce its participation in credit institutions through a share capital increase by waiving or disposing its pre-emption rights.

The disposal price and the minimum subscription price for new private investors at a share capital increase are determined by the General Council according to the procedure of paragraph 5 of Article 7 of Greek law 3864/2010, as in force, when a bookbuilding has taken place or, in all other instances, on the basis of two evaluation reports prepared by two renown independent financial advisors of experience on relevant matters and especially on the evaluation of credit institutions and in accordance with the abovementioned report. The disposal or acquisition price as per the above may be lower than the most recent price at which the HFSF acquired the shares or than the current market price of the shares, provided they are in line with the objectives of the HFSF and the relevant independent advisor's report. In case of sale of blocks of shares by the HFSF, the Greek Minister of Finance receives the relevant reports and evaluations and has a veto right if the suggested price is outside the limits of such evaluations

In the event the shares of the credit institution are acquired by a specific investor or investor group or the HFSF's participation is reduced by a share capital increase in favour of a specific investor or investor group, the HFSF may:

- (a) Invite the interested investors to submit offers, setting at the relevant invitation the procedure, deadlines, offer content and other terms for their submission, among which also the provision by investors, at any stage of the procedure deemed necessary, of a proof of funds and letters of guarantee;
- (b) Conclude a shareholders' agreement, if it deems necessary, which will govern the relationship between the HFSF and the specific investor or investor group as well as amend the framework agreement with the relevant credit institution. In that context it may be provided that the investors or/and the HFSF must maintain their holding for a specific time period; and
- (c) Provide a first offer and first refusal right to investors fulfilling certain criteria (such as those provided in point (d) of paragraph 5 of Article 8 of Greek law 3864/2010).

Certain evaluation criteria are taken into consideration for the selection of a specific investor or investor group, such as the investor's experience in the specific business and in the reorganisation of credit

institutions, creditworthiness, ability to complete the transaction and the consideration offered. The evaluation criteria applicable to each procedure are notified to the candidate investors before the submission of a binding offer by the latter.

The methodology for the disposal of shares by a public offer for the exchange of warrants issued according to Cabinet Act 38/2012 and the adjustment of their terms and conditions in case of a share capital increase with a reverse split on terms determined by the credit institution, as well as share capital increase without abolition of the pre-emption rights of existing shareholders, are determined by a Cabinet Act. In case of a share capital increase without abolition of the pre-emption rights of existing shareholders the adjustment may affect only the exercise price of the options embodied in the warrants. The adjustment may be up to the amount corresponding to the income of the HFSF from the sale of the pre-emption rights and takes place following the sale.

Cabinet Act No. 44/5.12.2015

Cabinet Act No. 44/5.12.2015, issued under the new Article 6a paragraph 11 of Greek law 3864/2010, as amended by virtue of both Greek laws 4340/2015 and 4346/2015, replaced Cabinet Act No. 11/11.4.2014.

Cabinet Act No. 44/5.12.2015 determines the procedure for the appointment by the Bank of Greece of a valuator for the valuation of the assets and the liabilities of the credit institution in case of and prior to the implementation of the burden sharing measures of article 6A of Greek law 3864/2010, as well as the content and purpose of such valuation.

The aforementioned act further specifies the details for the implementation of the mandatory measures of Article 6A of Law 3864/2010, as in force and the details for the determination of any compensation claimed by the holders of the capital instruments and liabilities subject to the mandatory burden sharing measures of article 6A of Greek law 3864/2010, as in force.

Powers of the HFSF Representative

The HFSF is represented by one director to the board of directors of a bank having received capital from the HFSF according to the Greek law 3864/2010, as in force, as its representative. The HFSF representative has the following powers:

- To request the convocation of the general meeting of the credit institution, in which case the notification periods for the convening such meeting shall be reduced to one-third (1/3) of the periods provided in Greek Company Law;
- To veto any decision of the credit institution's board of directors:
 - Regarding the distribution of dividends and the remuneration and bonus policy concerning the chairman, the managing director and the other members of the board of directors, as well as the general managers and their deputies; or
 - Where the decision in question could seriously compromise the interests of depositors, or impair the credit institution's liquidity or solvency or its overall sound and smooth operation (including business strategy, and asset/liability management); or
 - In relation to which the HFSF may exercise its voting rights in the general meeting of shareholders and which may negatively affect its participation in the credit institution's share capital.

- To request an adjournment of any meeting of the credit institution's board of directors for three business days in order to get instructions from the Executive Committee of the HFSF (such right may be exercised until the end of the board of directors meeting);
- To request the convocation of the credit institution's board of directors; and
- To approve the appointment of the credit institution's chief financial officer.

At the execution of its rights the representative of the HFSF takes into account the business autonomy of the credit institution.

The HFSF has free access in the books and records of the credit institution together with advisors of its choice.

The capacity of the HFSF representative is incompatible with the capacity of the representative of the Hellenic Republic provided in Greek law 3723/2008 (Hellenic Republic Bank Support Plan), as in force. The HFSF representative to the board of directors of the credit institution is also subject to the obligation to avoid conflicts of interest, as well as to the duty of loyalty provided for in Article 16B of Greek law 3864/2010, as amended and in force.

In addition to the provisions of Greek law 3864/2010, as in force, the relationship between the Issuer and the HFSF is regulated by the Relationship Framework Agreement between the Issuer and the HFSF that entered into force on June 12, 2013.

Following a request by the HFSF, the Issuer is entering into a new Relationship Framework Agreement with the HFSF (the **New RFA**), replacing the existing RFA. The New RFA will remain in force so long as the HFSF has any ownership in the Issuer. For a detailed description of the New RFA, see "*The Issuer's Management and Employees—Relationships and Other Activities—Relationship Framework Agreement*".

Evaluation of Corporate Governance

The HFSF, with the assistance of an internationally renowned specialised independent advisor will evaluate the corporate governance framework of the credit institutions with which it has concluded a Framework Agreement. More specifically, the evaluation will include the size, structure and competence allocation within the board of directors and its committees according to the business needs of the credit institution.

The above evaluation will include all board committees as well as any other committee that the HFSF deems necessary in order to fulfil its purposes according to the law.

The HFSF with the assistance of an independent advisor will set evaluation criteria of the above elements and the members of the board of directors and such committees according to international best practices. Based on the evaluation the HFSF will make specific recommendations for the improvement and possible changes in the corporate governance of the credit institutions. The members of the board of directors and such committees will cooperate for the purposes of the evaluation with the HFSF and its advisors and will provide any necessary information.

In addition to the criteria set by the HFSF, the evaluation according to Greek law 3864/2010, as amended by Greek law 4340/2015, will include the criteria that, as regards the evaluation of the board of directors and its committees the following must be satisfied for each member: (i) each member must have a minimum ten years of international experience in senior managerial positions in the sectors of banking, auditing, risk management or the management of non-performing assets, of which, as regards non-executive members, at least three years must be as a member of the board of directors of a credit institution or an undertaking of the financial sector or an international financial institution, (ii) the member must not have served during the last four years prior to his appointment in a senior public position, such as Head of State, President of the

Government, senior political executive, senior governmental, judicial or military employee or an important position as senior executive of a public undertaking or a political party, and (iii) the member must notify all financial relationships with the bank before its appointment. The supervising authority must have confirmed that the member is fit and proper to be appointed as member. The HFSF, with the assistance of the independent advisor during the evaluation, will set additional criteria for specific abilities required for the board of directors. The criteria will be reviewed at least once every two years or more often if there is a material change in the Issuer's financial situation.

The size and collective knowledge of the boards and their committees must reflect the business model and financial situation of the credit institution. The evaluation of the members must ensure the proper size and composition of the above bodies and must satisfy at least the following criteria: (i) at least three experts must participate in the board of directors as independent non-executive members with sufficient knowledge and international experience of at least 15 years in similar credit institutions, of which at least three years must be as members of an international banking group not operating in the Greek market. Such members must not have any relationship with credit institutions operating in Greece in the previous ten years, (ii) the above independent members will preside over all committees of the board of directors, (iii) at least one member of the board of directors will have relevant specialisation and international experience of at least five years in the sectors of risk management or NPLs management. Such member will focus and have as exclusive competence the management of NPLs on board level and shall preside over any special board committee that deals with NPLs. In case that the review or evaluation of the board of directors does not meet such criteria, the HFSF will inform the board of directors and if the latter fails to take the necessary measures to implement the relevant recommendations, the HFSF shall convoke the general meeting of shareholders in order to inform it and suggest the necessary changes, while it will send the results of the evaluation to the competent supervisory authorities.

In case that the member of the board of directors or its committee does not meet the relevant criteria or the board of directors as a body does not comply with the suggested structure as regards its size, competence allocation and specialisation and if the necessary changes are not implemented in another manner, then there will be a recommendation for the replacement of certain board or committee members. If the general meeting of shareholder does not agree with the replacement of the members of the board of directors that did not meet the evaluation criteria within three months, then the HFSF will publish a relevant reference within four weeks on its website, which will include the name of the credit institution, the recommendations and the number of the members of the board of directors that did not meet the relevant criteria as well as the criteria themselves.

General

During the participation of the HFSF in the share capital of credit institutions, such credit institutions cannot buy their own shares without the HFSF's approval.

The HFSF may additionally provide guarantees to countries, international organisations or others, and in general proceed with any necessary action for the implementation of decisions of the Eurozone bodies in connection with the support of the Greek economy. The HFSF may provide guarantee to the credit institutions of Article 2, paragraph 1 of Greek law 3864/2010 and grant security on its assets for the fulfilment of its obligations from such guarantee as well as a loan to the HDIGF, guaranteed by the credit institution that participates in the HDIGF *pro rata* to their contributions either to the Resolution Fund or the Deposits Coverage Bench, as the case may be. The Minister of Finance by a decision may provide for any necessary detail for the implementation of the above.

PSI Program

Within the context of implementation of the PSI Program, a number of legislative and regulatory acts were enacted. Initially, Greek law 4046/2012 which was enacted on 14 February 2012 aimed to enable the

voluntary bond exchange between the Hellenic Republic and certain private sector investors, as described in the statement of the Euro Summit dated 27 October 2011.

Greek law 4050/2012 on the rules for the amendment of debt securities issued or guaranteed by the Hellenic Republic with the bondholder's agreement, which became effective on 23 February 2012, introduced the legal framework for the amendment of eligible securities, governed by Greek law and issued or guaranteed by the Hellenic Republic by the introduction of retroactive collective action clauses and their exchange with new securities. Pursuant to said law, the proposed amendments would be considered approved by the bondholders, if bondholders of at least 50 per cent. in aggregate principal amount of the eligible securities participate in the modification process set out in the relevant invitation and at least two-thirds (2/3) of the participating principal of the participating bondholders consent to the proposed modification. Finally, by virtue of said law the Ministerial Council was authorised to decide the specific terms for the implementation of the above transactions and sub-delegate the PDMA to issue invitations to the bondholders to amend and exchange the eligible debt securities with new securities.

The implementing Ministerial Council Act No. 5 dated 24 February 2012 provided for the redemption of the eligible securities governed by Greek law, in exchange for new securities issued by the Hellenic Republic and the EFSF and governed by English law, set the specific terms of the process, defined the eligible debt securities governed by Greek law and issued prior to 31 December 2011 and specified the basic terms governing the new securities to be issued and exchanged.

Furthermore, the PDMA issued an invitation to the bondholders of the eligible debt securities, governed by both Greek and non-Greek law, seeking their consent for the amendment of the terms governing the eligible debt securities, proposed by the Hellenic Republic in exchange for new securities issued by the Hellenic Republic and the EFSF and governed by English law and specified the terms of the process. The invitations, according to Greek law 4050/2012, included, among others, terms relevant to: the eligible bonds and other terms such as subdivisions of the bonds, the proposed amendments, grace period, currency, terms and methods of payment, repayment and repurchase, termination reasons, negative obligations of the issuer (negative pledges), rights and obligations of the trustee acting for the bondholders, etc.

Finally, the Ministerial Council Act No. 10 dated 9 March 2012 approved and ratified the decision of the Bondholders of the eligible debt securities governed by Greek law to consent to the proposed amendments in accordance with the applicable legal framework, as such consent was confirmed by the Bank of Greece, in its capacity as process manager. Pursuant to Greek law 4050/2012, following publication of the above approving decision of the Ministerial Council, the proposed amendment became binding on all holders of eligible debt securities and supersedes all contrary provisions of Greek law, regulatory acts or contractual terms.

The PDMA also issued parallel invitations to holders of designated securities issued or guaranteed by the Hellenic Republic and governed by a law other than Greek law, to consent to the amendment of the terms of said designated securities and exchange them for new securities issued by the Hellenic Republic and the EFSF and governed by English law, in accordance with the terms of the invitation and the law and contractual terms governing said designated securities.

Subsequently, with Ministerial Decision No. 2/20964/0023A the details for the implementation of the amendment of the terms of the eligible securities and the issue of new securities were decided.

Debt Buy-Back

The PDMA announced the terms of the Buy-back on 3 December 2012.

The offer entailed the exchange of twenty (20) designated bonds which were issued by the Hellenic Republic within the framework of the PSI and were governed by English Law (of a total outstanding nominal amount of €62 billion), for up to €10 billion aggregate principal amount of 6-month, zero-coupon, EFSF notes

governed by English law, under a separate modified Dutch auction for each series of designated bonds. The purchase prices to set in the modified Dutch auction ranged between 30.2 per cent. and 40.1 per cent. depending on the designated bonds' maturity.

More particularly, for each €1,000 principal amount of a designated bond, the bondholder would receive: (a) EFSF notes with a principal amount equal to one thousand (1,000) euros multiplied by the purchase price (expressed as a percentage to be applied to the principal amount of the relevant designated bond) selected by the Hellenic Republic for that series of designated bonds under the modified Dutch auction; and (b) EFSF notes with the principal amount equal to the amount of the accrued unpaid interests to but excluding the settlement date on that series of designated bonds (subject to rounding).

The exchange was settled on 11 December 2012 and the Hellenic Republic finally exchanged €11.3 billion value of EFSF notes for €31.8 billion value of designated bonds, resulting to a reduction of the debt to GDP ratio by 9.5 per cent., below the originally targeted 11 per cent.

Interest Rates

Under Greek law, interest rates applicable to bank loans are not subject to a legal maximum, but they must comply with certain requirements intended to ensure clarity and transparency, including with regard to their readjustments. Specifically, the Act of the Governor of the Bank of Greece No. 2501/31.10.2002 regarding customers information requirements on the terms of their transactions with credit institutions provides that credit institutions operating in Greece should, among other things, determine their interest rates in the context of the open market and free competition rules, taking into consideration the risks undertaken on a case-by-case basis, potential changes in the financial conditions and data and information specifically provided by counterparties for this purpose.

Furthermore, Decision of the Banking and Credit Committee of the Bank of Greece No. 178/3/19.7.2004 clarifies Bank of Greece Governor's Acts Nos. 1087/1987, 1216/1987, 1955/1991, 2286/1994, 2326/1994 and 2501/2002 concerning the determination of interest rates and customer information by credit institutions. Specifically, this decision expressly provides that the determination of the maximum limit for banking interest rates by administrative authorities, or their correlation with the maximum limit for non-banking interest rates, is not compatible with the principles governing the monetary policy of the European central bank system. Banking interest rates are freely determined taking into consideration the estimated risks on a case-by-case basis, the conditions on financial markets from time to time and the general obligations of the banks from the provisions governing their operation.

Limitations apply to the compounding of interest. In particular, the compounding of interest with respect to bank loans and credits only applies if the relevant agreement so provides and is subject to limitations that apply under Article 30 of Greek law 2789/2000, as in force and Article 39 of Greek law 3259/2004, as in force. It is also noted that with respect to interest of loans and other credits, Greek credit institutions must also apply Article 150 of the Banking Law, which, notwithstanding the accounting treatment under the applicable accounting standards, precludes credit institutions to account for interest income from loans which are overdue for more than a 3-month period, or six months in the case of loans to natural persons secured by real estate.

Moreover, according to Article 150 par.2 of the Banking Law it is prohibited to grant new loans for the repayment of overdue interest or to enter into debt settlement having a similar result, unless such actions are taken in the context of an agreement for the settlement of the entirety of the debts of the borrower, which shall be based on a detailed examination of the borrower's capacity to fulfil the undertaken obligations under specific timeframes.

Secured Lending

According to Article 11 of Banking Law, among the activities that Greek credit institutions are permitted to engage is lending including, *inter alia*: consumer credit, credit agreements relating to immovable property, factoring, with or without recourse, financing of commercial transactions (including forfeiting).

The provisions of legislative decree 17.7/13.08.1923 regulate issues regarding the granting of loans secured by in rem rights and Greek law 3301/2004, as amended and in force, regulates issues regarding financial collateral arrangements.

Mortgage lending is extended mostly on the basis of mortgage pre-notations, which are less expensive and easier to record than mortgages and may be converted into full mortgages upon final non appealable court judgment.

European Directive 2014/17 on credit agreements for consumers relating to residential immovable property lays down a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to residential immovable property, including an obligation to carry out a creditworthiness assessment before granting a credit, as a basis for the development of effective underwriting standards in relation to residential immovable property in the Member States, and for certain prudential and supervisory requirements, including for the establishment and supervision of credit intermediaries, appointed representatives and non-credit institutions. Greece transposed Directive 2014/17 into national legislation by means of Greek law 4438/2016 (Government Gazette issue A' 220/28.11.2016).

Restrictions on the Use of Capital

The compulsory commitments framework of the Bank of Greece is in line with Eurosystem regulations. Reserve ratios are determined by category of liabilities at 1 per cent. for all categories of liabilities comprising the reserve base, with the exception of the following categories to which a zero ratio applies:

- Deposits with agreed maturity over two years;
- Deposits redeemable at notice over two years;
- Repos; and
- Debt securities with agreed maturity over two years.

This requirement applies to all credit institutions.

Restrictions on Enforcement

According to Greek law 4224/2013 and the Cabinet Act No. 6 of 17 February 2014, as amended by the Cabinet Act No 20 of 14 August 2015 and replaced by Greek law 4389/2016 (art. 72 to 98), as amended and in force, an intergovernmental Council for the Management of Private Debt was established (the **Council**). The Council is composed by the Ministers of Finance, Development and Tourism, Justice, Transparency and Human Rights, Labor, Social Security and Welfare, and Finance and introduces and monitors the necessary actions for the creation of a permanent mechanism having as purpose the resolution of the non-serviced/performing private debt of individuals, legal entities and undertakings.

Moreover, according to the provisions of Greek law 4224/2013, as amended and in force, the Council provided a definition of "cooperating borrower" specifying when a borrower is classified as cooperating towards his/her lenders and assessed a methodology for determining "reasonable living expenses". A "debtor" is considered cooperating if: (i) it provides its creditor with its own or its representative's full and

up-to-date contact details; (ii) it is available to communicate with its creditor and reverts with honesty and clarity on its creditor's calls and letters within 15 business days; (iii) it notifies its creditor fully and honestly of its current economic condition within 15 business days from any change thereto or from the relevant creditor's request; (iv) it communicates fully and honestly to its creditor any information that may significantly impact its economic condition within 15 business days from the date it obtained such information; and (v) it consents to explore any alternative options for the restructuring of its debt

Greek law 4224/2013, as in force, in conjunction with ministerial decision no. 5921/2015, provides that the consumer ombudsman will act extra judicially as mediator solely for the amicable settlement of the dispute between lenders and borrowers for the purpose of settling non-accruing loans within the framework of the Banks' Code of Conduct for the management of non-accruing loans.

Bank of Greece has published new regulatory framework concerning the management of loans in arrears and non-accruing loans and specifically:

- The Executive Committee Act No. 42/30.5.2014, as amended by Executive Committee Acts No. 47/9.2.2015 and No. 102/30.08.2016 determined the framework of obligations of the credit institutions in relation to the administration of loans in arrears and non-performing loans, providing for an independent unit of each credit institution for the administration of such loans, the establishment of a separate procedure for the administration thereof supported by appropriate IT systems and periodic filing of reports to the management of the credit institutions and the Bank of Greece; and
- The Executive Committee Act No. 42/30.5.2014 was supplemented by Credit and Insurance Committee Decision No. 116/1/25.8.2014 of Bank of Greece "Introduction of a Code of Conduct" under Greek law 4224/2013, further amended by Credit and Insurance Committee Decision No. 148/10/05.10.2015 and as revised by Credit and Insurance Committee Decision No. 195/1/29.07.2016, as in force regarding the Revision of the Code of Conduct under Greek law 4224/2013 (the **Code of Conduct**).

Executive Committee Act No. 42/30.5.2014, as in force, lays down a special framework of requirements for credit institutions' management of past due and non accruing loans, in the framework of the provisions of Greek law 4261/2014, EU Regulation 575/2013 and the relevant Bank of Greece decisions. This framework imposes, among others, the following obligations on credit institutions:

- (a) to establish an independent arrears and NPLs management (**ANPLM**) function;
- (b) to develop a separate, documented ANPLM strategy, the implementation of which will be supported by appropriate Management Information Systems (**MIS**) and procedures; and
- (c) to establish regular reporting to the management of the credit institution and the Bank of Greece.

The Code of Conduct lays down general principles of conduct and introduces best practices, aimed to strengthen the climate of confidence, ensure engagement and information exchange between borrowers and lending institutions, so that each party can weigh the benefits or consequences of alternative forbearance or resolution and closure solutions for loans in arrears for which the loan agreement has not been terminated, with the ultimate goal of working out the most appropriate solution for the case in question. The Code of Conduct is applied by credit institutions supervised by the Bank of Greece, as well as by all financial institutions of article 4 of the CRR and by Receivables Management Companies and Receivables Acquisition Companies of Greek law 4354/2015, as in force. Furthermore, the debtors subject to the Code of Conduct may be natural persons, professionals or enterprises, regardless of their legal form.

Each institution falling within the framework of the Code of Conduct of law 4224/2013, as in force, has to implement, inter alia, an Arrears Resolution Procedure (hereinafter **ARP**), a detailed record with

categorisation of loans and borrowers, to which the examination procedure of the objections is recorded with details, as well as to establish an Objections Committee composed by at least three of its senior executives.

In dealing with cases of borrowers in arrears or pre arrears, every institution shall apply an ARP involving the following steps:

- Step 1: Communication with the borrower
- Step 2: Collection of financial and other information
- Step 3: Assessment of financial data
- Step 4: Proposal of appropriate solutions to the borrower
- Step 5: Objections review procedure

It should be noted that the Bank of Greece will not deal with individual cases of disputes between creditors and borrowers that may arise from the implementation of the Code of Conduct. Furthermore, Articles 1 – 3 of Greek law 4354/2015, as replaced by Article 70 of Greek law 4389/2016 as further amended by Greek law 4393/2016), as well as Executive Committee Act 118/19.5.2017, as amended and in force, establish the framework for the management and transfer of claims from loans that can include non-performing loans (NPL) by setting the requirements for the operation of loan management companies and loan transfer companies.

On 20 March 2017, the ECB published final guidance on NPL. The guidance outlined measures, processes and best practices which banks should incorporate when tackling NPL. Moreover, on 15th of March 2018, the ECB published an addendum to the ECB Guidance to banks on NPL. The addendum supplemented the qualitative NPL guidance and specified the ECB's supervisory expectations for prudent levels of provisions for new NPL.

Under Ministerial Decision 2/94253/0025 as published in Government Gazette 5960/08.01.2018, credit institutions and borrowers (natural persons and businesses), may settle their loans under article 103 of Greek law 4549/2018, as recently amended by Greek law 4597/2019, which are guaranteed by the Greek State, in accordance with the provisions of Greek laws 2322/1995 and 4549/2018 and their delegated ministerial decisions without the intervention of the Greek State.

Specific restrictions to enforcement against an individual debtor's primary residence may apply following a debtor's submission to recently introduced Greek law 4605/2019 (published in Government Gazette No. 52/01.04.2019) as adopted by Greek Parliament on 29 March 2019. For a detailed description, see "-Settlement of Amounts due by Over-indebted Individuals".

Management and/or transfer of loans

Greek law 4354/2015 (Articles from 1 to 3), as amended and in force (the **Receivables Law**), provides that the framework for the management and the transfer of receivables from both performing and non-performing loans and credits.

According to article 1 par. 1 of the Receivables Law, the management of receivables stemming from loan agreements and credits that have been granted by credit or financial institutions is only assigned to (a) *société anonymes* of a special and exclusive purpose established in Greece; and (b) entities domiciled in a Member State of the European Economic Area, provided that they have a permanent establishment in Greece through a branch with the purpose of managing claims from loans and credits.

The above entities shall obtain a special license from the Bank of Greece, subject to governance and organizational requirements imposed by the Receivables Law and shall be subject to the supervision of the Bank of Greece. These entities are further registered with special registries held with the General Commercial Registry and are governed by the provisions of the Receivables Law and the Greek law 4548/2018. Moreover, the application to the Bank of Greece for the granting of the *special license* referred to above must be accompanied with certain information including, *inter alia* (a) the articles of association of the applicant company, as amended and in force, (b) the identity of the natural or legal persons holding directly (or indirectly, namely by exercising control through intermediary legal entities), a participation percentage or voting rights equal or more than ten per cent. of the applicant company's share capital, (c) the identity of the natural or legal persons who, although not falling under (b) above, exercise control over the company through a written agreement or otherwise or by acting jointly, (d) the identity of the members of the board of directors or management, (e) certain questionnaires filled in by the shareholders and the directors of the applicant company in order to assess their capacity and suitability for this position ('fit-and-proper' test), (f) the organisational chart and internal documented procedures of the applicant, (g) the applicant's business plan and (h) a detailed report recording thoroughly the main methods and principles ensuring the successful reorganisation of the loans.

Irrespective of the above, the Bank of Greece may request any additional information that it considers important for the assessment of the application. The shares of the applicant company shall be registered shares.

Under the Receivables Law, the transfer of claims from loan agreements and credits that have been granted by credit or financial institutions can only take place by way of sale by virtue of a relevant written agreement and only to the following entities which:

- (a) are *société anonymes* that according to their articles of association may acquire claims from loans and credits, have their registered seat in Greece and are registered with the General Commercial Registry;
- (b) are domiciled within the EEA, which according to their articles of association may proceed to the acquisition of claims from loans and credits, subject to the EU legislation; and
- (c) are domiciled in third countries, which according to their articles of association may proceed to the acquisition of claims from loans and credits, subject to the EU legislation and have the discretion to be established in Greece through a branch, provided that: (i) their registered seat is not located in a state having a privileged tax regime, as such term is determined in the regulatory acts issued from time to time pursuant to Greek law 4172/2013, as in force (**Greek Tax Income Code**) and (ii) their registered seat is not located in a non-cooperative state, as such term is determined in the regulatory acts issued from time to time pursuant to the Greek Tax Income Code.

The purchase of the aforementioned receivables is valid only to the extent that a relevant management agreement has been entered into between an entity falling within one of the categories under (a), (b), or (c) above and an entity for the management of claims that has been licensed and is supervised by the Bank of Greece pursuant to the Receivables Law. The entering into a management agreement is always required for every subsequent transfer of the said receivables.

The Act of the Executive Committee of the Bank of Greece No. 118/19.05.2017, as amended and in force, sets out in detail the rules on the establishment and operation of companies acquiring and/or managing receivables from loans and credits under the Receivables Law. Certain loan categories had been temporarily excluded from the scope of the permitted sale and transfer until 31 December 2017; in particular such exclusion included loan agreements with mortgage or prenotation of mortgage on first residence of an objective value of up to €140,000.

The aforesaid Act lays down in detail the procedure for the granting of licence to these companies, the prudential supervision requirements, as well as the main principles for the organisation and corporate governance of the aforementioned entities, including the data and report to be submitted to the Bank of Greece on a periodical basis, the fees to be paid to the Bank of Greece, as well as the liabilities of credit institutions which assign the management or transfer receivables under the Receivables Law.

Guidelines for Capital Requirements

In June 2004 the Basel Committee issued a revised capital adequacy framework and, in November 2005, the Basel Committee issued its final proposals on capital standards, known as "Basel II". Basel II promotes the adoption of certain enhanced risk management practices. It introduces counterparty-risk sensitive, conceptually sound approaches for the calculation of capital requirements that take into account the sophistication of risk management systems and methodologies applied by banks.

The revised framework retains key elements of the 1988 capital adequacy framework, including the general requirement for banks to hold an 8 per cent. own funds to risk-weighted asset ratio, the basic structure of the 1996 amendment regarding the treatment of market risk and the definition of assets eligible for own capital purposes.

A significant innovation of the revised framework is the greater use of assessments of risk provided by banks' internal systems as inputs to capital calculations. In taking this step, the framework also puts forward a detailed set of minimum requirements designed to ensure the integrity of these internal risk assessments. The revised framework introduces capital requirements for operational risk and directs banks to establish an internal capital adequacy assessment process. This process takes into account market, credit and operational risks as well as other risks, including, but not limited to, liquidity risk, concentration risk, interest rate risk in the bank's investment portfolio, business risk and strategic risk.

The revised framework provides a range of options of escalated sophistication for the determination of the capital requirements for credit and operational risk. Various options allow banks and supervisors to select those approaches that are most appropriate for their own operations and the structure of their capital market. Furthermore, Basel II significantly enhances the requirements for market disclosures on both quantitative and qualitative aspects of risk management practices and capital adequacy.

The Basel II framework was implemented in the EU in June 2006 by means of EU Directives No. 2006/48 and No. 2006/49. These EU directives were transposed in Greece in August 2007 by means of Greek law 3601/2007 accompanied by various Acts issued by the Governor of the Bank of Greece.

In 2008, the European Commission submitted a Proposal for a Directive of the European Parliament and the Council of Europe amending Directives 2006/48/EC and 2006/49/EC regarding banks affiliated with central institutions, certain own funds items, large exposures, supervisory arrangements and crisis management which led to the adoption of Directive 2009/111/EC of the European Parliament and of the Council of Europe transposed into Greek law by virtue of Greek law 4021/2011, and Directives 2009/27/EC and 2009/83/EC as regards technical provisions concerning risk management. Greece adopted the new measures as from 31 December 2010. Further, by virtue of the enacted Act 13/28.03.2013 of the Executive Committee of the Bank of Greece, the percentage of the total risk-weighted assets that must be covered by a credit institution's Tier I funds is set at 9 per cent., starting 31 March 2013. The notion of the said Tier I funds includes, among others, the Preference Shares, held by the Hellenic Republic, and the contingent convertible securities issued under Greek law 3864/2010 (and the Cabinet Act No. 38/09.11.2012) as amended and in force, held by the HFSF. See "*The Hellenic Republic Bank Support Plan*". In addition, in relation to the Hellenic Republic's economic crisis and the adjustments concerning the Program, see The Macroeconomic Environment in Greece. Moreover, by virtue of the said Act, the percentage of the total risk-weighted assets that must be covered by a credit institution's common equity is set at 6 per cent., starting 31 March 2013. Act 13/28.3.2013 of the Executive Committee of the Bank of Greece was amended by virtue of Act

36/28.12.2013 which entered into force on 31 December 2013. By virtue of such Act, the 20 per cent. limit on the deduction of deferred tax assets was abolished.

On 24 November 2010, EU Directive No. 2010/76/EC (CRD III) was issued amending Directives 2006/48/EC and No. 2006/49/EC as regards capital requirements for the trading book and for resecuritisations, and the supervisory review of remuneration policies. This Directive introduces a number of changes in response to the recent and current market conditions, such as:

- Increase of capital requirements for market risk in the trading book under the use of internal models taking into account potential losses from adverse market movements in stressed conditions;
- Increase of capital requirements under the Standardised Approach for specific market risk of positions in equities held in the trading book;
- Imposition of higher capital requirements for positions in re-securitisations; and
- Imposing on credit institutions the obligation to prepare and implement remuneration policies and practices, consistent with efficient risk management and applicable for individuals fulfilling roles with potential impact on a bank's risk profile.

In December 2010, the Basel Committee issued two prudential framework documents ("Basel III: A global regulatory framework for more resilient banks and banking systems", December 2010 and "Basel III: International framework for liquidity risk measurement, standards and monitoring", December 2010) which contain the Basel III capital and liquidity reform package. The so called Basel III documents were revised in June 2011. The new Directive No. 2013/36/EU of the European Parliament and the Council of 26 June 2013 (**CRD IV**) and Regulation 575/2013 of the European Parliament and Council of 26 June 2013 (CRR) took effect on 1 January 2014 gradually introducing Basel III. The new regime amends current rules on the capital requirements for banks and investment firms, aiming to further transpose into EU law the Basel III requirements, including rules regarding capital requirements, capital conservation and buffers, and liquidity and leverage. Some major points of the new framework include:

- *Quality and Quantity of Capital.* CRD IV revised the definition of regulatory capital and its components at each level. It also provided for a minimum Common Equity Tier I Ratio of 4.5 per cent., a Tier I Ratio of 6 per cent. and a total capital ratio of 8 per cent., without allowing member states to provide for a higher minimum ratio. It also introduced a requirements, criteria and characteristics for Common Equity Tier I and Tier II capital instruments; EBA will prepare, publish and update a list of all capital instruments that qualify as Common Equity Tier I in each member state, starting from 1 February 2015;
- *Capital Conservation Buffer.* In addition to the minimum Common Equity Tier I Ratio and Tier I Ratio, banks will be required to hold an additional buffer of 2.5 per cent. of common equity as capital conservation buffer. Depletion of the capital conservation buffer will trigger limitations on dividends, distributions on capital instruments (additional Tier I) and compensation and it is designed to absorb losses in stress periods;
- *Systemic Risk Buffer.* According to CRD IV, member states may require the creation of a buffer against systemic risk in the financial sector or subsets thereof, in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks not covered by CRR, in the meaning of a risk of disruption the financial system with the potential to have serious negative consequences to the financial system and the real economy in a specific member state. Such buffer may vary from 1 per cent. to 5 per cent. and is constituted by Common Equity Tier I elements;

- *Deductions from Common Equity Tier I.* CRD IV revises the definition of items that should be deducted from regulatory capital. In addition, most of the items that are now required to be deducted from regulatory capital will be deducted in whole from the Common Equity Tier I component;
- *A Grandfathering Period for existing non-common Equity Tier I and Tier II.* Capital instruments that no longer qualify as non-common equity Tier I capital or Tier II capital will be phased out over a period beginning 1 January 2013 and ending 31 December 2021. The regulatory recognition of capital instruments qualifying as own funds until 31 December 2011 will be reduced by a specific percentage in each subsequent year. Step-up instruments will be phased out at their effective maturity date (i.e. their call and step up date) if the instruments do not meet the new criteria for inclusion in Tier I or Tier II. Existing public sector capital injections will be grandfathered until 31 December 2017;
- *No Grandfathering for Instruments issued after 1 January 2012.* Only those instruments issued before 31 December 2011, will likely qualify for the transition arrangements discussed above;
- *Countercyclical Buffer.* To protect the banking sector from excess aggregate credit growth CRD IV gives Member States the right to require an additional buffer of 0 per cent. - 2.5 per cent. of Common Equity Tier I, to be imposed during periods of excess credit growth according to national circumstances. The countercyclical buffer, when in effect, will be introduced as an extension of the capital conservation buffer;
- *Central counterparties.* To address the systemic risk arising from the interconnectedness of banks and other financial institutions through the derivatives markets, the Basel Committee is supporting the efforts of the Committee on Payments and Settlement Systems and International Organisation of Securities Commissions (**IOSCO**) to establish strong standards for financial market infrastructures, including central counterparties (**CCPs**). A 2 per cent. risk-weight factor is introduced by the CRR to certain trade exposures to qualifying CCPs (replacing the current 0 per cent. risk weighting). The capitalisation of bank exposures to CCPs will be based in part on the compliance of the CCP with the IOSCO standards (since noncompliant CCPs will be treated as bilateral exposures and will not receive the preferential capital treatment referred to above). As mentioned above, a bank's collateral and mark-to-market exposures to CCPs meeting these enhanced principles will be subject to 2 per cent. risk-weight, and default fund exposures to CCPs will be capitalised based on a risk-sensitive waterfall approach;
- *Asset value correlation multiplier for large financial institutions.* A multiplier of 1.25 is proposed to be applied to the correlation parameter of all exposures to financial institutions meeting particular criteria specified by the Committee;
- *Counterparty Credit Risk.* CRD IV is raising counterparty credit risk management standards in a number of areas, including for the treatment of so-called wrong-way risk, i.e. cases where the exposure increases when the credit quality of the counterparty deteriorates. For example, the proposal includes a capital charge for potential mark-to-market losses (i.e. credit valuation adjustment risk) associated with a deterioration in the creditworthiness of a counterparty and the calculation of Expected Positive Exposure by taking into account stressed parameters;
- *Leverage Ratio.* The Basel Committee confirmed its previously declared commitment to an unweighted Tier I leverage ratio of 3 per cent. that will apply for all banks as part of the Pillar II framework from 1 January 2013 with a view towards migrating the ratio to a Pillar I minimum requirement by 2018 (subject to any final adjustments);
- *Systemically Important Banks.* Systemically important banks should have loss absorbing capacity beyond the minimum standards and the work on this issue is ongoing. Under the new framework, a systemically important bank may be required to maintain a buffer of up to 2% of the total risk

exposure amount, taking into account the criteria for its identification as a systemically important bank. That buffer shall consist of and shall be supplementary to Common Equity Tier I capital; and

- *Liquidity Requirements.* CRD IV introduces progressively as of 1 January 2015 a liquidity coverage ratio, and a net stable funding ratio from 1 January 2016, allowing in both cases member states to maintain or introduce national provisions until binding minimum standards are introduced by the European Commission.

On 8 March 2017, the EBA published the final guidelines on the liquidity coverage ratio disclosure. The final guidelines provide harmonised disclosure templates and tables for liquidity coverage ratio disclosure without altering the general disclosure framework provided for in the CRR. In particular, they envisage a fully-fledged quantitative liquidity coverage ratio disclosure template for systemic credit institutions and a simplified one for the rest of the credit institutions which will apply to them. Moreover, on 7 April 2018, the EBA published its final draft of implementing technical standards amending the European Commission's Implementing Regulation (EU) No. 680/2014 on supervisory reporting. The updated implementing technical standards include changes to additional monitoring metrics for liquidity. The European Commission adopted the Implementing Act amending Regulation (EU) No. 680/2014 on supervisory reporting on 9 October 2018 and the amended requirements have applied from 31 December 2018. The EBA has determined that the Issuer is a systemic bank, as described above, and therefore, the Issuer has prepared a resolution plan at a Group level, identifying systemically important functions of the Issuer and the steps needed to maintain these functions under adverse scenarios.

In addition to the material changes in capital and liquidity requirements introduced by Basel III and CRD IV, there are several new initiatives. These initiatives include, among others, Markets in Financial Instruments Regulation (Regulation EU 600/2014), applicable since 3 January 2018 and a revised Markets in Financial Instruments Directive (Directive 2014/65/EU) transposed into national legislation by Greek law 4514/2018. Further to the implementation of MIFID II, following the Acts of the Execution Committee of the Bank of Greece were issued:

- Act No. 146/13.07.2018 on the requirements for the registration in the Bank of Greece registry of persons providing investment services on behalf of credit institutions as tied agents pursuant to article 29 of Greek law 4514/2018
- Act No. 147/27.07.2018 on the framework for safeguarding financial instruments and funds belonging to clients and product governance obligations.

Solvency II

The directive on the undertaking and pursuit of the business of Insurance and Reinsurance "Solvency II" (Directive No. 2009/138/EC) of 25 November 2009 is a fundamental review of the capital adequacy regime for the European insurance sector business. However, the EU adopted a full scale revision of the solvency and prudential framework applicable to insurance and reinsurance companies, as well as insurance groups known as Solvency II. The framework for Solvency II is set out in the Solvency II Directive and the Omnibus II Directive. Greece transposed the Solvency II framework by virtue of Law 4364/2016 (Government Gazette issue 13/05.02.2016), which sets out the regulatory requirements for insurance and reinsurance undertakings operating in Greece, the relevant supervisory regime and the resolution and liquidation framework for insurance undertakings.

Solvency II repealed the previously applicable regime under Solvency I and is aimed at creating a new solvency framework under which the financial requirements that apply to an insurance company, reinsurance company and insurance group better reflect such company's specific risk profile. Solvency II introduces economic risk based solvency requirements across all Member States for the first time. While Solvency I included a relatively simple solvency formula based on technical provisions and insurance premiums, Solvency II introduces a new "total balance sheet" type regime where insurers' material risks and their

interactions are considered. In addition to these quantitative requirements (**Pillar I**), Solvency II also sets requirements for governance, risk management and effective supervision (**Pillar II**), and disclosure and transparency requirements (**Pillar III**).

Pursuant to Pillar I, specific risk-based solvency capital requirements are introduced and the insurers are required to hold capital against market, credit and operational risk. Law 4364/2016 sets out specific rules for the calculation of own funds, the valuation of assets and liabilities and the valuation of technical provisions. In particular, with respect to own funds calculation, the resources held by insurance or reinsurance companies must be sufficient in order to cover both a Minimum Capital Requirement (**MCR**) and a Solvency Capital Requirement (**SCR**). The SCR shall be calculated on the basis of the company's assets and liabilities, either by using a standard model or by developing an internal model adjusted to the needs of each company following approval by the supervisory authority (i.e. the Bank of Greece).

Pursuant to Pillar II, strict requirements with regard to identification, measurement and proactive management of risks have been established through the introduction of "Own Risk and Solvency Assessment" (**ORSA**). ORSA shall be used for the valuation and assessment of risks that may be incurred by an insurance or reinsurance company depending on its risk profile and their impact on the company's solvency. An internal risk management control system shall also be introduced in the daily functions of insurance and reinsurance companies and the companies shall be required to report the way in which they undertake the risk management exercise and demonstrate how this affects their business activity and decision making procedures. Outsourcing of insurance or reinsurance activities to individuals or legal persons is permitted (subject to certain exceptions), but it does not discharge the company from its civil, penal, administrative and other obligations that are set out in Law 4364/2016.

Pursuant to Pillar III, an extensive and detailed reporting of financial and risk information is required to facilitate the supervisory review process through which the supervisor shall evaluate insurers' and reinsurers' compliance with the laws, regulations and administrative provisions adopted under the Solvency II framework and any implementing measures. In this context, the insurance and reinsurance undertakings are required to publish, on an annual basis, a report regarding their solvency and financial condition. Moreover, in case of crucial developments that have affected their MSR or SCR, insurance or reinsurance companies may be required to disclose the amount of such variation and announce any corrective measures that they purport to apply.

The Bank of Greece, in its capacity as supervisory authority, is responsible for the proper operation of the insurance and reinsurance market and the implementation of the new regulatory framework on a preventive, corrective and suppressive basis. The Bank of Greece exercises financial supervision on insurance and reinsurance companies operating in Greece, in order to confirm their solvency in accordance with the provisions of Greek law 4364/2016. Moreover, it evaluates, on a regular basis, the corporate governance principles applied by the supervised entities, their capital adequacy, including the quality and adequacy of own funds, their technical provisions, their risk assessment process and the companies' ability to identify risks and adjust decision making process accordingly. The Bank of Greece may request to be provided with any information that is considered necessary to exercise its powers and it may impose on the insurance and reinsurance companies additional capital requirements under exceptional circumstances, as set out under article 26 of Greek law 4364/2016.

Banking Union

EU ambassadors on 15 February 2019 endorsed an agreement reached between the Romanian presidency and the EU Parliament on a set of revised rules aimed at reducing risks in the EU banking sector. The package agreed by the EU Council and EU Parliament on 15 February 2019 comprises two regulations and two directives relating to:

- Bank capital requirements (amendments to EU Regulation 575/2013 and EU Directive 2013/36/EU)

- The recovery and resolution of banks in difficulty (amendments to EU Directive 2014/59/EU and EU Regulation 806/2014).

EU ambassadors have endorsed the deal on all risk reduction measures. The risk reduction package is intended to implement reforms agreed at international level following the 2007-2008 financial crisis to strengthen the banking sector and address outstanding challenges to financial stability. Presented in November 2016, they include elements agreed by the Basel Committee on Banking Supervision and by the Financial Stability Board (FSB).

Among the core measures agreed to reduce risk in the banking system, the package enhances the framework for bank resolution. It requires global-systemically important institutions ('G-SIIs') to have more loss-absorbing and recapitalisation capacity by setting the requirements as regards the amount and quality of own funds and eligible liabilities (MREL) to ensure an effective and orderly "bail-in" process. It also provides provisional safeguards and possible additional actions for resolution authorities.

The package also strengthens bank capital requirements to reduce incentives for excessive risk taking, by including a binding leverage ratio, a binding net stable funding ratio and setting risk sensitive rules for trading in securities and derivatives.

In addition, the banking package contains measures to improve banks' lending capacity and to facilitate a greater role for banks in the capital markets, such as:

- reducing the administrative burden for smaller and less complex banks, linked in particular to reporting and disclosure requirements;
- enhancing the capacity of banks to lend to SMEs and to fund infrastructure projects;

The banking package also contains a framework for the cooperation and information sharing among the various authorities involved in the supervision and resolution of cross-border banking groups. The agreed measures preserve the balance achieved by the Council position between the powers of home and host supervisors in order to facilitate cross-border flows of capital and liquidity, while ensuring an adequate level of protection for depositors, creditors and financial stability in all member states. The agreement also introduces amendments to improve cooperation between competent authorities on matters related to the supervision of anti-money laundering activities.

Derivatives Transactions—European Market Infrastructure Regulation (EMIR)

In order to address the roots of the financial crisis, the G20 countries committed to address risks related to the derivative markets. In order to make that commitment effective, the European Parliament and the Council have adopted a regulation that requires OTC derivative contracts to be cleared, derivative contracts to be reported and sets a framework to enhance the safety of central clearing counterparties (CCP) and for Trade Repositories (TR). The Regulation (EU) No. 648/2012 of the European Parliament and of the Council of 4 July 2012, on OTC derivatives, CCPs and TRs entered into force on 16 August 2012 and is directly applicable in all the Member States. EMIR has been supplemented by several Commission Delegated Regulations (EU), including Regulations No. 148/2013 to 153/2013 of 19 December 2012, No. 1002/2013 and No. 1003/2013 of 12 July 2013, No. 284/2014 of 13 February 2014 and No. 667/2014 of March 13, 2014, No. 2016/2251 of 4 October 2016, No. 2017/104 of 19 October 2016.

Settlement of Amounts due by Over-indebted Individuals

On 3 August 2010, Greek law 3869/2010 was put in force with respect to the settlement of amounts due by over-indebted individuals. The law allowed the settlement of amounts, due to credit institutions by individuals evidencing permanent and general inability (without intention) to repay their due debts, by submitting an application for a three-year settlement of their debts and writing off the remainder of their

debts, in accordance with the terms of the settlement agreed. All individuals, both consumers and professionals, were subject to the provisions of Greek law 3869/2010, as amended and in force, with the exception of individuals who could be declared bankrupt under the Bankruptcy Code.

This regulatory regime, as consecutively amended, allowed the settlement of all amounts due to credit institutions (consumer, mortgage and commercial loans either promptly serviced or overdue), as well as those due to third parties with the exception of debts ascertained during the year before the submission of the application, from intentional torts, administrative fines, monetary sanctions as well as obligations for spousal or child support. Following the amendment of the law by Greek law 4336/2015, the scope of its provisions was widened to include ascertained debt towards the State, the Tax Authorities, Municipalities and Prefectures and Social Security Funds, provided that the above institutions are not the only creditors of the applicant and that the above debt is being subjected to restructuring along with its debt towards private creditors.

On 29 March 2019, the Greek Parliament replaced the former legal regime by adopting the new Greek law 4605/2019. The new provisions, which entered into force on 30 April 2019, introduced, inter alia, important amendments to the eligibility criteria of for admission of debtors to the protection framework.

Specifically, in order for a debtor's primary residence to be excluded from foreclosure, the following conditions as regards the debtor must be, inter alia, cumulatively satisfied:

- (a) The applying debtor must have any right in rem on the property which must be used as his primary residence;
- (b) No final decision has been issued on the application of article 4 of Greek law 3869/2010, which has denied the debtor's application because it was proven that the latter fraudulently came to repayment inability or because debtor's assets are sufficient for the repayment of his debts;
- (c) The objective value of the property must not exceed at the date of application, the amount of €175,000, if business loans are involved and the amount of €250,000 in any other case;
- (d) The family income of the applicant within the last year before the date of application must not exceed the amount of €12,500, increased by €8,500 for the spouse and €5,000 for every dependent family member up to three members;
- (e) If the total sum of debts exceeds €20,000, the applicant's immovable property, his spouse and dependent members other than the principal residence of the applicant as well as the vehicles of the applicant and his spouse shall have a total value not exceeding €80,000 at the date of the application;
- (f) Any deposits, financial products and precious metals of the applicant and his spouse and his dependent family members have a total value not exceeding €15,000 at the date of application; and
- (g) The total outstanding debt including accrued interest and, where applicable, execution costs of the debts shall not exceed at the date of the application €130,000 per creditor or €100,000 per creditor if these debts include business loans. If the debt has been settled in a currency other than euro, then for the calculation of the maximum amount of €130,000 or €100,000 respectively, the exchange rate of the foreign currency and the euro shall be taken into account.

Any natural person who fulfils the abovementioned eligibility criteria may submit an application until 31 December 2019, in order his primary residence to be excluded from foreclosure. The application will be submitted electronically to a digital management platform.

According to article 75 of the Greek law 4605/2019, the applicant, in order to protect his main residence, has to pay 120 per cent. of the commercial value of the residence, as determined on 31st December of the last

year prior to submission of the application. The repayment shall be made in monthly equal instalments, plus a three-month Euribor interest rate increased by 2 per cent. If the 120 per cent. of the primary residence's value exceeds the total of the debts referred to the application, then all debts shall be repaid accordingly in interest-rate instalments. The abovementioned amount shall be paid within a period of twenty-five (25) years, but shall not exceed the applicant's 80th year of age. If there are more than one creditors, the monthly instalments referred above shall be allocated among the creditors, according to their percentage in the proceeds, if the primary residence would be auctioned without any costs of execution and without classification of other creditors who are not mentioned in the application.

The new draft law has also introduced a provision according to which, the Greek State automatically may contribute to the payment of monthly instalments of any debtor who has submitted the abovementioned application until 31 December 2019 providing that the latter has settled all his debts and the agreed settlement plan is in accordance with article 75 of the Greek law 4605/2019.

On 8 April 2019, the Joint Ministerial Decision 39100/08.04.2019 was adopted and published in Government Gazette No. 1167/08.04.2019 and specifies further details as regards the state contribution. According to the Joint Ministerial Decision, the state contribution will be allocated on a monthly basis and varies between 20 to 50 per cent. of the monthly mortgage payment. A different level of subsidization is provided for the type of eligible loans, i.e. such as business loans with property used as guarantees. The level of the state contribution depends on the annual income declared by the applicant, with 17,500 euros being the highest point, and different levels for a married couple, and increasing with each dependent, up to three maximum. In addition, an eligible borrower, his or her spouse, and all dependents - as listed on the application - must file individual tax statements annually, declare changes in their particulars on a specific online platform and also consent to possible visits by inspectors at their residence for an on-site verification of the composition of the dependent family unit. Fines are also envisioned for fake or misleading information. The contribution of the Greek State is provided as long as the settlement plan is in force. The conditions and the amount of the state contribution are examined by the Greek State each year. The beneficiary, after a period of one (1) year from the initial contribution or the last adjustment of the contribution, may request a readjustment of the contribution rate if, due to any change to his incomes, reasonable living costs or reference rate, he becomes unable to pay his own contribution. As long as the request for readjustment of the Greek State contribution is pending, the debtor shall pay his own contribution, as lastly decided. The readjustment of the contribution does not affect the monthly instalments received by creditors. If the beneficiary delays to pay his own contribution, the Greek State shall not provide the agreed state contribution.

Furthermore, Greek law 4336/2015 introduced a procedure for the fast settlement of small debts. It applies to debts less than or equal to 20,000 Euros and debtors whose overall assets do not exceed 1,000 Euros. The debtor may be fully discharged of its debts following an initial supervision period of 18 months on condition that it submits information to the secretariat of the competent court, on a quarterly basis at the latest, on any change in the property or income condition of the debtor and the debtor's family.

Additional Reporting Requirements for the Credit Institutions

Following the adoption of Basel II guidelines, the Governor of the Bank of Greece issued Act No. 2606 of 21 February 2008, determining the new reporting requirements for credit institutions in Greece. This Act was initially replaced by Act 2640 of 18 January 2011, and subsequently by Act 2651 of 20 January 2012. The requirements include the following reports:

- Share capital structure, special participations, persons who have a special affiliation with the credit institution and loans or credit exposures to persons with a special affiliation with the credit institution;
- Other types of credit that have been provided to persons with a special affiliation with the credit institution;

- Own funds and capital adequacy ratio;
- Credit risk, counterparty risk and delivery settlement risk;
- Market risks of the trading portfolio and foreign exchange risk;
- Information on the composition of the financial instruments portfolio;
- Operational risk;
- Large exposures and concentration risk;
- Liquidity risk;
- Interbank market data;
- Financial statements and financial information;
- Covered bonds;
- Internal control systems;
- Prevention and suppression of money laundering and terrorist financing;
- Information technology systems; and
- Other information.

Furthermore, by virtue of Act No. 2670 of 7 March 2014, the Issuer must submit to the Bank of Greece periodic statements of its large exposures per country and wider economic and geographic zone.

The Issuer periodically submits to the Bank of Greece a full set of regulatory reports both at the Issuer and the Group level. The Issuer periodically submits to the Bank of Greece a full set of regulatory reports both at the Issuer and the Group level. Furthermore, under CRD IV and according to Implementing Regulation (EU) No. 680/2014 of the Commission of 16 April 2014, as amended by Implementing Regulation No. 2015/79 of the Commission of December 2014 and Implementing Regulation No. 2015/227 of the Commission of 9 January 2015 the Issuer submits reports to the competent authorities on a monthly, quarterly, semi-annual and annual basis in relation to the following sectors:

- (a) Own funds requirements and financial information according to Article 99 of the CRR;
- (b) Losses stemming from lending collateralised by immovable property according to Article 101(4)(a) of the CRR;
- (c) Large exposures and other largest exposures according to Article 394(1) of the CRR;
- (d) Leverage ratio according to Article 430 of the CRR;
- (e) Liquidity Coverage requirements and Net Stable Funding requirements according to the CRR; and
- (f) Asset encumbrance according to Article 100 of the CRR.

Capital Requirements in Our Foreign Markets

The United Kingdom and Serbia fully adopted the Basel II framework as of 1 January 2008 and 1 January 2012, respectively. Romania, Bulgaria and Cyprus, in their capacity as EU members, have already adopted the Basel II framework as of 1 January 2008. Romania, Cyprus, Bulgaria and the United Kingdom have also transposed CRD IV as of 1 January 2014.

Deposit and Investment Guarantee Fund

Pursuant to Greek law 3746/2009, the Hellenic Deposit and Investment Guarantee Fund (the **HDIGF**) was established as a private law entity and a general successor of the Deposit Guarantee Fund provided for by Article 2 of Greek law 2832/2000. The provisions currently applicable to the HDIGF are set out in Greek law 4370/2016, as in force, transposing into Greek law Directive 2014/49/EU. Greek law 4370/2016, came into force on 7 March 2016 and repealed the previously applicable law 3746/2009, setting out the rules for the operation of guarantee schemes.

Pursuant to Greek law 4370/2016, as in force, all credit institutions licensed to operate in Greece, with certain exemptions, and the local branches of credit institutions which have been established in non-EU Member States and are not covered by a guarantee scheme equivalent to that of the HDIGF mandatorily participate in the HDIGF. Greek branches of foreign credit institutions established in EU Member States may also become members of the investments cover scheme of HDIGF at their discretion.

The HDIGF has its registered seat in Athens, is supervised by the Minister of Finance, is not a state organisation or public legal entity and does not belong to the Greek public sector or the broader Greek public sector, as the latter is defined from time to time. The HDIGF is managed by a seven-member board of directors the Chairman of which is one of the Deputy Governors of the Bank of Greece. Of the remaining six members, one comes from the Ministry of Finance, three from the Bank of Greece and two from the Hellenic Bank Association. When reviewing and taking decisions in respect of requests for a credit institution's resolution under the BRR Law, the Board of Directors is constituted only by five directors, i.e. without the participation of the two directors appointed by the Hellenic Bank Association. Members of the above board of directors are appointed by a decision of the Minister of Finance and have a five-year tenure. 60 per cent. of HDIGF's constitutive capital was covered by the Bank of Greece and 40 per cent. by the members of the Hellenic Bank Association.

The objective of the HDIGF is (1) to indemnify depositors of credit institutions participating in the HDIGF obligatorily or at their own initiative that are unable to fulfil their obligations towards their depositors and finance resolution measures of credit institutions through the deposits cover scheme (the **Deposits Cover Scheme**) in accordance with article 104 of Greek law 4335/2015 (the **Resolution Scheme**); (2) to indemnify investors-customers of credit institutions participating in the HDIGF obligatorily or at their own initiative, in relation to the provision of investment services from these credit institutions in case the latter are unable to fulfil their obligations from the provision of "covered investment services" (the **Investments Cover Scheme**); and (3) to provide financing, either in the case of (i) the transfer of a credit institution's assets to another credit institution or another entity or (ii) a bridge bank established by the Bank of Greece under the reorganisation measures of articles 38 and 40 of Greek law 4335/2015 (the **Resolution Scheme**).

Under the Deposits Cover Scheme, the maximum coverage limit for each depositor with deposits not falling within the "exempted deposits" category is €100,000, taking into account the total amount of its deposits with a credit institution minus any due and payable obligations towards the latter, subject to set-off in accordance with Greek law. This amount is paid in euro to each depositor as an indemnity irrespective of the number of accounts, the currency or the country of operation of the branch in which it holds the deposit. In case of joint bank accounts, as defined by Law 5638/1932 (Government Gazette 307/A), each depositor's share shall be taken into account for the purposes of the calculation of the maximum indemnification amount as a separate deposit and is entitled to cover up to the aforementioned limit with his or her other deposits, as analysed above. The deposit of a group of persons without legal personality shall be aggregated and treated

as if made by a single depositor for the purpose of calculating the abovementioned limits. By way of exemption, the Deposits Cover Scheme covers deposits at an additional limit of up to a maximum amount of €300,000 deriving from specific activities (such as sale of a private property by an individual, payment of social security/insurance benefits, etc.) expressly specified in para 2 of article 9 of Greek law 4370/2016 credited to the relevant accounts, subject to the time limits and other conditions specified in Greek law 4370/2016, as in force.

The HDIGF also indemnifies the investors-clients of credit institutions participating in the Investment Cover Scheme with respect to claims from investment services up to the amount of €30,000 for the total of claims of such investor, irrespective of covered investment services, number of accounts, currency and place of provision of the relevant investment service. In case the investors of HDIGF member credit institutions are co beneficiaries of the same claim to guaranteed investment services, each investor's share in the claim shall be taken into account for the purposes of the calculation of the maximum indemnification amount as a separate claim and is entitled to cover up to the aforementioned limit in aggregate with his or her other investment claims, as analysed above. If the part of the claim corresponding to each co beneficiary is not specified in the agreement signed by the co beneficiaries and the HDIGF member credit institution, for the purposes of compensation each co beneficiary is considered as having an equal share in the investment. For the purposes of compensation, the claim of a group of persons without legal personality shall be treated as if made by a single investor.

The HDIGF is funded by the following sources: its founding capital, the initial and annual contributions of credit institutions obligatorily participating in the HDIGF and supplementary contributions, as well as special resources coming from donations, liquidation of the HDIGF's claims, the management of the assets of the HDIGF's Deposit and Investment Cover Schemes and loans.

In accordance with article 16 of Greek law 3864/2010, as amended by Greek law 4340/2015 and 4346/2015, the HDIGF may be granted a resolution loan, as set out in the Financial Facility Agreement dated 19 August 2015, by the Hellenic Financial Stability Fund for the purpose of covering expenses relating to the financing of banks' resolution pursuant to the provisions of the aforementioned Financial Facility Agreement without prejudice to the state aid rules of the European Union. The repayment of such loan will be guaranteed by the credit institutions participating in the HDIGF proportionately to their contributions to the Resolution Scheme or the Deposits Cover Scheme, as the case may be. Directive 2014/49/EU of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes has been transposed into Greek law by virtue of Greek law 4370/2016.

Single Resolution Fund

On 30 November 2015, by virtue of Greek law 4350/2015, the Greek Parliament ratified the Intergovernmental Agreement "on the transfer and mutualisation of contributions to the Single Resolution Fund (SRF), an essential part of the Single Resolution Mechanism" (the IGA), concluded between 26 EU Member States (the Contracting Parties), including Greece, on 21 May 2014, as amended on 22 April 2015.

Pursuant to IGA the contracting EU Member States, the credit institutions of which participate in the SRM and SSM, undertook to:

- (a) irrevocably transfer contributions collected at national level through the resolution financing arrangements for the purpose of their resolution schemes (in Greece the Resolution Fund, namely the Resolution Scheme of the HDIGF) from the credit institutions authorised within their territory, pursuant to Regulation (EU) No. 806/2014 and Directive No. 2014/59/EU, to the SRF established by the aforementioned Regulation;
- (b) allocate such contributions to separate parts corresponding to each Contracting Party, for a transitional period commencing on the date IGA enters into force and ending on the date the SRF achieves the target level of financing provided for in article 69 of Regulation (EU) No. 806/2014, but

no later than 8 years from the entry into force of IGA. The use of the different national parts shall be gradually rendered mutual, in order for the separation to cease to exist by the end of the transitional period.

The above-mentioned contributions include: (i) the ex-ante annual contributions from the credit institutions authorised within each Member State's territory the latest until the 30 June of such year, the first transfer taking place the latest until the 30 June 2016; (ii) contributions collected by the contracting parties pursuant to articles 103 and 104 of the BRRD prior to the entry into force of IGA, minus the amount the national resolution arrangements may have used prior to the entry into force of IGA for resolution actions within their territories; and (iii) extraordinary ex-post contributions promptly upon their collection, where the available financial means of the SRF are not sufficient to cover the losses, costs or other expenses incurred by the use of the SRF in resolution actions.

IGA further provides for the way the separate national parts of contributions of the SRF are formed based on the amount of contributions paid by the institutions authorised within each Member State as well as the way each national part shall be used in case of recourse to the SRF for resolution purposes of an institution within a Member State's territory prior to the mutualisation of the SRF's contributions. Also, IGA provides for the "temporary transfer of contributions" between the separate national parts, namely the cases under which the contracting Member States may require using the contributions of parts of the SRF corresponding to other Member States and not yet mutualised during the transitional period.

Prohibition of Money Laundering and Terrorist Financing

Greece, as a member of the Financial Action Task Force (**FATF**) and as a Member State of the EU, fully complies with FATF recommendations and the relevant EU legal framework.

Directive (EU) 2015/849 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing, amending Regulation (EU) No 648/2012 and repealing Directive 2005/60/EC and Directive 2005/60/EC, as well as Regulation 2015/847 (which came into force on 26 June 2017) on information accompanying transfers of funds, repealing Regulation (EC) No 1781/2006, were intended to strengthen EU rules against money laundering and ensure consistency with the approach followed at international level. Directive (EU) 2015/849 was transposed into Greek legislation through the recently enacted Greek law 4557/2018. The main provisions of the Greek legislation, as in force, provide, inter alia, the following:

- a declaration that money laundering and terrorist financing are criminal offences;
- a list of basic offences which includes, among others, bribery of political persons, bribery of employees, computer fraud, human trafficking, tax evasion, smuggling and non-payment of debts to the State;
- designation of persons falling within the ambit of Greek Law 4557/2018, including, among others, banks, financial institutions, electronic money institutions, credit servicing or credit acquiring firms and certain insurance undertakings (the **obliged persons**”);
- description of the circumstances, under which the “obliged persons” must display due diligence;
- definition of the beneficial ownership status and establishment of a national central beneficial owner registry providing accurate and up-to-date information on the Ultimate Beneficial Owner Status (**UBOS**) of any natural person(s) who ultimately owns or controls an entity and/or on whose behalf a transaction or activity is being conducted;
- an obligation that banks (and certain other persons) are required to identify customers, build KYC procedures, retain documents and report suspicious/unusual transactions to the relevant authorities;

- focusing on risk assessments and adoption of risk-based approach;
- obliged entities to take into consideration lower/higher risk indicators;
- widening the definition of Politically Exposed Persons (**PEP**);
- not applying restrictions relating to banking confidentiality in case of money laundering activities;
- an obligation to maintain evidence and records of transactions;
- the mandate of the competent anti-money laundering national Authority which is responsible, among others, for examining reports filed by banks and other individuals or legal persons with respect to suspicious transactions and for ordering sanctions against individuals who are suspected of terrorism;
- criminal, administrative and other penalties that are imposed in case of breach.

Within the scope of combating tax evasion, the Directive (EU) 2016/2258 provides for the access of tax authorities to the mechanisms, procedures, documents and information applied and held by the obliged persons (including banks) for AML/CFT purposes. The Directive was transposed into Greek law by the Greek Law 4569/2018.

It is noted that the competent Banking and Credit Committee of the Bank of Greece, has not yet issued a Decision incorporating the provisions of Law 4557/2018 and therefore the relevant previous Decisions are still in force as long as they do not contradict those of the Greek Law 4557/2018.

The Banking and Credit Committee of the Bank of Greece has issued Decision 281/5/17.03.2009 on the "Prevention of the Use of the Credit and Financial Institutions, which are Supervised by the Bank of Greece, for the Purpose of Money Laundering and Terrorist Financing", Decision 285/6/09.07.2009 which sets out an indicative typology of unusual or suspicious transactions within the meaning of Greek law 3691/2008 and Decision 290/12/11.11.2009 on the "Framework regarding administrative sanctions imposed on the institutions that are supervised by the Bank of Greece pursuant to article 52 of Greek law 3691/2008". The aforementioned Decisions 281/5/17.03.2009 and 285/6/09.07.2009 were amended by the Act of the Governor of the Bank of Greece No. 2652/29.02.2012 providing for, inter alia, an indicative typology of unusual or suspicious transactions pertaining to tax evasion. Moreover, Decisions 281/5/17.03.2009 and 290/12/11.11.2009 were further supplemented by Decision 300/30/28.07.2010 of the Banking and Credit Committee of the Bank of Greece setting out further obligations of the credit institutions under the anti-money laundering legislation.

Decision 281/5/17.03.2009 takes into account the principle of proportionality, and includes the obligations of all credit and financial institutions and FATF recommendations. This decision also reflects the common understanding of the obligations imposed by Regulation No. 1781/2006 of the European Parliament and of the Council of the European Union on the "Information on the Payer Accompanying Transfers of Funds".

The HCMC adopted the following decisions in 2011:

- Decision No. 34/586/26.5.2011 for the application of due diligence measures when outsourcing functions or within an agency relationship under the anti- money laundering legislation, which sets out the obligations of financial institutions to confirm the identity of their clients and beneficiaries; and
- Decision No. 35/586/26.5.2011, which modifies the HCMC's main decision (No. 01/506/08.04.2009) to prevent using the financial system for the purpose of money laundering and terrorist financing. The above decision has reinforced the enhanced due diligence measures applicable to high-risk

customers, as well as the obligation of companies, subject to it, to freeze the assets of persons who are in the list of sanctions.

In July 2002, Greek Parliament voted Greek law 3034/2002, which transposed into Greek law the International Convention for the Suppression of the Financing of Terrorism, with which the Group fully complies. In addition, the Group has complied with the United States legislation regarding the suppression of terrorism (known as **USA PATRIOT Act 2001**), which entered into force in October 2001 and incorporates provisions relating to banks and financial institutions with respect to worldwide money laundering.

In 2013, the Bank of Greece issued two Decisions (no. 94/23/2013 and no. 95/10/22.11.2013) which further strengthen the regulatory framework within which the supervised entities in Greece operate. Decision no. 95/10/22.11.2013 on "*information to be periodically disclosed by supervised institutions to the Bank of Greece*" was further amended by Decision no. 108/1/04.04.2014, enhancing the frequency of reporting. The amendments mainly harmonise the applicable provisions to the revised FATF recommendations with respect to Politically Exposed Persons (**PEPs**) by categorising local PEPs as high risk customers and by imposing on the supervised banks additional reporting obligations pertaining to suspicious cross border transfer of funds, as well as to high risk banking products and customers.

Moreover, the European Commission issued Regulation (EU) 2016/1675 supplementing Directive (EU) 2015/849 by identifying high-risk third countries with strategic deficiencies in their national anti-money laundering and terrorism-financing frameworks.

Furthermore, it should be noted that on 5 December 2017 the EU Council adopted its list of non-cooperative tax jurisdictions and published to Annexes containing: (i) the EU list of non-cooperative tax jurisdictions; and (ii) the state different jurisdictions cooperation with the EU with respect to commitments taken to implement tax good governance principles. The EU's Council's list is intended to promote good governance in taxation worldwide, maximizing efforts to prevent tax avoidance, tax fraud and tax evasion. Furthermore it is also noted that the current list, as in force, is to be revised at least once a year and the competent EU authorities may recommend an update at any time.

Lastly, the European Commission published a new Directive (EU) 2018/843 (5th AMLD) amending Directive (EU) 2015/849 and Directives 2009/138/EC and 2013/36/EU (required to be transposed into national law by 10 January 2020) introducing amendments to the existing European regulatory anti-money laundering and or terrorist financing regime including inter alia:

- Improving transparency on the real owners of companies;
- Improving transparency on the real owners of trusts;
- Interconnection of the beneficial ownership registers at EU level;
- Lifting the anonymity on electronic money products (prepaid cards) in particular when used online;
- Extending Anti-Money Laundering and Counter Terrorism financing rules to virtual currencies, tax related services, and traders in works of art;
- Broadening the criteria for assessing high risk third countries and improving checks on transactions involving such countries;
- Setting up centralised bank account registers or retrieval systems;
- Enhancing the powers of EU Financial Intelligence Units and facilitating their cooperation;
- Enhancing cooperation between financial supervisory authorities.

Payment Services in the Internal Market

Directive 2007/64/EC of the European Parliament and of the Council on payment services in the internal market (the **Payment Services Directive** or **PSD**) provides for common rules on electronic payments (e.g. payments through the use of debit card or money transfers) in 31 European countries (i.e. countries of the EU, Iceland, Norway and Lichtenstein). The PSD regulates in detail the information that must be provided to the users of the payment services and renders the payments faster and more secure. It also permits to the new entities called "payment institutions" to provide payment services in parallel to banks as "payment services providers". The PSD covers any kind of payment through electronic means, from transfer of credit and direct charge orders to payments through the use of a card (including credit cards), wire transfers and payments through the use of a mobile phone and internet, excluding the payments with cash and checks. Payments in every European currency, not only euro, are covered, under the condition that the payment service providers of both the payer and the payee are located in one of the 31 European countries.

The PSD, together with Directives 2007/44/EC and 2010/16/EU, have been transposed into Greek law by Greek law 3862/2010, as in force, in accordance with which every payment service provider, including the Issuer, is obliged to ensure in an accessible form a minimum level of information and transparency regarding the provided payment services, under specific terms and conditions. The new legislative regime also provides further protection regarding the rights of the users of the payment services.

Customers have the right to reclaim the amount of money transferred in cases where:

- Unauthorised credit of the customer's account was used for the purchasing of products or services;
- Authorised credit of the customer's account for the purchase of products or services, that (a) did not mention the exact amount of the payment transaction and (b) the amount of the payment transaction exceeded the amount reasonably expected by the customer, taking into account previous spending patterns, the Framework Contract's terms and the circumstances of the specific case; or
- There was a non-execution or defective execution of the payment transaction by the Issuer.

On 24 July 2013, the European Commission published a proposal for a directive of the European Parliament and of the Council "on payment services in the internal market and amending Directives 2002/65/EC, 2013/36/EU and 2009/110/EC and repealing Directive 2007/64/EC", which intended to incorporate and repeal the PSD. On 23 December 2015, the Directive 2015/2366/EU (the **PSD2**) was published in the Official Journal of the European Union. The PSD2 is expected to improve the functioning of the internal market for payment services and more broadly for all goods and services given the need for innovative, efficient and secure means of payments. The PSD2 entered into force on 12 January 2016 and EU Member States are required to transpose the same into national law by 13 January 2018. The PSD was repealed with effect from 13 January 2018. The PSD 2 was transposed into Greek law by virtue of Greek law 4537/2018 (published in Government Gazette 84/A/15.5.2018). This Directive has introduced numerous changes to the previous regime, the most significant of which are the following:

- (a) it expands the reach of the original PSD, including also payments to and from third countries, where at least one (and not anymore both) payment service providers is located within EU. Moreover, the extension in scope will also have as an effect that the same rules will apply to payments that are made in a currency that is not denominated in Euro or another EU member state's currency;
- (b) it encourages new players to enter the payment market (**TPPs**) that offer specific payment solutions or services to customers. The TPPs will have to follow the same rules as the traditional payment service providers: registration, licensing and supervision by the competent authorities. Furthermore, it opened the EU payment market for TPPs to offer payment services based on the access to the information from the payment account – so-called "payment initiation services providers" and "account information services providers". These TPPs are categorized as: account information

service providers (**AISPs**) that allow consumers and businesses to have a global view on their financial situation, and the payment initiation service providers (**PISPs**) that help consumers to make online credit transfers and inform the merchant immediately of the payment initiation, allowing for the immediate dispatch of goods or immediate access to services purchased online. Moreover, PSD2 allows payment service providers that do not manage the account of the payment service user to issue card-based payment instruments to that account and to execute card-based payments from that account. Such “third party” payment service provider – which could be a bank not servicing the account of the payer – will be able, after consent of the user, to receive from the financial institution where the account is held a confirmation (a yes/no answer) as to whether there are sufficient funds on the account for the payment to be made;

- (c) the original directive left it up to each country to decide upon surcharging of card payments, creating a scattered European landscape in which some countries banned this practice and some others allowed it. PSD2 standardises the different approaches to surcharges on card-based transactions, which are not allowed for those consumer cards affected by the interchange fee cap; and
- (d) PSD 2 introduced new security requirements for electronic payments and account access, along with new security challenges relating to AISPs and PISPs.

The Hellenic General Secretariat of Trade and Consumer Protection is appointed as competent authority to handle complaints of payment services users and other interesting parties (i.e. consumer associations).

On 24 July 2013, the European Commission also published a proposal for a Regulation on interchange fees for card-based payment transactions which led to the adoption on 29 April 2015 of Regulation EU 2015/751 of the European Parliament and of the Council on interchange fees for card-based payment transactions.

EU General Data Protection Regulation

Regulation (EU) No. 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (also known as the EU General Data Protection Regulation or the **GDPR**) represents a new legal framework for the data protection in the EU. It directly applies in all EU member states as of 25 May 2018 and replaces the current EU and Greek data privacy laws. Although a number of basic principles remained the same, the GDPR introduces new obligations on data controllers and enhanced rights for data subjects.

The GDPR applies to organisations located within the EU but it also extends to organisations located outside of the EU if they offer goods and/or services to EU data subjects. Regulators have unprecedented power to impose administrative fines and penalties for a breach of obligations under the GDPR, including fines for serious breaches of up to 4 per cent of the total worldwide annual turnover of the preceding financial year or €20 million and fines of up to 2 per cent of the total worldwide annual turnover of the preceding financial year or €10 million for other specified infringements. The GDPR identifies a list of points to consider when imposing fines (including the nature, gravity and duration of the infringement).

In Greece, there is still no statute that would implement and/or make use of the derogations allowed by the GDPR enacted by the Parliament (although a draft bill has been subject to a very short public consultation) and there is very little guidance as to how the Hellenic Data Protection Authority will enforce the GDPR. However, the Issuer has taken measures to comply with the GDPR requirements.

Consumer protection

Credit institutions in Greece are subject to legislation aiming at protecting consumers from abusive terms and conditions. In particular, Greek law 2251/1994, as amended and in force, sets forth rules on the marketing and advertisement of consumer financial services, prohibits unfair and misleading commercial practices and includes penalties for violations of such rules and prohibitions.

In addition, consumer protection issues are regulated through administrative decisions, such as Ministerial Decision Z1-798/2008 (Government Gazette Issue B' 1353/11.07.2008) on the prohibition of general terms which have been found to be abusive by final court decisions, as amended by Ministerial Decisions Z1-21/2011 (Government Gazette Issue B' 21/18.01.2011) and Z1-74/2011 (Government Gazette Issue B' 292/22.02.2011).

Further to the above, Directive 2008/48/EC of the European Parliament and of the Council of Europe on "*credit agreements for consumers and repeal of Council Directive 87/102/EEC*" provides for increased consumer protection in the context of consumer credit transactions and prescribes, among others, the inclusion of standard information in advertising and the provision of pre-contractual and contractual information to consumers.

The aforesaid Directive was transposed into Greek legislation by Ministerial Decision Z1-699/2010 (Government Gazette Issue B' 917/23.06.2010) with effective date 23 June 2010. The said Ministerial Decision provides for increased consumer protection in the context of consumer credit transactions and prescribes, among others, the inclusion of standard information in advertising and the provision of pre-contractual and contractual information to consumers. Ministerial Decision Z1-699/2010 was amended by Ministerial Decision Z1-111/2012 (Government Gazette Issue B' 627/2012) and Joint Ministerial Decision 108544/2018, that transposed into Greek law European Directive 2011/90/EU providing additional assumptions for the calculation of the annual percentage rate of charge.

The Decision Z1-699/2010, as amended and in force, contains specific provisions regarding the provision of standard information for the advertising of credit agreements, and the minimum information that should be provided to consumers so as to enable them to compare different offers. In order for the consumers to make informed decisions, they must receive adequate information in a clear and precise manner through standard information that should be available to them prior to execution of the agreement, including, among others, the total amount of credit, the terms governing money withdrawals, duration, interest rate, and relevant examples. The credit agreements should be executed in writing or by any other relevant means.

Before the conclusion of the credit agreement, the creditor assesses the consumer's creditworthiness and solvency on the basis of sufficient information, where appropriate obtained from the consumer during the pre-contractual stage, but also on the information provided by the consumer during a long-term transactional relationship, and after research on the proper data base, in accordance with the special provisions for the supervision of credit and financial institutions.

Consumers have the right to withdraw from their contracts within fourteen (14) days without providing any justification. In order to withdraw from their contracts, consumers must inform the creditor and pay the principal and any accrued interest calculated from the date of the granting of the credit up to the date of its repayment, without any undue delay and at the latest within thirty (30) days from the date of notification to the creditor. Consumers have the right to fulfil the entirety or part of their obligations before the date specified in the agreement. In case of early partial or full repayment, creditors are entitled to a reasonable and objectively justified compensation for any expenses directly related to the early repayment of the credit, provided that such early repayment is taking place within the time period for which a fixed interest has been agreed.

Finally, Act No. 2501/2002 of the Governor of the Bank of Greece, as in force, sets out fundamental disclosure obligations of credit institutions operating in Greece *vis à vis* any contracting party.

Ministerial Decision 56885/2014 set a code of conduct for the protection of consumers during sales, offer periods and promotional actions while Joint Ministerial Decision 70330/2015 transposed Directive 2013/11/EU on alternative dispute resolution for consumer disputes and introduced supplementary measures for the application of Regulation EU 524/2013 on online dispute resolution for consumer disputes.

Joint Ministerial Decision 5921/2015 (entered into force on 19 January 2015) set out the terms and the procedure for mediation of the consumer ombudsmen between credit institutions and debtors pursuant to the provisions of the Code of Conduct.

Presidential Decree No. 10/2017 introduced the "Code of Consumer Conduct" and set the principles to be applied to trade and the trading relations between suppliers and consumers and their associations. Finally, Ministerial Decision 31619/2017 introduced a Code of Consumer Conduct for e-commerce.

Most recently Greek law 4512/2018, as supplemented by the Ministerial Decision no. 5338/17.01.2018, brought significant amendments to Greek law 2251/1994 which is effective from 17 March 2018 onwards. The most important of such amendments for the credit institutions or financial institutions and servicers supervised by the Bank of Greece are the following:

- (a) Change in the definition of "consumer" falling within the ambit of the protection of Greek law 2251/1994 to include only individuals (and no longer legal entities); and
- (b) in the field of unfair terms in consumer contracts, protection is also provided only to the very small businesses, either natural or legal persons, as if it was offered to an individual.

The above applies only to contracts entered into after 17 March 2018. Old contracts are not affected by the introduced amendments.

Equity Participation by Banks in Other Companies

The Banking Law does not contain any provision regarding the equity participation of banks in other companies. Article 89 of the CRR provides that the competent authorities of member states must publish their choice among the available options included in such article in relation to the conditions applicable to the acquisition by credit institutions of a qualified holding in other companies.

The Bank of Greece has not published its choice as per the above to this date.

According to the Act of the Governor of Bank of Greece No. 2604/04.02.2008, issued by authorisation of the now abolished Law 3601/2007 for the acquisition by credit institutions of qualifying holdings in the share capital of undertakings in the financial sector, as amended by Decision 281/10/17.03.2009 of the Banking and Credit Committee of the Bank of Greece, credit institutions were required to obtain the Bank of Greece's prior approval to acquire or increase a qualifying holding in the share capital of credit institutions, financial institutions, insurance and reinsurance companies, investment firms, information technology management companies, real estate property management companies, asset and liability management companies, payment systems management companies, external credit assessment institutions and financial data collection and processing companies. The extent to which the above act remains applicable following the entry into force of the Banking Law is unclear.

Subject to EU regulations, new and significant holdings (concentrations) must be reported to the Greek Competition Commission according to Greek law 3959/2011 and must be notified to the European Commission, provided that they have community dimension within the meaning of Regulation No. 139/2004 on the control of concentrations between undertakings, following the procedure set in such Regulation (as supplemented by Regulation No. 802/2004).

The HCMC and ATHEX must also be notified once certain ownership thresholds are exceeded with respect to listed companies according to Greek law 3556/2007 as amended by Greek laws 4374/2016 and 4416/2016, and the relevant decisions of the HCMC and the ATHEX Regulation.

Equity Participations in Greek Credit Institutions

Article 23 of the Banking Law provides for a specific procedure by which the Bank of Greece is notified of the intention of an individual or a legal entity to acquire a participation reaching or exceeding the thresholds set by such article (namely, 20 per cent., 1/3, 50 per cent. or the threshold required for the credit institution to become a subsidiary of the acquirer) of the percentage of the total share capital or voting rights of a credit institution authorised by the Bank of Greece, including the appraisal of the acquirer or the approval, as the case may be of the above acquisition. It is noted that the notification obligation exists also in case an individual or a legal entity decides to cease holding directly or indirectly a participation in a credit institution seated in Greece or to reduce an existing participation below the above thresholds. As of 4 November 2014 the above supervisory authorities of the Bank of Greece are exercised by the ECB in collaboration with the Bank of Greece.

Executive Committee Act No. 22 of Bank of Greece, issued on 12 July 2013, as in force, codifies the provisions regarding the authorisation of credit institutions in Greece and the acquisition of a qualifying holding in a credit institution. Furthermore, this act specifies the necessary information for the prudential assessment of the proposed shareholders, the proposed members of the management body and the proposed key function holders of a credit institution by the Bank of Greece under the EBA guidelines. Moreover, according to Executive Committee Act No. 48 of Bank of Greece, issued on 24 March 2015, the aforementioned information should be accompanied by appropriate privacy statements included in this Act concerning personal data processing. Given that: (a) no other implementing act(s) of the relevant provisions of Greek law 4261/2014 has been issued as of the date of this Offering Circular and (b) that the provisions of this Act, do not appear to be at any point contradictory to the relevant provisions of Greek law 4261/2014, the provisions of the Executive Committee Act No. 22 of Bank of Greece shall be considered as applicable and in force, pursuant to article 166 para. 2 of Greek law 4261/2014.

As at 4 November 2014, the supervisory tasks described above were conferred to the ECB in cooperation with the Bank of Greece, according to the provisions of Regulation 468/2014.

The Hellenic Republic Bank Support Plan

In November 2008, the Greek Parliament passed Greek law 3723/2008 setting out the Hellenic Republic Bank Support Plan initially at the amount of €28 billion and following increases thereof, at the amount of €98 billion. The law was passed with the goal of strengthening Greek banks' capital and liquidity positions in an effort to safeguard the Greek economy from the adverse effects of the international financial crisis. The Hellenic Republic Bank Support Plan was revised and supplemented by further Greek laws and ministerial decisions.

The Hellenic Republic Bank Support Plan, as currently applicable, is comprised of the following three (3) pillars:

- *Pillar I: up to €5 billion in non-dilutive capital designed to increase Tier I ratios.* The capital took the form of non-transferable redeemable Preference Shares with a 10 per cent. fixed return. The deadline for the participation of credit institutions in Pillar I expired on 31 December 2013. Pursuant to article 1 of Greek law 4093/2012, the above 10 per cent. fixed return is payable in any case, notwithstanding the provisions of Greek Codified Law 2190/1920 as in force, save for Article 44A of Greek Codified Law 2190/1920, unless the payment of the relevant amount would result in the reduction of the Core Tier I capital of the credit institution below the prescribed minimum limit. The issuance price of the Preference Shares was the nominal value of the common shares of the last issuance of each bank.

The shares are redeemed at the subscription price either within five years from their issuance or, at the election of a participating bank, earlier with the approval of the Bank of Greece. In accordance with section/paragraph 1 of Ministerial Decisions 54201/B2884/2008, as amended by Ministerial

Decision 21861/1259B/2009 (Government Gazette Issue B 825/4.5.2009) and 5209/13237/3.2.2012, the Preference Shares are redeemed in their original subscription price for Greek government bonds or cash of equal value. At the time the Preference Shares are redeemed for Greek government bonds, the nominal value of the bonds must be equal to the initial nominal value of the bonds used for the subscription of the Preference Shares. Moreover, the maturity of the bonds should be the redemption date or within a period of up to three months from this date. In addition, on the redemption date for the Preference Shares, the market price of the bonds should be equal to their nominal value. If this is not the case, then any difference between their market value and their nominal value shall be settled by payment in cash between the credit institution and the Greek government. On the date of redemption, the fixed dividend return (10 per cent.) will also be paid to the Hellenic Republic.

Preference Shares are not mandatorily redeemable. However, if the Preference Shares are not redeemed within five years from their issuance or if the participating credit institution's general meeting has not approved their redemption, the Greek Minister of Finance will impose, pursuant to a recommendation by the Bank of Greece, a gradual cumulative increase of 2 per cent. per year on the 10 per cent. fixed return provided for during the first five years from the issuance of the shares to the Hellenic Republic. Pursuant to Article 1, paragraph 1, subparagraph 3 of Greek law 3723/2008 as supplemented by Decision No. 54201/B2884/2008 of the Minister of Finance on the share conversion terms, the banks may be required to convert the Preference Shares into common shares or another class of shares if the redemption of the Preference Shares as described above is impossible, due to non-compliance with the capital adequacy ratio requirements set by the Bank of Greece. The conversion ratio will only be determined at the time of conversion on the basis of the average value of such shares during the last year of their trading and the full dilutive effect of any such conversion will therefore only be known at that time. In case of liquidation of the participating bank, the Hellenic Republic is preferentially ranked against all other shareholders.

Pursuant to article 3 of Cabinet Act no. 36 dated 2 November 2015, the preference shares issued under the Hellenic Republic Bank Support Plan are subject to the burden sharing measures provided for under article 6a of Greek law 3864/2010. Pursuant to articles 6a and 7a of Greek law 3864/2010, as amended and in force, in case of conversion of the preference shares issued under the Hellenic Republic Bank Support Plan into Ordinary Shares of a credit institution under article 6a of Greek law 3864/2010, the ownership of such Ordinary Shares is transferred by operation of law to the HFSF and such Ordinary Shares will have full voting rights.

- *Pillar II: up to €85 billion in Hellenic Republic guarantees.* These guarantees will guarantee new borrowings (excluding interbank deposits) to be concluded until 31 December 2015 (whether in the form of debt instruments or otherwise) and with a maturity of three months to three years. These guarantees will be granted against commission and collateral sufficient at the discretion of the Bank of Greece to banks that meet the minimum capital adequacy requirements set by the Bank of Greece as well as criteria set forth in Decision No. 54201/B2884/2008 of the Minister of Finance, as in force, regarding liquidity, capital adequacy, market share size, amount and maturity of liabilities and share in the SME and mortgage lending market. The terms under which guarantees will be granted to financial institutions are included in Decision Nos. 2/5121/2009, 29850/B. 1465/2010 and 5209/B.237/2012 of the Minister of Finance.
- *Pillar III: up to €8 billion in debt instruments.* The deadline for the participation of credit institutions in Pillar III expired on 30 June 2015. These debt instruments have maturities of less than three years and were issued by the PDMA to participating banks meeting the minimum capital adequacy requirements set by the Bank of Greece, against commission and collateral sufficient at the discretion of the Bank of Greece. These debt instruments bear no interest, were issued at their nominal value in denominations of €1,000,000 and are listed on the ATHEX. They were issued by virtue of bilateral agreements executed between each participating bank and the PDMA. The debt

instruments must be returned at the applicable termination date of the bilateral agreement (irrespective of the maturity date of the debt instruments) or at the date Greek law 3723/2008 ceases to apply to a bank. The debt instruments that are returned are eventually cancelled. The participating banks must use the debt instruments received only as collateral for refinancing, in connection with fixed facilities from the ECB and/or for purposes of interbank financing. The proceeds of liquidation of such instruments must be used to finance mortgage loans and loans to SMEs at competitive terms.

Participating banks that utilise either the capital or guarantee facility have a government-appointed member of the Board of Directors as state representative. Such representative is an additional member to the existing members of the Board of Directors and has veto power on strategic decisions or decisions resulting to a significant change in the legal or financial position of the participating bank and for which the shareholders' approval is required. The same veto power applies to corporate decisions relating to the dividend policy and the compensation of the Chairman, the Managing Director-CEO and the other members of the Board of Directors of the participating banks, as well as its General Directors and their deputies. However, the government-appointed representative may only utilise its veto power following a decision of the Minister of Finance or if he considers that the relevant corporate decisions may jeopardise the interests of depositors or materially affect the solvency and effective operation of the participating bank. Moreover, the state appointed representative has full access to the participating bank's books and data, the reports for restructuring and viability, the plans for the medium-term financing needs of such bank as well as to reports on the level of financing of the Greek economy. In addition, participating banks are required to limit maximum executive compensation to that of the Governor of the Bank of Greece, and must not pay bonuses to senior management as long as they participate in the Hellenic Republic Bank Support Plan.

Also, during that period, dividend payouts for those banks is limited to up to 35 per cent. of distributable profits of the participating bank (at the parent company level). According to the provisions of Article 28 of Greek law 3756/2009, as amended by Article 39, paragraph 4 of Greek law 3844/2010 and in combination with the interpretative Circular No 20708/B/1. 175/23.4.2009 of the Minister of Economy and Finance, banks participating in the Hellenic Republic Bank Support Plan were allowed to distribute dividends to ordinary shareholders exclusively in the form of common shares for the financial years 2008 and 2009, which must not result from treasury shares, and may not purchase treasury shares. See "*Dividends and Dividend Policy*". Pursuant to Article 19 of Greek law 3965/2011 and Article 4 paragraph 3(c) of Greek law 4063/2012, the distribution of dividends for the financial years ended 2010 and 2011 was also restricted to share distributions, while pursuant to Greek law 4144/2013 and Law 4261/2014, the same restriction applied with respect to the financial years 2012 and 2013 respectively.

Furthermore, according to Article 28 of Greek law 3756/2009, during the period of the credit institutions' participation in the plan to enhance liquidity according to Greek law 3723/2008, the repurchase of the participating banks' treasury shares is forbidden. However, by virtue of Article 4(3a) of Greek law 4079/2012 and notwithstanding the relevant provisions of Greek Codified Law 2190/1920, the prohibition above does not apply for the repurchase of preference equity shares that have been issued as redeemable, if this acquisition is intended to strengthen the Core Tier I capital of participating banks, as determined by generally applicable decisions of the Bank of Greece, and if the Bank of Greece has granted its consent.

To monitor the implementation of the Hellenic Republic Bank Support Plan, Greek law 3723/2008 provided for the establishment of a supervisory council (the **Council**). The Council is chaired by the Minister of Finance. Members include the Governor of the Bank of Greece, the Deputy Minister of Finance, who is responsible for the Greek General Accounting Office, and the government-appointed representative at each of the participating banks. The Council convenes on a monthly basis with a mandate to supervise the correct and effective implementation of the Plan and ensure that the resulting liquidity is used for the benefit of the depositors, the borrowers and the Greek economy overall. Participating banks which fail to comply with the terms of the Plan will be subject to certain sanctions, while the liquidity provided to them may be revoked in whole or in part following a decision by the Minister of Finance after the recommendation by the Governor of the Bank of Greece.

Monitoring Trustee

As part of the Greek Stabilisation Programmes, the Hellenic Republic undertook a series of commitments towards the European Commission regarding Greek banks under restructuring, including the appointment of a monitoring trustee, who acted on behalf of the European Commission and aimed to ensure the compliance of the Issuer and its subsidiaries with the aforementioned commitments (the **Monitoring Trustee**) that are in force during the period of the restructuring plan agreed and approved by the Directorate General of Competition of the European Commission. On 27 March 2019, the European Commission (**Competition DG**) by way of a letter to the Issuer confirmed that the Issuer completed its restructuring plan, and no further extension of the mandate of the Issuer's monitoring or of the relevant restructuring period, is required.

Deferred Tax Assets (DTAs)

Greek law 4303/2014 introduced Article 27A to Law 4172/2013, which was replaced by Law 4340/2015 and further amended by Law 4465/2017 (**DTA Framework**), to allow, under certain conditions, from 2016 onwards, credit institutions to convert DTAs falling within the scope of such law and arising (a) from the participation in the PSI and the Buy-back programme and (b) from the sum of (i) the unamortized part of the crystallized loan losses from write-offs and disposals, (ii) the accounting debt write-offs and (iii) the remaining accumulated provisions and other general losses, with respect to existing amounts up to 30 June 2015, into final and due receivables from the Hellenic Republic (**Tax Credit**). In the case of an accounting loss in a specific year, the Tax Credit will be calculated by multiplying the total amount as per the above of the deferred tax asset by the percentage represented by the accounting losses over net equity before year's losses as appearing in the annual financial statements of the credit institution, excluding such year's accounting losses.

This legislation allows Greek credit institutions, to treat such eligible DTAs as not "relying on future profitability" according to CRD IV, and as a result such DTAs are not deducted from Common Equity Tier I capital but rather assigned a risk weight of 100 per cent., thereby improving an institution's capital position. As of 31 December 2018, the Issuer's DTAs falling within the scope of the DTA Framework amounted to €3,240.6 million, comprising 61.3 per cent. of its total DTAs and 6.8 per cent. of RWAs.

The Tax Credit can be offset against income taxes payable. Any excess amount of the Tax Credit that cannot be offset against income taxes payable is immediately recognised as a receivable from the Hellenic Republic. Upon conversion of DTA to DTC, the credit institution will issue conversion rights on its ordinary shares which will belong to the Hellenic Republic and correspond to common shares of the credit institution of a total market value equal to 100 per cent. of the Tax Credit prior to the set-off, and create a special reserve of an equal amount. The conversion price of the conversion rights will be based on the average trading price per share of the last 30 business days prior to the date that the Tax Credit becomes payable, weighted by trading volume. The exercise of such rights will take place without the payment of consideration. Existing shareholders will have, proportionate to their participation in the share capital of the credit institution, a call option on the conversion rights. Following the end of a reasonable period during which such option was not exercised, the rights are freely transferable.

The conversion mechanism (DTA to DTC) is also triggered in case of bankruptcy, liquidation or special liquidation of the institution concerned, as provided for in the Greek or EU legislation, as the latter has been transposed into the Greek legislation. In this case, any amount of DTCs which is not offset with the corresponding annual corporate income tax liability of the institution concerned gives rise to a direct payment claim against the Hellenic Republic.

The Extraordinary General Meeting of Shareholders of the Issuer held on 7 November 2014 approved the Issuer's submission in the scope of the DTA Framework, which is applicable from the tax year 2017 onwards for Tax Credits arising from the tax year 2016.

DESCRIPTION OF THE TRANSACTION DOCUMENTS

Servicing and Cash Management Deed

The Servicing and Cash Management Deed, made between the Issuer, the Trustee and the Servicer contains provisions relating to, *inter alia*:

- the Issuer's and Servicer's obligations when dealing with any cash flows arising from the Cover Pool and the Transaction Documents;
- the servicing, calculation, notification and reporting services to be performed by the Servicer, together with cash management services and account handling services in relation to moneys from time to time standing to the credit of the Transaction Account, the Collection Account and the Third Party Collection Account (if any);
- the terms and conditions upon which the Servicer will have the option to sell in whole or in part the Loan Assets until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell in whole or in part the Loan Assets;
- the Issuer's right to prevent the sale of a Loan Asset to third parties by removing the Loan Asset made subject to sale from the Cover Pool and transferring within 10 Athens Business Days from the receipt of the offer letter, to the Transaction Account, an amount equal to the price set forth in such offer letter, subject to the provision of a solvency certificate;
- the covenants of the Issuer;
- the representations and warranties of the Issuer regarding itself and the Cover Pool Assets;
- the responsibilities of the Servicer following the service of a Notice of Default on the Issuer or upon failure of the Issuer to perform its obligations under the Transaction Documents; and
- the circumstances in which the Issuer or the Trustee will be obliged to appoint a new servicer to perform the Servicing and Cash Management Services.

Servicing

Pursuant to the Servicing and Cash Management Deed, the Servicer has agreed to service the Loans and their Related Security comprised in the Cover Pool and provide cash management services.

The Servicer will be required to administer the Loans and their Related Security in accordance with the Issuer's administration, arrears and enforcement policies and procedures forming part of the Issuer's policy from time to time as they apply to those Loans.

The Servicer will have the power to exercise the rights, powers and discretions and to perform the duties of the Issuer in relation to the Loans and their Related Security that it is servicing pursuant to the terms of the Servicing and Cash Management Deed, and to do anything which it reasonably considers necessary, convenient or incidental to the administration of the Loans and their Related Security.

Right of delegation by the Servicer

The Servicer may from time to time subcontract or delegate the performance of its duties under the Servicing and Cash Management Deed, provided that it will nevertheless remain responsible for the performance of those duties to the Issuer and the Trustee and, in particular, will remain liable at all times for servicing the

Loans and their Related Security and for the acts or omissions of any delegate or sub-contractor. Any such subcontracting or delegation may be varied or terminated at any time by the Servicer.

Appointment of Replacement Servicer

Upon the occurrence of any of the following events (each a **Servicer Termination Event**):

- default is made by the Servicer in the payment on the due date of any payment due and payable by it under the Servicing and Cash Management Deed and such default continues unremedied for a period of three Athens Business Days after the earlier of the Servicer becoming aware of such default and receipt by the Servicer of written notice from the Trustee requiring the same to be remedied;
- default is made by the Servicer in the performance or observance of any of its other covenants and obligations under the Servicing and Cash Management Deed, which is materially prejudicial to the interests of the Covered Bondholders and such default continues unremedied for a period of 20 Business Days after the Servicer becoming aware of such default, PROVIDED THAT where the relevant default occurs as a result of a default by any person to whom the Servicer has sub-contracted or delegated part of its obligations hereunder, such default shall not constitute a Servicer Termination Event if, within such period of 20 Athens Business Days of awareness of such default by the Servicer, the Servicer terminates the relevant sub-contracting or delegation arrangements and takes such steps as the Trustee may approve to remedy such default;
- the occurrence of an Insolvency Event in relation to the Servicer; or
- the occurrence of an Issuer Event (where the Issuer and the Servicer are the same entity),

then at any time after the Trustee has received notice of any such Servicer Termination Event, the Trustee shall, following consultation with the Bank of Greece and while such Servicer Termination Event continues, use its reasonable endeavours to:

- (a) appoint an independent investment or commercial bank of international repute (the **Investment Bank**) to select an entity to act as a substitute servicer (the **Replacement Servicer**); and
- (b) by notice in writing to the Servicer terminate its appointment as Servicer under the Servicing and Cash Management Deed with effect from a date (not earlier than the date of the notice) specified in the notice.

In relation to any of the Servicer Termination Events listed above, any reference to the Servicer being "aware" of any matter, event or circumstance shall be satisfied if such matter, event or circumstance is actually known or ought to have been known to any member of the department of the Servicer with responsibility in respect of the obligations of the Servicer under the Servicing and Cash Management Deed.

In the event that Trustee does not appoint the Investment Bank or the Investment Bank does not select a Replacement Servicer or the Trustee does not appoint the entity selected by the Investment Bank to act as Replacement Servicer within a reasonable period of time, the Bank of Greece may appoint a Replacement Servicer or a special administrator or liquidator in respect of the Cover Pool Assets pursuant to Article 152.

The Trustee will not be required to appoint the nominated Replacement Servicer if (a) the Bank of Greece is in the process of appointing (i) a Replacement Servicer pursuant to Article 152 or (ii) an administrator or liquidator to the Issuer pursuant to Greek Banking Legislation or (b) the Trustee is informed by the Bank of Greece that it intends to take any such actions listed in the Servicing and Cash Management Deed or to adopt other steps that are more appropriate in the circumstances to protect the interests of the Covered Bondholders.

Insolvency Event means in respect of the Servicer: (a) an order is made or an effective resolution passed for the winding up of the relevant entity; or (b) the Servicer stops or threatens to stop payment to its creditors generally or the relevant entity ceases or threatens to cease to carry on its business or substantially the whole of its business; or (c) an encumbrancer takes possession or a receiver, administrator, administrative receiver or other similar officer is appointed to the whole or any substantial part of the undertaking, property and assets of the relevant entity or a distress, diligence or execution is levied or enforced upon or against the whole or any substantial part of the chattels or property of the relevant entity and, in the case of any of the foregoing events, is not discharged within 30 days; or (d) the Servicer is unable to pay its debts as they fall due other than where the Issuer or the Servicer is Alpha and any of the events set out in (a) to (c) above occurs in connection with a substitution in accordance with Condition 18; or (e) a creditors' collective enforcement procedure is commenced against the Servicer (including such procedure under Greek Bankruptcy Code (Greek law 3588/2007, as amended and in force), Greek law 4261/2014 and Greek law 3458/2006).

The Trustee will not be obliged to act as servicer in any circumstances.

The Cover Pool

Pursuant to the Greek Covered Bond Legislation, the Issuer will be entitled to create the Statutory Pledge over:

- (a) certain eligible assets set out in paragraph 8(b) of Section B of the Bank of Greece Act No 2588/20-8-2007 "Calculation of Capital Requirements for Credit Risk according to the Standardised Approach" , as amended and in force, including, but not limited to, claims deriving from loans and credit facilities of any nature comprising the aggregate of all principal sums, interest, costs, charges, expenses, additional loan advances and other moneys and including the levy of Greek law 128/1975 but excluding any third party expenses due or owing with respect to such loan and/or credit facilities provided that such loans and credit facilities are secured by residential real estate (the **Loans**) together with any mortgages, mortgage pre-notations, guarantees or indemnity payments which may be granted or due, as the case may be, in connection therewith (the Related Security and, together with the Loans, the Loan Assets). Following the entry into force of Regulation 575/2013 on 1 January 2014, the reference to paragraph 8(b) should be read as a reference to article 129 of Regulation EU 575/2013;
- (b) derivative financial instruments including but not limited to the Hedging Agreements satisfying the requirements of paragraph I.2(b) of the Secondary Covered Bond Legislation;
- (c) deposits with credit institutions (including any cash flows deriving therefrom) provided that such deposits comply with paragraph 8(b) of Section B of the Bank of Greece Act No. 2588/20-8-2007 (including the Transaction Account and the Reserve Ledger, but excluding the Collection Account); and
- (d) Marketable Assets, the Act of the Monetary Policy Council of the Bank of Greece 96/22.04.2015 (which replaced the Act of the Monetary Policy Council of the Bank of Greece 54/27.2.2004) as in force,

(each a **Cover Pool Asset** and collectively the **Cover Pool**).

Marketable Assets has the meaning given to that term in the Act of the Monetary Policy Council of the Bank of Greece 96/22.04.2015 (which replaced the Act of the Monetary Policy Council of the Bank of Greece 54/27.2.2004), as in force, and which are denominated in Euro and comply with the following requirements:

- (a) such investments are immediately repayable on demand, disposable without penalty or have a maturity date falling on or before the next Programme Payment Date;
- (b) such investments provide a fixed and unconditional principal amount at maturity (such amount not being lower than the initially invested amount); and
- (c) each of the debt securities or other debt instruments and the issuing entity or (in the case of debt securities or other debt instruments which are fully and unconditionally guaranteed on an unsubordinated basis) the guaranteeing entity are rated at least:
 - (i) either:
 - (A) the Fitch Minimum Rating by Fitch with regard to investments having a maturity of up to 30 days where the investment carries both a short-term and long-term rating; or
 - (B) AA- and F1+ by Fitch with regard to investments having a maturity of between 31 and 365 days; and
 - (ii) the Moody's Required Investments Rating by Moody's,

(A) provided that the rating levels and maturities of any Marketable Assets must satisfy Article 129(1)(c) of the Capital Requirements Regulation (EU) No. 575/2013 and (B) provided further that such investments may not consist, in whole or in part, actually or potentially, of (i) credit-linked notes or similar claims resulting from the transfer of credit risk by means of credit derivatives or (ii) asset-backed securities, irrespective of their subordination, status or ranking, or (iii) swaps, other derivatives instruments, or synthetic securities, or (iv) any other instrument from time to time specified in the European Central Bank monetary policy regulations applicable from time to time as being instruments in which funds underlying asset-backed securities eligible as collateral for monetary policy operations sponsored by the European Central Bank may not be invested.

The Servicer may include Marketable Assets in the Cover Pool in order to assess compliance with the Nominal Value Test, provided that (i) such assets constitute marketable assets in accordance with the Act of the Monetary Policy Council 96/22.04.2015, as amended and in force; (ii) such assets additionally comply with the requirements for collateral for the covered bonds set out in paragraph I.2(a) of the Secondary Covered Bond Legislation; and (iii) the value of the Marketable Assets in the Cover Pool do not exceed the difference in value between the Principal Amounts Outstanding of Covered Bonds then outstanding and the nominal value of the cover assets plus accrued interest.

The Issuer shall be entitled, subject to filing a Registration Statement so providing, to:

- (a) allocate to the Cover Pool Additional Cover Pool Assets for the purposes of issuing further Series of Covered Bonds and/or complying with the Statutory Tests and/or maintaining the initial rating(s) assigned to the Covered Bonds provided that with respect to any Cover Pool Assets allocated after the Issue Date for the first Series of Covered Bonds which are New Asset Types, Moody's has provided confirmation in writing that the ratings on the Covered Bonds would not be adversely affected by, or withdrawn as a result of such allocation and Fitch has been notified in writing of such allocation; and
- (b) prior to the occurrence of an Issuer Event and provided that no breach of any Statutory Test would occur as a result of such removal or substitution (i) remove Cover Pool Assets from the Cover Pool or (ii) substitute Cover Pool Assets with Additional Cover Pool Assets, provided that for any substitution of Additional Cover Pool Assets which are New Asset Types, Moody's has provided confirmation in writing that the ratings on the Covered Bonds would not be adversely affected by, or

withdrawn as a result of such removal or substitution and Fitch has been notified in writing of such removal or substitution (as the case may be).

Additional Cover Pool Assets means any further assets assigned to the Cover Pool by the Issuer in accordance with the Servicing and Cash Management Deed.

Any further assets added to the Cover Pool at the option of the Issuer in accordance with the above or by way of mandatory changes below shall form part of the Cover Pool.

Minimum Credit Rating means a long term credit rating of at least BB- by Fitch and Ba3 by Moody's.

Statutory Tests

Prior to the occurrence of an Issuer Event, the Servicer shall verify on each Calculation Date that, as at the last calendar day of the calendar month immediately preceding such Calculation Date, the Cover Pool satisfies the Statutory Tests, each of which are described below.

- (a) *The Nominal Value Test:* Prior to an Issuer Event the Issuer must ensure that on each Calculation Date, the Euro Equivalent of the Principal Amount Outstanding of all Series of Covered Bonds, together with all accrued interest thereon, is not greater than 80 per cent. (or any loan percentage determined in accordance with the Servicing and Cash Management Deed) of the nominal value of the Cover Pool (excluding for these purposes Loans in arrear of more than 90 days and any Loan in respect of which the Issuer is in breach of the Representations and Warranties given under the Servicing and Cash Management Deed and such Loan has not been removed from the Cover Pool by the Issuer) (as determined in accordance with the Servicing and Cash Management Deed). In order to assess compliance with this test, all of the assets comprising the Cover Pool shall be evaluated at their nominal value plus accrued interest but not including the Hedging Agreements.

For the purposes of calculating the nominal value of the Cover Pool, the value of any foreign assets comprised in the Cover Pool shall be converted into euro on the basis of the exchange rate published by the European Central Bank (ECB) as at such Calculation Date.

- (b) *The Net Present Value Test:* Prior to an Issuer Event the Issuer must ensure that on each Calculation Date, the net present value of liabilities under the Covered Bonds then outstanding is less than or equal to the net present value of the Cover Pool (excluding for these purposes any Loans in arrear of more than 90 days), including the Hedging Agreements (if included, at the discretion of the Issuer and any Loan in respect of which the Issuer is in breach of the Representations and Warranties given under the Servicing and Cash Management Deed and such Loan has not been removed from the Cover Pool by the Issuer) (as determined in accordance with the Servicing and Cash Management Deed) as determined in accordance with the Servicing and Cash Management Deed.

The Net Present Value Test must also be satisfied under the assumption of parallel shifts of the yield curve by 200 basis points.

In addition, the Issuer must ensure that on each Calculation Date, the net present value of the Hedging Agreements are in aggregate less than or equal to 15 per cent. of the nominal value (being principal) of the Covered Bonds plus accrued interest thereon.

For the purposes of calculating the net present value of the Cover Pool, all amounts denominated in a currency other than euro shall be converted into euro on the basis of the exchange rate published by the ECB as at the relevant Calculation Date.

- (c) *The Interest Cover Test:* Prior to an Issuer Event the Issuer must ensure that on each Calculation Date, the amount of interest due on all Series of Covered Bonds does not exceed the amount of

interest expected to be received in respect of the assets comprised in the Cover Pool (excluding for these purposes Loans in arrear of more than 90 days and any Loan in respect of which the Issuer is in breach of the Representations and Warranties given under the Servicing and Cash Management Deed and such Loan has not been removed from the Cover Pool by the Issuer) (as determined in accordance with the Servicing and Cash Management Deed)) (including any Interest Rate Swap and any Covered Bond Swaps) in each case, during the period of 12 months from such Calculation Date.

OEK means the Greek Worker Housing Organisation as succeeded in full by the Manpower Employment Organisations (OAED) by virtue of Greek law 4144/2013 and other relevant legislation.

OEK Subsidised Loans means those Loans in respect of which the OEK makes payment of Subsidised Interest Amounts pursuant to the applicable laws and the bilateral agreements pursuant to which the OEK pays subsidies to the Issuer in respect of such Loans.

Prop Index Valuation means the index of movements in real estate prices issued by Prop Index SA in relation to residential properties in Greece.

State/OEK Subsidised Loans means those Loans which are both State Subsidised Loans and OEK Subsidised Loans.

State Subsidised Loans means those Loans in respect of which the Greek State or any entity owned by the Greek State (other than the OEK) makes payment of Subsidised Interest Amounts pursuant to all applicable laws.

Subsidised Interest Amounts means the interest subsidy amounts due and payable from the Greek State or any Greek State owned entity (other than the OEK) in respect of the State Subsidised Loans and/or from the OEK in respect of the OEK Subsidised Loans (as the case may be).

Subsidised Loan means any of the OEK Subsidised Loans, the State Subsidised Loans or the State/OEK Subsidised Loans.

Sale of Selected Loans and their Related Security following an Issuer Event

Following the occurrence of an Issuer Event (but prior to the service of a Notice of Default) which is continuing and/or following a Final Maturity Date in relation to any Series of Covered Bonds on which such Covered Bonds (a) are subject to an Extended Final Maturity Date and (b) are not redeemed in full, the Servicer will have the option to sell Loan Assets and their Related Security in the Cover Pool having the Required Outstanding Principal Balance Amount (the **Selected Loans**) in accordance with the Servicing and Cash Management Deed until one year prior to the Extended Final Maturity Date of the Earliest Maturing Covered Bonds, and thereafter will be obliged to sell the Selected Loans in accordance with the Servicing and Cash Management Deed, subject to the rights of pre-emption in favour of the Issuer to remove the Selected Loans from the Cover Pool.

Prior to the Servicer making any offer to sell Selected Loans and their Related Security to third parties and provided that no Issuer Insolvency Event has occurred and is continuing, the Servicer will serve on the Issuer a loan offer notice in the form set out in the Servicing and Cash Management Deed (a **Selected Loan Offer Notice**) giving the Issuer the right to prevent the sale by the Servicer of all or part of the Selected Loans to third parties, by removing all or part of the Selected Loans made subject to sale from the Cover Pool and transferring an amount equal to the then Outstanding Principal Balance of the relevant portion of the Selected Loans and the relevant portion of all arrears of interest and accrued interest relating to such Selected Loans to the Transaction Account.

If the Issuer validly accepts the Servicer's offer to remove all or part of the Selected Loans and their Related Security from the Cover Pool by signing the duplicate Selected Loan Offer Notice in a manner indicating

acceptance and delivering it to the Trustee and the Servicer within 10 Athens Business Days from and including the date of the Selected Loan Offer Notice, the Servicer shall within three Athens Business Days of receipt of such acceptance, serve a selected loan removal notice on the Issuer in the form set out in the Servicing and Cash Management Deed (a **Selected Loan Removal Notice**). Any removal of part of the Selected Loans and their Related Security pursuant to such Selected Loan Removal Notice will be in accordance with the requirements set out under "*Method of Sale of Selected Loans*" below.

The Servicer shall offer for sale the Selected Loans and their Related Security in respect of which the Issuer rejects or fails within the requisite time limit to accept the Servicer's offer to remove the Loans and their Related Security from the Cover Pool in the manner and on the terms set out in the Servicing and Cash Management Deed.

Upon receipt of the Selected Loan Removal Notice duly signed on behalf of the Servicer, the Issuer shall promptly and in any event within two Athens Business Days (i) sign and return a duplicate copy of the Selected Loan Removal Notice, (ii) deliver to the Servicer and the Trustee a solvency certificate stating that the Issuer is, at such time, solvent and (iii) shall remove from the Cover Pool the relevant portion of the Selected Loans (as specified in the Selected Loan Removal Notice) (and any other Loan secured or intended to be secured by that Related Security or any part of it) referred to in the relevant Selected Loan Removal Notice and where that portion is less than all of the Selected Loans the Loans and the Related Security in the portion that is removed shall be chosen from the Selected Loans on a random basis. Completion of the removal of all or part of the Selected Loans by the Issuer will take place on the date specified in the Selected Loan Removal Notice (provided that such date is not later than the earlier to occur of the date which is (a) 10 Athens Business Days after receipt by the Servicer of the returned Selected Loan Removal Notice and (b) the Extended Maturity Date of the relevant Series of Covered Bonds) when the Issuer shall, prior to the removal from the Cover Pool of all or part of the relevant Selected Loans (and any other Loan secured or intended to be secured by that Related Security or any part of it), pay to the Transaction Account an amount in cash equal to the price specified in the relevant Selected Loan Removal Notice.

On the date of completion of the removal of all or part of the Selected Loans and their Related Security in accordance with the above, the Issuer shall ensure that the Selected Loans are removed from the Registration Statement.

Upon such completion of the removal of all or part of the Selected Loans and their Related Security in accordance with above or the sale of all or part of the Selected Loans and their Related Security to a third party or third parties, the Issuer shall cease to be under any further obligation to hold any Customer Files or other documents relating to the relevant removed or sold Selected Loans and their Related Security to the order of the Trustee and, if the Trustee holds such Customer Files or other documents, it will send them to the Issuer at the cost of the Issuer.

Method of Sale of Selected Loans

If the Servicer elects to or is required to sell Selected Loans and their Related Security to third-party purchasers following an Issuer Event which is continuing, the Servicer will be required to ensure that before offering Selected Loans for sale:

- (a) the Selected Loans have been selected from the Cover Pool on a random basis; and
- (b) the Selected Loans have an aggregate Outstanding Principal Balance in an amount (the **Required Outstanding Principal Balance Amount**) which is as close as possible to the amount calculated as follows:

$$N \times \frac{\text{Outstanding Principal Balance of all Loans in the Cover Pool}}{\text{the Euro Equivalent of the Required Redemption Amount in respect of each Series of Covered Bonds then outstanding}}$$

where N is an amount equal to the Euro Equivalent of the Required Redemption Amount of the Earliest Maturing Covered Bonds less amounts standing to the credit of the Transaction Account (other than amounts standing to the credit of the Reserve Ledger) and the principal amount of any Marketable Assets or Authorised Investments (other than Authorised Investments acquired from amounts standing to the credit of the Reserve Ledger) (excluding all amounts to be applied on the next following Programme Payment Date to repay higher ranking amounts in the Pre Event of Default Priority of Payments and those amounts that are required to repay any Series of Covered Bonds which mature prior to or on the same date as the relevant Series of Covered Bonds).

For the purposes hereof:

Required Redemption Amount means, in respect of a Series of Covered Bonds, the amount calculated as follows:

the Principal Amount Outstanding of the relevant Series of Covered Bonds \times (1+ Negative Carry Factor \times (days to maturity of the relevant Series of Covered Bonds/365))

Where **Negative Carry Factor** is a percentage calculated by reference to the weighted average margin of the Covered Bonds and will, in any event, not be less than 0.50 per cent.

Euro Equivalent means, in relation to a Series of Covered Bonds which is denominated in (a) a currency other than Euro, the Euro equivalent of such amount ascertained using the relevant Covered Bond Swap Rate relating to such Series of Covered Bonds and (b) Euro, the applicable amount in Euro.

The Servicer will offer the Selected Loans for sale to third parties for the best price reasonably available but in any event, for an amount not less than the Adjusted Required Redemption Amount. In relation to any sale of Selected Loans, the Servicer will not sell more Loans than are required to be sold to satisfy the calculation set out above pursuant to which the Required Outstanding Principal Balance is calculated.

The **Adjusted Required Redemption Amount** means the Euro Equivalent of the Required Redemption Amount, plus or minus (without double counting):

- (a) any swap termination amounts payable to or by the Issuer under a Covered Bond Swap Agreement in respect of the relevant Series of Covered Bonds less (where applicable) the principal balance of any Marketable Assets and Authorised Investments (excluding all amounts to be applied on the next following Programme Payment Date to pay or repay higher ranking amounts in the Pre Event of Default Priority of Payments and those amounts that are required to repay any Series of Covered Bonds which mature prior to or on the same date as the relevant Series of Covered Bonds and excluding any amounts or which have been set aside to pay any Series of Covered Bonds) and all Sale Proceeds received from the sale of other Selected Loans or removal of Selected Loans under the right of pre-emption); and plus or minus
- (b) any swap termination amounts payable to or by the Issuer under an Interest Rate Swap Agreement in respect of the relevant Series of Covered Bonds; plus
- (c) reasonable costs and expenses associated with the sale of Selected Loans and their Related Security and the reasonable costs and expenses of the Portfolio Manager connected with the sale of Selected Loans and their Security.

Following the occurrence of an Issuer Event which is continuing and/or following a Final Maturity Date in relation to any Series of Covered Bonds on which such Covered Bonds (a) are subject to an Extended Final Maturity Date and (b) are not redeemed in full, if the Selected Loans have not been sold (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount by the date which is six months prior to, as applicable, if the Earliest Maturing Covered Bonds are not subject to an Extended Final Maturity Date in accordance with the relevant Final Terms, the Final Maturity Date of the Earliest Maturing Covered Bonds or, if the Earliest Maturing Covered Bonds are subject to an Extended Final Maturity Date in accordance with the relevant Final Terms, the Extended Final Maturity Date in respect of the Earliest Maturing Covered Bonds, then the Servicer will offer the Selected Loans for sale for the best price reasonably available notwithstanding that such amount may be less than the Adjusted Required Redemption Amount.

The Servicer will through a tender process appoint a Portfolio Manager of recognised standing, and which is not an affiliate of the Issuer, on a basis intended to incentivise the Portfolio Manager to achieve the best price for the sale of the Selected Loans (if such terms are commercially available in the market via a market auction process) and to advise it in relation to the sale of the Selected Loans to third-party purchasers via a market auction process (except where the Issuer exercises its right of pre-emption). For the avoidance of doubt, the Trustee shall not be obliged to appoint a Portfolio Manager should the Servicer fail to do so (and shall have no liability for such failure) and shall not be responsible for determining the identity of, or approving, the Portfolio Manager to be appointed by the Servicer following a nomination or determining or approving the terms of appointment of a Portfolio Manager.

In respect of any sale of Selected Loans and their Related Security following the occurrence of an Issuer Event which is continuing and/or following a Final Maturity Date in relation to any Series of Covered Bonds on which such Covered Bonds (a) are subject to an Extended Final Maturity Date and (b) are not redeemed in full, the Servicer will instruct the Portfolio Manager to use all reasonable endeavours to procure that Selected Loans are sold as quickly as reasonably practicable via a market auction process (in accordance with the recommendations of the portfolio manager) taking into account the market conditions at that time and, where relevant, the scheduled repayment dates of the Covered Bonds and the terms of the Servicing and Cash Management Deed. The Servicer will ensure that the terms of the appointment of the Portfolio Manager require the Portfolio Manager's actions in respect of any sale of Selected Loans and their Related Security to be in accordance with the provisions summarised above, including the rights of pre-emption in favour of the Issuer to remove the Selected Loans from the Cover Pool in accordance with the Servicing and Cash Management Deed. The Servicer will also ensure that the terms of the appointment of the Portfolio Manager require that the costs and expenses incurred by the Portfolio Manager (which shall be borne by the Issuer) are reasonable.

The Trustee, or its authorised attorney, will not be required to release the Selected Loans and their Related Security from the Registration Statement unless the conditions for Security release under applicable law (other than the Statutory Pledge) are satisfied.

Following the occurrence of an Issuer Event (but prior to the service of a Notice of Default) which is continuing and/or following a Final Maturity Date in relation to any Series of Covered Bonds on which such Covered Bonds (a) are subject to an Extended Final Maturity Date and (b) are not redeemed in full, if third parties accept the offer or offers from the Servicer (or the Portfolio Manager on behalf of the Servicer, if the Portfolio Manager has been appointed) so that some or all of the Selected Loans shall be sold prior to the Final Maturity Date of the Earliest Maturing Covered Bonds or, if the Earliest Maturing Covered Bonds are subject to an Extended Final Maturity Date in accordance with the relevant Final Terms, the Extended Final Maturity Date in respect of the Earliest Maturing Covered Bonds, then the Servicer will, subject to the foregoing paragraph, enter into a sale and purchase agreement with the relevant third-party purchasers which will require, *inter alia*, a cash payment from the relevant third party purchasers. Any such sale will not include any representations and warranties from the Servicer, the Portfolio Manager or the Issuer in respect of the Loans and their Related Security unless expressly agreed by the Servicer.

Any Sale Proceeds received from the sale of the Selected Loans and their Related Security will be applied by the Servicer on the following Programme Payment Date as Covered Bond Available Funds.

Portfolio Manager means a portfolio manager appointed by the Servicer (pursuant to the Servicing and Cash Management Deed), to sell Selected Loans and their Related Security on behalf of the Servicer.

Sale Proceeds means the cash proceeds realised from the sale of Selected Loans and their Related Security or their removal from the Cover Pool by the Issuer pursuant to the Servicing and Cash Management Deed, including where that removal is pursuant to the Issuer's right of pre-emption under the Servicing and Cash Management Deed.

Amendment to definitions

Under the Servicing and Cash Management Deed, the parties have agreed that the definitions of Cover Pool, Cover Pool Asset, Eligibility Criteria, Statutory Test and Amortisation Test may be amended by the Issuer from time to time without the consent of the Trustee as a consequence of the inclusion in the Cover Pool, Additional Cover Pool Assets which are New Asset Types and/or changes to the hedging policies or servicing and collection procedures of Alpha.

Any such amendment may be effected provided that Fitch have been notified in writing of such amendment and Moody's has provided confirmation in writing to the Issuer that the then current ratings of any outstanding Series of Covered Bonds would not be adversely affected or withdrawn as a result thereof.

Reserve Ledger

The Issuer has established a ledger on the Transaction Account called the Reserve Ledger.

On each Calculation Date from and including the Calculation Date immediately following the establishment of the Reserve Ledger, the Servicer will deposit the Reserve Ledger Required Amount into the Transaction Account (with a corresponding credit to the Reserve Ledger).

On each Programme Payment Date, the Servicer shall deposit an amount equal to the Reserve Ledger Required Amount into the Transaction Account (with a corresponding credit to the Reserve Ledger).

The Servicer shall invest all amounts standing to the credit of the Reserve Ledger in Authorised Investments.

If there are still amounts credited to the Reserve Ledger on or after the date on which the Issuer has no liabilities remaining under the any Series of Covered Bonds, all amounts standing to the credit of the Reserve Ledger shall be applied as Covered Bonds Available Funds.

Reserve Ledger Required Amount means an amount calculated as at each Calculation Date equal to the amount that will be required to be paid by the Issuer in respect of the Covered Bonds in respect of interest (in respect of those Covered Bonds where there is no Swap Agreement in place and all amounts to be paid to a Covered Bond Swap Provider (in respect of those Covered Bonds where there is a Swap Agreement in place) (other than any principal exchange amounts)) and all amounts paid to the other Secured Creditors for the immediately following twelve month period from and including the Programme Payment Date to which such Calculation Date relates.

Authorised Investments means any of the following:

- (a) Euro denominated demand or time deposits, certificates of deposit, long-term debt obligations and short-term debt obligations (including commercial paper) provided that in all cases such investments are rated at least the Fitch Minimum Rating by Fitch and the Moody's Required Investments Rating by Moody's, have a remaining period to maturity of 30 days or less and mature on or before the next

following Programme Payment Date and the long-term and short-term issuer default ratings of the issuing or guaranteeing entity or the entity with which the demand or time deposits are made are at least the Fitch Minimum Rating by Fitch and the long-term and short-term unsecured, unsubordinated and unguaranteed debt obligations of the issuing or guaranteeing entity with which the demand or time deposits are made are rated at least Moody's Required Investments Rating, respectively by Moody's; and

- (b) Euro denominated government and public securities, provided that such investments have a remaining period to maturity of 30 days or less and mature on or before the next following Programme Payment Date and which are rated the Fitch Minimum Rating by Fitch and Moody's Required Investments Rating by Moody's,

(A) provided that (i) such instruments or deposits provide a fixed principal amount at maturity (such amount not being lower than the initially invested amount, (ii) the rating levels and maturities of any Authorised Investments must satisfy Article 129(1)(c) of the Capital Requirements Regulation (EU) No. 575/2013, and (iii) that such Authorised Investments satisfy the requirements for eligible assets that can collateralise covered bonds under paragraph I.2(a) of the Secondary Covered Bond Legislation and (B) provided further that such investments may not consist, in whole or in part, actually or potentially, of (i) credit-linked notes or similar claims resulting from the transfer of credit risk by means of credit derivatives or (ii) asset-backed securities, irrespective of their subordination, status or ranking, or (iii) swaps, other derivatives instruments, or synthetic securities, or (iv) any other instrument from time to time specified in the European Central Bank monetary policy regulations applicable from time to time as being instruments in which funds underlying asset-backed securities eligible as collateral for monetary policy operations sponsored by the European Central Bank may not be invested;

Law and Jurisdiction

The Servicing and Cash Management Deed and any non-contractual obligations arising out of or in connection with any of them will be governed by English law.

Asset Monitor Agreement

The Asset Monitor has agreed, subject to due receipt of the information to be provided by the Servicer to the Asset Monitor, to conduct tests in respect of the arithmetical accuracy of the calculations performed by the Servicer, prior to service of a Notice of Default, on the Calculation Date immediately preceding each anniversary of the Programme Closing Date with a view to confirmation of compliance of the arithmetical accuracy or otherwise of such calculations. If and for so long as the long-term ratings of the Issuer or the Servicer are below Baa3 by Moody's or BBB- by Fitch, respectively) or following the occurrence of an Issuer Event, the Asset Monitor will, subject to receipt of the relevant information from the Servicer within the agreed timeframe, be required to conduct such tests following each Applicable Calculation Date.

Following an Issuer Event and subject to receipt of the information to be provided to it by the Servicer, in relation to the calculations performed by the Servicer regarding the relevant Amortisation Test, the Asset Monitor shall as soon as reasonably practicable (and in any event not later than 10 Athens Business Days following receipt of such information from the Servicer), test the arithmetic accuracy of the calculations performed by the Servicer in relation to the relevant Amortisation Test on each Calculation Date, with a view to confirm the arithmetical accuracy or otherwise of such calculations.

Following a determination by the Asset Monitor of any errors in the arithmetical accuracy of the calculations performed by the Servicer such that the Statutory Tests have failed on the relevant Calculation Date (where the Servicer had recorded it as being satisfied), or the Nominal Value or the Net Present Value is mis-stated by an amount exceeding two per cent. of the reported Nominal Value or the reported Net Present Value (as at the date of the relevant Nominal Value Test or the relevant Net Present Value Test), the Asset Monitor will be required to conduct such tests following each Calculation Date for a period of six months thereafter.

The Asset Monitor is entitled to assume that all information provided to it by the Servicer for the purpose of conducting such tests is true and correct and not misleading, and is not required to conduct a test or otherwise take steps to verify the accuracy of any such information. The Asset Monitor will deliver a report (the **Asset Monitor Report**) to the Servicer, the Issuer and, if so requested, to the Trustee.

In addition to determining the presence of any errors in the arithmetical accuracy of the calculations performed by the Servicer in respect of the Statutory Tests as set out above, the Asset Monitor has also agreed to determine:

- (a) the appropriateness of the Cover Pool Assets included in the calculations in respect of the Statutory Tests; and
- (b) the compatibility of the Cover Pool Assets with the provisions of paragraph 2, Chapter 1 of the Bank of Greece Governor's Act No. 2620/28.8.2009;

In addition, the Asset Monitor has agreed to carry out the determinations and procedures provided for in paragraphs I-8 and IV-1(a) of the Secondary Covered Bond Legislation and shall include the result of such determinations and procedures in the Asset Monitor Report.

The Issuer or the Servicer will ensure that a copy of the Asset Monitor Report is sent to the Bank of Greece for the purposes of the Greek Covered Bond Legislation at the minimum once per annum.

As at the Programme Closing Date, the Issuer or the Servicer, as applicable, will pay to the Asset Monitor a fee for the tests to be performed by the Asset Monitor.

The Issuer (or after the occurrence of an Issuer Event, the Servicer) may, at any time, but subject to the prior written consent of the Trustee, terminate the appointment of the Asset Monitor by giving at least 30 days' prior written notice to the Asset Monitor, provided that such termination may not be effected unless and until a replacement asset monitor has been found by the Issuer (or after the occurrence of an Issuer Event, the Servicer) (such replacement to be approved by the Trustee (such approval to be given if the replacement is an accountancy firm of international standing) which agrees to perform the duties of the Asset Monitor set out in the Asset Monitor Agreement (or substantially similar duties).

The Asset Monitor may, at any time, resign by giving at least 30 days' prior written notice to the Issuer and the Trustee (copied to the Rating Agencies), and may resign by giving immediate notice in the event of a professional conflict of interest caused by the action of any recipient of its reports.

Upon the Asset Monitor giving 30 days' prior written notice of resignation, the Issuer (or following the occurrence of an Issuer Event, the Servicer) shall immediately use all reasonable endeavours to appoint a replacement (such replacement to be approved by the Trustee (such approval to be given if the replacement is an accountancy firm of international standing)) which agrees to perform the duties of the Asset Monitor set out in the Asset Monitor Agreement. If a replacement is not appointed by the date which is 30 days prior to the date when tests are to be carried out in accordance with the terms of the Asset Monitor Agreement, then the Issuer (or following the occurrence of an Issuer Event, the Servicer) shall use all reasonable endeavours to appoint an accountancy firm of national standing to carry out the relevant tests on a one-off basis, provided that such appointment is approved by the Trustee.

The Trustee will not be obliged to act as Asset Monitor in any circumstances.

Law and Jurisdiction

The Asset Monitor Agreement will be governed by Greek law.

Trust Deed

The Trust Deed, made between the Issuer and the Trustee on the Programme Closing Date appoints the Trustee to act as the trustee for the Covered Bondholders and the other Secured Creditors in accordance with paragraph 2 of Article 152. The Trust Deed contains provisions relating to, *inter alia*:

- (a) the constitution of the Covered Bonds and the terms and conditions of the Covered Bonds (as more fully set out under "*Terms and Conditions*" of the Covered Bonds above);
- (b) the covenants of the Issuer;
- (c) the enforcement procedures relating to the Covered Bonds; and
- (d) the appointment powers and responsibilities of the Trustee and the circumstances in which the Trustee may resign or be removed.

Law and Jurisdiction

The Trust Deed and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Agency Agreement

Under the terms of an Agency Agreement to be entered into on the Programme Closing Date between the Issuer, the Trustee, the Principal Paying Agent (together with any paying agent appointed from time to time under the Agency Agreement, the **Paying Agents**) (the **Agency Agreement**), the Transfer Agent and the Registrar, the Paying Agents have agreed to provide the Issuer with certain agency services and have agreed, *inter alia*, to make available for inspection such documents as may be required from time to time by the rules of the Luxembourg Stock Exchange and to arrange for the publication of any notice to be given to the Covered Bondholders.

For the purposes of Condition 5.2(b)(ii), the Agency Agreement provides that if the Relevant Screen Page is not available or if, no offered quotation appears or if fewer than three offered quotations appear, in each case as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR (the **Specified Time**)), the Principal Paying Agent shall request each of the reference banks to provide the Principal Paying Agent with its offered quotation (expressed as a percentage rate per annum) for the reference rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the reference banks provide the Principal Paying Agent with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Principal Paying Agent.

For the purposes of Condition 5.2(b)(ii) of the Conditions, the Agency Agreement also provides that if on any Interest Determination Date one only or none of the reference banks provides the Principal Paying Agent with an offered quotation, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Principal Paying Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Principal Paying Agent by the reference banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the reference rate by leading banks in the London inter-bank market (if the reference rate is LIBOR) or the Euro-zone inter-bank market (if the reference rate is EURIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the reference banks provide the Principal Paying Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the reference rate, or the

arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the reference rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Principal Paying Agent it is quoting to leading banks in the London inter-bank market (if the reference rate is LIBOR) or the Euro-zone inter-bank market (if the reference rate is EURIBOR) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Clause, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

Law and Jurisdiction

The Agency Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

For the purposes of this section "Agency Agreement" any capitalised terms have the meanings given to them in the "Terms and Conditions of the Covered Bonds" above.

Deed of Charge

Pursuant to the terms of the Deed of Charge entered into on the Programme Closing Date by the Issuer, the Trustee and the other Secured Creditors, the Secured Obligations of the Issuer and all other obligations of the Issuer under or pursuant to the Transaction Documents to which it is a party are secured, *inter alia*, by the following security over the following property, assets and rights (the **Deed of Charge Security**):

- (a) an assignment by way of first fixed security over all of the Issuer's interests, rights and entitlements under and in respect of any Charged Document;
- (b) a first fixed charge (which may take effect as a floating charge) over the rights and benefits of the Bank Accounts and all amounts standing to the credit of the Bank Accounts; and
- (c) (to the extent not subject to the Statutory Pledge) a first fixed charge (which may take effect as a floating charge) over the rights and benefits of the Issuer in respect of all Authorised Investments and Marketable Assets (to the extent governed by English law) purchased from time to time from amounts standing to the credit of any Bank Accounts and the Collection Account (the **Issuer Accounts**).

Charged Documents means the Transaction Documents (other than the Deed of Charge and the Trust Deed) to which the Issuer is, or may become, a party and which are assigned (by way of security) to the Trustee pursuant to the Deed of Charge, and each a **Charged Document**.

In addition, to secure its obligations under the Covered Bonds, the Issuer has, pursuant to paragraph 4 of Article 152, created a pledge (the **Statutory Pledge**) over the Cover Pool (which consists principally of the Issuer's interest in the Loan Assets and certain Marketable Assets). The Deed of Charge will also provide that (other than in certain limited circumstances) only the Trustee may enforce the security created under either the Deed of Charge or paragraph 4 of Article 152. The proceeds of any such enforcement of the Deed of Charge and paragraph 4 of Article 152 will be required to be applied in accordance with the order of priority set out in the Post Event of Default Priority of Payments.

The Trustee shall at all times be a credit institution (or an affiliated company of a credit institution) that is entitled to provide services in the European Economic Area in accordance with paragraph 2 of Article 91 (an

EEA Credit Institution). If at any time the Trustee ceases to be an EEA Credit Institution it will notify the Issuer immediately.

Release of Security

In accordance with the terms of the Deed of Charge all amounts which the Servicer (on behalf of the Issuer and the Trustee or its appointee) is permitted to withdraw from the Transaction Account pursuant to the terms of the Deed of Charge will be released from the Deed of Charge Security. In addition, upon the Issuer or the Servicer making a disposal of an Authorised Investment or Marketable Assets (to the extent governed by English law) charged under the Deed of Charge and provided that the proceeds of such disposal are paid into the Transaction Account in accordance with the terms of the Servicing and Cash Management Deed, that Authorised Investment or Marketable Asset (to the extent governed by English law) will be released from the Deed of Charge Security.

At such time that all of the obligations owing by the Issuer to the Secured Creditors have been discharged in full, the Trustee will, at the cost of the Issuer, take whatever action is necessary to release the Charged Property from the Deed of Charge Security to, or to the order of, the Issuer.

Enforcement

If a Notice of Default is served on the Issuer, the Trustee shall be entitled to appoint a Receiver, and/or enforce the Deed of Charge Security constituted by the Deed of Charge, and/or take such steps as it shall deem necessary, subject in each case to being indemnified and/or secured to its satisfaction. All proceeds received by the Trustee from the enforcement of the Deed of Charge Security will be applied in accordance with the Post Event of Default Priority of Payments.

Law and Jurisdiction

The Deed of Charge and any non-contractual obligations arising out of or in connection with it will be governed by English law (except in relation to the Statutory Pledge which shall be governed by Greek law).

Interest Rate Swap Agreement

Some of the Loan Assets in the Cover Pool will pay from time to time a variable rate of interest for a period of time that may either be linked to the standard variable rate of the Issuer (the **Issuer Standard Variable Rate**) or linked to an interest rate other than the Issuer Standard Variable Rate, such as EURIBOR or a rate that tracks the ECB base rate. Other Loan Assets will pay a fixed rate of interest for a period of time. However, the Euro payments to be made by the Issuer under each of the Covered Bond Swaps may vary. To provide a hedge against the possible variance between:

- (a) the rates of interest payable on the Loan Assets in the Cover Pool; and
- (b) the payments to be made by the Issuer under the Covered Bond Swaps,

the Issuer, the provider of Interest Rate Swaps (each such provider, an **Interest Rate Swap Provider**) and the Trustee may enter into one or more interest rate swap transactions in respect of each Series of Covered Bonds under an **Interest Rate Swap Agreement** (each such transaction an **Interest Rate Swap**).

Under the terms of each Interest Rate Swap, in the event that the relevant rating of the Interest Rate Swap Provider or any guarantor of the Interest Rate Swap Provider's obligations is downgraded by a Rating Agency below the rating specified in the Interest Rate Swap Agreement (in accordance with the requirements of the Rating Agencies), the Interest Rate Swap Provider will, in accordance with the Interest Rate Swap Agreement, be required to take certain remedial measures which may include providing collateral for its obligations under the Interest Rate Swaps, arranging for its obligations under the Interest Rate Swaps to be

transferred to an entity with ratings required by the relevant Rating Agency, procuring another entity with the ratings required by the relevant Rating Agency to become co-obligor or guarantor in respect of its obligations under the Interest Rate Swaps (such guarantee to be provided in accordance with the then-current guarantee criteria of each of the Rating Agencies), or taking such other action as it may agree with the relevant Rating Agency. A failure to take such steps within the periods set out in the Interest Rate Swap Agreement will, subject to certain conditions, allow the Issuer to terminate the Interest Rate Swap Agreement.

The Interest Rate Swap Agreement may also be terminated in certain other circumstances, together with any other events of default and termination events set out in the Interest Rate Swap Agreement (each referred to as an **Interest Rate Swap Early Termination Event**), which may include:

- at the option of any party to the Interest Rate Swap Agreement, if there is a failure by the other party to make timely payments of any amounts due under the Interest Rate Swap Agreement; and
- upon the occurrence of the insolvency of the Interest Rate Swap Provider or any guarantor of the Interest Rate Swap Provider's obligations, or the merger of the Interest Rate Swap Provider without an assumption of its obligations under the Interest Rate Swap Agreement.

Upon the termination of an Interest Rate Swap pursuant to an Interest Rate Swap Early Termination Event, the Issuer or the Interest Rate Swap Provider may be liable to make a termination payment to the other in accordance with the provisions of the Interest Rate Swap Agreement. The amount of this termination payment will be calculated and made in Euro. Any termination payment made by the Interest Rate Swap Provider to the Issuer in respect of an Interest Rate Swap will first be used (prior to the occurrence of an Issuer Event) to pay a replacement Interest Rate Swap Provider to enter into a replacement Interest Rate Swap with the Issuer, unless a replacement Interest Rate Swap has already been entered into on behalf of the Issuer. Any premium received by the Issuer from a replacement Interest Rate Swap Provider in respect of a replacement Interest Rate Swap will first be used to make any termination payment due and payable by the Issuer with respect to the previous Interest Rate Swap, unless such termination payment has already been made on behalf of the Issuer. Any tax credits received by the Issuer in respect of an Interest Rate Swap will first be used to reimburse the relevant Interest Rate Swap Provider for any gross-up in respect of any withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature (and wherever imposed) made under the relevant Interest Rate Swap.

If a withholding or deduction for or on account of taxes is imposed on payments made by the Interest Rate Swap Provider to the Issuer under the Interest Rate Swaps, the Interest Rate Swap Provider shall always be obliged to gross up those payments so that the amount received by the Issuer is equal to the amount which would have been received in the absence of such withholding or deduction. If a withholding or deduction for or on account of taxes is imposed on payments made by the Issuer to the Interest Rate Swap Provider under the Interest Rate Swaps, the Issuer shall not be obliged to gross up those payments.

Any tax credits or Swap Collateral Excluded Amounts will be paid to the Interest Rate Swap Provider directly and not via the Priorities of Payments.

The Interest Rate Swap Provider may transfer all its interest and obligations in and under the relevant Interest Rate Swap Agreement to a transferee with minimum ratings in line with the criteria of each of the Rating Agencies, without any prior written consent of the Trustee, subject to certain conditions.

If the Issuer is required to sell Selected Loans in the Cover Pool following the occurrence of an Issuer Event then, the Issuer may:

- (a) require that the Interest Rate Swaps in connection with such Selected Loans partially terminate to the extent that such Selected Loans and any breakage costs payable by or to the Issuer in connection

with such termination will, following the occurrence of an Issuer Event, be taken into account in calculating the Adjusted Required Redemption Amount for the sale of the Selected Loans; or

- (b) request that the Interest Rate Swaps in connection with such Selected Loans be partially novated to the purchaser of such Selected Loans, such that each purchaser of Selected Loans will thereby become party to a separate interest rate swap transaction with the Interest Rate Swap Provider.

Law and Jurisdiction

The Interest Rate Swap Agreement (and each Interest Rate Swap thereunder) and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Covered Bond Swap Agreements

Where the Covered Bonds in a Series or Tranche are issued in a currency and/or on an interest rate basis different to the payments received by the Issuer under the Interest Rate Swap for such Series or Tranche, the Issuer will enter into a covered bond swap transaction with a Covered Bond Swap Provider and the Trustee in respect of such Series or Tranche of Covered Bonds (each such transaction a **Covered Bond Swap**). Each Covered Bond Swap may be either a Forward Starting Covered Bond Swap or a Non-Forward Starting Covered Bond Swap and each will constitute a transaction under a **Covered Bond Swap Agreement** (such Covered Bond Swap Agreements, together, the **Covered Bond Swap Agreements**).

Each Forward Starting Covered Bond Swap will provide a hedge (after the occurrence of an Issuer Event) against certain interest rate, currency and/or other risks in respect of amounts received by the Issuer under the Loans and any relevant Interest Rate Swaps (if any) and amounts payable by the Issuer in respect of the Covered Bonds (**Forward Starting Covered Bond Swap**).

Each Non-Forward Starting Covered Bond Swap will provide a hedge against certain interest rate, currency and/or other risks in respect of amounts received by the Issuer under the Loans and any relevant Interest Rate Swaps (if any) and amounts payable by the Issuer in respect of the Covered Bonds (**Non-Forward Starting Covered Bond Swap**).

Where required to hedge such risks, there will be one (or more) Covered Bond Swap Agreement(s) and Covered Bond Swap(s) in relation to each Series or Tranche, as applicable, of Covered Bonds.

Under the Forward Starting Covered Bond Swaps, the Covered Bond Swap Provider will pay to the Issuer on each Interest Payment Date, after the occurrence of an Issuer Event, an amount equal to the relevant portion of the amounts that are payable by the Issuer in respect of interest and principal payable under the relevant Series or Tranche of Covered Bonds. In return, the Issuer (or the Servicer on its behalf) will periodically pay to the Covered Bond Swap Provider an amount in Euro calculated by reference to Euro EURIBOR plus a spread and, where relevant, the Euro Equivalent of the relevant portion of any principal due to be repaid in respect of the relevant Series or Tranche of Covered Bonds.

Under the Non-Forward Starting Covered Bond Swaps on the relevant Issue Date, the Issuer (or the Servicer on its behalf) will, if the Covered Bonds are denominated in a currency other than Euro, pay to the Covered Bond Swap Provider an amount equal to the relevant portion of the amount received by the Issuer in respect of the aggregate nominal amount of such Series or Tranche, as applicable, of Covered Bonds and in return the Covered Bond Swap Provider will pay to the Issuer the Euro Equivalent of the first-mentioned amount. Thereafter, and where the Covered Bonds are denominated in Euro, the Covered Bond Swap Provider will pay to the Issuer on each Interest Payment Date an amount equal to the relevant portion of the amounts that are payable by the Issuer in respect of interest and principal payable under the relevant Series or Tranche of Covered Bonds. In return, the Issuer (or the Servicer on its behalf) will periodically pay to the Covered Bond Swap Provider an amount in Euros calculated by reference to EURIBOR plus a spread and, where

relevant, the Euro Equivalent of the relevant portion of any principal due to be repaid in respect of the relevant Series or Tranche of Covered Bonds.

Under the terms of each Forward Starting Covered Bond Swap and each Non-Forward Starting Covered Bond Swap, in the event that the relevant rating of the Covered Bond Swap Provider or any guarantor of the Covered Bond Swap Provider's obligations is downgraded by a Rating Agency below the rating specified in the relevant Covered Bond Swap Agreement (in accordance with the requirements of the Rating Agencies), the Covered Bond Swap Provider will, in accordance with the relevant Covered Bond Swap Agreement, be required to take certain remedial measures which may include providing collateral for its obligations under the Covered Bond Swap, arranging for its obligations under the Covered Bond Swap to be transferred to an entity with the ratings required by the relevant Rating Agency, procuring another entity with the ratings required by the relevant Rating Agency to become co-obligor or guarantor in respect of its obligations under the Covered Bond Swap Agreement (such guarantee to be provided in accordance with the then-current guarantee criteria of each of the Rating Agencies), or taking such other action as it may agree with the relevant Rating Agency. In addition, if the net exposure of the Issuer against the Covered Bond Swap Provider under the relevant Covered Bond Swap exceeds the threshold specified in the relevant Covered Bond Swap Agreement, the Covered Bond Swap Provider may be required to provide collateral for its obligations. A failure to take such steps within the time periods set out in the Covered Bond Swap Agreement will, subject to certain conditions, allow the Issuer to terminate the Covered Bond Swap.

A Covered Bond Swap Agreement may also be terminated in certain other circumstances, together with any other events of default and termination events set out in the relevant Covered Bond Swap Agreement (each referred to as a **Covered Bond Swap Early Termination Event**), which may include:

- (a) at the option of any party to the Covered Bond Swap Agreement, if there is a failure by the other party to make timely payments of any amounts due under such Covered Bond Swap Agreement; and
- (b) upon the occurrence of an insolvency of the Covered Bond Swap Provider or any guarantor of the Covered Bond Swap Provider's obligations, or the merger of the Covered Bond Swap Provider without an assumption of its obligations under the relevant Covered Bond Swap Agreement.

Upon the termination of a Covered Bond Swap, the Issuer or the Covered Bond Swap Provider may be liable to make a termination payment to the other in accordance with the provisions of the relevant Covered Bond Swap Agreement. The amount of this termination payment will be calculated and made in Euro. Any termination payment made by the Covered Bond Swap Provider to the Issuer in respect of a Covered Bond Swap will first be used (prior to the occurrence of an Issuer Event) to pay a replacement Covered Bond Swap Provider to enter into a replacement Covered Bond Swap with the Issuer, unless a replacement Covered Bond Swap has already been entered into on behalf of the Issuer. Any premium received by the Issuer from a replacement Covered Bond Swap Provider in respect of a replacement Covered Bond Swap will first be used to make any termination payment due and payable by the Issuer with respect to the previous Covered Bond Swap, unless such termination payment has already been made on behalf of the Issuer. Any tax credits received by the Issuer in respect of a Covered Bond Swap will first be used to reimburse the relevant Covered Bond Swap Provider for any gross-up in respect of any withholding or deduction for or on account of any present or future taxes. Duties, assessments or governmental charges of whatever nature (and wherever imposed) made under the relevant Covered Bond Swap.

Any tax credits or Swap Collateral Excluded Amounts will be paid to the Covered Bond Swap Provider directly and not via the Priorities of Payments.

If withholding or deduction for or on account of taxes is imposed on payments made by the Covered Bond Swap Provider to the Issuer under a Covered Bond Swap, the Covered Bond Swap Provider shall always be obliged to gross up those payments so that the amount received by the Issuer is equal to the amount which would have been received in the absence of such withholding or deduction. If withholding or deduction for

or on account of taxes is imposed on payments made by the Issuer to the Covered Bond Swap Provider under a Covered Bond Swap, the Issuer shall not be obliged to gross up those payments.

The Covered Bond Swap Provider may transfer all its interest and obligations in and under the relevant Covered Bond Swap Agreement to a transferee with minimum ratings in line with the criteria of each of the Rating Agencies, without any prior written consent of the Trustee, subject to certain conditions.

In the event that the Covered Bonds are redeemed and/or cancelled in accordance with the Conditions, the Covered Bond Swap(s) in connection with such Covered Bonds will terminate or partially terminate, as the case may be. Any breakage costs payable by or to the Issuer in connection with such termination will be taken into account in calculating:

- (a) the Adjusted Required Redemption Amount for the sale of Selected Loans; and
- (b) the purchase price to be paid for any Covered Bonds purchased by the Issuer in accordance with Condition 7.8 (*Purchases*).

Law and Jurisdiction

The Covered Bond Swap Agreement (and each Covered Bond Swap thereunder) and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Bank Account Agreement

Pursuant to the terms of the Bank Account Agreement to be entered into on the Programme Closing Date between the Account Bank, the Issuer, the Servicer and the Trustee, the Servicer will maintain with the Account Bank the Bank Accounts, which will be operated in accordance with the Servicing and Cash Management Deed and the Deed of Charge.

If the long-term or short-term issuer default ratings of the Account Bank cease to satisfy the requirements of an Eligible Institution (or such other ratings that may be agreed between the parties to the Bank Account Agreement and the relevant Rating Agency from time to time), then unless the Account Bank within 30 calendar days of such occurrence obtains an unconditional and unlimited guarantee (in a form acceptable to each of the Rating Agencies) of its obligations under the Bank Account Agreement from a financial institution satisfying the requirements of an Eligible Institution and provided that Fitch has been notified in writing of such guarantee and Moody's has provided confirmation in writing that the ratings on the Covered Bonds would not be adversely affected thereby, the Servicer or the Issuer shall:

- (i) immediately serve a written notice of termination of the Bank Account Agreement on the relevant Account Bank (such termination to be effective on the later of the date falling three Athens Business Days following service of such notice and the date on which the relevant replacement bank account(s) is established with an entity which is an Eligible Institution);
- (ii) open replacement accounts with a financial institution which is an Eligible Institution; and
- (iii) once the relevant replacement bank account has been established:
 - if an affected Bank Account is the Transaction Account, immediately transfer amounts standing to the credit of the Transaction Account to any replacement Transaction Account and close the affected Transaction Account;
 - if an affected Bank Account is a Swap Collateral Account, immediately transfer amounts standing to the credit of that Swap Collateral Account to any replacement Swap Collateral Account and close the affected Swap Collateral Account; and

- immediately transfer amounts standing to the credit of all other affected Bank Accounts (if any) to any replacement accounts and close all other effected Bank Accounts.

The costs arising from any remedial action taken by the Account Bank, following its ratings ceasing to satisfy the requirements of an Eligible Institution shall be borne by the Account Bank. For the avoidance of doubt, the Issuer will be responsible for any costs associated with the replacement of the Account Bank.

The Bank Account Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Issuer-ICSDs Agreement

The Issuer will enter into an Issuer-ICSDs Agreement with Euroclear Bank S.A./N.V. and Clearstream Banking SA (the **ICSDs**) in respect of any Covered Bonds issued in NGCB form. The Issuer-ICSDs Agreement provides that the ICSDs will, in respect of any such NGCBs, maintain their respective portion of the issue outstanding amount through their records.

The Issuer-ICSDs Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

TAXATION

Greece

The following summary describes certain Greek taxation consequences of the purchase, ownership and disposal of Covered Bonds, is of a general nature and is based on the provisions of tax laws currently in force in Greece. The summary below does not constitute a complete analysis of all the possible tax considerations that may be relevant to your decision to purchase, own or dispose of the Covered Bonds and it is not intended as tax advice to any particular investor. Furthermore, it does not touch upon procedural requirements such as the filing of a tax declaration or of supporting documentation that may be required. Potential investors should consult their own tax advisers as to the tax consequences of such purchase, ownership and disposal of Covered Bonds. This summary is based on current Greek tax legislation and administrative practice of the Greek tax authorities without taking into account any developments or amendments thereof after the date hereof whether or not such developments or amendments have retroactive effect.

Individuals are assumed not to be acting in the course of business for tax purposes. “Greek tax residents” includes, as regards legal entities, the permanent establishment in Greece of a foreign law entity, where the Covered Bonds are held through that permanent establishment.

Non-Greek tax residents may have to submit a declaration of non-residence or produce documentation evidencing non-residence in order to claim any exemption under applicable tax laws of Greece or will have to submit a tax declaration where income subject to tax in Greece is generated.

Tax considerations are subject to the more favourable provisions of any applicable Treaty for the avoidance of double taxation (DTT).

Income Tax

The Greek income taxation framework is regulated by Greek law 4172/2013, as amended from time to time and in force.

Interest payments to the Covered Bondholders who are individuals or legal entities residing or having a permanent establishment in Greece for Greek tax law purposes (the **Greek Tax Residents**), made by the Issuer or a paying agent residing or having a permanent establishment in Greece for Greek tax law purposes, will be subject to Greek withholding tax at a flat rate of 15 per cent.. The relevant paying agent is liable to make the relevant withholding. This withholding exhausts the tax liability of Greek Tax Residents who are individuals (par.3 of article 64 of Greek law 4172/2013), while it may not for other types of Covered Bondholders.

Pursuant to par. 9 of article 69 of Greek law 3746/2009 interest payments made on Covered Bonds: (i) have the same tax treatment as interest payments made on bonds issued by the Hellenic Republic; and (ii) are, in any case, exempted from Greek income tax when made to foreign tax residents. Accordingly, it could be argued that interest payments to Covered Bondholders who are individuals and legal entities who neither reside nor have a permanent establishment in Greece for Greek tax law purposes (the **Foreign Tax Residents**) are exempt from any withholding, on the grounds of par. 9 article 69 of Greek law 3746/2009, in conjunction with par. 9 of article 64 of Greek law 4172/2013. In such case, exemption from withholding would be subject to submission of relevant documentation (i.e. certificate of the competent authorities certifying the Foreign Tax Resident’s registered office or articles of association).

However, it is doubtful whether the above provision of par. 9 of article 69 of Greek law 3746/2009 remains in force following enactment of the aforementioned Greek income tax code. In particular, though the provision of par. 9 of article 69 of Greek law 3746/2009 is, indeed, specific to Covered Bonds, it should be noted that relevant Interpretative Circular No. 1042/2015 issued with respect to income tax over (amongst

other) interest payments (including withholding tax) makes no reference to either par. 9 of article 69 of Greek law 3746/2009 or Covered Bonds, while it is explicitly clarified therein that the exemption from withholding tax provided for in par. 9 of article 64 of Greek law 4172/2013 does not apply to interest income arising from corporate bonds (paragraph 11).

Therefore, it may be the case that the interest income realised by Covered Bondholders who are Foreign Tax Residents will be considered by the tax authorities as falling under the scope of Greek law 4172/2013, thus being subject to withholding tax. If this were the case, the following would apply:

Interest payments to the Covered Bondholders who are Foreign Tax Residents, made by the Issuer or a paying agent residing or having a permanent establishment in Greece for Greek tax law purposes, will be subject to Greek withholding tax at a flat rate of 15 per cent. The relevant paying agent is liable to make the relevant withholding. This withholding exhausts relevant income tax liability (par.3 of article 64 of Greek law 4172/2013) of both individuals and legal entities Foreign Tax Residents, subject to submission of relevant documentation as mentioned above.

This withholding tax is, however, subject to the provisions of any applicable tax treaty for the avoidance of double taxation of income and the prevention of tax evasion entered into between the Hellenic Republic and the relevant foreign jurisdiction.

Capital gains realized from the transfer of Covered Bonds

Pursuant to article 14 of Greek law 3156/2003, which is applicable to Covered Bonds by virtue of article 152 of Greek law 4261/2014, in conjunction with Circular of the Minister of Finance no. 1032/26.01.2015, capital gains realized by holders of Covered Bonds from the transfer of Covered Bonds are exempted from taxation in Greece. If the capital gains' beneficiaries are Greek legal persons or legal entities, or foreign legal persons or legal entities which have a permanent establishment in Greece to which the capital gains are attributable, no exemption is granted but the corporate taxation is under conditions deferred up to their distribution to the shareholders or capitalization.

Solidarity Levy

Covered Bondholders who are individuals are subject to a tax called "Solidarity Levy" as regards any interest paid under the Covered Bonds and any capital gains realised from the transfer thereof. Such levy is imposed on the overall annual income in Greece, both taxable and tax exempt, at a progressive tax scale starting from 2.2 per cent., with a tax -free bracket of EUR €12,000 and a top marginal rate of 10 per cent.

The solidarity levy qualifies as income tax falling within the ambit of a DTT (Circular no. E2009/2019) therefore, individual holders that are non-Greek tax residents and benefit from the provisions of a DTT could be fully or partially exempted from solidarity contribution, insofar as the DTT or prohibits the taxation of interest and provided that appropriate documentation to this effect is filed with the tax authority.

Value Added Tax

No value added tax is payable upon disposal of the Covered Bonds (pursuant to Article 22(1)(ka) of Greek law 2859/2000).

Death Duties and Taxation on Gifts

The Covered Bonds are subject to Greek inheritance tax if the deceased holder of Covered Bonds had been a resident of Greece or Greek national.

The rates of inheritance tax vary from 0 per cent. to 40 per cent., depending on the relationship between the heir and the deceased.

A gift of Covered Bonds is subject to Greek tax if the holder of the Covered Bonds (donor) is a Greek national or if the recipient thereof is a Greek national or resident.

The rates of gift tax vary from 0 per cent. to 40 per cent. depending on the relationship between the donor and the recipient.

Stamp Duty

Pursuant to article 14 of Greek law 3156/2003, in conjunction with article 152 of Greek law 4261/2014, the issuance or transfer of Covered Bonds is exempt from Greek stamp duty.

Tax reporting by country for Multinational Groups

Greek law 4484/2017 adapts Greek legislation to Directive (EU) 2016/881 as regards mandatory automatic exchange of information in the field of taxation. The relevant provisions introduce clarifications regarding the compulsory automatic exchange of information, as well as administrative penalties and the competent enforcement bodies. Specifically, it is provided that the ultimate parent entity of a multinational enterprise having its tax residence in Greece or any other reporting entity, i.e. an entity with a tax residence in Greece that is not an ultimate parent entity of a group and fulfils specific conditions set out in the new provisions, shall submit a Report by Country for the relevant Reporting Year. This Report is submitted within twelve (12) months from the last day of the Group's Reporting Tax Year. The competent authorized body receiving the Country Report shall exchange automatically the Country Report with any Member State in which, based on the information provided by the Country Report, one or more constituent entities of the reporting group have their tax residence or are subject to taxation for business activities carried out through a permanent establishment.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, as amended, commonly known as **FATCA**, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Greece) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of FATCA provisions and IGAs to instruments such as Covered Bonds, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Covered Bonds, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Covered Bonds, such withholding would not apply to foreign passthru payments prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Covered Bonds characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal income tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional Covered Bonds (as described under "*Terms and Conditions of the Covered Bonds – Further Issues*") that are not distinguishable from previously issued Covered Bonds are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Covered Bonds, including the Covered Bonds offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Covered Bonds. In the event any withholding would be required

pursuant to FATCA or an IGA with respect to payments on the Covered Bonds, no person will be required to pay additional amounts as a result of withholding.

EU financial transaction tax

On 14 February 2013, the European Commission issued proposals, including a draft Directive (the **Commission's proposal**) for a financial transaction tax (**FTT**) to be adopted in certain participating EU member states (including Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia, although Estonia has since stated that it will not participate (the **participating member states**)). If the Commission's proposal was adopted, the FTT would be a tax primarily on "financial institutions" (which would include the Issuer) in relation to "financial transactions" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating member states. Generally, it would apply certain dealings in Covered Bonds where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, "established" in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

It should also be noted that the FTT could be payable in relation to relevant financial transactions by investors in respect of the Covered Bonds (including secondary market transactions) if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's proposal. Primary market transactions referred to in Article 5(c) of Regulation EC No 1287/2006 are expected to be exempt. There is however some uncertainty in relation to the intended scope of this exemption for certain money market instruments and structured issues.

However, the FTT proposal remains subject to negotiation between participating member states. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU member states may decide to participate.

The FTT proposal was regularly discussed at the Economic and Financial Affairs Council. Yet renewed discussions took place in May and June 2019, and on 14 June 2019, the Economic and Financial Affairs Council was informed of the state of play.

Prospective holders of the Covered Bonds are advised to seek their own professional advice in relation to the FTT.

Luxembourg Taxation

The following information is of a general nature only and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Covered Bonds should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

(a) Non-resident holders of Covered Bonds

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Covered Bonds, nor on accrued but unpaid interest in respect of the Covered Bonds, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Covered Bonds held by non-resident holders of Covered Bonds.

(b) Resident holders of Covered Bonds

Under Luxembourg general tax laws currently in force and subject to the law of 23rd December, 2005 (as amended) (the **Relibi Law**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Covered Bonds, nor on accrued but unpaid interest in respect of Covered Bonds, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Covered Bonds held by Luxembourg resident holders of Covered Bonds.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the paying agent. Accordingly, payments of interest under the Covered Bonds coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20 per cent.

SUBSCRIPTION AND SALE

Covered Bonds may be issued from time to time by the Issuer to any one or more of the Dealers. The arrangements under which Covered Bonds may from time to time be agreed to be issued by the Issuer to, and subscribed by, Dealers are set out in a Programme Agreement dated 20 May 2010 (such Programme Agreement as amended and/or supplemented and/or restated from time to time, the **Programme Agreement**) and made between the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Covered Bonds, the price at which such Covered Bonds will be subscribed by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription. The Programme Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Covered Bonds. The Programme Agreement will be supplemented on or around the date of each issuance by Subscription Agreement, which will set out, *inter alia*, the relevant underwriting commitments. The Issuer may pay the Dealers commissions from time to time in connection with the sale of any Covered Bonds. In the Programme Agreement, the Issuer has agreed to reimburse and indemnify the Dealers for certain of their expenses and liabilities in connection with the establishment and any future updates of the Programme and the issue of Covered Bonds under the Programme. The Dealers are entitled to be released and discharged from their obligations in relation to any agreement to purchase Covered Bonds under the Programme Agreement in certain circumstances prior to payment to the Issuer.

United States

The Covered Bonds have not been and will not be registered under the Securities Act and the Covered Bonds may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from, or in transactions not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Covered Bonds in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code of 1986 and U.S. Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether the C Rules or the D Rules apply or whether TEFRA is not applicable.

In connection with any Covered Bonds which are offered or sold outside the United States in reliance on Regulation S (**Regulation S Covered Bonds**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that, will not offer, sell or deliver such Regulation S Covered Bonds (i) as part of its distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Series of Covered Bonds of which such Covered Bonds are a part, as determined and certified by the relevant Dealer(s), in the case of a non-syndicated issue, or the lead manager, in the case of a syndicated issue, and except in either case in accordance with Regulation S under the Securities Act. Each Dealer has further agreed and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Regulation S Covered Bond during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Covered Bond within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Covered Bonds, an offer or sale of such Covered Bonds within the United States by any dealer (whether or not participating in the offering) may

violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Covered Bonds specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Covered Bonds which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the **Insurance Mediation Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the **Prospectus Directive**); and
- (b) the expression an **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Covered Bonds to be offered so as to enable an investor to decide to purchase or subscribe to the Covered Bonds.

If the Final Terms in respect of any Covered Bonds specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Covered Bonds which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Covered Bonds to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Covered Bonds referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a base prospectus pursuant to Article 3 of the Prospectus Directive or supplement a base prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision:

- (a) the expression an **offer of Covered Bonds to the public** in relation to any Covered Bonds in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Covered Bonds to be offered so as to enable an investor to decide to purchase or subscribe the Covered Bonds, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State; and
- (b) the expression **Prospectus Directive** means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in each Relevant Member State.

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 received by it in connection with the issue or sale of any Covered Bonds in circumstances in which Section 21(1) of the Financial Services and Markets Act 2000 does not apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 with respect to anything done by it in relation to any Covered Bonds in, from or otherwise involving the United Kingdom.

The Hellenic Republic

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has complied and will comply with (i) the Public Offer Selling Restrictions under the Prospectus Directive, described above in this section; and (ii) all applicable provisions of Greek law 3401/2005, implementing into Greek law the Prospectus Directive, as amended and in force.

Japan

The Covered Bonds have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Law No.25 of 1948, as amended; the FIEA) and each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Covered Bonds, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Law No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Republic of Italy

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that offering of the Covered Bonds has not been registered pursuant to Italian securities legislation and, accordingly, no Covered Bonds may be offered, sold or delivered, nor may copies of the Base Prospectus or of any other document relating to the Covered Bonds be distributed in the Republic of Italy, except:

- (i) to qualified investors (*investitori qualificati*), as defined in Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "Italian Financial Services Act") and Article 34-ter, first paragraph, letter (b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended from time to time (**Regulation No. 11971**); or
- (ii) in any other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Italian Financial Services Act and Article 34-ter of Regulation No. 11971.

Any offer, sale or delivery of the Covered Bonds or distribution of copies of the Base Prospectus or any other document relating to the Covered Bonds in the Republic of Italy under paragraph (i) or (ii) above must be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Italian Financial Services Act, CONSOB Regulation No. 20307 of 15 February 2018 (as amended from time to time) and Legislative Decree No. 385 of 1 September 1993, as amended (the **Banking Act**); and
- (b) in compliance with any other applicable laws and regulations or requirement imposed by Commissione Nazionale per le Società e la Borsa (**CONSOB**), the Bank of Italy (including the reporting requirements, where applicable, pursuant to Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy (as amended from time to time) and/or any other Italian authority); or
- (c) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or other Italian authority.

Republic of France

The Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only offered and will only make an offer of Covered Bonds to the public in the Republic of France in the period beginning on the date of publication of the Final Terms relating to these Covered Bonds and ending at the latest on the date which is 12 months after the date of the visa of the Autorité des marchés financiers (AMF) Base Prospectus, all in accordance with Articles L.412-1 and L.621-8 of the French Code monétaire et financier and the Règlement général of the AMF; or
- (b) it has not offered or sold and will not offer or sell, directly or indirectly, Covered Bonds to the public in France, and has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, the Base Prospectus, the relevant Final Terms or any other offering material relating to the Covered Bonds, and that such offers, sales and distributions have been and will be made in France only to (a) providers of investment services relating to portfolio management for the account of third parties, and/or (b) qualified investors (*investisseurs qualifiés*), other than individuals, all as defined in, and in accordance with, Articles L.411-1, L.411-2, D.411-1 and D.411-3 of the French Code monétaire et financier.

The Grand Duchy of Luxembourg

In addition to the cases described in the European Economic Area selling restrictions in which the Dealers can make an offer of Covered Bonds to the public in an EEA Member State (including the Grand Duchy of Luxembourg), the Dealers can also make an offer of Covered Bonds to the public in the Grand Duchy of Luxembourg:

- (a) at any time, to national and regional governments, central banks, international and supranational institutions (such as the International Monetary Fund, the European Central Bank, the European Investment Bank) and other similar international organisations;
- (b) at any time, to legal entities which are authorised or regulated to operate in the financial markets (including, credit institutions, investment firms, other authorised or regulated financial institutions, undertakings for collective investment and their management companies, pension and investment funds and their management companies, insurance undertakings and commodity dealers) as well as entities not so authorised or regulated whose corporate purpose is solely to invest in securities; and
- (c) at any time, to certain natural persons or small and medium-sized enterprises (as defined in the Luxembourg act dated 10 July, 2005 on prospectuses for securities implementing the Directive 2003/71/EC (as amended by Directive 2010/73/EU, the **Prospectus Directive**) into Luxembourg law) recorded in the register of natural persons or small and medium-sized enterprises considered as qualified investors as held by the *Commission de surveillance du secteur financier* as competent authority in Luxembourg in accordance with the Prospectus Directive.

General

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will, comply with (in the best of its knowledge and belief) all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Covered Bonds or possesses or distributes this Base Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Covered Bonds under the laws and regulations or directives in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer, the Trustee nor any of the other Dealers shall have any responsibility therefor.

None of the Issuer, the Trustee and the Dealers represents that Covered Bonds may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

GENERAL INFORMATION

Approval, listing and admission to trading

Application has been made to the CSSF to approve this document as a base prospectus. Application has also been made to the Luxembourg Stock Exchange for the Covered Bonds issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2014/65/EU).

However, Covered Bonds may be issued pursuant to the Programme which will not be listed on the Luxembourg Stock Exchange or any other stock exchange or which will be listed on such stock exchange as the Issuer and the relevant Dealer(s) may agree.

Authorisations

The establishment, implementation and operation of the Programme and the issue of Covered Bonds have been duly confirmed and authorised by resolutions of the Board of Directors of the Issuer dated 16 March 2010, 25 June 2015, 26 October 2017 and 31 January 2019.

Post-issuance information

The Issuer provides quarterly Investor Reports detailing, among other things, compliance with the Statutory Tests. This information will be available on the Issuer's website www.alphabank.gr.

Litigation

Save for as disclosed in the risk factor entitled "Litigation Risk" on page 19 of this Prospectus, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware), during the twelve months preceding the date of this Base Prospectus which may have, or have had in such period, significant effects on the Issuer's or the Group's financial position or profitability.

No significant or material change

Since 31 December 2018 (the last day of the financial period in respect of which the most recent audited financial statements of the Issuer have been prepared), there has been no material adverse change in the prospects of the Issuer or the Group. Since 31 March 2019 there has been no significant change in the financial or trading position of the Issuer or the Group.

Documents available for inspection

For the period of 12 months following the date of this Base Prospectus, copies of the following documents will, when published, be available for inspection from the registered office of the Issuer and from the specified offices of the Paying Agents or the Luxembourg Listing Agent:

- (a) the constitutional documents (with an English translation thereof) of the Issuer;
- (b) the audited consolidated and non-consolidated financial statements of the Issuer in respect of the financial years ended 31 December 2017 and 31 December 2018 (with an English translation thereof), in each case together with the audit reports prepared in connection therewith;
- (c) the Q1 consolidated financial report (produced in accordance with Law 3556/2007) for the period from 1 January to 31 March 2019 for the Issuer;

- (d) the Programme Agreement, the Trust Deed, the Agency Agreement, and the forms of the Global Covered Bonds, the Covered Bonds in definitive form, the Coupons and the Talons;
- (e) a copy of this Base Prospectus; and
- (f) any future offering circulars, prospectuses, information memoranda, supplements and Final Terms (save that a Final Terms relating to a Covered Bond which is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive will only be available for inspection by a holder of such Covered Bond and such holder must produce evidence satisfactory to the Issuer and the Principal Paying Agent as to its holding of Covered Bonds and identity) to this Base Prospectus and any other documents incorporated herein or therein by reference.

In addition, copies of this Base Prospectus, any supplement to the Base Prospectus, any documents incorporated by reference and each Final Terms relating to Covered Bonds which are admitted to trading on the official list of the Luxembourg Stock Exchange will also be available for inspection free of charge from the internet site of the Luxembourg Stock Exchange, at www.bourse.lu.

Clearing Systems

The Covered Bonds have been accepted for clearance through Euroclear and Clearstream, Luxembourg (which are the entities in charge of keeping the records). The appropriate Common Code and ISIN for each Series of Covered Bonds allocated by Euroclear and Clearstream, Luxembourg will be specified in the applicable Final Terms. If the Covered Bonds are to clear through an additional or alternative clearing system the appropriate information will be specified in the applicable Final Terms.

The address of Euroclear is Euroclear Bank S.A./N.V., 1 Boulevard du Roi Albert II, B-1210 Brussels and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

Conditions for determining price

The price and amount of Covered Bonds to be issued under the Programme will be determined by the Issuer and each relevant Dealer at the time of issue in accordance with prevailing market conditions.

Yield

In relation to any Tranche of Fixed Rate Covered Bonds, an indication of the yield in respect of such Covered Bonds will be specified in the applicable Final Terms. The yield is calculated at the Issue Date of the Covered Bonds on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Covered Bonds and will not be an indication of future yield.

Independent Auditors

The statutory auditors of the Issuer are Deloitte Certified Public Accountants S.A. 3a Fragkoklissias & Granikou str., Maroussi, Attika, 15125 Athens, Greece (**Deloitte**). Deloitte were appointed for the first time on 1 July 2017. Deloitte is a member of the Institute of Certified Public Accountants of Greece.

The consolidated and non-consolidated financial statements of the Issuer for the financial years ended 31 December 2018 and 31 December 2017 (incorporated by reference in this Base Prospectus) have been prepared in accordance with IFRS as adopted by the European Union and have been audited without qualification by Deloitte Certified Public Accountants S.A. Deloitte Certified Public Accountants S.A. has no material interest in the Issuer.

The reference to “Alpha Bank S.A.” in the auditor’s report on pages 55 to 61 of the Issuer’s 2018 Report and on pages 43 to 49 of the Issuer’s 2017 Report should be read as “Alpha Bank A.E.” which is the correct legal name of the Issuer.
