

Common Reporting Standard – “CRS”

CRS (Common Reporting Standard) was developed by the Organisation for Economic Co-operation and Development (OECD) and G20 – Group of Twenty and endorsed by the Greek Parliament under Law 4428/2016.

Its purpose is to address tax evasion as well as to improve international tax compliance.

Alpha Bank S.A. issues Policies and Procedures regarding the obligation to identify, certify and inform persons nominated as CRS persons, and reporting financial information to the Greek Tax Authority.
