

“The defacements that hurt”

Under its programme “**The defacements that hurt**”, on Tuesday, February 9, 2016, Alpha Bank donated to the Municipality of Thessaloniki a graffiti removal and surface restoration machine, together with the supplies required for its operation, in a gesture aimed at supporting the Municipality’s efforts to ensure that the historic monuments which are representative of the image and identity of the city of Thessaloniki are kept in the best possible condition.
