

ALPHA BANK

# Press Release

## **Alpha Bank donates medical supplies and equipment to remote Greek islands**

In line with its Corporate Social Responsibility policy, Alpha Bank expands its long tradition of social contribution work with a new programme, which involves the donation of medical supplies and equipment to remote Greek islands and, in particular, to the islands of Kasos, Leipsoi, Nisyros and Tilos, where the Bank recently opened Branches.

The goal of the programme, which has been carried out in collaboration with the Non-Governmental Organisation (NGO) "AGONI GRAMMI GONIMI", is to contribute to the efforts to improve the quality of the health services provided to local residents, by enhancing the infrastructure of the Medical Stations operating on these islands.

The medical supplies and equipment were delivered to medical stations on the islands of Tilos (30.5.2014), Nisyros (3.6.2014), Leipsoi (5.6.2014) and Kasos (1.7.2014), in the presence of Bank executives and representatives of the Local Authorities and the "AGONI GRAMMI GONIMI" NGO.

In addition, Alpha Bank also shipped school books to the islands' Nursery Schools, to help them expand their libraries.
