Alpha Bank: upgrades visitors’ experience at the Banknote Museum in Corfu with the interactive exhibit COIN-O-RAMA

Alpha Bank offers an upgraded touring experience at the Banknote Museum in Corfu, with **Coin-o-rama**, the new interactive exhibit created by the Bank’s **Numismatic Collection** in collaboration with the **Institute of Informatics of the Institute of Technology and Research** for the display of digital exhibitions.

The digital exhibition presented through **Coin-o-rama** includes a **panorama** of **coins** (Phoenix, Drachma, Euro) of the modern Greek State, from 1828 to nowadays.

The visitor of the Museum can learn the **whole numismatic history of modern Greece**. In the Museum’s permanent exhibition of the 1st floor he will see all the Greek banknotes, while through the **Coin-o-rama** which is installed at the 2nd floor, he can see the coins in enlarged images, read a brief history and find detailed information for each one of them. He can also "make his own coin", in fact a coin photo with his own portrait, as a souvenir of his visit to the Museum.

**All coins presented in the permanent exhibition and through Coin-o-rama, belong to the Alpha Bank Numismatic Collection.**
