Athens, July 30, 2020

Online registration for Businesses to the e-Banking of Alpha Bank

Alpha Bank's **Business Customers** can now **sign up online to the Bank's e-Banking** with maximum speed, convenience and security.

The new service by Alpha Bank, **innovatory** for the Greek market, provides Business Customers with **direct access to the Bank's digital platform** without the need for the company's legal representative to visit a Branch.

The online registration process is completed in **three simple steps** (identification – confirmation of data – creation of Username and Password) and immediately after, the Customer can start using e-Banking for Business, for wide spectrum of transactions, such as payoff of bills, cards and loans or payments suppliers and employees' payroll.

*"At Alpha Bank, we **consistently invest in the digital technology**, by constantly **improving Customer experience** and further **expanding** our digital banking portfolio. The new Web-Onboarding for Businesses enriches our e-Banking functionalities for transactions and becomes one more **innovative service** offered by the Bank, such as the feature for online legalization of documents, the online disbursement application for revolving credit limits and the access to POS e-statements",* said the Manager of the Digital Networks Division, **Sotiris Kyriakos**.

The online sing-up to Alpha Bank's e-Banking is provided to **all sole proprietorships** as well as to **businesses with one legal representative**, given that they are already **Customers** of the Bank, i.e. they own a business deposit account at Alpha Bank having submitted valid legal documents of their company, are registered users of Alpha e-Banking as Individuals or have an active debit or credit card issued by Alpha Bank.

More information is available on [Alpha Bank's website](#).
