General Notes on Deposits

- Total Annual Net Return: the marked Total Annual Net Return is calculated on the basis of the nominal rate after the deduction of taxes (currently 15%), provided that the amount and the interest rate of the account remain the same for one year and that the interest resulting from the intermediate interest compoundings is not withdrawn.
- The interest rate of each tier is applied to the entire balance of the account and calculated on the daily available balance.
- The interest is calculated on the amount that corresponds to each scale with the applicable rate. Interest is calculated based on the daily available balance.
- Respective interest rates are applied to accounts "Flexible Contractual Entrepreneurship Programs" and "Agro-Carta".
