**General Notes on Deposits**

1. Total Annual Net Return: the marked Total Annual Net Return is calculated on the basis of the nominal rate after the deduction of taxes (currently 15%), provided that the amount and the interest rate of the account remain the same for one year and that the interest resulting from the intermediate interest compoundings is not withdrawn.
2. The interest rate of each tier is applied to the entire balance of the account and calculated on the daily available balance.
3. The interest is calculated on the amount that corresponds to each scale with the applicable rate. Interest is calculated based on the daily available balance.
4. Respective interest rates are applied to accounts "Flexible Contractual Entrepreneurship Programs" and "Agro-Carta".
5. Interest rates valid from 1.7.2023.
